

INDEPENDENT AUDITOR'S REPORT

To the Members of Vedanta Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of Vedanta Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associates, joint ventures and joint operation comprising of the consolidated Balance sheet as at 31 March 2024, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associates, joint ventures and joint operation, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates, joint ventures and joint operation as at 31 March 2024, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group, associates, joint ventures and joint operation in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India

together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note 4(A) of the consolidated financial statements, with respect to accounting for an acquisition approved by the National Company Law Tribunal, Hyderabad Bench, overriding the applicable Ind-AS requirements. Further as stated in the aforesaid note, the comparative financial information for the year ended 31 March 2023 has also been restated to give effect to the terms of merger.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended 31 March 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
<p>Accounting and disclosure of related party transactions (as described in note 42(I), 42(J), 42(L), 42(M), 42(N) of the consolidated Ind AS financial statements)</p> <p>The Group has undertaken transactions with related party, Vedanta Resources Limited ('VRL'), its intermediate holding company and its affiliates including loan, payment of brand and strategic management fee, agency commission and guarantees commission.</p> <p>Accounting and disclosure of such related party transactions has been identified as a key audit matter due to a) Significance of such related party transactions; b) Risk of such transactions being executed without proper authorizations; c) Judgments and estimation involved in determination of fair value of loans and guarantees given and expected credit losses on subsequent measurement; and d) Risk of material information relating to aforesaid transactions not getting disclosed in the financial statements.</p>	<p>Our procedures included the following:</p> <ul style="list-style-type: none"> • Obtained and read the Group's policies, processes and procedures in respect of identification of such related parties in accordance with relevant laws and standards, obtaining approval, recording and disclosure of related party transactions and identified key controls. For selected controls we have performed tests of controls. • Tested such related party transactions and balances with the underlying contracts, confirmation letters and other supporting documents provided by the Group. • Examined the approvals / modification of the transactions by the board and/or audit committee. • Obtained and assessed management evaluation of the modification of the terms and its implications with regards to the regulatory requirements and Ind AS 109. . • Obtained and assessed the benchmarking report issued by the experts engaged by the management for the brand and strategic management fee. • Assessed the competence and objectivity of the external experts. • Tested the methodology adopted by the Group for determination of subsequent credit losses/(reversals) on loans to parent company and its affiliates. • Engaged valuation experts to assist us in performing the said procedures. • Held discussions and obtained representations from the management in relation to such transactions. <p>Read the disclosures made in this regard in the financial statements and assessed whether relevant and material information have been disclosed.</p>
<p>Recoverability of carrying value of property plant and equipment capital work in progress and exploration intangible assets under development (as described in note 3(a)(G), 3(a)(H)(ii), 3(c)(A)(i), 3(c)(A)(iii), 3(c)(A)(v), 3(c)(A)(vi), 6 and 36 of the consolidated Ind AS financial statements)</p> <p>As at 31 March 2024, the Group had significant amounts of property, plant and equipment, capital work in progress and exploration intangible assets under development which were carried at historical cost less depreciation.</p> <p>We focused our efforts on the Cash Generating Unit ("CGU") at (a) Tuticorin within the copper segment; (b) Rajasthan block within the oil & gas segment and (c) Western Cluster Limited in Liberia within the Iron Ore segment</p> <p>Recoverability of property plant and equipment, capital work in progress and exploration intangible assets under development being carried at cost has been identified as a key audit matter due to:</p> <ul style="list-style-type: none"> • The significance of the carrying value of assets being assessed. • The fact that the assessment of the recoverable amount of the Group's CGU involves significant judgements about the future cash flow forecasts, scrap value / Depreciated Replacement Cost, price, production forecasts and the discount rate that is applied. • The withdrawal of the Holding Company's licenses to operate the copper plant and unfavorable order of the Hon'ble Supreme Court of India, leading to an impairment charge of ₹ 746 crore. • The revision to Brent oil assumptions up to 2040 due to increased demand. • Changes in production forecasts due to adjustments in the future reserve estimates. 	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Obtained and read the Group's policies, processes and procedures in respect of identification of impairment indicators, recording and disclosure of impairment charge / (reversal) and identified key controls. For selected controls we have performed tests of controls. • Assessed through an analysis of internal and external factors impacting the Group, whether there were any indicators of impairment in line with Ind AS 36. • In relation to the CGU at (a) Tuticorin within the copper segment; (b) the Rajasthan block within the oil & gas segment and (c) Western Cluster within the Iron Ore segment where impairment (charge) / reversal indicators were identified, obtained and evaluated the valuation models used to determine the recoverable amount by assessing the key assumptions used by management, which included: <ul style="list-style-type: none"> – Assessment of implications of withdrawal of Holding Company's license to operate the copper plant at Tuticorin. Assessed management's position after unfavorable order of the Hon'ble Supreme Court against reopening of the plant and its consequential impairment on PPE, CWIP and other assets. – Evaluated the valuation methodology adopted by the management i.e. determination of fair value less cost of disposal through various scenarios in light of the facts and circumstances of the matter. – Assessed management's forecasting accuracy by comparing prior year forecasts to actual results and assessed the potential impact of any variances.

Key audit matters	How our audit addressed the key audit matter
<ul style="list-style-type: none"> Receipt of final partial arbitration award on DGH demand arbitration and accordingly recognized ₹ 4,761 crore in revenue from operations due to allowance of exploration cost recovery and its impact on IM tranche. Accordingly, impairment of ₹ 1,179 crore was reversed on PPE. However, the government has filed an appeal with the High Court against the arbitration award. The fact that in the previous year, the Group obtained the mining license and have started the mining activity at Bomi mine in Liberia, leading to reversal of impairment in the previous year. However, the operations in the current year were not in line with the projected performance. <p>The key judgements and estimates are centered on the assessment of Scrap / Depreciated Replacement Cost for the Copper plant, cash flow forecasts, impact of litigation w.r.t. partial arbitration award, discount rate assumptions, price and production forecasts and related disclosures as given in note 6 (Property, plant and equipment) / 36 (Exceptional items) of the accompanying financial statements.</p>	<ul style="list-style-type: none"> Corroborated the sales price assumptions used in the models against analyst consensus / geography of sales and assessed the reasonableness of costs. Compared the production forecasts used in the impairment tests with management's approved reserves and resources estimates. Evaluated the grounds of appeal filed with High Court for partial arbitration award received by Company. Tested the weighted average cost of capital used to discount the impairment models. Tested the mathematical accuracy of the models. Compared assumptions used by management in respect of price forecast and ore grade against the consensus report, reserve and resource report. Assessed Group's reserves and resources estimation methods and policies and reading reports provided by management's external reserves experts and assessed the scope of work and findings of these third parties; Assessed the competence, capability and objectivity of experts engaged by management; through understanding their relevant professional qualifications and experience. Engaged valuation experts to assist in performance of the above procedures. <ul style="list-style-type: none"> Assessed the disclosures made by the Group in this regard and evaluated the considerations leading to disclosure of above impairment (charge) / reversal as exceptional items.

Recoverability of disputed trade receivables in Power segment (as described in note 3(c)(B)(iii) and Note 8 of the consolidated Ind AS financial statements)

<p>As of 31 March 2024 the value of disputed receivables in the power segment aggregated to ₹ 2,293 crore.</p> <p>Due to short supply or non-supply of power due to transmission line constraints, order received from Orissa State Electricity Regulatory Commission (OERC), matters related to change of law following execution of power purchase agreement and disagreements over the quantification relating to aforementioned disputes or timing of the recovery of receivables, the recovery of said receivables are subject to increased risk. Some of these balances are also subject to litigation. The risk is specifically related to receivables from Punjab State Power Corporation Limited (PSPCL) and GRIDCO. These receivables include long outstanding balances as well and are also subject to counter party credit risk and hence considered as a key audit matter.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> Examined the underlying power purchase agreements. Examined the relevant state regulatory commission, appellate tribunal and court rulings. Obtained and assessed the model prepared by the management for computation of Expected credit loss on the disputed receivables, including testing of key assumptions. Tested arithmetical accuracy of the models prepared by the management. Obtained independent external lawyer confirmation from Legal Counsel of the Group who is contesting the cases. Examined external legal opinions in respect of the merits of the case and assessed management's position through discussions with the management's in-house legal team to determine the basis of their conclusion. Assessed the competence and objectivity of the Group's experts. Assessed the disclosures made by the Group in this regard.
---	--

Key audit matters	How our audit addressed the key audit matter
<p>Claims and exposures relating to taxation and litigation (as described in note 3(c)(B)(ii), 36, 37e, 40D and 41 of the consolidated Ind AS financial statements)</p> <p>The Group is subject to a large number of tax and legal disputes, including developments in the DGH arbitration matter in the oil and gas segment, vendor arbitrations / termination of contract, mining royalty demand, income tax disallowances and various indirect tax disputes which have been disclosed / provided for in the financial statements based on the facts and circumstances of each case.</p> <p>Taxation and litigation exposures (including termination of contract) have been identified as a key audit matter due to the complexities involved in these matters, timescales involved for resolution and the potential financial impact of these on the financial statements. Further, significant management judgement is involved in assessing the exposure of each case and thus a risk that such cases and thus a higher risk involved on adequacy of provision or disclosure of such cases.</p>	<p>Our audit procedures included the following:-</p> <ul style="list-style-type: none"> Obtained an understanding of the process of identification of claims, litigations and its classification as probable, possible or remote and identified key controls in the process. For selected controls we have performed tests of controls. Obtained the summary of Group's legal and tax cases and critically assessed management's position through discussions with the Legal Counsel, Head of Tax and operational management, on both the probability of success in significant cases, and the magnitude of any potential loss. Obtained independent external lawyer confirmation from Legal Counsel of the Group who is contesting the cases. Examined external legal opinions (where considered necessary) and other evidence to corroborate management's assessment of the risk profile in respect of legal claims. Assessed the competence and objectivity of the Group's experts. Engaged tax specialists to technically appraise the tax positions taken by management with respect to local tax issues. Assessed whether management assessment of similar cases is consistent across the divisions and subsidiaries or that differences in positions are adequately justified. Assessed whether management assessment of similar cases is consistent with the positions taken in earlier periods or that difference in positions are adequately justified. Evaluated management assessment as per contractual terms, in respect of amount written back amounting to ₹ 794 crore in the statement of Profit and loss, relating to capital contractors due to its continuing failure in fulfilling contractual obligations impacting plant performance and towards loss of profit due to plant performance in the current and earlier years and adjusted ₹ 458 crore towards the cost of spares and ancillaries capitalised in PPE in earlier years Assessed the relevant disclosures made within the financial statements to address accuracy of the amounts and whether they reflect the facts and circumstances of the respective tax and legal exposures and the requirements of relevant accounting standards.
<p>Recoverability of Deferred Tax Assets (as described in note 3(c)(A)(ii) and 37 of the consolidated Ind AS financial statements)</p> <p>Deferred tax assets ("DTA") as at 31 March 2024 includes an amount of ₹ 2,787 crore pertaining to ESL Steels Limited (ESL), one of the component of the Group.</p> <p>The analysis of the recoverability of such deferred tax assets has been identified as a key audit matter by the component auditor because the assessment process involves judgement regarding the future profitability, allowability of tax positions / deductions claimed by the management in the tax computations and likelihood of the realizability of the deferred tax assets, in particular whether there will be taxable profits in future periods that support the recoverability of these assets. This requires assumptions regarding future profitability, which is inherently uncertain. Accordingly, the same is considered as a key audit matter.</p>	<p>Our audit procedures included the following:-</p> <ul style="list-style-type: none"> Obtained an understanding of the group's process for estimating the recoverability of the deferred tax assets. Performed procedures as per SA 600 – Using the Work of Another Auditor. Engaged with the component auditor to evaluate the procedures performed by them with respect to the recoverability assessment of the DTA. We performed inquiry of the audit procedures performed by them to address the key audit matter. As reported to us by the subsidiary auditor, the following procedure have been performed by them: <ul style="list-style-type: none"> Analysis of the future projections of taxable profits estimated by management, assessing the key assumptions used, including the analysis of the consistency of the actual results obtained by the various segments with those projected in the previous year. We further obtained evidence of the approval of the budgeted results included in the current year's projections, and the reasonableness of the future cash flow projections. Assessed management's forecasting accuracy by comparing prior year forecasts to actual results and assessed the potential impact of any variances. Tested the accuracy of the deductions availed under the Income Tax Act included in the tax computation. Tested the computation of the amounts recognized as deferred tax assets. Assessed the disclosures made by the Group in this regard.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associates, joint ventures and joint operation in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operation are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operation are responsible for assessing the ability of their

respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operation are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates, joint ventures and joint operation to continue

as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates, joint ventures and joint operation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates, joint ventures and joint operation of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended 31 March 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of 26 subsidiaries, whose financial statements include total assets of Rs 41,040 Crore as at 31 March 2024, and total revenues of Rs 17,027 Crore, total net loss after tax of Rs 3,093 Crore, total comprehensive loss of Rs 3,089 Crore, and net cash outflows of Rs 72 Crore for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated financial statements also include the Group's share of total assets of ₹ Nil, total revenues of ₹ Nil, total net profit of ₹ 2 crore, and net cash inflows of ₹ Nil for the year ended 31 March 2024, as considered in the consolidated financial statements, in respect of 1 associate and 1 joint venture, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint venture and associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint venture and associate, is based solely on the report(s) of such other auditors.

