

## Expression of Interest (EOI)

### Business Partner for Operations & Maintenance Services

Vedanta Limited, the world's leading Oil & Gas and Metals company is in the process of redesigning its Operations & Maintenance activities. The objective of this exercise is to enable business partners to take up Operation and Maintenance Services (including Mining Services) at its operational units. The project is in line with the Vedanta's vision of Business Partner Transformation.

We are inviting parties interested in taking up Part or full length Operations & Maintenance of all the world class assets set up by Vedanta at different business locations. Interested partners, with relevant expertise & proven capability in assets optimization, digitization & HSE compliance can submit their Expression of Interest.

Participation is welcomed from First timers, New age startups and other sustaining service providers, for sole ownership or Joint Business Relationship with other established titles.
