Russia awards Sesa Sterlite for Best Energy Efficiency Projects realized abroad

Jharsuguda, India, December 1, 2014: Sesa Sterlite Limited, Jharsuguda participated in the 3rd International Forum for “Energy Efficiency and Energy Savings ENES” held on November 20-22 in Moscow organized by Russian Government and was awarded top honour as “Best Energy Efficiency Projects realized abroad”. The company had submitted papers on four new innovative projects carried out in-house for energy efficiency improvement which were selected as best energy efficiency projects realized by experts from Russian Ministry of Energy.

On behalf of the company Mr. Dayanidhi Behera and Bijneswar Mohanty received this prestigious award. Ministry of Energy Government of Russia has conferred this much coveted award to SSL, Jharsuguda in the BRICS Experts Consultation on Energy Efficiency held during the ENES summit. This is the first such prestigious award received by SSL in international forum.

About Vedanta

Vedanta is a diversified natural resources company, whose business primarily involves exploring and processing minerals and oil & gas. The company produces oil & gas, zinc, lead, silver, copper, iron ore, aluminium and commercial power and has a presence across India, South Africa, Namibia, Ireland, Australia, Liberia and Sri Lanka.

Sesa Sterlite Limited (SSLT) formerly known as Sesa Goa Limited, is the Indian subsidiary of Vedanta Resources Plc, a London-listed company. Sustainability is at the core of SSLT’s strategy, with a strong focus on health, safety and environment and on enhancing the lives of local communities.

SSLT is listed on the Bombay Stock Exchange and the National Stock Exchange in India and has ADRs listed on the New York Stock Exchange.

Disclaimer

This press release contains “forward-looking statements” – that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “should” or “will.” Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