Certain of these subsidiaries, associate and joint venture are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries, associate and joint venture located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries, joint venture and associate located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

- (b) The accompanying consolidated financial statements include unaudited financial statements and other unaudited financial information in respect of 9 subsidiaries, whose financial statements and other financial information reflect total assets of ₹ 2,141 Crore as at 31 March 2024, total revenues of ₹ 239 Crore, total net loss after tax of ₹ 486 Crore, total comprehensive loss of ₹ 481 Crore and net cash outflows of ₹ 12 Crore for the year ended on that date. These unaudited

financial statements and other unaudited financial information have been furnished to us by the management. The consolidated financial statements also include the Group's share of total assets of ₹ Nil, total revenues of ₹ Nil, total net profit of ₹ Nil, total comprehensive income of ₹ Nil and net cash inflows of ₹ Nil for the year ended 31 March 2024, as considered in the consolidated financial statements, in respect of 1 associate and 3 joint ventures, whose financial statements, other financial information have not been audited and whose unaudited financial statements, other unaudited financial information have been furnished to us by the Management. The consolidated Ind AS financial statements also includes group's share of total assets of ₹ 200 crore as at 31 March 2024, total revenues of ₹ 111 Crore, total net profit after tax of ₹ 28 Crore, total comprehensive income of ₹ 28 Crore for the year ended 31 March 2024, and net cash inflows of ₹ Nil for the year ended 31 March 2024 in respect of unincorporated joint operation not operated by the Group. Our opinion, in so far as it relates amounts and disclosures included in respect of these subsidiaries, joint ventures, joint operation and associate, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, joint ventures and associate, is based solely on such unaudited financial statements and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, associate companies, joint ventures and joint operation, incorporated in India, as noted in the 'Other Matter' paragraph we give in the "Annexure 1" a statement on the matters specified in paragraph 3(xxi) of the Order.
- As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, associates, joint ventures and joint operations, as noted in the

'other matter' paragraph we report, to the extent applicable, that:

- We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors except for the matters stated in the paragraph i(vi) below on reporting under Rule 11(g);
- The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- On the basis of the written representations received from the directors of the Holding Company as on 31 March 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, associate companies, joint ventures and joint operation, none of the directors of the Group's companies, its associates, joint ventures and joint operations, incorporated in India, is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
- With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies, associate companies, joint ventures and joint operations, incorporated in India, and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, associates, joint ventures and joint operations incorporated in India, the managerial

remuneration for the year ended 31 March 2024 has been paid / provided by the Holding Company, its subsidiaries, associates, joint ventures and joint operations incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;

- The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph (b) above on reporting under Section 143(3)(b) and paragraph i(vi) below on reporting under Rule 11(g).
- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us [and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, associates, joint ventures and joint operations, as noted in the 'Other matter' paragraph:
 - The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group, its associates, joint ventures and joint operations in its consolidated financial statements – Refer Note 3(c)(B) (ii), 36, 37e, 40D and 41 to the consolidated financial statements;
 - The Group, its associates, joint ventures and joint operations did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended 31 March 2024;
 - There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its subsidiaries, associates, joint ventures and joint operations, incorporated in India during the year ended 31 March 2024.
 - The respective managements of the Holding Company and its subsidiaries, associate, joint ventures and joint operations which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries, associate, joint ventures and joint operations respectively that, to the best of its knowledge and belief, as disclosed

in the note 42(O) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, associates, joint ventures and joint operations to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Holding Company or any of such subsidiaries, associate, joint ventures and joint operations ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- The respective managements of the Holding Company and its subsidiaries, associates, joint ventures and joint operations which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries, associates, joint ventures and joint operations respectively that, to the best of its knowledge and belief, other than as disclosed in the note 42(O) to the consolidated financial statements, no funds have been received by the respective Holding Company or any of such subsidiaries, associates, joint ventures and joint operations from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries, associates, joint ventures and joint operations shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed

by the auditors of the subsidiaries, associates, joint ventures and joint operations which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.

v) The interim dividend declared and paid during the year by the Holding Company, its subsidiaries, associate, joint venture and joint operation companies incorporated in India and until the date of the respective audit reports of such Holding Company, subsidiaries, associate joint ventures and joint operations is in accordance with section 123 of the Act.

vi) Based on our examination which included test checks and that performed by the respective auditors of the subsidiaries, associates, joint ventures and joint operations, which are companies incorporated in India whose

financial statements have been audited under the Act, except for the instances discussed in note 46 to the financial statements, the Holding Company, subsidiaries, associates and joint ventures have used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and respective auditors of the above referred subsidiaries, associates and joint ventures did not come across any instance of audit trail feature being tampered in respect of other accounting software.

ANNEXURE-2

to the Independent Auditor's Report of even date on the Consolidated Ind AS Financial Statements of Vedanta Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of Vedanta Limited (hereinafter referred to as the "Holding Company") as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associates and joint ventures and joint operation, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its 21 subsidiary companies, its 1 associate company and 2 joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Committee of Sponsoring Organisations of the Treadway Commission (2013 Framework) ("COSO 2013 Criteria"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these consolidated Ind AS financial statements was

established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these consolidated Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to these consolidated Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to these consolidated Ind AS financial statements.

Meaning of Internal Financial Controls With Reference to these Consolidated Ind AS Financial Statements

A company's internal financial control with reference to these consolidated Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to these consolidated Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to these consolidated Ind AS financial statements to future periods are subject to the risk that the internal financial controls with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, its associate company and joint ventures, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to these consolidated Ind AS financial statements and such internal financial controls with reference to these

consolidated Ind AS financial statements were operating effectively as at 31 March 2024, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the COSO 2013 criterion.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to these consolidated financial statements of the Holding Company, in so far as it relates to 12 subsidiary companies, 1 associate and 2 joint ventures which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries, associates and joint ventures incorporated in India.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

1 Group overview

Vedanta Limited ("the Company") (CIN: L13209MH1965PLC291394) and its consolidated subsidiaries (collectively, the "Group") is a diversified natural resource group engaged in exploring, extracting and processing minerals and oil and gas. The Group engages in the exploration, production and sale of zinc, lead, silver, copper, aluminium, iron ore and oil and gas and has a presence across India, South Africa, Namibia, Ireland, Australia, Liberia and UAE. The Group is also in the business of commercial power generation, steel manufacturing and port operations in India and manufacturing of glass substrate in South Korea and Taiwan.

The Company was incorporated on 08 September 1975 under the laws of the Republic of India. The registered office of the Company is situated at 1st Floor, 'C' wing, Unit 103, Corporate Avenue, Atul Projects, Chakala, Andheri (East), Mumbai-400093, Maharashtra. The Company's shares are listed on National Stock Exchange ('NSE') and Bombay Stock Exchange ('BSE') in India. In June 2007, the Company completed its initial public offering of American Depositary Shares, or ADS, each representing four equity shares, and listed its ADSs on the New York Stock Exchange ('NYSE').

The ADSs of the Company have been delisted from NYSE effective close of trading on NYSE on 08 November 2021. The Company has been deregistered from SEC under the Exchange Act effective 01 March 2023.

The Company is majority owned by Twin Star Holdings Limited ("Twin Star"), Finsider International Company Limited ("Finsider"), Vedanta Holdings Mauritius II Limited ("VHM2L"), Vedanta Holdings Mauritius Limited ("VHML"), Welter Trading Limited ("Welter") and Vedanta Netherlands Investments BV ("VNIBV") which are in turn wholly-owned subsidiaries of Vedanta Resources Limited ("VRL"), a company incorporated in the United Kingdom. VRL, through its subsidiaries, held 61.95% (31 March 2023: 68.11%) of the Company's equity as at 31 March 2024.

Details of Group's various businesses are as follows. The Group's percentage holdings in each of the below businesses are disclosed in note 43.

- Zinc India business is owned and operated by Hindustan Zinc Limited ("HZL").
- Zinc international business comprises Skorpion mine and refinery in Namibia operated through THL Zinc Namibia Holdings (Proprietary) Limited ("Skorpion"),

Lisheen mine in Ireland operated through Vedanta Lisheen Holdings Limited ("Lisheen") (Lisheen mine ceased operations in December 2015) and Black Mountain Mining (Proprietary) Limited ("BMM"), whose assets include the operational Black Mountain mine and the Gamsberg mine project located in South Africa.

- The Group's oil and gas business is owned and operated by the Company and its subsidiary, Cairn Energy Hydrocarbons Limited and consists of exploration and development and production of oil and gas.
- The Group's iron ore business is owned by the Company, and by its wholly owned subsidiary, i.e., Sesa Resources Limited and consists of exploration, mining and processing of iron ore, pig iron and metallurgical coke and generation of power for captive use. Pursuant to the Honourable Supreme Court of India order, mining operations in the state of Goa were suspended. During the year ended 31 March 2023, the Government of Goa had initiated auction of mines in which the Company had participated. The Company was declared as the principal bidder for the Bicholim mine and had received the Letter of Intent (LOI) from the Government of Goa. During the current year, the Company has received environment clearance from Ministry of Environment, Forest and Climate Change ("MoEFCC") and Consent to Operate ("CTO") from Goa State Pollution Board followed by commencement of operations in March 2024.

In addition, the Group's iron ore business also includes a wholly owned subsidiary, Western Cluster Limited ("WCL") in Liberia which has iron ore assets. WCL's assets include development rights to Western Cluster and a network of iron ore deposits in West Africa. During the previous year, WCL had signed a Memorandum of Understanding with the Government of Liberia to re-start its mining operations in Liberia post which commercial production and shipments of saleable ore were commenced.

- The Group's copper business is owned and operated by the Company, Copper Mines of Tasmania Pty Ltd ("CMT") and Fujairah Gold FZC and is principally one of custom smelting and includes captive power plants at Tuticorin in Southern India.

The Group's copper business in Tamil Nadu, India has received an order from the Tamil Nadu Pollution Control Board ("TNPCB") on 09 April 2018, rejecting the Company's application for renewal of consent to operate under the Air and Water Acts for the

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

4,00,000 TPA copper smelter plant in Tuticorin for want of further clarification and consequently the operations were suspended. The Company has filed an appeal with TNPCB Appellate authority against the said order. During the pendency of the appeal, TNPCB through its order dated 23 May 2018 ordered for disconnection of electricity supply and closure of copper smelter plant. Post such order, the state government on 28 May 2018 ordered the permanent closure of the plant. The Company has filed a writ petition before the Madras High Court challenging the various orders passed against the Company in FY 2018 and FY 2013. On 18 August 2020, the Madras High Court delivered the judgement wherein it dismissed all the Writ Petitions filed by the Company. Thereafter, the Company has approached the Supreme Court and challenged the said High Court order by way of a Special Leave Petition ("SLP"). During the year ended 31 March 2024, the Hon'ble Supreme Court, after hearing the Parties to the proceedings has dismissed the SLP filed by the Company vide judgment dated 29 February 2024. On 01 April 2024, the Company preferred a review petition before the Hon'ble Supreme Court. (Refer note 3(c)(A)(iii)).

Further, the Company's copper business includes refinery and rod plant at Silvassa consisting of a 2,45,000 MT of blister/ secondary material processing plant, a 2,16,000 TPA copper refinery plant and a copper rod mill with an installed capacity of 2,58,000 TPA. The plant continues to operate as usual, catering to the domestic market.

In addition, the Group owns and operates a precious metal refinery and copper rod plant in Fujairah, UAE through its subsidiary Fujairah Gold FZC and the Mt. Lyell copper mine in Tasmania, Australia through its subsidiary, CMT. The operations of Mt Lyell copper mine were suspended in January 2014 following a mud slide incident and were put into care and maintenance since 09 July 2014 following a rock fall incident in June 2014. In November 2021, the Group executed an arrangement with a third party for further exploration with an option to fully divest its shareholding in return for royalties on successful mining and production. In November 2023, the Group has divested its 100% equity ownership in CMT at consideration agreed as per above arrangement [Refer note 4(D)].

- The Group's Aluminium business is owned and operated by the Company and by Bharat Aluminium Company Limited ("BALCO"). The aluminium operations include a refinery and captive power plant

at Lanjigarh, smelter and captive power plants at Jharsuguda and coal mines at Jamkhani, all situated in the State of Odisha in Eastern India. BALCO's partially integrated aluminium operations comprise two bauxite mines, two coal mines, power plants, smelting and fabrication facilities in the State of Chhattisgarh in central India.

- The Group's power business is owned and operated by the Company, and its wholly owned subsidiaries, Talwandi Sabo Power Limited ("TSPL") and Meenakshi Energy Limited ("Meenakshi"), which are engaged in the power generation business in India.

The Company's power operations include a thermal coal-based commercial power facility of 600 MW at Jharsuguda in the State of Odisha in Eastern India and a 1,200 MW (two units of 600 MW each) thermal coal-based power plant, in the State of Chhattisgarh in Eastern India. Talwandi Sabo Power Limited ("TSPL") power operations include 1,980 MW (three units of 660 MW each) thermal coal-based commercial power facilities. Meenakshi power operations include 1,000 MW coal-based power plant (two units of 150 MW each and two units of 350 MW each), located at Nellore, Andhra Pradesh. Power business also includes the wind power plants commissioned by HZL and a power plant at MALCO Energy Limited ("MEL") (under care and maintenance) situated at Mettur Dam in the State of Tamil Nadu in southern India.

- The Group's other activities include ESL Steel Limited ("ESL") (formerly known as Electrosteel Steels Limited). ESL is engaged in the manufacturing and supply of billets, TMT bars, wire rods and ductile iron pipes in India and also deals in mining of iron ore and its supply.

The Group's other business also include Vizag General Cargo Berth Private Limited ("VGCB"). Vizag port project includes mechanisation of coal handling facilities and upgradation of general cargo berth for handling coal at the outer harbour of Visakhapatnam Port on the east coast of India. VGCB commenced operations in the fourth quarter of fiscal 2013. The Group's other business also include AvanStrate Inc. ("ASI"), Vedanta Semiconductors Private Limited ("VSPL"), Vedanta Displays Limited ("VDL"), Ferro Alloys Corporation Limited ("FACOR") and Desai Cement Company Private Limited ("DCCPL"). ASI is involved in the manufacturing of glass substrate in South Korea and Taiwan. The Company has acquired Vedanta Semiconductors Private Limited

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

and Vedanta Displays Limited during the current year for manufacturing semiconductor and display glass panels, respectively. FACOR is involved in manufacturing of Ferro Alloys, mining of chrome ore and generation of power. It owns a ferro chrome plant with a capacity of approximately 1,40,000 TPA, a 100MW power plant and mines in Sukinda valley with current capacity of 2,90,000 TPA. DCCPL is involved in business of producing slag cements and owns three ball mills with capacity of 2,18,000 TPA.

2 Basis of preparation and basis of measurement of financial statements

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, presentation requirement of Division II of schedule III and other relevant provisions of the Companies Act, 2013 (the "Act") (as amended from time to time), guidelines issued by the Securities and Exchange Board of India ("SEBI") and Guidance Note on Accounting for Oil and Gas Producing Activities issued by the Institute of Chartered Accountants of India.

These consolidated financial statements have been prepared in accordance with the accounting policies, set out below and were consistently applied to all periods presented unless otherwise stated.

The Group has identified 12 months as its operating cycle for the classification of assets and liabilities into current and non-current.

These consolidated financial statements are approved for issue by the Board of Directors on 25 April 2024. The revision to these consolidated financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

All financial information presented in Indian Rupees has been rounded off to the nearest crore except when indicated otherwise. Amounts less than ₹ 0.50 crore have been presented as "0".

The consolidated financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets and liabilities which are measured at fair value as explained in the accounting policies below. The Group has availed long term debt (refer note 19A and 19B). In the unlikely event Vedanta Resources Limited (together with its

subsidiaries) ceases to hold more than 50.1% stake in the Company and its certain subsidiaries, ₹ 49,456 Crore of the Group's outstanding long-term debt would become repayable on demand. Management basis assessment of free cash flows, its ability to refinance existing debt and other strategic initiatives, considers the same as remote.

3(a) Material accounting policies

(A) Basis of Consolidation

i) Subsidiaries:

The consolidated financial statements incorporate the results of the Company and all its subsidiaries (the "Group"), being the entities that it controls.

The financial statements of subsidiaries are prepared for the same reporting year as the parent company. Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the Group.

For non-wholly owned subsidiaries, a share of the profit/(loss) for the financial year and net assets is attributed to the non-controlling interests as shown in the consolidated statement of profit and loss and consolidated balance sheet.

Liability for put option issued to non-controlling interests which do not grant present access to ownership interest to the Group is recognised at present value of the redemption amount and is reclassified from equity. At the end of each reporting period, the non-controlling interests subject to put option is derecognised and the difference between the amount derecognised and present value of the redemption amount, which is recorded as a financial liability, is accounted for as an equity transaction.

For acquisitions of additional interests in subsidiaries, where there is no change in control, the Group recognises a reduction to the non-controlling interest of the respective subsidiary with the difference between this figure and the cash paid, inclusive of transaction fees, being recognised in equity. The results of subsidiaries acquired or disposed off during the year are included in the consolidated statement of profit and loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Intra-Group balances and transactions, and any unrealised profit arising from intra-Group transactions, are eliminated. Unrealised losses are eliminated unless costs cannot be recovered.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

ii) Joint arrangements

A Joint arrangement is an arrangement of which two or more parties have joint control. Joint control is considered when there is contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Investments in joint arrangements are classified as either joint operations or joint venture. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby, the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

The Group has both joint operations and joint ventures.

Joint operations

The Group has joint operations within its Oil and gas segment. It participates in several unincorporated joint operations which involve the joint control of assets used in oil and gas exploration and producing activities. The Group accounts for its share of assets, liabilities, income and expenditure of joint operations in which the Group holds an interest. Liabilities in unincorporated joint operations, where the Group is the operator, is accounted for at gross values (including share of other partners) with a corresponding receivable from the venture partner. These have been included in the consolidated financial statements under the appropriate headings.

Details of joint operations are set out in Note 43.

Joint venture

The Group accounts for its interest in joint venture using the equity method (see (iv) below), after initially being recognised at cost in the consolidated balance sheet. Goodwill arising on the acquisition of joint venture is included in the carrying value of investments in joint venture.

iii) Investments in associates

Investments in associates are accounted for using the equity method (see (iv) below).

iv) Equity method of accounting

Under the equity method of accounting applicable for investments in associates and joint ventures, investments are initially recorded at the cost to the Group and then, in subsequent periods, the carrying

value is adjusted to reflect the Group's share of the post-acquisition profits or losses of the investee, and the Group's share of other comprehensive income of the investee, other changes to the investee's net assets and is further adjusted for impairment losses, if any. Dividend received or receivable from associates and joint-ventures are recognised as a reduction in carrying amount of the investment.

The consolidated statement of profit and loss include the Group's share of investee's results, except where the investee is generating losses, share of such losses in excess of the Group's interest in that investee are not recognised. Losses recognised under the equity method in excess of the Group's investment in ordinary shares are applied to the other components of the Group's interest that forms part of Group's net investment in the investee in the reverse order of their seniority (i.e., priority in liquidation).

If the Group's share of losses in an associate or joint venture equals or exceeds its interests in the associate or joint venture, the Group discontinues the recognition of further losses. Additional losses are provided for, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate/joint venture.

Unrealised gains arising from transactions with associates and joint ventures are eliminated against the investment to the extent of the Group's interest in these entities. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment of the asset transferred. Accounting policies of equity accounted investees is changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in Note 3(a)(G) below.

(B) Business combination

Business combinations are accounted for under the acquisition method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under Ind AS 103 'Business Combinations' are recognised at their fair value at the acquisition date, except certain assets and liabilities required to be measured as per the applicable standards.

Excess of fair value of purchase consideration and the acquisition date non-controlling interest over the acquisition date fair value of identifiable assets acquired and liabilities assumed is recognised as

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

goodwill. Goodwill arising on acquisitions is reviewed for impairment annually. Where the fair values of the identifiable assets and liabilities exceed the purchase consideration, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the Group recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

Where it is not possible to complete the determination of fair values by the date on which the first post-acquisition financial statements are approved, a provisional assessment of fair value is made and any adjustments required to those provisional fair values are finalised within 12 months of the acquisition date.

Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed twelve months from the acquisition date.

Any non-controlling interest in an acquiree is measured at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets. This accounting choice is made on a transaction by transaction basis.

Acquisition expenses are charged to the consolidated statement of profit and loss in the periods in which the costs are incurred and the services are received except costs to issue debt or equity securities which shall be recognised in accordance with Ind AS 32 and Ind AS 109.

If the Group acquires a group of assets in a company that does not constitute a business combination in accordance with Ind AS 103 'Business Combinations', the cost of the acquired group of assets is allocated to the individual identifiable assets acquired based on their relative fair value.

Common control transactions

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts recorded in the parent entity's consolidated financial statements with the exception of certain income tax and deferred tax assets. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.

The components of equity of the acquired companies are added to the same components within Group equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves. The company's shares issued in consideration for the acquired companies are recognised at face value from the moment the acquired companies are included in these financial statements and the financial statements of the commonly controlled entities would be combined, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented. However, the prior year comparative information is only adjusted for periods during which entities were under common control.

