Vedanta Limited Statement

Unfortunate incidents at Aluminum and Power operations

Over the past few days, Vedanta Ltd has experienced two unfortunate incidents at two of our operational sites. There were no injuries in either incident. The 500 KT smelter at our Jharsuguda plant met with an unfortunate pot outage, with 228 out of 608 pots were impacted and taken out of service. The timelines for resumption will be announced post assessment of the extent of damage. Separately, our 1980 megawatt power project in Punjab has been shut down after noticing a spark in the coal handling unit. The plant had achieved full ramp up during FY 2017, and had record availability of 85% in Q4 FY 2017. The operational teams at the respective locations are working towards rectification, and safe and expeditious restart of the affected facilities.

About Vedanta Limited (formerly Sesa Sterlite Limited)

Vedanta Limited is a diversified natural resources company, whose business primarily involves producing oil & gas, zinc - lead - silver, copper, iron ore, aluminium and commercial power. The company has a presence across India, South Africa, Namibia, Australia and Ireland.

Disclaimer

This press release contains "forward-looking statements" – that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements
