

INDEPENDENT AUDITOR'S REPORT

To the Members of SESA Resources Limited

Report on the Audit of the Ind AS Financial Statements**Opinion**

We have audited the accompanying Ind AS financial statements of SESA Resources Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Material Uncertainty Related to Going Concern

We draw attention to Note 2(b) in the Ind AS financial statements which, indicate that the Company has accumulated losses and its net worth has been substantially eroded, the Company has incurred a net cash loss during the current and previous year(s) and, the Company's current liabilities exceeded its current assets as at the balance sheet date. These conditions, along with other matters set forth in Note 2(b), indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Our opinion is not qualified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Board of Directors report but does not include the Ind AS financial statements and our auditor's report thereon.

Sesa Resources Limited
Audit Report for the year ended March 31, 2019

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks,

Sesa Resources Limited
Audit Report for the year ended March 31, 2019

and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

Sesa Resources Limited**Audit Report for the year ended March 31, 2019**

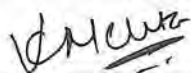

Page 4 of 9

- (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) The going concern matter described in Material Uncertainty Related to Going Concern paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.
- (f) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
- (g) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (h) The provisions of section 197 read with Schedule V of the Act are not applicable to the Company for the year ended March 31, 2019;
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements - Refer Note 33 to the Ind AS financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Sesa Resources Limited Audit Report for the year ended March 31, 2019

Annexure 1 referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date

- i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) All fixed assets were physically verified by the management in the current year in accordance with a planned programme of verifying them once in three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
- ii. The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- iii. (a) The Company has granted loan to one company covered in the register maintained under section 189 of the Companies Act, 2013. In our opinion and according to the information and explanations given to us, the terms and conditions of the grant of such loans are not prejudicial to the company's interest.

(b) The Company has granted loans that are re-payable on demand, to a firm covered in the register maintained under section 189 of the Companies Act, 2013. We are informed that the company has not demanded repayment of any such loan during the year, and thus, there has been no default on the part of the parties to whom the money has been lent. The payment of interest has been regular.

(c) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013 which are overdue for more than ninety days.
- iv. In our opinion and according to the information and explanations given to us, provisions of section 185 and 186 of the Companies Act 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the company.
- v. The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- vi. We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the extraction of metallic Ores, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

Sesa Resources Limited
Audit Report for the year ended March 31, 2019

vii.(a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of custom, goods and service tax, cess and other statutory dues applicable to it.

(b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, duty of custom, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(c) According to the records of the Company, the dues of income-tax, duty of custom and cess on account of any dispute, are as follows:

Name of the statute	Nature of the dues	Amount (Rs.in Crores)	Period to which the amount relates	Forum where the dispute is pending
Income tax Act, 1961	Income Tax	19.99	AY 2009-10 to 2013-14	High Court of Mumbai at Goa
		4.68	AY 2009-10 to 2013-14	Commissioner of Income Tax (Appeals)- Panaji
Finance Act, 1994	Service Tax	3.40	Financial Year to 2016-17 to 2017-18	High Court of Mumbai

viii. The Company did not have any outstanding loans or borrowing dues in respect of a financial institution or bank or to government or dues to debenture holders during the year.

ix. According to the information and explanations given by the management, the Company has not raised any money way of initial public offer / further public offer / debt instruments) and term loans hence, reporting under clause (ix) is not applicable to the Company and hence not commented upon.

x. Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the company or no fraud / material fraud on the company by the officers and employees of the Company has been noticed or reported during the year.

xi. According to the information and explanations given by the management, the provisions of section 197 read with Schedule V of the Act are not applicable to the company and hence reporting under clause 3(xi) are not applicable and hence not commented upon.

xii. In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.

xiii. According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.

Sesa Resources Limited
Audit Report for the year ended March 31, 2019

- xiv. According to the information and explanations given to us and on an overall examination of the balance sheet, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the company and, not commented upon.
- xv. According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.
- xvi. According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

Sesa Resources Limited
Audit Report for the year ended March 31, 2019

**ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE
STANDALONE FINANCIAL STATEMENTS OF SESA RESOURCES LIMITED**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the
Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of SESA Resources Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

Sesa Resources Limited
Audit Report for the year ended March 31, 2019

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. COMPANY OVERVIEW

Sesa Mining Corporation Limited ("the Company") is a public limited company domiciled in India and has its registered office at Sesa Ghor, 20 Edc Complex, Patto, Panaji (GOA) - 403 001. The Company is engaged in the business of mining and export of iron ore. The Company's mining operations are all situated in Goa.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

a) Basis of preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind-AS) as notified by Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 and as amended from time to time.

The financial statements were approved for issue by the Board of Directors on April 18, 2019.

b) Basis of measurement

Hon. Supreme Court's vide order dated February 7, 2018 has directed all lease holders operating under a second renewal to stop all mining operations with effect from 16 March 2018 until fresh mining leases (not fresh renewals or other renewals) and fresh environmental clearances are granted in accordance with the provisions of the MMDR Act.

Consequent to the aforesaid judgment mining operations of the Company, have stopped from 16 March 2018. The Company is exploring various options available at this point of time to restart mining operations at the earliest.

The Company has incurred losses during the current year. Further, Vedanta Limited, the parent Company has through letter of support, agreed to continue to provide financial support to the Company for its continued operations atleast for next twelve months, if the Company is unable to meet its funding requirements.

The Company is therefore being viewed as a going concern and financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial instruments and defined benefit plans which have been measured at fair value as required by relevant Ind AS.

3. SIGNIFICANT ACCOUNTING POLICIES

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

a) Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle.
- it is held primarily for the purpose of being traded;
- it is expected to be realized within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
 - it is held primarily for the purpose of being traded;
 - it is due to be settled within 12 months after the reporting date; or
 - the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.
- Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

b) Revenue Recognition

The Company has adopted Ind AS 115 Revenue from contracts with Customers with effect from April 1, 2018 which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The standard replaces most of the current revenue recognition guidance. The core principle of the new standard is for companies to recognize revenue when the control of the goods and services is transferred to the customer as against the transfer of risk and rewards. As per the Company's current revenue recognition practices, transfer of control happens at the same point as transfer of risk and rewards thus not effecting the revenue recognition. The amount of revenue recognised reflects the consideration to which the company expects to be entitled in exchange for those goods or services.

Sesa Mining Corporation Limited
Notes to Financial Statement for the year ended March 31, 2019

Under this standard, services provided post transfer of control of goods are treated as separate performance obligation and requires proportionate revenue to be deferred along with associated costs and to be recognized over the period of service. The Company provides shipping and insurances services after the date of transfer of control of goods and therefore has identified it as a separate performance obligation. As per the result of evaluation of contracts of the relevant revenue streams, it is concluded that the impact of this change is immaterial to the Company and hence no accounting changes have been done.

The Company has adopted the modified transitional approach as permitted by the standard under which the comparative financial information is not restated. The accounting changes required by the standard are not having material effect on the Company financial statements and no transitional adjustment is recognised in retained earnings at April 1, 2018.

Prior period accounting policy: Revenue recognition

Revenues are measured at the fair value of the consideration received or receivable, net of discounts, volume rebates, outgoing sales taxes/ goods & service tax and other indirect taxes excluding excise duty.

Revenues from sales of goods are recognised when all significant risks and rewards of ownership of the goods sold are transferred to the customer which usually is on delivery of the goods to the shipping agent. Revenues from sale of by-products are included in revenue.

Revenue from rendering of services is recognised when the services are rendered and related costs are incurred.

Dividend income is recognised when the right to receive payment is established.

Interest income is recognised using the effective interest rate method.

c) Property, Plant and Equipment

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use, including any expected cost of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are normally charged to the statements of profit or loss in the period in which the costs are incurred. Major shut-down and overhaul expenditure is capitalised as the activities undertaken improve the economic benefits expected to arise from the asset.

The stripping cost incurred during the production phase of a surface mine is deferred to the extent the current period stripping cost exceeds the average period stripping cost over the life of mine and recognised as an asset if such cost provides a benefit in terms of improved access to ore in future periods and certain criteria are met. Deferred stripping costs are included in mining properties within property, plant and equipment and disclosed as a part of mining properties. After initial recognition, the stripping activity asset is depreciated on a unit of production method over the expected useful life of the identified component of the ore body.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/ other expenses in profit or loss.

d) Capital work in progress

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalised until the period of commissioning has been completed and the asset is ready for its intended use.

e) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life. Software is amortised using the straight-line method over the estimated useful life of software license. Amounts paid for securing mining rights are amortised over the period of the mining lease. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is different from previous estimates, the change is accounted for as a change in accounting estimate.

f) Depreciation and Amortisation

Freehold land are not depreciated.

Other Property, Plant & Equipments

Other buildings, plant and equipment, office equipment and fixtures, and motor vehicles are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use.

Depreciation is provided at rates calculated to write off the cost, less estimated residual value, of each asset on a straight line basis over its expected useful life, as follows -

Buildings	- 30 - 60 years
River Fleet	- 28 years
Plant & Equipment	- 3-25 years
Furniture & Fixtures	- 10 years
Vehicles	- 8 years
Office Equipment	- 3-5 years
Roads	- 5-10 years
Bunders	- 30 years

Mine Closure Asset is being depreciated on a unit of production basis, which is the ratio of extraction in the period to the estimated quantities of proved and probable reserves at the end of the period plus the extraction in the period.

Stamp duties and other statutory levies for renewal of owned mining leases are amortised over the operating period of lease.

Major inspection and overhaul costs are depreciated over the estimated life of the economic benefit derived from such costs. The carrying amount of the remaining previous overhaul cost is charged to the statements of profit or loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Intangible Assets

Amortisation is provided using the following useful life -

Software - 3 years

Mining Rights - Based on lease Year

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and changes in estimates, if any, are accounted for prospectively.

g) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

- financial assets include cash and cash equivalents, trade receivables, employee advances, investments in equity and debt securities;
- financial liabilities include long-term and short-term loans and borrowings and trade payables.

Financial Assets - Recognition

Initially, a financial instrument is recognized at its fair value. Transaction costs directly attributable to the acquisition or issue of financial instruments are recognized in determining the carrying amount, if it is not classified as at fair value through profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

For purposes of subsequent measurement, financial assets are classified as:

i) Financial assets at amortised cost:

A financial asset is classified as "financial asset at amortised cost" (amortised cost) under IND AS 109 Financial Instruments if it meets both the following criteria:

- (1) The asset is held within a business model whose objective is to hold the financial asset in order to collect contractual cash flows, and
- (2) The contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified date (the 'SPPI' contractual cash flow characteristics test).

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

ii) Financial assets at fair value through other comprehensive income (FVTOCI):

All equity investment in scope of IND AS 109 Financial Instruments are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which IND AS 103 Business Combinations applies are classified as fair value through profit or loss. For all other equity instruments, the Company may make irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-to-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument through fair value through other comprehensive income (FVTOCI), then all fair value changes in the instruments excluding dividends, are recognised in OCI and is never recycled to statement of profit and loss, even on sale of the instrument.

Financial Assets - Derecognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

Financial liabilities – Recognition & Measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The measurement of financial liabilities depends on their classification, as described below:

i) Financial liabilities measured at amortized cost

After initial recognition, financial liabilities are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. Gains or losses on liabilities held for trading are recognized in statement of profit and loss.

Financial liabilities - Derecognition

Financial liabilities are derecognized when these are extinguished, that is when the obligation is discharged, cancelled or has expired.

Offsetting of financial instruments

Financial assets and financial liabilities are offset with the net amount reported in the balance sheet only if there is a current enforceable legal right to offset the recognised amounts and intent to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

h) Impairment of Non-financial assets

Impairment charges and reversals are assessed at the level of cash-generating units. A cash-generating unit (CGU) is the smallest identifiable group of assets that generate cash inflows that are largely independent of the cash inflows from other assets or group of assets.

Impairment tests are carried out annually for all assets when there is an indication of impairment. The company conducts an internal review of asset values annually, which is used as a source of information to assess for any indications of impairment or reversal of previously recognised impairment losses. External factors, such as changes in expected future prices, costs and other market factors are also monitored to assess for indications of impairment or reversal of previously recognised impairment losses.

If any such indication exists then an impairment review is undertaken, the recoverable amount is calculated, as the higher of fair value less costs of disposal and the asset's value in use.

Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the entity and not applicable to entities in general. Fair value for mineral assets is generally determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset, including any expansion prospects, and its eventual disposal, using assumptions that an independent market participant may take into account. These cash flows are discounted at an appropriate post tax discount rate to arrive at the net present value.

Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal. The cash flows are discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. Value in use is determined by applying assumptions specific to the company's continued use and cannot take into account future development. These assumptions are different to those used in calculating fair value and consequently the value in use calculation is likely to give a different result to a fair value calculation.

The carrying amount of the CGU is determined on a basis consistent with the way the recoverable amount of the CGU is determined.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognised in the income statement.

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

i) Government Grant

Government grants are not recognised until there is a reasonable assurance that the company will comply with the conditions attaching to them and that the grants will be received. Government grants relating to tangible fixed assets are treated as deferred income and released to the statements of profit or loss over the expected useful lives of the assets concerned. Other grants are credited to the statements of profit or loss as and when the related expenditure is incurred.

j) Inventories

Inventories (other than immaterial by-products and scrap) including work-in-progress are stated at the lower of cost (on weighted average basis) and net realisable value, less any provision for obsolescence. Cost includes all charges in bringing the goods to the point of sale including octroi and other levies, transit insurance and receiving charges. Finished goods include apportionment of fixed and variable overheads.

Net realisable value is determined based on estimated selling price, less further costs expected to be incurred to completion and disposal.

k) **Taxation**

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to a business combination, or items directly recognized in equity or in OCI.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting period.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

l) **Retirement benefit schemes**

Defined benefit plan

In accordance with applicable laws in India, the Company provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") for every employee who has completed 5 years or more of service on departure at 15 days salary (last drawn salary) for each completed year of service. The Gratuity Plan provides for a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment based on last drawn salary and tenure of employment with the Company. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation on the reporting date using projected unit credit method. The gratuity scheme is funded with Insurance Company.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Defined contribution plan

The Company makes contributions to the Provident Fund scheme, a defined contribution benefit scheme. These contributions are deposited with Government administered fund and recognised as an expense in the period in which the related service is performed. There is no further obligation on the Company on this defined contribution plan.

Compensated Absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Employee entitlements to annual leave are recognised as a liability when they accrue to the employees. The estimated liability for leave is recognised for services rendered by employees up to the end of the reporting period.

m) **Provision for liabilities and charges, Contingent liabilities and contingent assets**

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS.

Provisions represent liabilities to the Company for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statements of profit or loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

Sesa Mining Corporation Limited
Notes to Financial Statement for the year ended March 31, 2019

The Company has capital commitments in relation to various capital projects which are not recognized on the balance sheet. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

n) Restoration, rehabilitation and environmental costs

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing production of a mine. Such costs, discounted to net present value, are provided for and a corresponding amount is capitalised at the start of each project, as soon as the obligation to incur such costs arises. These costs are charged to the statement of profit or loss over the life of the operation through the depreciation of the asset and the unwinding of the discount on the provision. The cost estimates are reviewed periodically and are adjusted to reflect known developments which may have an impact on the cost estimates or life of operations. The cost of the related asset is adjusted for changes in the provision due to factors such as updated cost estimates, changes to lives of operations, new disturbance and revisions to discount rates. The adjusted cost of the asset is depreciated prospectively over the life of the mineral reserve to which they relate.

Costs for the restoration of subsequent site damage, which is caused on an ongoing basis during production, are charged to the statements of profit or loss as extraction progresses. Where the costs of site restoration are not anticipated to be material, they are expensed as incurred.

o) Foreign currency

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates prevailing at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period.

Differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

p) Functional and presentation currency

Management has determined the currency of the primary economic environment in which the entity resides in and operates as the functional currency. The functional currency of the Company is Indian Rupees (INR). The financial statements have been presented in INR, as it best represents the operating business performance and underlying transactions.

q) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit/(loss) attributable to ordinary equity holders of the Company using the weighted-average number of equity shares considered for deriving basic earnings per share and weighted average number of dilutive equivalent shares outstanding during the period, except where the results would be anti-dilutive. Dilutive potential shares are deemed converted at the beginning of the period, unless issued at later date.

r) Segment Reporting

The Company primarily operates in the business segment of mining and sale of Iron Ore. As per the management's perspective, the risks and returns from its sales do not materially vary geographically. Accordingly, there are no other reportable segments as required to be reported under Ind AS 108 – Operating Segments.

s) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

t) Use of Estimates and Judgments

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the Year in which the estimate is revised and future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in the following accounting policies and/or notes.

As at March 31, 2019	1.28	-	1.28
Current	1.28	-	1.28
Non-Current	-	-	-

The provision for restoration, rehabilitation, decommissioning and environmental represented the Company's best estimate of the costs which will be incurred in the future to meet the obligations under the laws of the land, the terms referred to in the company's mining and other licenses and contractual arrangements. These amounts become payable upon closure of the mines and are expected to be incurred over a Year of 1 to 11 years. However, Pursuant to an order passed by the Hon'ble Supreme Court of India on February 7, 2018 the second renewal of the mining leases granted by the State of Goa to all miners including Sesa Resources Limited were cancelled. Upon consideration of past precedence, the provision for restoration and rehabilitation with respect to these mines has been assessed as Nil, as the Company believes that the same would be carried out by the future successful bidder at the time of mine closure.

15 Other Non-Current Liabilities

	March 31, 2019	March 31, 2018
Deferred Government Grant	2.57	2.99
	2.57	2.99

Represents government assistance in the form of the duty benefit availed under Export Promotion Capital Goods (EPCG) Scheme on purchase of property, plant and equipments accounted for as government grant and being amortised over the useful life of such assets.

	March 31, 2019	March 31, 2018
Voluntary Retirement Expenses	-	0.76
Impairment of assets (Refer Note below)	33.99	425.67
Total	33.99	426.43

Pursuant to an order passed by the Hon'ble Supreme Court of India on February 07, 2018, the second renewal of the mining leases granted by the State of Goa in 2014-15 to all miners including Sesa Resources Limited were cancelled. Consequentially all mining operations stopped with effect from March 16, 2018 until fresh mining leases (not fresh renewals or other renewals) and fresh environmental clearances are granted in accordance with the provisions of The Mines and Minerals (Development and Regulation) (MMDR) Act.

During the year ended March 31, 2019, the Company has recognised an impairment charge of Rs. 33.99 Crores (March 31, 2018: Rs.425.67 Crores) in relation to the following assets:

Particulars	March 31, 2019	March 31, 2018	Note
Property, Plant and Equipment	-	25.11	(a)
Intangible Assets	-	21.74	(a)
Capital work in progress	-	2.97	(a)
Investments	-	80.01	(b)
Loans	16.20	156.17	(b)

Other Non Current Assets	-	133.86	(b)
Other Current Assets	-	10.47	(b)
Inventories	-	6.70	(b)
Provision for Restoration and Rehabilitation written back (Refer Note 14)	-	(11.36)	(c)
Total	33.99	425.67	

(a) The net recoverable value of property, plant and equipment, intangible assets and capital work in progress has been assessed at Rs. 47.34 Crores (March 31, 2018: Rs.53.72 Crores), for each category of asset individually, based on the fair value less cost of sell methodology, after

(b) The carrying value has been determined based on the expected realisation.

(c) Significant uncertainty exists over the resumption of mining at Goa under the current leases. Upon consideration of past precedence, the provision for restoration and rehabilitation with respect to these mines has been assessed as Nil, as the Company believes that the same would be carried out by the future successful bidder at the time of mine closure.

Sesa Resources Limited

Notes to Financial Statement for the year ended March 31, 2019
(All amounts are in INR Crores, unless otherwise stated)

	<u>March 31, 2019</u>	<u>March 31, 2018</u>
Profit /(Loss) attributable to equity share holders	(35.00)	(486.52)
Weighted average number of equity shares for EPS	Nos 1,250,000	1,250,000
EPS - Basic & Diluted (Rs. per share)	(280.00)	(3,892.16)
Nominal Value of Shares (Rs. per share)	10	10

30 CORPORATE SOCIAL RESPONSIBILITY EXPENSE

The Company has incurred an amount of Rs. NIL crore (March 31, 2018: Rs. 0.06 crore) towards Corporate Social Responsibility as per Section 135 of the Companies Act, 2013.

31 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Useful lives of property, plant and equipment

The cost of property, plant and equipment is depreciated on a straight-line basis over the property, plant and equipment's estimated economic useful lives. Management estimates the useful lives of these property, plant and equipment in line with useful lives specified in schedule II of Companies Act. These are common life expectancies applied in the industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore, future depreciation charges could be revised. The carrying amount of the Company's property, plant and equipment at the end of the reporting period is disclosed in Note 4 to financial statements.

(b) Employees benefits plan

The cost of defined benefit gratuity plan as well as the present value of the gratuity obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, expected rates of return of assets, future salary increase and mortality rates. Due to the complexity of the valuation, the underlying assumptions, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Further details about gratuity obligation has been mentioned in Note 32.

(c) Income Taxes

The Company has exposure to income taxes in Indian jurisdiction. Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant managements judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

(d) Provision for restoration and rehabilitation costs

Provision is made for costs associated with restoration and rehabilitation of mining sites as soon as the obligation to incur such costs arises. Such restoration and closure costs are typical of extractive industries and they are normally incurred at the end of the life of the mine. The costs are estimated on the basis of mine closure plans and the estimated discounted costs of dismantling and removing these facilities and the costs of restoration are capitalised when incurred reflecting the Company's obligations at that time.

A corresponding provision is created on the liability side. The capitalised asset is charged to profit or loss over the life of the asset through depreciation over the life of the operation and the provision is increased each period via unwinding the discount on the provision. Management estimates are based on local legislation and/or other agreements. The actual costs and cash outflows may differ from estimates because of changes in laws and regulations, changes in prices, analysis of site conditions and changes in restoration technology.

(e) Provisions and contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS.

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the effect of time value of money is material, provisions are determined by discounting the expected future cash flows.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved; it is not expected that such contingencies will have a material effect on its financial position or profitability.

(f) Impairment of assets

Pursuant to an order passed by the Hon'ble Supreme Court of India on February 07, 2018, the second renewal of the mining leases granted by the State of Goa in 2014-15 to all miners including Sesa Resources Limited were cancelled. Consequentially all mining operations stopped with effect from March 16, 2018 until fresh mining leases (not fresh renewals or other renewals) and fresh environmental clearances are granted in accordance with the provisions of The Mines and Minerals (Development and Regulation) (MMDR) Act. Significant uncertainty exists over the resumption of mining at Goa under the current leases. The Company has assessed the recoverable value of all its assets and liabilities associated with existing mining leases which led to a non-cash impairment charge during the year.

Details of impairment charge and method of estimating recoverable value are disclosed in note 27.

32 GRATUITY & OTHER POST EMPLOYEE BENEFIT PLANS

A DEFINED CONTRIBUTION PLANS

The Company offers its employees benefits under defined contribution plans in the form of provident fund, family pension and superannuation fund. Family pension fund and superannuation fund cover substantially all regular employees. Contributions are paid during the year into separate funds under certain statutory/ fiduciary type arrangements. While both the employees and the Company pay predetermined contributions into the pension fund, the contribution to superannuation fund are made only by the Company. The contributions are based on a fixed percentage of the employee's salary prescribed in respective scheme.

A sum of Rs. 0.49 crore (previous year Rs. 0.83 crore) have been charged to the statement of profit and loss in this respect, the components of which are tabulated below.

Particulars	March 31, 2019	March 31, 2018
Provident Fund	0.28	0.47
Family Pension Fund	0.19	0.30
Superannuation Fund	0.02	0.06
	0.49	0.83

B DEFINED BENEFIT PLANS

The Company has defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded with Insurance Company in the form of a qualifying Insurance Policy.

The Company has constituted a trust recognized by Income tax authorities for gratuity of employees. The Company contributes funds to Life Insurance Corporation of India which are irrevocable. The Gratuity Plan provides a lump sum payment to vested employees at retirement, disability or termination of employment being an amount based on the respective employee's last drawn salary and the number of years of employment with the company. Based on actuarial valuations conducted as at year end, a provision is recognised in full for the benefit obligation over and above the funds held in the Gratuity Plan.

Principal actuarial assumptions

Principal actuarial assumptions used to determine the present value of the defined benefit obligations are as follows:

	March 31, 2019	March 31, 2018
Discount Rate	7.80%	7.70%
Future Salary Increases	2% - 5%	3% - 6%
Withdrawal Rate	2.00%	1.00%
Mortality Table	IALM (2006-08)	IALM (2006-08)

The estimate of rate of escalation in salary considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market.

Amount recognised in Balance Sheet consists of:

	March 31, 2019	March 31, 2018
Fair Value of plan assets	1.57	1.46
Present Value of defined benefit obligations	(1.74)	(1.99)
Net Liability arising from defined benefit obligations	(0.17)	(0.53)

Amount recognised in Statement of Profit or Loss in respect of defined benefit plan are as follows:

	March 31, 2019	March 31, 2018
Current Service Cost	0.13	0.17
Net Interest Cost	0.04	0.01
Components of denfined benefit costs recognised in profit or loss	0.17	0.18

Amount recognised in other comprehensive income in respect of defined benefit plan are as follows:

	March 31, 2019	March 31, 2018
Re-measurement of the net defined benefit obligation:		
Actuarial losses arising from changes in demographical assumptions	(0.02)	-
Actuarial (gains)/ losses arising from changes in financial assumptions	0.55	0.02
Actuarial gains arising from experience adjustments	(0.08)	(0.24)
(Gain)/ Loss on plan assests (excluding amounts included in net interest cost)	(0.02)	(0.04)
Components of denfined benefit costs recognised in Other comprehensive income	0.43	(0.26)

Sesa Resources Limited

Notes to Financial Statement for the year ended March 31, 2019
(All amounts are in INR Crores, unless otherwise stated)

Movement in present value of defined benefit obligation:

	March 31, 2019	March 31, 2018
Opening Balance	1.99	1.99
Current service cost	0.13	0.17
Benefits paid	(0.09)	(0.55)
Interest Cost	0.16	0.16
Actuarial losses arising from changes in demographical assumptions	0.02	-
Actuarial (loss)/ (gain) arising from changes in financial assumptions	(0.55)	(0.02)
Actuarial gains arising from experience adjustments	0.08	0.24
Closing Balance	1.74	1.99

Movement in fair value of plan assets:

	March 31, 2019	March 31, 2018
Opening Balance	1.46	1.90
Contributions made	0.11	-
Benefits Paid	(0.09)	(0.55)
Re-measurement gains arising from return on plan assets	(0.02)	(0.04)
Interest Income	0.11	0.15
Closing Balance	1.57	1.46

A quantitative sensitivity analysis for significant assumptions as at 31 March 2019 is as shown below:

Impact on defined benefit obligation

Sensitivity Level	March 31, 2019		March 31, 2018	
	Increase	Decrease	Increase	Decrease
	Rs. Crore	Rs. Crore	Rs. Crore	Rs. Crore
Discount Rate (+ / - 0.5%)	0.06	(0.07)	0.09	(0.09)
Future Salary Increase (+ / - 0.5%)	(0.07)	0.07	(0.09)	0.09

Sensitivities due to mortality and withdrawals are not material and hence impact of change has not been calculated by the Actuary.