(C) Revenue recognition

• Sale of goods/rendering of services (Including Revenue from contracts with customers)

The Group's revenue from contracts with customers is mainly from the sale of copper, aluminium, iron ore, zinc, oil and gas, power, steel, glass substrate and port operations. Revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer as per terms of contract, which usually is on delivery of the goods to the shipping agent at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. Revenue is recognised net of discounts, volume rebates, outgoing sales taxes/ goods and service tax and other indirect taxes. Revenues from sale of by-products are included in revenue.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Certain of the Group's sales contracts provide for provisional pricing based on the price on the London Metal Exchange (LME) and crude index, as specified in the contract. Revenue in respect of such contracts is recognised when control passes to the customer and is measured at the amount the entity expects to be entitled – being the estimate of the price expected to be received at the end of the measurement period. Post transfer of control of goods, provisional pricing features are accounted in accordance with Ind AS 109 'Financial Instruments' rather than Ind AS 115 'Revenue from contracts with customers' and therefore the Ind AS 115 rules on variable consideration do not apply. These 'provisional pricing' adjustments, i.e., the consideration adjusted post transfer of control are included in total revenue from operations on the face of the consolidated statement of profit and loss and disclosed by way of note to the financial statements. Final settlement of the price is based on the applicable price for a specified future period. The Group's provisionally priced sales are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in revenue.

Revenue from oil, gas and condensate sales represent the Group's share in the revenue from sale of such products, by the joint operations, and is recognised as and when control in these products gets transferred to the customers. In computing its share of revenue, the Group excludes government's share of profit oil which gets accounted for when the obligation in respect of the same arises.

Revenue from sale of power is recognised when delivered and measured based on rates as per bilateral contractual agreements with buyers and at a rate arrived at based on the principles laid down under the relevant Tariff Regulations as notified by the regulatory bodies, as applicable.

Where the Group acts as a port operator, revenues relating to operating and maintenance phase of the port contract are recognised when the services are rendered at the amount that Group expects to be entitled to for the services provided.

If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is received. The advance payments received plus a specified rate of return/ discount, at the prevailing market rates, is settled by supplying respective goods over a period of up to twenty four months under an agreed delivery schedule as per the terms of the respective agreements. As these are contracts that the Group expects, and has

the ability, to fulfil through delivery of a non-financial item, these are presented as advance from customers and are recognised as revenue as and when control of respective commodities is transferred to customers under the agreements. The fixed rate of return/discount is treated as finance cost. The portion of the advance where either the Group does not have a unilateral right to defer settlement beyond 12 months or expects settlement within 12 months from the balance sheet date is classified as current liability.

• Interest income

Interest income from debt instruments is recognised using the effective interest rate method.

• Dividends

Dividend income is recognised in the consolidated statement of profit and loss only when the right to receive payment is established, provided it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

(D) Property, Plant and Equipment

i) Mining properties and leases

When a decision is taken that a mining property is viable for commercial production (i.e., when the Group determines that the mining property will provide sufficient and sustainable return relative to the risks and the Group decided to proceed with the mine development), all further pre-production primary development expenditure other than that on land, buildings, plant, equipment and capital work in progress is capitalised as property, plant and equipment under the heading "Mining properties and leases" together with any amount transferred from "Exploration and evaluation" assets. The costs of mining properties and leases include the costs of acquiring and developing mining properties.

The stripping cost incurred during the production phase of a surface mine is deferred to the extent the current period stripping cost exceeds the average period stripping cost over the life of mine and recognised as an asset if such cost provides a benefit in terms of improved access to ore in future periods and certain criteria are met. When the benefit from the stripping costs are realised in the current period, the stripping costs are accounted for as the cost of inventory. If the costs of inventory produced and the stripping activity asset are not separately identifiable, a relevant production measure is used to allocate the production stripping costs between the inventory produced and the stripping activity asset. The Group uses the expected

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

volume of waste compared with the actual volume of waste extracted for a given value of ore/ mineral production for the purpose of determining the cost of the stripping activity asset.

Deferred stripping costs are included in mining properties within property, plant and equipment and disclosed as a part of mining properties. After initial recognition, the stripping activity asset is depreciated on a unit of production method over the expected useful life of the identified component of the ore body.

In circumstances where a mining property is abandoned, the cumulative capitalised costs relating to the property are written off in the period in which it occurs, i.e., when the Group determines that the mining property will not provide sufficient and sustainable returns relative to the risks and the Group decides not to proceed with the mine development.

Commercial reserves are proved and probable reserves as defined by the 'JORC' Code, 'MORC' code or 'SAMREC' Code. Changes in the commercial reserves affecting unit of production calculations are dealt with prospectively over the revised remaining reserves.

ii) Oil and gas assets- (developing/producing assets)

For oil and gas assets, a "successful efforts" based accounting policy is followed. Costs incurred prior to obtaining the legal rights to explore an area are expensed immediately to the consolidated statement of profit and loss.

All costs incurred after the technical feasibility and commercial viability of producing hydrocarbons has been demonstrated are capitalised within property, plant and equipment - development/producing assets on a field-by-field basis. Subsequent expenditure is capitalised only where it either enhances the economic benefits of the development/producing asset or replaces part of the existing development/producing asset. Any remaining costs associated with the part replaced are expensed.

Net proceeds from any disposal of development/ producing assets are credited against the previously capitalised cost. A gain or loss on disposal of a development/producing asset is recognised in the consolidated statement of profit and loss to the extent that the net proceeds exceed or are less than the appropriate portion of the net capitalised costs of the asset.

iii) Other property, plant and equipment

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Subsequently, property plant and equipment is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the consolidated statement of profit and loss for the period during which such expenses are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset or disposal. Gains and losses on disposal of an item of property, plant and equipment is included in the statement of profit and loss when the asset is derecognised. Major inspection and overhaul expenditure is capitalised, if the recognition criteria are met.

iv) Assets under construction

Assets under construction are capitalised in the assets under Capital work in progress. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset and any obligatory decommissioning costs are capitalised until the period of commissioning has been completed and the asset is ready for its intended use.

Capital work in progress is carried at cost less accumulated impairment losses, if any.

v) Depreciation, depletion and amortisation expense

Mining properties and other assets in the course of development or construction and freehold land and goodwill are not depreciated or amortised.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

• Mining properties

The capitalised mining properties are amortised on a unit-of-production basis over the total estimated remaining commercial proved and probable reserves of each property or group of properties and are subject to impairment review. Costs used in the unit of production calculation comprise the net book value of capitalised costs plus the estimated future capital expenditure required to access the commercial reserves. Changes in the estimates of commercial reserves or future capital expenditure are dealt with prospectively.

• Oil and gas producing facilities

All expenditures carried within each field are amortised from the commencement of production on a unit of production basis, which is the ratio of oil and gas production in the period to the estimated quantities of depletable reserves at the end of the period plus the production in the period, generally on a field-by-field basis or group of fields which are reliant on common infrastructure.

Depletable reserves are proved reserves for acquisition costs and proved and developed reserves for successful exploratory wells, development wells, processing facilities, distribution assets, estimated future abandonment cost and all other related costs. These assets are depleted within each cost centre. Reserves for this purpose are considered on working interest basis which are reassessed atleast annually. Impact of changes to reserves are accounted for prospectively.

• Other assets

Depreciation on other Property, plant and equipment is calculated using the straight-line method (SLM) to allocate their cost, net of their residual values, over their estimated useful lives (determined by the management) as given below. Management's assessment takes into account, inter alia, the nature of the assets, the estimated usage of the assets, the operating conditions of the assets, past history of replacement and maintenance support.

Estimated useful life of assets are as follows:

Asset	Useful life (in years)
Buildings (Residential; factory etc.)	3-60
Plant and equipment	15-40
Railway siding	15
Office equipment	3-6
Furniture and fixture	8-10
Vehicles	8-10

Major inspection and overhaul costs are depreciated over the estimated life of the economic benefit to be derived from such costs. The carrying amount of the remaining previous overhaul cost is charged to the consolidated statement of profit and loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

The Group reviews the residual value and useful life of an asset at least at each financial year-end. The Group considers climate-related matters, including physical and transition risks in its assessment of expected useful lives and estimated residual values. If expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

(E) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

The Group recognises port concession rights as "Intangible Assets" arising from a service concession arrangements, in which the grantor controls or regulates the services provided and the prices charged, and also controls any significant residual interest in the infrastructure such as property, plant and equipment, irrespective whether the infrastructure is existing infrastructure of the grantor or the infrastructure is constructed or purchased by the Group as part of the service concession arrangement. Such an intangible asset is recognised by the Group initially at cost determined as the fair value of the consideration received or receivable for the construction service delivered and is capitalised when the project is complete in all respects. Port concession rights are amortised on straight line basis over the balance of license period. The concession period is 30 years from the date of the award. Any addition to the port concession rights are measured at fair value on recognition. Port concession rights also include certain property, plant and equipment in accordance with Appendix C of Ind AS 115 "service concession arrangements.

Mining rights include the cost incurred for mines such as stamp duty, registration fees and other such costs together with cost incurred on development of mining rights and other related cost of mines transferred from "Exploration intangible assets under development".

Intangible assets are amortised over their estimated useful life on a straight line basis. Software is amortised over the estimated useful life ranging from 2-5 years. Amounts paid for securing mining rights are amortised

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

over the period of the mining lease ranging from 16-25 years. Technological know-how and acquired brand are amortised over the estimated useful life of ten years.

Gains or losses arising from derecognition of an intangible asset are recognised in the consolidated statement of profit and loss when the asset is derecognised.

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

(F) Exploration and evaluation intangible assets

Exploration and evaluation expenditure incurred prior to obtaining the mining right or the legal right to explore are expensed as incurred.

Exploration and evaluation expenditure incurred after obtaining the mining right or the legal right to explore are capitalised as exploration and evaluation assets (intangible assets) and stated at cost less impairment, if any. Exploration and evaluation intangible assets are transferred to the appropriate category of property, plant and equipment when the technical feasibility and commercial viability has been determined. Exploration intangible assets under development are assessed for impairment and impairment loss, if any, is recognised prior to reclassification.

Exploration expenditure includes all direct and allocated indirect expenditure associated with finding specific mineral resources which includes depreciation and applicable operating costs of related support equipment and facilities and other costs of exploration activities:

- Acquisition costs - costs associated with acquisition of licenses and rights to explore, including related professional fees.
- General exploration costs - costs of surveys and studies, rights of access to properties to conduct those studies (e.g., costs incurred for environment clearance, defence clearance, etc.), and salaries and other expenses of geologists, geophysical crews and other personnel conducting those studies.
- Costs of exploration drilling and equipping exploration and appraisal wells.

Exploration expenditure incurred in the process of determining oil and gas exploration targets is capitalised within "Exploration and evaluation assets" (intangible

assets) and subsequently allocated to drilling activities. Exploration drilling costs are initially capitalised on a well-by-well basis until the success or otherwise of the well has been established. The success or failure of each exploration effort is judged on a well-by-well basis. Drilling costs are written off on completion of a well unless the results indicate that hydrocarbon reserves exist and there is a reasonable prospect that these reserves are commercial.

Following appraisal of successful exploration wells, if commercial reserves are established and technical feasibility for extraction demonstrated, then the related capitalised exploration costs are transferred into a single field cost centre within property, plant and equipment - development/producing assets (oil and gas properties) after testing for impairment. Where results of exploration drilling indicate the presence of hydrocarbons which are ultimately not considered commercially viable, all related costs are written off to the consolidated statement of profit and loss.

Expenditure incurred on the acquisition of a license interest is initially capitalised on a license-by-license basis. Costs are held, undepleted, within exploration and evaluation assets until such time as the exploration phase on the license area is complete or commercial reserves have been discovered.

Net proceeds from any disposal of an exploration asset are initially credited against the previously capitalised costs. Any surplus/ deficit is recognised in the consolidated statement of profit and loss.

(G) Impairment of non-financial assets

Impairment charges and reversals are assessed at the level of cash-generating units.

