

EPC Partner for our Aluminium Powder Project

EXPRESSION OF INTEREST

 **Jharsuguda, Odisha**

Runaya a Vedanta start up manufacturing company leverages sustainable solutions and best-in class manufacturing technologies. We are operating & executing a portfolio of projects in alliances with global majors.

We invite Expressions of Interest (EOI) from experienced EPC partners for a 7000 TPA (tons per annum) project for making gas atomised aluminium powder. These are high technology products with application in space, solar and high-end pigments. This project is in collaboration with a global leader. The process includes atomisers, classification system and dust extraction units. While the process plant will come from technology partner, the rest of the plant & facilities including civil, electrical, mechanical and infrastructure will be part of the EPC scope.