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

In absence of detailed information regarding plan assets which is funded with Life Insurance Corporation of India, the composition of each major category of plan assets and the percentage or amount for each major category to the fair value of total plan assets has not been disclosed.

The contribution expected to be made by the company during the financial year 2019-20 as ascertained by the management is Rs. 0.16 crores (March 31, 2018: Rs. 0.23 crores)

33 COMMITMENTS AND CONTINGENCIES

a. Commitment and contingencies

(i) Estimated amount of contracts remaining to be executed on capital account and not provided for:

Capital commitments

The Company had significant capital commitments of Rs. NIL crore as at March 31, 2019 (March 31, 2018 - Rs. 2.33 crore), related primarily to capacity expansion projects.

(ii) Contingent liabilities

Sr. No	Particulars	March 31, 2019	March 31, 2018
1	Demand raised by income tax authorities against which company has filed appeals*	41.62	41.62
2	Claims against the company not acknowledged as debt: -Cess on transportation of ore within Goa levied by Government of Goa under the Goa Rural Development and Welfare Cess Act 2000 (Goa Act 29 of 2000)	22.52	22.52
	- Contribution towards Goa Iron Ore Permanent Fund levied by Government of Goa	-	0.65
3	Other claims	1.61	2.92
	Total	65.75	67.71

* Includes the claims of Rs. 30.76 crores (March 31, 2018 : Rs. 30.76 crores), if finally determined as payable will be reimbursed by the erstwhile shareholders pursuant to Share Purchase Agreement dt. 11-Jun-2009.

34 OPERATING SEGMENTS

The company primarily operates in the segment of mining and sale of iron ore. As per the company's chief operating decision maker ("CODM"), the risks and returns from its sales do not materially vary geographically. Accordingly, there are no other reportable segments as required to be reported under Ind AS 108 - Operating Segments.

A) Information about products

	March 31, 2019	March 31, 2018
Iron ore	-	38.25
	-	38.25

B) All revenue and non-current assets of the Company is situated in India, hence, disclosure pertaining to geographical areas has not been updated.

C) Company primarily sells entire output to its holding company.

35 Financial instruments

Financial risk management objective and policies

This section gives an overview of the significance of financial instruments for the company and provides additional information on the balance sheet. Details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 3.

Financial assets and liabilities:

The accounting classification of each category of financial instruments, and their carrying amounts, are set out below:

March 31, 2019

	Fair value through profit or loss	Fair value through other comprehensive income	Amortised cost	Total carrying value
Financial assets				
Non-current investments*	-	-	-	-
Trade receivables	-	-	10.17	10.17
Loans – current	-	-	-	-
Cash and cash equivalents	-	-	0.46	0.46
Other current financial assets	-	-	67.68	67.68
Total	-	-	78.31	78.31
Financial liabilities				
Short-term borrowings	-	-	78.81	78.81
Trade payables	-	-	0.85	0.85
Other current financial liabilities	-	-	10.29	10.29
Total	-	-	89.95	89.95

March 31, 2018

	Fair value through profit or loss	Fair value through other comprehensive income	Amortised cost	Total carrying value
Financial assets				
Non-current investments*	-	-	-	-
Trade receivables	-	-	22.82	22.82
Loans – current	-	-	16.20	16.20
Cash and cash equivalents	-	-	-	-
Other current financial assets	-	-	71.53	71.53
Total	-	-	110.55	110.55
Financial liabilities				
Short-term borrowings	-	-	-	-
Trade payables	-	-	8.20	8.20
Other current financial liabilities	-	-	36.92	36.92
Total	-	-	45.12	45.12

* Investment in note 6 also includes equity investments in subsidiaries and joint ventures which are carried at costs and hence are not required to be disclosed as per Ind AS 107 "Financial Instruments Disclosures". Hence, the same have been excluded from the above table.

Fair value hierarchy

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at March 31, 2019

	Level 1	Level 2	Level 3
Financial assets			
Non Current Investments	-	-	-
Total	-	-	-

Risk management

The Company's Board approved financial risk policies comprise liquidity, currency, interest rate and counterparty credit risk. The company does not engage in speculative treasury activity but seeks to manage risk and optimize interest and foreign currency through proven financial instruments.

Treasury management

The company's treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the company through internal risk reports which analyses exposures by degree and magnitude of risks. These risks include market risk (including currency risk), credit risk and liquidity risk.

Treasury management focuses on capital protection, liquidity maintenance and yield maximization. The treasury policies are approved by the Board and adherence to these policies is strictly monitored at the Finance Standing Committee. A monthly reporting system exists to inform senior management of investments, debt and currency. The company has a strong system of internal control which enables effective monitoring of adherence to company's policies. The internal control measures are effectively supplemented by regular internal audits.