The Group assesses at each reporting date, whether there is an indication that an asset may be impaired. The Group conducts an internal review of asset values annually, which is used as a source of information to assess for any indications of impairment or reversal of previously recognised impairment losses. Internal and external factors, such as worse economic performance than expected, changes in expected future prices, costs and other market factors are also monitored to assess for indications of impairment or reversal of previously recognised impairment losses.

Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the Group

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

and not applicable to entities in general. Fair value for mineral and oil and gas assets is generally determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset, including any expansion prospects, and its eventual disposal, using assumptions that an independent market participant may take into account. These cash flows are discounted at an appropriate post tax discount rate to arrive at the net present value.

If any such indication exists where annual testing of impairment is required, then an impairment review is undertaken and the recoverable amount is calculated, as the higher of fair value less costs of disposal and the asset's value in use.

Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal. The cash flows are discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. Value in use is determined by applying assumptions specific to the Group's continued use and cannot take into account future development. These assumptions are different to those used in calculating fair value and consequently the value in use calculation is likely to give a different result to a fair value calculation. The Group assesses whether climate risks, including physical risks and transition risks could have a significant impact. If so, these risks are included in the cash-flow forecasts in assessing value in use amounts.

The carrying amount of the CGU is determined on a basis consistent with the way the recoverable amount of the CGU is determined. The carrying value is net of deferred tax liability recognised in the fair value of assets acquired in the business combination.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognised in the consolidated statement of profit and loss.

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised except if initially attributed to goodwill.

Exploration and evaluation intangible assets:

In assessing whether there is any indication that an exploration and evaluation asset may be impaired, the Group considers, as a minimum, the following indicators:

- the period for which the Group has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Group has decided to discontinue such activities in the specific area;
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale; and
- reserve information prepared annually by external experts.

When a potential impairment is identified, an assessment is performed for each area of interest in conjunction with the group of operating assets (representing a cash-generating unit) to which the exploration and evaluation assets is attributed. Exploration areas in which reserves have been discovered but require major capital expenditure before production can begin, are continually evaluated to ensure that commercial quantities of reserves exist or to ensure that additional exploration work is underway or planned. To the extent that capitalised expenditure is no longer expected to be recovered, it is charged to the consolidated statement of profit and loss.

(H) Financial instruments

(i) Financial assets - recognition and subsequent measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Trade receivables that do not contain a significant financing component are measured at transaction price as per Ind AS 115.

For purposes of subsequent measurement, financial assets are classified in four categories:

- **Financial assets at amortised cost**

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method.

- **Financial assets at fair value through other comprehensive income (FVOCI)**

Debt instruments included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss are recognised in the consolidated statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in other comprehensive income is reclassified from the equity to consolidated statement of profit and loss. Interest earned whilst holding fair value through other comprehensive income debt instrument is reported as interest income using the EIR method.

For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the consolidated statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

- **Financial assets at fair value through profit or loss (FVTPL)**

Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting

mismatch'). The Group has not designated any debt instrument at FVTPL.

An equity instrument in the scope of Ind AS 109 is measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL.

Further, the provisionally priced trade receivables are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in revenue.

- (ii) **Impairment of financial assets**

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables, contract assets and lease receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

At each reporting date, for recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Group reverts to recognising impairment loss allowance based on 12-month ECL.

- Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets. The Group does not reduce impairment allowance from the gross carrying amount.
- Debt instruments measured at FVOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The Group does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

- (iii) **Financial liabilities – Recognition and Subsequent measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, or as loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value, and in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including financial guarantee contracts and derivative financial instruments.

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ losses are not subsequently transferred to consolidated income statement. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the consolidated statement of profit and loss. The Group has not designated any financial liability at fair value through profit or loss.

Further, the provisionally priced trade payables are marked to market using the relevant forward prices for the future period specified in the contract.

- **Financial liabilities at amortised cost (Loans, Borrowings and Trade and Other payables)**

After initial recognition, interest-bearing loans and borrowings and trade and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the consolidated statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

- (iv) **Financial liabilities - Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. When a new financial liability is recognised in place of an existing one, the difference in the respective carrying amounts is recognised in the statement of profit and loss.

- (v) **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

The Company recognises a liability to pay dividend to equity holders of the company when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution with respect to interim dividend is authorised when it is approved by the board of directors of the Company and final dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

- (I) **Derivative financial instruments and hedge accounting**

- Initial recognition and subsequent measurement**

In order to hedge its exposure to foreign exchange, interest rate, and commodity price risks, the Group enters into forward, option, swap contracts and other derivative financial instruments. The Group does not hold derivative financial instruments for speculative purposes.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the consolidated statement of profit and loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to the consolidated statement of profit and loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

(i) Fair value hedges

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in the consolidated statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in the consolidated statement of profit and loss. Hedge accounting is discontinued when the group revokes the hedge relationship, the hedging instrument or hedged item expires or is sold, terminated, or exercised or no longer meets the criteria for hedge accounting.

(ii) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the consolidated statement of profit and loss.

Amounts recognised in OCI are transferred to the consolidated statement of profit and loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised in OCI are

transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

(J) Leases

The Group assesses at contract inception, all arrangements to determine whether they are, or contain, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities towards future lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date when the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The right-of-use assets are also subject to impairment.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as described in 'D' above.

(ii) Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (and, in some instances, in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is generally not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Group's lease liabilities are disclosed on the face of Balance sheet.

(iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(K) Inventories

Inventories and work-in-progress are valued at the lower of cost and net realisable value. Cost is determined on the following basis:

- Purchased copper concentrate is recorded at cost on a first-in, first-out ("FIFO") basis; all other materials including stores and spares are valued on weighted average basis except in Oil and Gas business where stores and spares are valued on FIFO basis;
- Finished products are valued at raw material cost plus costs of conversion, comprising labour cost and an attributable proportion of manufacturing overheads based on normal levels of activity and are moved out of inventory on a weighted average

basis (except in copper business where FIFO basis is followed); and

- By-products and scrap are valued at net realisable value.

Net realisable value is determined based on estimated selling price, less further costs expected to be incurred for completion and disposal.

Inventories of 'Fuel Stock' mainly consist of coal which is used for generating power. On consumption, the cost is charged off to 'Power and Fuel' expenses in the consolidated statement of profit and loss.

(L) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that

- the Group will comply with the conditions attached to them, and
- the grant/subsidy will be received.

Where the grant relates to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset and presented within other income.

(M) Taxation

Tax expense represents the sum of current tax and deferred tax.

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the reporting date and includes any adjustment to tax payable in respect of previous years.

Subject to the exceptions below, deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes and on carry forward of unused tax credits and unused tax losses:

- tax payable on the future remittance of the past earnings of subsidiaries where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future;
- deferred income tax is not recognised on:

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- (a) initial recognition as well as on the impairment of goodwill which is not deductible for tax purposes; or
- (b) initial recognition of an asset or liability in a transaction that:
- is not a business combination;
 - at the time of the transaction, affects neither the accounting profit nor taxable profit (tax loss) and
 - at the time of the transaction, does not give rise to equal taxable and deductible temporary differences; and
- deferred tax assets are recognised only to the extent that it is more likely than not that they will be recovered.

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax is provided on temporary differences arising on acquisitions that are categorised as Business Combinations. Deferred tax is recognised at acquisition as part of the assessment of the fair value of assets and liabilities acquired. Subsequently deferred tax is charged or credited in the consolidated statement of profit and loss/other comprehensive income as the underlying temporary difference is reversed.

Further, management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

(N) Retirement benefit schemes

The Group operates or participates in a number of defined benefits and defined contribution schemes, the assets of which (where funded) are held in separately

administered funds. For defined benefit schemes, the cost of providing benefits under the plans is determined by actuarial valuation each year separately for each plan using the projected unit credit method by third party qualified actuaries.

Remeasurement including, effects of asset ceiling and return on plan assets (excluding amounts included in interest on the net defined benefit liability) and actuarial gains and losses arising in the year are recognised in full in other comprehensive income and are not recycled to the consolidated statement of profit and loss.

Net interest is calculated by applying a discount rate to the net defined benefit liability or asset at the beginning of the period. Defined benefit costs are split into current service cost, past service cost, net interest expense or income and remeasurement and gains and losses on curtailments and settlements. Current service cost and past service cost are recognised within employee benefit expense. Net interest expense or income is recognised within finance costs.

For defined contribution schemes, the amount charged to the consolidated statement of profit and loss in respect of pension costs and other post retirement benefits is the contributions payable in the year, recognised as and when the employee renders related services.

(O) Share-based payments

Certain employees (including executive directors) of the Group receive part of their remuneration in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares ('equity-settled transactions').

The cost of equity-settled transactions with employees is measured at fair value of share awards at the date at which they are granted. The fair value of share awards is determined with the assistance of an external valuer and the fair value at the grant date is expensed on a proportionate basis over the vesting period based on the Group's estimate of shares that will eventually vest.

The estimate of the number of awards likely to vest is reviewed at each balance sheet date up to the vesting date at which point the estimate is adjusted to reflect the current expectations.

The resultant increase in equity is recorded in share-based payment reserve.

In case of cash-settled transactions, a liability is recognised for the fair value of cash-settled

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

transactions. The fair value is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The fair value is determined with the assistance of an external valuer.

(P) Provisions, contingent liabilities and contingent assets

Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognised when the Group has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the consolidated statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the consolidated balance sheet.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefit is probable.

The Group has significant capital commitments in relation to various capital projects which are not recognised in the balance sheet.

(Q) Restoration, rehabilitation and environmental costs

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing

production of a mine or oil fields. Such costs, discounted to net present value, are provided for and a corresponding amount is capitalised at the start of each project, as soon as the obligation to incur such costs arises. These costs are charged to the consolidated statement of profit and loss over the life of the operation through the depreciation of the asset and the unwinding of the discount on the provision. The cost estimates are reviewed periodically and are adjusted to reflect known developments which may have an impact on the cost estimates or life of operations. The impact of climate-related matters, such as changes in environmental regulations and other relevant legislation, is considered by the Group in estimating the restoration, rehabilitation and environmental costs. The cost of the related asset is adjusted for changes in the provision due to factors such as updated cost estimates, changes to lives of operations, new disturbance and revisions to discount rates. The adjusted cost of the asset is depreciated prospectively over the lives of the assets to which they relate. The unwinding of the discount is shown as finance cost in the consolidated statement of profit and loss.

Costs for the restoration of subsequent site damage, which is caused on an ongoing basis during production, are provided for at their net present value and charged to the consolidated statement of profit and loss as extraction progresses. Where the costs of site restoration are not anticipated to be material, they are expensed as incurred.

(R) Accounting for foreign currency transactions and translations

The functional currency for each entity in the Group is determined as the currency of the primary economic environment in which it operates. For all principal operating subsidiaries, the functional currency is normally the local currency of the country in which it operates with the exception of oil and gas business operations which have a US dollar functional currency as that is the currency of the primary economic environment in which it operates. The financial statements are presented in Indian rupee (₹).

In the financial statements of individual group companies, transactions in currencies other than the respective functional currencies are translated into their functional currencies at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in other currencies are translated into functional currencies at exchange rates prevailing on the reporting date. Non-monetary assets and liabilities denominated in other currencies and measured

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

at historical cost or fair value are translated at the exchange rates prevailing on the dates on which such values were determined.

All exchange differences are included in the consolidated statement of profit and loss except those where the monetary item is designated as an effective hedging instrument of the currency risk of designated forecasted sales or purchases, which are recognised in the other comprehensive income.

Exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings, are capitalised as part of borrowing costs in qualifying assets.

For the purposes of the consolidation of financial statements, items in the consolidated statement of profit and loss of those businesses for which the Indian Rupees is not the functional currency are translated into Indian Rupees at the average rates of exchange during the year/ exchange rates as on the date of transaction. The related consolidated balance sheet is translated into Indian rupees at the rates as at the reporting date. Exchange differences arising on translation are recognised in consolidated statements of other comprehensive income. On disposal of such entities the deferred cumulative exchange differences recognised in equity relating to that particular foreign operation are recognised in the consolidated statement of profit and loss.

The Group had applied paragraph 46A of AS 11 under Previous GAAP. Ind AS 101 gives an option, which has been exercised by the Group, whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. Hence, foreign exchange gain/loss on long-term foreign currency monetary items recognised upto 31 March 2016 has been deferred/capitalised. Such exchange differences arising on translation/settlement of long-term foreign currency monetary items and pertaining to the acquisition of a depreciable asset are amortised over the remaining useful lives of the assets.

Exchange differences arising on translation/ settlement of long-term foreign currency monetary items, acquired post 01 April 2016, pertaining to the acquisition of a depreciable asset are charged to the consolidated statement of profit and loss.

(S) Earnings per share

The Group presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(T) Buyers' Credit/ Suppliers' Credit and vendor financing

The Group enters into arrangements whereby banks and financial institutions make direct payments to suppliers for raw materials and project materials. The banks and financial institutions are subsequently repaid by the Group at a later date providing working capital timing benefits. These are normally settled between twelve months (for raw materials) to thirty six months (for project and materials). Where these arrangements are with a maturity of up to twelve months, the economic substance of the transaction is determined to be operating in nature and these are recognised as operational buyers' credit/ suppliers' credit and disclosed on the face of the balance sheet. Interest expense on these are recognised in the finance cost. Payments made by banks and financial institutions to the operating vendors are treated as a non-cash item and settlement of operational buyer's credit/ suppliers' credit by the Group is treated as cash flows from operating activity reflecting the substance of the payment.

Where such arrangements are with a maturity beyond twelve months and up to thirty six months, the economic substance of the transaction is determined to be financing in nature, and these are presented within borrowings in the consolidated balance sheet. Payments made to vendors are treated as cash item and disclosed as cash flows from operating/ investing activity depending on the nature of the underlying transaction. Settlement of dues to banks and financial institution are treated as cash flows from financing activity.

(U) Borrowing costs

Borrowing cost includes interest expense as per effective interest rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly relating to the acquisition, construction or production of a qualifying capital project under construction are capitalised and added to the

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

project cost during construction until such time that the assets are substantially ready for their intended use, i.e., when they are capable of commercial production. Borrowing costs relating to the construction phase of a service concession arrangement is capitalised as part of the cost of the intangible asset. Where funds are borrowed specifically to finance a qualifying capital project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a qualifying capital project, the income generated from such short-term investments is deducted from the total capitalised borrowing cost. If any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing then becomes part of general borrowing. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the Group during the year.

All other borrowing costs are recognised in the consolidated statement of profit and loss in the year in which they are incurred.

Capitalisation of interest on borrowings related to construction or development projects is ceased when substantially all the activities that are necessary to make the assets ready for their intended use are complete or when delays occur outside of the normal course of business.

(V) Treasury shares

The Group has created an Employee Benefit Trust (EBT) for providing share-based payment to its employees. The Group uses EBT as a vehicle for distributing shares to employees under the employee remuneration schemes. The EBT buys shares of the company from the market, for giving shares to employees. The shares held by EBT are treated as treasury shares.

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in equity. Share options whenever exercised, would be satisfied with treasury shares.

(W) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits which have maturity of three months or less from

the date of acquisition, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

(X) Exceptional items

Exceptional items are those items that management considers, by virtue of their size or incidence (including but not limited to impairment charges and acquisition and restructuring related costs), should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Also tax charges related to exceptional items and certain one-time tax effects are considered exceptional. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

The determination as to which items should be disclosed separately requires a degree of judgement. The details of exceptional items are set out in note 36.

3(b) Application of new and amended standards

- (A) The Group has adopted, with effect from 01 April 2023, the following new and revised standards. Their adoption has not had any significant impact on the amounts reported in the consolidated financial statements.
1. Amendment to Ind AS 1 Presentation of financial statements: The amendment requires disclosure of material accounting policies rather than significant accounting policies.
 2. Amendment to Ind AS 12 Income Taxes: The amendment clarifies application of initial recognition exemption to transactions such as leases and decommissioning obligations.
 3. Amendment to Ind AS 8 Accounting Policies, Change in Accounting Estimates and Errors: The amendments clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors.

(B) Standards notified but not yet effective

There are no new standards that are notified, but not yet effective, upto the date of issuance of the Group's financial statements.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

3(c) Significant accounting estimates and judgements

The preparation of consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of revenues and expenses for the years presented. These judgments and estimates are based on management's best knowledge of the relevant facts and circumstances, having regard to previous experience, but actual results may differ materially from the amounts included in the financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

The information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as given below.

(A) Significant estimates

i) Carrying value of exploration and evaluation assets

Exploration assets are assessed by comparing the carrying value to higher of fair value less cost of disposal or value in use if impairment indicators, as contained in Ind AS 106, exists. Change to the valuation of exploration assets is an area of judgement. Further details on the Group's accounting policies on this are set out in accounting policy above. The amounts for exploration and evaluation assets represent active exploration projects. These amounts will be written off to the consolidated statement of profit and loss as exploration costs unless commercial reserves are established or the determination process is not completed and there are no indications of impairment. The outcome of ongoing exploration, and therefore whether the carrying value of exploration and evaluation assets will ultimately be recovered, is inherently uncertain.

Details of carrying values are disclosed in note 6.

ii) Recoverability of deferred tax and other income tax assets

The Group has carry forward tax losses and unabsorbed depreciation that are available for offset against future taxable profit. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will

be available against which the unused tax losses or tax credits can be utilised. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets and consequential impact in the consolidated statement of profit and loss.

During the year ended 31 March 2024, based on financial projections and requirements of Ind AS 12, ESL derecognised deferred tax assets on business losses amounting to ₹ 309 crore (31 March 2023: ₹ 277 crore). Post said derecognition, deferred tax assets balance on carry forward unabsorbed depreciation as at 31 March 2024 is ₹ 2,787 crore, which based on management's estimate is probable to realise.

iii) Copper operations in Tamil Nadu, India

Tamil Nadu Pollution Control Board ("TNPCB") had issued a closure order of the Tuticorin Copper smelter, against which the Company had filed an appeal with the National Green Tribunal ("NGT"). NGT had, on 08 August 2013, ruled that the Copper smelter could continue its operations subject to implementation of recommendations of the Expert Committee appointed by the NGT. The TNPCB had filed an appeal against the order of the NGT before the Supreme Court of India.

In the meanwhile, the application for renewal of Consent to Operate ("CTO") for existing copper smelter was rejected by TNPCB in April 2018. The Company had filed an appeal before the TNPCB Appellate Authority challenging the Rejection Order. During the pendency of the appeal, the TNPCB vide its order dated 23 May 2018 ordered closure of existing copper smelter plant with immediate effect.

Further, the Government of Tamil Nadu issued orders on the same date with a direction to seal the existing copper smelter plant permanently which were not in accordance with the procedure prescribed under applicable laws. Subsequently, the Directorate of Industrial Safety and Health passed orders dated 30 May 2018, directing the immediate suspension and revocation of the Factory License and the Registration Certificate for the existing smelter plant.

The Company appealed this before the NGT. NGT vide its order on 15 December 2018 had set aside the impugned orders and directed the TNPCB to pass fresh orders for renewal of consent and authorisation to

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

handle hazardous substances, subject to appropriate conditions for protection of environment in accordance with law.

The State of Tamil Nadu and TNPCB approached Supreme Court in Civil Appeals on 02 January 2019 challenging the judgement of NGT dated 15 December 2018 and the previously passed judgement of NGT dated 08 August 2013. The Supreme Court vide its judgement dated 18 February 2019 set aside the judgements of NGT dated 15 December 2018 and 08 August 2013 solely on the basis of maintainability and directed the Company to file an appeal in High court.

The Company had filed a writ petition before the Madras High Court challenging the various orders passed against the Company in FY 2018 and FY 2013. On 18 August 2020, the Madras High Court delivered the judgement wherein it dismissed all the Writ Petitions filed by the Company. Thereafter, the Company had approached the Supreme Court and challenged the said High Court order by way of a Special Leave Petition ("SLP").

The Hon'ble Supreme Court, after hearing the parties to the proceedings had dismissed the SLP filed by the Company vide judgment dated 29 February 2024. On 01 April 2024, The Company preferred a review petition before the Hon'ble Supreme Court.

Expansion Project:

Separately, the Company had filed a fresh application for renewal of the Environmental Clearance for the proposed Copper Smelter Plant 2 ("Expansion Project") dated 12 March 2018 before the Expert Appraisal Committee of the Ministry of Environment, Forests and Climate Change ("the MoEFCC") wherein a sub-committee was directed to visit the Expansion Project site prior to prescribing the Terms of Reference.

In the meantime, the Madurai Bench of Madras High Court in a Public Interest Litigation held vide its order dated 23 May 2018 that the application for renewal of the Environmental Clearance for the Expansion Project shall be processed after a mandatory public hearing and in the interim, ordered the Company to cease construction and all other activities on site for the proposed Expansion Project with immediate effect. The MoEFCC had delisted the Expansion Project since the matter was sub-judice. Separately, SIPCOT vide its letter dated 29 May 2018, cancelled 342.22 acres of the land allotted for the proposed Expansion Project. Further, the TNPCB issued orders on 07 June 2018 directing the withdrawal of the Consent to Establish ("CTE") which was valid till 31 March 2023.

The Company had approached Madras High Court by way of writ petition challenging the cancellation of lease deeds by SIPCOT pursuant to which an interim stay had been granted. The Company had also appealed this action before the TNPCB Appellate Authority. The matter has been adjourned until further notice.

As per the Company's assessment, it is in compliance with the applicable regulations and hence preferred a review petition before the Hon'ble Supreme Court. Considering prolonged time of plant closure and uncertainties around opening of plant due to rejection of SLP by Hon'ble Supreme Court, the Company has carried out an impairment assessment, on Tuticorin plant assets having carrying value of ₹ 1,681 crore (including PPE, CWIP and inventory) using Depreciated Replacement Cost / Scrap Value method for PPE and CWIP, and Net recoverable method for inventory. Accordingly, impairment on assets of ₹ 746 crore (including PPE of ₹ 553 crore, CWIP of ₹ 130 crore and loss on inventory of ₹ 63 crore) has been recorded during the year ended 31 March 2024.

Property, plant and equipment of ₹ 432 crore (31 March 2023: ₹ 1,033 crore) and inventories of ₹ 217 crore (31 March 2023: ₹ 269 crore), pertaining to existing and expansion plant, could not be physically verified, anytime during the year, as the access to the plant is presently restricted. However, any difference between book and physical quantities is unlikely to be material.

(iv) ESL, had filed application for renewal of CTO on 24 August 2017 for the period of five years which was denied by Jharkhand State Pollution Control Board ("JSPCB") on 23 August 2018, as JSPCB awaited response from the MoEFCC over a 2012 show-cause notice. After a personal hearing towards the show cause notice, the MoEFCC revoked the Environment Clearance ("EC") on 20 September 2018. The High Court of Jharkhand granted stay against both revocation orders and allowed the continuous running of the plant operations under regulatory supervision of the JSPCB. Jharkhand High Court, on 16 September 2020, passed an order vacating the interim stay in place beyond 23 September 2020, while listed the matter for final hearing. ESL urgently filed a petition in the Hon'ble Supreme Court, and on 22 September 2020, ESL was granted permission to run the plant till further orders.

