SKORPION MINING COMPANY (PROPRIETARY) LIMITED

DIRECTORS' RESPONSIBILITY FOR FINANCIAL REPORTING

The directors of the company are responsible for the maintenance of adequate accounting records and the preparation and integrity of the financial statements and related information. The financial statements have been prepared in accordance with International Financial Reporting Standards. The company's independent external auditors have audited the financial statements and their report appears on pages 3 to 4.

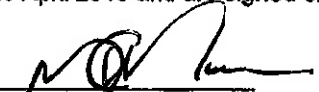

The directors are also responsible for the systems of internal control. These are designed to provide reasonable but not absolute assurance as to the reliability of the financial statements and to adequately safeguard, verify and maintain accountability of assets and to prevent and detect material misstatement and loss. The systems are implemented and monitored by suitably trained personnel with an appropriate segregation of authority and duties. Nothing has come to the attention of the directors to indicate that any material breakdown in the functioning of these controls procedures and systems has occurred during the period under review.

As described in note 1.12 and 16 the directors are satisfied that the company has access to adequate resources and financial support to remain a going concern. The annual financial statements on pages 5 to 35 have therefore been prepared on a going concern basis.

A directors' report has not been prepared as the company is a wholly owned subsidiary of Skorpion Zinc (Proprietary) Limited a company incorporated in Namibia.

DIRECTORS' APPROVAL OF THE ANNUAL FINANCIAL STATEMENTS

The annual financial statements set out on pages 5 to 35 were approved by the board of directors on 25 April 2016 and are signed on its behalf by:

DIRECTOR M.C. Maurice

DIRECTOR D Nardoo

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SKORPION MINING COMPANY (PROPRIETARY) LIMITED

We have audited the annual financial statements of Skorpion Mining Company (Proprietary) Limited set out on pages 5 to 35, which comprise the statement of financial position as at 31 March 2016, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Financial Statements

The company's directors are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and the requirements of the Namibian Companies Act, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF SKORPION MINING COMPANY (PROPRIETARY) LIMITED (CONTINUED)

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Skorpion Mining Company (Proprietary) Limited as at 31 March 2016, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and in the manner required by the Namibian Companies Act.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS for the year ended 31 March 2016

1. ACCOUNTING POLICIES

The annual financial statements are prepared on the historical cost basis except for certain financial instruments where the fair value bases of accounting are adopted. The principle accounting policies of the company which are set out below have been consistently applied and comply in all material respects with International Financial Reporting Standards ("IFRS").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. The functional currency of the company is the Namibia Dollar (N\$)

The company has adopted all standards and interpretations that were effective for the current year. The adoption of these standards did not have any significant effect on the financial position or results from operations cash flows or disclosures.

At the date of authorisation of these financial statements the following Standards and Interpretations were issued but not yet effective:

New/Revised International Financial Reporting Standards	Effective for annual periods beginning on or after
IFRS 16 Leases — Introduction of a single lease accounting model and enhancements of disclosures.	1 January 2019
IFRS 15 Revenue from Contracts from Customers — Changes to revenue recognition criteria and additional disclosure requirements	1 January 2018
IFRS 9 Financial Instruments — Reissue to include requirements for the classification and measurement of financial liabilities and incorporate existing recognition requirements	1 January 2018
IFRS 5 Non-current assets Held for Sale and Discontinued Operations — Clarity that a change in the manner of disposal of a non-current asset or disposal group held for sale does not result in a change of classification as held for sale does not change.	1 January 2016
IFRS 7 Financial Instruments: Disclosures	1 January 2016
IFRS 10 Consolidated Financial Statements — Amendments for investment entities	1 January 2016
IFRS 11 Joint Arrangements — Guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business	1 January 2016
IAS 1 Presentation of Financial Statements — Encouragement to entities to apply professional judgement in determining what information to disclose in their financial statements	1 January 2016
IAS 16 Financial Instruments: Presentation — Amendments relating to the offsetting of financial assets and financial liabilities	1 January 2016

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

	same currency	
<u>IAS 27</u>	Consolidated and Separate Financial Statements — Amendments to allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements	1 January 2016
<u>IAS 28</u>	Investments in Associates and Joint Ventures	1 January 2016
<u>IAS 34</u>	Interim Financial Reporting	1 January 2016
<u>IAS 38</u>	Intangible Assets — Clarity on the principles and the basis for the calculation of depreciation and amortisation	1 January 2016
<u>IFRS 12</u>	Disclosure of Interests in Other Entities — Amendments for investment entities	1 January 2016

A reliable estimate of the impact of the adoption of the recent amendments for the Company has not yet been determined; however directors anticipate that the adoption of the recent standards and interpretations will have no material impact on the annual financial statements in future periods, except for disclosure to the annual financial statements.

1.1 Research exploration and preproduction expenditure

Research expenditure is written off in the period in which it is incurred until such time as an economic reserve is defined. When a decision is taken that a mining property is viable for commercial production all further preproduction expenditure is capitalised. Capitalisation of preproduction expenditure ceases when the mining property is capable of commercial production. Capitalised preproduction expenditure is amortised from the date commercial production commences over the economic life of the mine.

1.2 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit reported in the statement of comprehensive income because it excludes items of income and expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting date.

Deferred taxation is provided on the statement of financial position liability method in respect of net temporary differences arising from differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of assessable tax profit. In general deferred taxation liabilities are recognised for all taxable temporary differences and deferred taxation assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised.

Deferred taxation is calculated at the rate that is expected to apply to the period when the asset is realised or the liability is settled. Deferred taxation is charged or credited in the statement of comprehensive income except when it relates to items credited or charged directly to other comprehensive income in which case the deferred tax is also dealt with in equity.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.3 Foreign currency transactions

Transactions in foreign currency other than Namibia Dollar are accounted for at the rate of exchange ruling on the date of the transaction.

At each statement of financial position date monetary items denominated in foreign currencies are retranslated at the rates prevailing on the statement of financial position date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items and on the retranslation of monetary items are included in profit or loss for the period.

1.4 Financial Instruments

Initial recognition and measurement

All financial instruments including derivative instruments are recognised on the statement of financial position. Financial instruments are initially recognised when the company becomes party to the contractual terms of the instruments and are measured at cost which is the fair value of the consideration given (financial asset) or received (financial liability or equity instrument) for it. Financial liabilities and equity instruments are classified according to the substance of the contractual arrangement on initial recognition. Subsequent to initial recognition these instruments are measured as set out below.

Fair value methods and assumptions

The fair value of financial instruments traded in an organised financial market are measured at the applicable quoted prices adjusted for any transaction costs necessary to realise the assets or settle the liabilities.

The fair value of financial instruments not traded in an organised financial market is determined using a variety of methods and assumptions that are based on market conditions and risk existing at the reporting date including independent appraisals and discounted cash flow methods. The fair value determined is adjusted for any transaction costs necessary to realise the asset or settle the liabilities.

The carrying amounts of financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values due to the short-term trading cycle of these items.

The fair value methods used are consistent with the requirements of IFRS 13.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.4 Financial Instruments (continued)

Derecognition

Financial assets (or a portion thereof) are derecognised when the company realises the rights to the benefits specified in the contract the rights expire or the company surrenders or otherwise loses control of the contractual rights that comprise the financial asset. On derecognition the difference between the carrying amount of the financial asset and proceeds receivable and any prior adjustment to reflect fair value that had been reported in other comprehensive income are included in profit and loss.

Financial liabilities (or a portion thereof) are derecognised when the obligation specified in the contract is discharged cancelled or expires. On derecognition the difference between the carrying amount of the financial liability including related unamortised costs and amount paid for it are included in profit and loss.

Financial assets

The company's principal financial assets are group company loans and receivables trade and other receivables and bank and cash balances:

Financial assets at Fair Value Through Profit and Loss ("FVTPL")

Financial assets are classified as at FVTPL where the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired for the purpose of selling in the near future; or
- it is part of an identified portfolio of financial instruments that the Company manages together and has a recent actual pattern of short-term profit taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both which is managed and its performance is evaluated on a fair value basis in accordance with the Company's documented risk management or investment strategy and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives and IAS 39 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.4 Financial Instruments (continued)

Held-to-maturity investments

Financial assets with fixed or determinable payments and fixed maturity dates that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are recorded at amortised cost using the effective interest method less any impairment with revenue recognised on an effective yield basis.

Available For Sale (“AFS”) financial assets

Unlisted shares and listed redeemable notes held by the Company that are traded in an active market are classified as AFS and are stated at fair value. Gains and losses arising from changes in fair value are recognised through other comprehensive income to the investments revaluation reserve, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets which are recognised in profit or loss. Where the investment is disposed of or is determined to be impaired the cumulative gain or loss previously recognised in the investments revaluation reserve is included in profit or loss for the period.

Dividends on AFS equity instruments are recognised in profit or loss when the Company's right to receive the dividend is established.

The fair value of AFS monetary assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the reporting date. The change in fair value attributable to translation differences that result from a change in amortised cost of the asset is recognised in profit or loss and other changes are recognised in other comprehensive income.

Loans and receivables

Trade receivables loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost using the effective interest method less any impairment. Interest income is recognised by applying the effective interest rate except for short-term receivables when the recognition of interest would be immaterial.

Group company loans and receivables

Group company loans and receivables originated by the company are stated at amortised cost.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.4 Financial Instruments (continued)

Financial assets (continued)

Trade and other receivables

Trade and other receivables are measured at initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method. An estimate of doubtful debts is made based on a review of all outstanding amounts at reporting date and is recognised in profit or loss when there is evidence that the asset is impaired. Bad debts are written off during the period in which they are identified.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. Cash and cash equivalents are measured at fair value.

Investment in securities

Investments in securities are recognised on a trade-date basis and are initially measured at cost. At subsequent reporting dates debt securities that the company has the expressed intention and ability to hold to maturity (held-to-maturity debt securities) are measured at amortised cost less any impairment loss recognised to reflect irrecoverable amounts. The interim amortisation of any discount or premium on the acquisition of a held-to-maturity security is aggregated with other investment income receivable over the term of the instrument so that the revenue recognised in each period represents a constant yield on the investment.

Financial liabilities

The company's principal financial liabilities are group company loans and payables and trade and other payables:

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing in the near future; or
- it is part of an identified portfolio of financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.4 Financial Instruments (continued)

Financial liabilities (continued)

Financial liabilities at FVTPL (continued)

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both which is managed and its performance is evaluated on a fair value basis in accordance with the Group's documented risk management or investment strategy and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives and IAS 39 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial liability.

Group company loans and payables

Group company loans and payables are recognised at amortised cost which is the original debt less principal repayments and amortisations.

Trade and other payables

Trade and other payables are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method.

Equity instruments

Equity instruments issued by the company are recorded at the value of proceeds received less directly attributable costs.

Effective interest rate method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future payments through the expected life of the financial liability or asset or where appropriate a shorter period.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.5 Inventory

Inventory is valued at the lower of cost and net realisable value with due regard to condition and utility. Net realisable value represents the estimated selling price less all estimated costs to be incurred in marketing selling and distribution. The cost of trading stock being metal ore is determined on the average cost basis. The value of trading stock includes direct costs and a proportion of overhead expenditure.

1.6 Property plant and equipment

Buildings plant and equipment are depreciated at varying rates on the straight-line basis over their estimated useful lives taking into account their residual values:

	<u>Depreciation rate</u>	<u>Residual value</u>
Computer equipment	33%	Nil
Furniture and fittings	10%	Nil
Vehicles	25%	25%

Land and properties and Heavy Equipment in the course of construction are not depreciated.

The other mining assets are depreciated based on the following policy:

Mining properties are depreciated using the unit-of-production method based on proven and probable reserves. Depreciation is charged on new mining ventures from the date when the mining property is capable of commercial production.

Capitalised mine development expenditure including the acquisition cost of freehold land and leasehold interests containing mineral resources is depreciated using the unit-of-production method once commercial production commences.

The per unit depreciation rate is determined annually by dividing the total of the undepreciated mining development expenditure and future development expenditure for the mine by the remaining proven and probable reserves based on the most current reserve study available. Where mining freehold and leasehold properties have significant value after reserves are depleted the estimated residual value may be deducted from the amount of mining development expenditure which is subject to depreciation.

Where the economic viability of reserves has been established but future operations are dependent upon receiving future planning permission or lease extension management assesses on at least an annual basis the probability of the planning permission or lease extension being received. If it is no longer considered probable the estimate of reserves and the unit-of-production depreciation calculation is revised accordingly.

The gain or loss arising on the disposal or retirement of an item of property plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.7 Impairments

At each reporting date the company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists the recoverable amount of the asset is estimated in order to determine the extent of impairment loss if any. Where it is not possible to estimate the recoverable amount of an individual asset the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use the future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessment of the time value of money and the risks specific to the asset. The discount rate applied is based upon the directors' best estimate of weighted average cost of capital with appropriate adjustment made for local conditions.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount its carrying amount is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately.

Where an impairment loss subsequently reverses the carrying amount of the asset is increased to the revised estimate of its recoverable amount but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in the prior years.

A reversal of an impairment loss is recognised as income immediately unless the relevant asset is carried at a revalued amount under another standard in which case the reversal of the impairment loss is treated as a revaluation increase under that other standard.

1.8 Revenue recognition

Revenue amounts are measured at the fair value of consideration received or receivable after deducting value added tax. Revenue from metal mining activities is based on the contained metal sold. Revenue is recognised when the significant risks and rewards of ownership pass to the buyer. Risks and rewards of ownership pass to the customer when the product leaves the stacker/reclaimer.

Income from by product sales is included as a reduction of cost of sales.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.9 Accounting for leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The company as lessee

Assets held under finance leases are recognised as assets of the company at their fair value at the inception of the lease or if lower at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss unless they are directly attributable to qualifying assets in which case they are capitalised in accordance with the company's policy on borrowing costs.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease.

1.10 Borrowing costs

Interest on borrowings relating to the financing of major capital projects under construction is capitalised during the construction phase as part of the cost of the project. Where funds have been borrowed specifically to finance a project the amount capitalised represents the actual borrowing costs incurred. Where the funds used to finance a project form part of general borrowings the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings during the period.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

1.11 Stripping costs

Stripping costs to be recognised as part of an asset (either as inventory or as non-current asset), if the following conditions are met:

- It is probable that the future economic benefits (improved access to an ore body) associated with the stripping activity will follow to the entity;
- The entity can identify the component of an ore body for which access has been improved; and
- The costs relating to the improved access to that component can be measured reliably.

To the extent that the benefit creates improved access to ore to be mined in future periods, the entity must recognise these production stripping costs as non-current.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

1.12 Judgements made by management

Preparing financial statements in conformity with IFRS requires estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ from these estimates.

Certain accounting policies have been identified as involving particularly complex or subjective judgements or assessments as follows:

- **Going concern**
The directors also being the directors of the holding company and sister company Namzinc (Proprietary) Limited are confident that the company, by virtue of being part of THL Zinc Namibia Holdings (Proprietary) Limited, has access to sufficient resources to continue trading for the foreseeable future. This assessment was made after due consideration of all the facts and circumstances in evidence at year end and notably includes the consideration that the company's fellow subsidiary, Namzinc (Pty) Ltd has subordinated its loan to Skorpion Mining Company until such time as Skorpion Mining is no longer in a net deficit position.
- **Decommissioning and rehabilitation provision**
Estimating the future costs of environment and rehabilitation obligations is complex and requires management to make estimates and judgements as most of the obligations will be fulfilled in future and contracts and laws are often not clear regarding what is required. The resulting provision is further influenced by changing technologies and environmental safety business and statutory considerations. Significant assumptions include cost per cubic meter of rehabilitated land and the volume of waste rock to be rehabilitated. Each change of cost assumption by N\$ 1/m³, would result in a N\$ 9 million movement to the rehabilitation liability.
- **Asset lives and residual values**
Property plant and equipment is depreciated over their useful lives taking into account residual values where appropriate. The actual lives of the assets and residuals are assessed annually and may vary depending on a number of factors. In reassessing asset lives factors such as technological innovation life-of-mine plan and maintenance programmes are taken into account. Residual value assessments take into account issues such as future market conditions the remaining life of the asset and projected disposal values.
- **Impairment of assets**
Property plant and equipment are considered for impairment if there is reason to believe that impairment may be necessary. Factors taken into consideration in reaching such a decision include the economic viability of the asset itself or if it is a component of a larger economic unit the viability of that unit. Equally previously impaired assets are assessed for evidence of changes in economic circumstance that would require a reversal of impairment.

Future cash flows expected to be generated by the assets are projected taking into account market conditions and the expected useful lives of the assets. The present value of these cash flows determined using an appropriate discount rate is compared to the current net asset value and if lower the assets are impaired to the present value.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

1. ACCOUNTING POLICIES (continued)

- **Stripping costs**

A separate ore body was identified in the previous year and work commenced to access the ore body in the current year. Costs related to the removal of overburden to all access to this new ore body is estimated and allocated based on the ratio waste rock removed to allow access divided by total waste rock removed.

- **Exploration costs-Gergurab**

Skorpion Mining Company (Pty) Ltd and Rosh Pinah Zinc Corporation Ltd concluded a Memorandum of Understanding, signed 20 June 2005 (with subsequent amendments), on various aspects of Zinc exploration and development of Resource on each party's Exploration Prospecting License areas.

As part of the company's exploration activities the Gergurab deposits were discovered. Based on certain trigger points Rosh Pinah Zinc Corporation Ltd is required to contribute to certain past and future expenses. At the reporting date, an amount of N\$ 48 078 658 (2015: N\$46 994 947) was included in the capital work in progress related to this project.

1.13 Key sources of information uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the statement of financial position date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed below.

Impairment of property plant and equipment

Determining whether property plant and equipment are impaired requires an estimation of the value in use of the cash-generating unit to which it has been allocated. The value in use calculation requires the entity to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value.

Life-of-Mine review

The Life-of-Mine ("LOM") plan is reviewed annually. The LOM plan takes into account an expectation of the changes in commodity prices, foreign exchange rates, fixed and variable mining cost, Zinc grade and capital expenditure. Mine's LOM was extended by an additional 18 months as a result of the inclusion of high calcium ore to resources and the slowdown of extraction to accommodate the Namzinc sulphide conversion project to conclude, resulting in the Mine's LOM now estimated to be 4 years.

Inventory valuation

The determination of quantities of metal contained in ore stock piles is performed based on estimates as reflected in Note 3.

Deferred tax assets

Deferred tax assets are recognised to the extent it is probable that taxable income will be available in future against which they can be utilised. Future taxable profits are estimated based on assumptions regarding economic growth, commodity prices and inflation. No deferred tax asset was raised in the current year.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

2. PROPERTY PLANT AND EQUIPMENT (continued)

The company tests the total capital investment made for indicators impairment.

The following cash generating unit ("CGU") has been identified:

- Mining and refining activities
 - Skorpion Project

The recoverable amounts of the CGU's are determined from value in use calculations. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates, exchange rates and expected changes to commodity prices. Management estimates discount rates using pre-tax rates that reflect current market conditions of the time value of money and the risks specifically associated with the CGU's. Growth rates are based on industry growth forecasts. Changes in commodity prices are based on past practices and expectations of future changes in the market.

Key assumptions used in impairment calculations, averaged over life of mine where appropriate, are:

	<u>2016</u>	<u>2015</u>
- Foreign exchange rate (USD)	15.15	11.31
- Average Zinc price (USD/t)	2 047	2 438
- Resource available (Zn/kt) in total	372.67	438.2
- Inflation rate	5%	3.03%
- Discount rate	10.31%	9.97%

All figures stated above are in real terms.

At 31 March 2016, no impairment was necessary related to the Skorpion Project (2015: N\$ Nil).

	<u>2016</u> N\$	<u>2015</u> N\$
3. INVENTORY		
Consumables	54 372 579	45 888 905
Mining stockpile and copper cake	76 976 257	61 687 570
Work in progress	5 697 478	2 523 128
	<u>137 046 314</u>	<u>110 099 603</u>

Stockpiles are valued by estimating the zinc content in tons and applying the average cost method to the tons in stock. Zinc content of stockpiles is quantified by performing geological samples on the stockpiles in order to determine the grade (expressed as a percentage). This percentage is then applied to the total tons of ore in the stockpile. At year end, the estimation of grade and zinc content was:

	<u>2016</u>	<u>2015</u>
Stacker/reclaimer		
- Average grade (%)	6.86	7.57
- Zinc content (tons)	1 431	2 170
Mining Stockpile		
- Average grade (%)	5.63	5.68
- Zinc content (tons)	<u>13 777</u>	<u>7 030</u>

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued)
for the year ended 31 March 2016

	<u>2016</u> N\$	<u>2015</u> N\$
Consumable stock is carried after a provision for obsolescence has been made as follows:		
Balance at the beginning of the year	7 274 841	3 465 555
Charged to operating profit	661 020	3 810 286
Balance at the end of the year	<u>7 935 861</u>	<u>7 274 841</u>

The obsolete stock provision has been estimated based on the age of consumables and their rate of movement.

4. TRADE AND OTHER RECEIVABLES

Prepayments	3 609 726	260 550
Value Added Tax	29 765 603	83 261 009
Other receivables	<u>10 179 727</u>	<u>9 467 107</u>
	<u>43 555 056</u>	<u>92 988 666</u>

An amount of N\$3 031 445 (2015: N\$3 031 445) was provided for as doubtful debt.

All receivables except for those set out below are current.

Trade receivables with the following values are past their due date:

Within one month		-
Between 1 to 2 months	109 423	2 552 519
Between 2 to 3 months		919
Greater than 3 months	<u>4 199 306</u>	-
	<u>4 308 729</u>	<u>2 553 438</u>

The directors consider that the carrying amount of accounts receivable approximate to their fair value.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued)
for the year ended 31 March 2016

5. RELATED PARTIES (continued)

	Purchase of services		Purchase of goods		Amounts due from related parties	
	2016 N\$	2015 N\$	2016 N\$	2015 N\$	2016 N\$	2015 N\$
Namzinc (Proprietary) Limited	216 558 349	176 360 074	-	-	578 311 995	329 030 430
	<u>216 558 349</u>	<u>176 360 074</u>	-	-	<u>578 311 995</u>	<u>329 030 430</u>

The loans are unsecured interest free and no terms of repayment have been set.

The company is managed as part of the THL Zinc Namibia Holdings (Proprietary) Limited group and as a result has no separate key management costs.

Namzinc (Proprietary) Limited is a fellow subsidiary of Skorpion Mining Company. Both entities are wholly owned by Skorpion Zinc (Proprietary) Limited.

Settlement of the amount due from Namzinc is not expected until the company is, in turn, able to settle its liability with Namzinc.

for the year ended 31 March 2016

	<u>2016</u> N\$	<u>2015</u> N\$
6. BANK BALANCES AND CASH		
Bank balances and cash comprise cash and short-term deposits held by the treasury function. The carrying amounts of these assets approximate their fair value.		
Bank balances and cash are denominated as follows:		
Local currency:	<u>1 688 991</u>	<u>1 487 156</u>
The average interest rates earned on cash balances and short-term deposits during the year were as follows:	<u>%</u>	<u>%</u>
- Local currency	4.65	4.31
7. SHARE CAPITAL	N\$	N\$
<u>Authorised</u>		
4 000 Ordinary shares of N\$1 each	<u>4 000</u>	<u>4 000</u>
<u>Issued</u>		
100 Ordinary shares of N\$1 each	<u>100</u>	<u>100</u>
The unissued shares are under the control of the directors until the next annual general meeting.		
8. DEFERRED TAXATION		
Liability at the beginning of the year	-	-
Movement in current year	-	-
Liability at the end of the year	<u>-</u>	<u>-</u>
Deferred tax liability arises from:		
Fixed asset allowances	(38 165 033)	(72 821 400)
Prepayments	(1 353 647)	(97 706)
Restoration provision	23 664 478	31 638 565
Decommissioning provision	17 705 731	15 156 517
Other items	1 136 792	-
Tax loss available for offset against future taxable profit	<u>(2 988 321)</u>	<u>26 124 024</u>
	<u>-</u>	<u>-</u>

At 31 March 2016, a deferred tax asset of N\$ 476 761 022 (2015: N\$278 938 412) was not recognised because it is not probable that future taxable profit will be available against which the Company can utilise the benefits therefrom.

9. DECOMMISSIONING PROVISION		
Balance at beginning of year	64 363 221	71 317 724
Changes in estimates (deducted from)/capitalised to property, plant and equipment	130 907	(13 137 501)
Movements expensed to statement of comprehensive income as finance cost	6 797 906	6 182 998
Balance at end of year	<u>71 292 034</u>	<u>64 363 221</u>

The decommissioning provision relates to decommissioning of property plant and equipment where either a legal or constructive obligation is recognised as a result of past events. Estimates are based upon costs that are regularly reviewed and adjusted as appropriate for new circumstances. The current estimate was discounted at a rate of 10.31% (2015: 10.09%). These costs are expected to be incurred over the remaining Life-of-mine currently being 4 years.