Financial risk

The Company's Board approved financial risk policies comprise liquidity, currency, interest rate and counterparty risk. The Company does not engage in speculative treasury activity but seeks to manage risk and optimize foreign exchange impact through proven financial instruments.

Liquidity Risk:

The company requires funds both for short-term operational needs as well as for long-term investment projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents and short term investments provide liquidity both in the short-term as well as in the long term.

The company remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet. The maturity profile of the Company's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the company.

As at March 31, 2019

	<1 year	2 Years	3-5 Years	> 5 Years	Total
Financial Liabilities					
Current					
Borrowings	78.81	-	-	-	78.81
Trade payables	0.85	-	-	-	0.85
Other financial liabilities	10.29	-	-	-	10.29

As at March 31, 2018

	<1 year	2 Years	3-5 Years	> 5 Years	Total

Credit Risk:

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The company is exposed to credit risk for receivables, cash and cash equivalents and short-term investments.

The history of trade receivables shows a negligible provision for bad and doubtful debts. The credit risk on the trade receivables and loans to related parties is supported by a Letter of comfort from Vedanta. Therefore, the company does not expect any material risk on account of non-performance by any of the company's counterparties.

Of the year ended March 31, 2019, Trade and other receivables balance, the following were past due but not impaired:

As on March 31, 2019

	Not past due	Due less than 1 months	Due between 1-3 months	Due between 3-12 months	Due greater than 12 months
Trade receivables	-	10.17	-	-	-
Loans-Current	-	-	-	-	-

(All amounts are in INR Crores, unless otherwise stated)

Foreign Currency Risk

The Company is exposed to the risk of changes in foreign exchange rates, primarily to the company's operating activities (purchase of spare parts in foreign currency). Exposure on foreign currency is managed through the foreign exchange hedging policy, which is periodically to expose the risk for fluctuation currency exchange rates is appropriately managed.

Unhedged Foreign Currency

The year-end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are given below:

Amounts receivable in foreign currency on account of the following:

	As at March 31, 2019		As at March 31, 2018	
	Foreign Currency	INR Equivalent (in crores)	Foreign Currency	INR Equivalent (in crores)
Other Current Assets	-	-	-	-

Amounts payable in foreign currency on account of the following:

	As at March 31, 2019		As at March 31, 2018	
	Foreign Currency	INR Equivalent (in crores)	Foreign Currency	INR Equivalent (in crores)
Trade Payables	-	-	USD 611.57	0.00
			EUR 2,815	0.02

36 CAPITAL MANAGEMENT

The Company's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth. The Company's overall strategy remains unchanged from previous year.

The Company sets the amount of capital required on the basis of annual business and long-term operating plans which include capital and other strategic investments.

The funding requirements are met through a mixture of internal fund generation and other long term borrowings. The Company's policy is to use short term and long-term borrowings to meet anticipated funding requirements.

The Company monitors capital on the basis of the net debt to equity ratio. The Company is not subject to any externally imposed capital requirements.

Net debt are long term and short term debts as reduced by cash and cash equivalents (including restricted cash and cash equivalents) and short-term investments. Equity comprises all components excluding other components of equity (which comprises the cash flow hedges, translation of foreign operations and available-for-sale financial investments).

The following table summarizes the capital of the Company:

As at	March 31, 2019	March 31, 2018
Equity	59.56	94.13
Cash and cash equivalents (Note 11)	0.46	-
Total cash (a)	0.46	-
Short-term borrowings (Note 16)	78.81	-
Total debt (b)	78.81	-
Net debt (c=(b-a))	78.35	-
Total capital (equity + net debt)	137.91	94.13
Net debt to equity ratio	1.32	-

37 DISCLOSURES AS REQUIRED BY THE MICRO, SMALL AND MEDIUM ENTERPRISES DEVELOPMENT ACT, 2006

Terms and conditions of transactions with related parties

The sales to related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year end are unsecured and interest free and settlement occurs in cash. There have been no guarantee provided or received for any related party receivables or payables. For the year ended March 31, 2019, the Company has recorded impairment of receivables amounting to Rs. 33.99 Crores (March 31, 2018 : Rs. 156.17 Crores) relating to amounts owed by related parties.

39 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Recently issued accounting pronouncements

The following standards/amendment to standards have been issued but are not yet effective up to the date of issuance of the Company's financial statements. Except specifically disclosed below, the Company is evaluating the requirements of these standards, improvements and amendments and has not yet determined the impact on the financial statements.

• **Ind AS 116: Leases**

Ind AS 116 Leases was notified in March 30, 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after April 1, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company intends to adopt these standards, if applicable, when they become effective. As the Company does not have any material leases, therefore the adoption of this standard is not likely to have a material impact in its Financial Statements.