The Forest Advisory Committee ("FAC") of the MoEFCC granted the Stage 1 clearance and the MoEFCC approved the related Terms of Reference ("TOR") on 25 August 2020. ESL presented its proposal before the Expert Appraisal Committee ("EAC") after completing the public consultation process and the same has

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

been recommended for grant of EC subject to Forest Clearance by the EAC in its 41st meeting dated 29 and 30 July 2021. Vide letter dated 25 August 2021, the MoEFCC rejected the EC "as of now" due to stay granted by Madras High Court vide order dated 15 July 2021 in a Public Interest Litigation filed against the Standard Operating Procedure which was issued by the MoEFCC for regularisation of violation case on 07 July 2021. The Hon'ble Supreme Court vide order dated 09 December 2021 decided the matter by directing the MoEFCC to process the EC application of ESL as per the applicable law within a period of three months. The MoEFCC vide its letter dated 02 February 2022 has deferred the grant of EC till Forest Clearance ("FC") Stage-II is granted to ESL. ESL has submitted its reply against the MoEFCC letter vide letter dated 11 February 2022 for reconsidering the decision of linking EC with FC as the grant of FC Stage – II is not a condition precedent for grant of EC. As per Stage 1 clearance, the Group is required to provide non-forest land in addition to the afforestation cost. The Group, based on the report of an Environment Impact Assessment consultant, had recognised a provision of ₹ 213 crore as part of exceptional item during the year ended 31 March 2021 with respect to the costs to be incurred by it for obtaining EC and an additional ₹ 7 crore was provided against final order relating to wildlife conservation plan received during the year ended 31 March 2022.

On 05 June 2023, MoEFCC revoked the FC Stage-I against which ESL has written a letter for reconsideration. Against the revocation, the State Govt of Jharkhand has also submitted its request letter to MoEFCC to reconsider its decision and grant some more time. Referring to the State's letter, MoEFCC has issued a letter dated 18 August 2023 to the Principal Secretary (Forest), Jharkhand to submit the compliance status report, which was submitted on 17 November 2023 with positive remarks. Next date of hearing is yet to be scheduled. Management believes no further provision is required.

(v) Oil and Gas reserves

Significant technical and commercial judgements are required to determine the Company's estimated oil and natural gas reserves. Reserves considered for computing depletion are proved reserves for acquisition costs and proved and developed reserves for successful exploratory wells, development wells, processing facilities, distribution assets, estimated future abandonment cost and all other related costs. Reserves for this purpose are considered on working interest basis which are reassessed at least annually. Details of such reserves are given in note 44. Changes in reserves

as a result of change in management assumptions could impact the depreciation rates and the carrying value of assets (Refer note 6).

(vi) Carrying value of developing/producing oil and gas assets

Management performs impairment tests on the Company's developing/producing oil and gas assets where indicators of impairment are identified in accordance with Ind AS 36.

Estimates/assumptions	Basis
Future production	proved and probable reserves, production facilities, resource estimates and expansion projects
Commodity prices	management's best estimate benchmarked with external sources of information, to ensure they are within the range of available analyst forecast
Discount to price	management's best estimate based on historical prevailing discount and updated sales contracts
Period	For Rajasthan block, cash flows are considered based on economic life of the fields.
Discount rates	cost of capital risk-adjusted for the risk specific to the asset/ CGU

Any subsequent changes to cash flows due to changes in the above mentioned factors could impact the carrying value of the assets.

Details of carrying values and impairment charge/ (reversal) and the assumptions used are disclosed in note 6 and 36 respectively.

(vii) Climate Change

The Group aims to achieve net carbon neutrality by 2050, and has committed reduction in emission by 25% by 2030 from 2021 baseline, net water positivity by 2030 as part of its climate risk and has outlined its climate risk assessment and opportunities in the ESG strategy. Climate change may have various impacts on the Group in the medium to long term. These impacts include the risks and opportunities related to the demand of products and services, impact due to transition to a low-carbon economy, disruption to the supply chain, risk of physical harm to the assets due to extreme weather conditions, regulatory changes etc. The accounting related measurement and disclosure items that are most impacted by our commitments, and climate change risk more generally, relate to those areas of the financial statements that are prepared under the historical cost convention and are subject to estimation uncertainties in the medium to long term.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The potential effects of climate change may be on assets and liabilities that are measured based on an estimate of future cash flows. The main ways in which potential climate change impacts have been considered in the preparation of the financial statements, pertain to (a) inclusion of capex in cash flow projections, (b) recoverable amounts of existing assets and (c) review of estimates of useful lives of property, plant and equipment.

The Group's strategy consists of mitigation and adaptation measures. The Group is committed to reduce its carbon footprint by limiting its exposure to coal-based projects and reducing its GHG emissions through high impact initiatives such as investment in Renewable Energy, fuel switch, electrification of vehicles and mining fleet and energy efficiency opportunities. During the current year, work has progressed towards the construction of renewable power delivery agreements in accordance with the Board approved plan (Refer note 40(A)(c)(iii)). Renewable sources have limitations in supplying round the clock power, so existing power plants would support transition and fleet replacement is part of normal lifecycle renewal. The Group has also taken certain measures towards water management such as commissioning of sewage treatment plants, rainwater harvesting, and reducing fresh water consumption. Collectively these measures have led to an increase of our water positivity to 0.7 (FY23: 0.63). These initiatives are aligned with the group's ESG strategy and no material changes were identified to the financial statements as a result.

As the Group's assessment of the potential impacts of climate change and the transition to a low-carbon economy continues to mature, any future changes in Group's climate change strategy, changes in environmental laws and regulations and global decarbonisation measures may impact the Group's significant judgments and key estimates and result in changes to financial statements and carrying values of certain assets and liabilities in future reporting periods. However, as of the balance sheet date, the Group believes that there is no material impact on carrying values of its assets or liabilities.

(B) Significant judgements

(i) Determining whether an arrangement contains a lease:

The Group has ascertained that the Power Purchase Agreement (PPA) entered into between one of the subsidiaries and a State grid qualifies to be an operating lease under Ind AS 116 "Leases". Accordingly, the consideration receivable under the PPA relating to recovery of capacity charges towards capital cost have been recognised as operating lease rentals and

in respect of variable cost that includes fuel costs, operations and maintenance, etc. is considered as revenue from sale of products/services.

Significant judgement is required in segregating the capacity charges due from the State grid, between fixed and contingent payments. The Group has determined that since the capacity charges under the PPA are based on the number of units of electricity made available by its Subsidiary which would be subject to variation on account of various factors like availability of coal and water for the plant, there are no fixed minimum payments under the PPA, which requires it to be accounted for on a straight line basis. The contingent rents recognised are disclosed in Note 27.

(ii) Contingencies and other litigations

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Group. A provision is recognised when the Group has a present obligation as a result of past events and it is probable that the Group will be required to settle that obligation.

Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain, the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

When considering the classification of legal or tax cases as probable, possible or remote, there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific applicable law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to make informed decision. Although there can be no assurance regarding the final outcome of the legal proceedings, the Group does not expect them to have a materially adverse impact on the Group's financial position or profitability. These are set out in note 40. For other significant litigations where the possibility of an outflow of resources embodying economic benefits is remote, refer note 41.

(iii) Revenue recognition and receivable recovery in relation to the power division

In certain cases, the Group's power customers are disputing various contractual provisions of Power Purchase Agreements (PPA). Significant judgement is required in both assessing the tariff to be charged under the PPA in accordance with Ind AS 115 and to assess the recoverability of withheld revenue currently accounted for as receivables.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

In assessing this critical judgment, management considered favourable external legal opinions that the Group has obtained in relation to the claims. In addition, the fact that the contracts are with government owned companies implies that the credit risk is low (refer note 8).

4 Acquisitions, Restructuring and Disposal of Subsidiary

(A) Athena Chhattisgarh Power Limited

On 21 July 2022, the Company acquired Athena Chhattisgarh Power Limited ("ACPL"), an unrelated party, under the liquidation proceedings of the Insolvency and Bankruptcy Code, 2016 for a consideration of ₹ 565 crore, subject to approval by the National Company Law Tribunal ("NCLT"). ACPL is building a 1,200 MW (600 MW X 2) coal-based power plant located at Jhanjgir Champa district, Chhattisgarh.

The Company filed a resolution application with the NCLT in July 2022 and further amended the application in November 2022 praying for merger of ACPL with the Company. The Company also sought various reliefs from certain legal and regulatory provisions as part of these applications. Pending receipt of NCLT approval, the Group had recorded the above transaction as an acquisition of property, plant and equipment at the purchase consideration paid during the year ended 31 March 2023.

The NCLT approved the Company's resolution application with an appointed date of 21 July 2022 ("appointed date"), in its July 2023 order ("NCLT Order"). In accordance with applicable Ind AS, the Company has restated its financial results as at and for the year ended 31 March 2023 to record this merger.

The Scheme of merger as approved by the NCLT inter alia prescribes the following accounting treatment in the standalone financials of the Company: the difference between the fair value at the appointed date and the carrying value of the assets recorded pursuant to the amalgamation at their book value arrived at without considering any impairment/ write-off, would be written off by debit to the Statement of Profit and Loss of the Company and credited to the carrying value of the assets. This would be a permanent write-off of the carrying value of the assets and not a provision for diminution in the value of the assets. The charge on account of write-off of the assets, as mentioned above, as recorded by the Company will be transferred from its Retained Earnings to its Capital Reserve and accordingly, the Capital Reserve will stand diminished by the said amount.

Pursuant to the NCLT Order, the Company has merged ACPL by carrying forward the book values of ACPL's assets of ₹ 8,698 crore (as appearing in ACPL's financial statements as at 31 March 2022, which were audited by ACPL's auditors) at the appointed date without considering any impairment, applying Appendix C of Ind AS 103 - Business Combinations, instead of recognising the assets at purchase consideration in accordance with Ind AS 16. The difference between the values of assets acquired and the consideration paid was credited to Other Equity (Capital Reserve). The Company has written off the consequent loss of ₹ 8,133 crore in the Statement of Profit and Loss for the year ended 31 March 2023, representing the difference between the book value of assets and consideration paid. The assets written off of ₹ 8,133 crore, excluding tax consequences thereof, has been transferred from 'Retained Earnings' to 'Capital Reserve', in accordance with the Scheme. The above is in accordance with the NCLT Order, overriding the applicable Ind AS requirements.

Consequent to the implementation of the merger, the carrying values of deferred tax assets (MAT credit) in the consolidated balance sheet as at 31 March 2023 was lower by ₹ 1,421 crore with a corresponding reduction in income tax liabilities by ₹ 979 crore and an increase in income tax assets by ₹ 442 crore, on account of the lower MAT charge. These restated balances of 31 March 2023 have been carried to FY 2023-24.

(B) Meenakshi Energy Limited

Meenakshi Energy Limited ("Meenakshi") is a 1,000 MW coal-based power plant located at Nellore, Andhra Pradesh. NCLT vide its order dated 10 August 2023 has granted its approval for the Resolution Plan as submitted by the Company for acquisition of Meenakshi under Corporate Insolvency Resolution Process in accordance with the provisions of Insolvency and Bankruptcy Code (IBC), 2016 for a total consideration of ₹ 1,440 crore.

Pursuant to the approval of Resolution Plan, the Company has made a payment of upfront consideration of ₹ 312 crore and infused ₹ 1 crore through equity for the implementation of approved Resolution Plan. On 16 October 2023, zero coupon, secured, unlisted non-convertible debentures ("NCDs") of aggregate face value of ₹ 1,128 crore have been issued by Meenakshi to its financial creditors, redeemable in 5 equal annual instalments starting from 16 October 2025. Consequent to satisfaction of all conditions precedent of the Resolution Plan, the Company has acquired control of Meenakshi on 27 December 2023. The above acquisition meets the criterion of asset acquisition under Ind AS

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

103 - Business Combinations. Accordingly, fair value of the total consideration amounting to ₹ 1,080 crore has been allocated to the identified assets and liabilities acquired on the basis of their relative fair values.