10. RESTORATION PROVISION

Balance at beginning of year	101 738 939	113 238 805
Movements expensed to statement of comprehensive income as cost of sales	10 793 894	9 817 409
Changes in estimates (deducted from)/ capitalised to property, plant and equipment	665 180	(20 859 820)
Restoration cost paid	-	(457 455)
Balance at end of year	<u>113 198 013</u>	<u>101 738 939</u>

Provision is made for environmental rehabilitation costs where either a legal or constructive obligation is recognised as a result of past events. Estimates are based upon costs that are regularly reviewed and adjusted as appropriate for new circumstances. The current estimate was discounted at a rate of 10.31% (2015: 10.09%). These costs are expected to be incurred over the remaining Life-of-mine currently being 4 years.

11. TRADE AND OTHER PAYABLES

Trade payables	49 260 145	74 435 998
Royalty accrual	3 125 500	3 928 365
Other accruals	29 020 788	42 523 638
	<u>81 406 433</u>	<u>120 888 001</u>

The directors consider that the carrying amounts of accounts payable approximate their fair value.

The average credit period for trade creditors is 30 days after statement. No interest is charged during this period. Thereafter certain suppliers charge interest at various rates. The company has financial risk management policies in place to ensure that all payables are paid within the credit timeframe.

Included in trade payables is an amount of N\$ 267 235 (2015: N\$ 1 907 068) owed to Namzinc (Proprietary) Limited.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) for the year ended 31 March 2016

16. FINANCIAL AND CAPITAL RISK MANAGEMENT

Capital risk management

The company manages its capital to ensure it will be able to continue as a going concern within the THL Zinc Namibia Holdings (Proprietary) Limited group. The company's overall strategy remains unchanged from 2015.

The capital structure of the company consists of holding company and fellow subsidiary loans, cash and cash equivalents and equity attributable to the equity holder comprising issued capital and accumulated losses

The directors also being the directors of the holding company and sister company Namzinc (Proprietary) Limited are confident that the company, by virtue of being part of THL Zinc Namibia Holdings (Proprietary) Limited, has access to sufficient resources to continue trading for the foreseeable future. This assessment was made after due consideration of all the facts and circumstances in evidence at year end and notably includes the consideration that the company's fellow subsidiary, Namzinc (Pty) Ltd has subordinated its loan to Skorpion Mining Company until such time as Skorpion Mining is no longer in a net deficit position.

Foreign currency management

The company's policy is not to take cover on foreign currency transactions. The company has very limited direct exposure to foreign currency fluctuations.

Interest rate management

Borrowings are mostly obtained from the holding company and interest rates are managed in accordance with the policies set down by the Vedanta Resources plc. Group treasury function. Currently no interest is charged on the holding company loan.

Interest is earned on short-term funds deposited with banks and in terms of the Group risk expectations an increase/decrease of 1% in the rate would result in an increase/decrease in interest earnings of N\$15 867 (2015: N\$26 519).

Credit risk management

The company's main exposure to credit risk is to a fellow wholly owned subsidiary which purchases all of its zinc ore.

The company deposits cash surpluses with banks of high credit standing. The credit standing of financial institutions is evaluated from time to time.

Liquidity risk

The company manages its liquidity risk by ensuring that it has adequate banking facilities and borrowing capacity. In addition the directors, also being the directors of the holding company THL Zinc Namibia Holdings (Proprietary) Limited and sister company Namzinc (Proprietary) Limited are of the opinion that the company through its holding company and sister company has access to sufficient liquid capital to remain in operation for the foreseeable future. All of the company's exposure to financial instruments is short-term in nature.

The following tables detail the company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay.

SKORPION MINING COMPANY (PROPRIETARY) LIMITED

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued)
for the year ended 31 March 2016

16. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

Liquidity risk (continued)

The table includes both interest and principal cash flows.

	<u>Less than 1 month</u> N\$	<u>1-3 months</u> N\$	<u>3months to 1 year</u> N\$	<u>1-5 years</u> N\$	<u>5+ years</u> N\$	<u>Total</u> N\$

		71 856 946	1 623 232 803			1 695 089 749

Market risk

At period end there was no exposure to market risk over any of the company's financial assets or liabilities.

Categories of financial instruments

IFRS 13 requires additional information regarding the methodologies employed to measure the fair value of financial instruments which are recognised or disclosed in the accounts. These methodologies are categorised per the standard as:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

All the categories of financial assets and liabilities measured at fair value identified on the table below are measured using level 1.