(C) Scheme of Arrangement for demerger

The Board of Directors, in its meeting held on 29 September 2023, have approved a Scheme of Arrangement ("the Scheme") for demerger of various businesses of the Company. The Scheme entails demerger of the Company's Aluminium (represented by the Aluminium segment), Merchant Power (represented by the Power segment), Oil & Gas (represented by the Oil and Gas segment), Base Metals (represented by the Copper and Zinc International segment) and Iron Ore (represented by Iron Ore segment and Steel business) Undertakings, into 6 separate companies with a mirrored shareholding and consequent listings at BSE Limited and National Stock Exchange of India Limited ('the Stock Exchanges'). The Company has filed the Scheme with the Stock Exchanges. Upon receipt of necessary approvals from the Stock Exchanges, the Scheme will be filed with the NCLT. Pending regulatory and other approvals, no adjustments have been recorded in the financial statements of the Group for the year ended 31 March 2024.

(D) Disposal of subsidiary

During the year ended 31 March 2024, Monte Cello BV ("MCBV"), a wholly owned subsidiary of the Company, sold 100% of its equity ownership in its wholly owned subsidiary, Copper Mines of Tasmania ("CMT") which was previously engaged in copper mining operations in Australia. Consequently, upfront cash consideration of ₹ 84 crore (US\$ 10 million) received by the Group and de-recognition of net liabilities of ₹ 94 crore (US\$ 11 million) pertaining to CMT, has resulted in a total gain of ₹ 178 crore which has been included in other income in consolidated financial statements for the year ended 31 March 2024. Further, as part of the transaction, the acquirer shall pay the Group additional consideration in future upto US\$ 310 million by way of fee/ royalties, on achieving certain pre-agreed milestones.

5 Segment Information

A) Description of segment and principal activities

The Group is a diversified natural resource group engaged in exploring, extracting and processing minerals and oil and gas. The Group produces zinc, lead, silver,

copper, aluminium, iron ore, oil and gas, ferro alloys, steel, cement and commercial power and has a presence across India, South Africa, Namibia, U.A.E, Ireland, Australia, Japan, South Korea, Taiwan and Liberia. The Group is also in the business of port operations and manufacturing of glass substrate. The Group has seven reportable segments: copper, aluminium, iron ore, power, Zinc India (comprises zinc and lead India), Zinc international, oil and gas and others. The management of the Group is organised by its main products: copper, Zinc (comprises zinc and lead India, silver India and zinc international), aluminium, iron ore, oil and gas, power and others. "Others" segment mainly comprises port/berth, steel, glass substrate, semiconductor, display, ferro alloys and cement business and those segments which do not meet the quantitative threshold for separate reporting. Each of the reportable segments derives its revenues from these main products and hence these have been identified as reportable segments by the Group's chief operating decision maker ("CODM").

Segment Revenue, Results, Assets and Liabilities include the respective amounts identifiable to each of the segments and amount allocated on a reasonable basis. Unallocated expenditure consist of common expenditure incurred for all the segments and expenses incurred at corporate level. The assets and liabilities that cannot be allocated between the segments are shown as unallocated assets and unallocated liabilities respectively.

The accounting policies of the reportable segments are the same as the Group's accounting policies. The operating segments reported are the segments of the Group for which separate financial information is available. Earnings before interest, depreciation and amortisation and tax ("EBITDA") are evaluated regularly by the CODM in deciding how to allocate resources and in assessing performance. The Group's financing (including finance costs and finance income) and income taxes are reviewed on an overall basis and are not allocated to operating segments.

Pricing between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

The following table presents revenue and profit information and certain assets and liabilities information regarding the Group's business segments as at and for the year ended 31 March 2024 and 31 March 2023 respectively.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

* Restated, refer note 4(A).

Pursuant to conversion of one of the 300 MW Captive Power Plant ("CPP") unit to Independent Power Plant ("IPP") with effect from 01 April 2023, and considering the usability of units interchangeably as IPP or CPP based on the annual declaration to Chief Electricity Inspector and the annual consumption criteria as per the Electricity Act, 2003 and the Electricity Rules, 2005, the Chief Operating Decision Maker ("CODM") has decided to review the operating results of aluminium and power segments together in a combined manner for one of its subsidiaries, Bharat Aluminium Company Limited ("BALCO"). Consequently, with effect from 01 April 2023, these have been reported as a single Operating Segment, i.e., "Aluminium Segment". Corresponding segment information for the year ended 31 March 2023 i.e., Segment revenue of ₹ 477 crore (including inter-segment revenue of ₹ 218 crore), Segment results of ₹ (62) crore, Depreciation, depletion and amortisation of ₹ 38 crore and Other income, net of expenses of ₹ 3 crore for the year ended 31 March 2023 and Segment assets of ₹ 1,290 crore and Segment liabilities of ₹ 270 crore as at 31 March 2023 have been restated in accordance with Ind AS 108 "Operating Segments".

a) EBITDA is a non-GAAP measure.

b) Includes amortisation of duty benefits relating to assets recognised as government grant.

c) Includes cost of exploration wells written off in Oil & Gas segment.

d) Includes capital expenditure of ₹ 22 crore which is not allocable to any segment.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

B) Geographical segment analysis

The following table provides an analysis of the Group's sales by region in which the customer is located, irrespective of the origin of the goods.

Geographical Segments	Year ended 31 March 2024	Year ended 31 March 2023
(₹ in crore)		
Revenue by geographical segment		
India	91,142	87,099
Europe	8,485	18,360
China	5,306	5,296
The United states of America	2,342	3,839
Mexico	1,562	4,619
Others	32,956	26,191
Total	1,41,793	1,45,404

The following is an analysis of the carrying amount of non-current assets, excluding deferred tax assets and financial assets, analysed by the geographical area in which the assets are located:

Geographical Segments	As at 31 March 2024	As at 31 March 2023*
(₹ in crore)		
Carrying amount of non-current assets		
India	1,20,302	1,12,079
South Africa	6,802	5,316
Namibia	661	888
Taiwan	1,161	1,041
Other	1,194	1,632
Total	1,30,120	1,20,956

* Restated, refer note 4(A).

C) Information about major customer

No single customer has accounted for more than 10% of the Group's revenue for the year ended 31 March 2024 and 31 March 2023.

D) Disaggregation of Revenue

Below table summarises the disaggregated revenue from contracts with customers

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
(₹ in crore)		
Zinc metal	21,483	29,002
Lead metal	4,889	4,821
Silver metals and bars	5,503	4,577
Oil	14,873	12,448
Gas	2,885	2,807
Aluminium products	46,943	52,356
Copper products	19,328	17,070
Iron ore	5,400	2,328
Metallurgical coke	232	463
Pig iron	4,089	4,059
Power	4,574	5,288
Steel products	6,438	6,272
Ferro alloys	806	768
Others	5,070	3,725
Revenue from contracts with customers*	1,42,513	1,45,984
Revenue from contingent rents	1,423	1,543
Losses on provisionally priced contracts under Ind AS 109	(2,143)	(2,123)
Total revenue	1,41,793	1,45,404

*includes revenues from sale of services aggregating to ₹ 321 crore (31 March 2023: ₹ 326 crore) which is recorded over a period of time. The balance revenue from contracts with customers is recognised at a point in time.

* Multiple dates of acquisitions during the period disclosed.

- Plant and equipment include refineries, smelters, power plants, railway sidings, ships, river fleets and related facilities.
- During the year ended 31 March 2024, interest capitalised was ₹ 960 crore (31 March 2023: ₹ 483 crore).
- Certain property, plant and equipment are pledged as security against borrowings, the details related to which have been described in Note 19 on "Borrowings".
- Freehold land includes 40 quarters at Bidhan Bagh Unit and 300.88 acres of land at Korba which have been occupied without authorisation for which Group is evaluating evacuation options and the Group has filed the civil suits for the same.
- The Division Bench of the Hon'ble High Court of Chhattisgarh has vide its order dated 25 February 2010, upheld that BALCO is in legal possession of 1,804.67 acres of Government land. Subsequent to the said Order, the State Government has decided to issue the lease deed in favour of BALCO after the issue of forest land is decided by the Hon'ble Supreme Court. In the proceedings before the Hon'ble Supreme Court, pursuant to public interest litigations filed, it has been alleged that the land in possession of BALCO is being used in contravention of the Forest Conservation Act, 1980 even though the said land has been in its possession prior to the promulgation of the Forest Conservation Act, 1980 on which its Aluminium complex, allied facilities and township were constructed between 1971-76. The Central Empowered Committee of the Supreme Court has already recommended ex-post facto diversion of the forest land in possession of BALCO. BALCO has also filed two Interlocutory Applications (IAs) before the Supreme Court, first challenging the order of the Tehsildar Korba whereby he rejected BALCO's applications for eviction of illegal encroachers on BALCO's land on the ground that land matter is subjudice before the Supreme Court and the other application whereby BALCO has challenged the State Government's action for allotment of land to illegal encroachers under the Rajiv Ashray Yojna. The matter is to be listed for hearing in the due course.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- Property, Plant and Equipment, Capital work-in-progress and exploration and evaluation assets net block includes share of jointly owned assets with the joint venture partners ₹ 11,568 crore (31 March 2023: ₹ 10,534 crore).
- In accordance with the exemption given under Ind AS 101, which has been exercised by the Group, a first time adopter can continue its previous GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the previous GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period, i.e., 01 April 2016.

Accordingly, foreign currency exchange differences arising on translation/settlement of long-term foreign currency monetary items acquired before 01 April 2016 pertaining to the acquisition of a depreciable asset amounting to ₹ 1 crore (31 March 2023: ₹ 11 crore) are adjusted to the cost of respective item of property, plant and equipment.

h) Reconciliation of depreciation, depletion and amortisation expense

- Vizag General Cargo Berth Private Limited (VGCB), a special purpose vehicle and wholly owned by the Company, was incorporated for the coal berth mechanisation and upgradation at Visakhapatnam port. The project was to be carried out on a design, build, finance, operate, transfer basis and the concession agreement between Visakhapatnam Port Trust ('VPT') and the Company was signed in June 2010. In October 2010, the Company was awarded with the concession after fulfilling conditions stipulated as a precedent to the concession agreement. Visakhapatnam port trust has provided, in lieu of license fee an exclusive license to the Company for designing, engineering, financing, constructing, equipping, operating, maintaining, and replacing the project/project facilities and services. The concession period is 30 years from the date of the award. The upgraded capacity is 10.18 mmtpa and the Visakhapatnam port trust would be entitled to receive 38.10% share of the gross revenue as royalty. The Company is entitled to recover a tariff from the user(s) of the project facilities and services as per its Tariff Authority for Major Ports (TAMP) notification. The tariff rates are linked to the Wholesale Price Index (WPI) and would accordingly be adjusted as specified in the concession agreement every year. The ownership of all infrastructure assets, buildings, structures, berths, wharfs, equipment and other immovable and movable assets constructed, installed, located, created or provided by the Company at the project site and/or in the port's assets pursuant to concession agreement would be with the Company until expiry of this concession agreement. The cost of any repair, replacement or restoration of the project facilities and services shall be borne by the Company during the concession period. The Company has to transfer all its rights, titles and interest in the project facilities and services free of cost to VPT at the end of the concession period. The company has entered into a supplementary agreement to the original concession agreement with VPT dated 20 October 2021, wherein VPT can handle other compatible cargos at VGCB during idling of the berth. Intangible asset port concession rights represents consideration for construction services. No Revenue from construction contract of service concession arrangements on exchanging construction services for the port concession rights was recognised for the years ended 31 March 2024 and 31 March 2023.
- As at 31 March 2024, TSPL's assets consisting of land (including ROU land), building and plant and machinery having net carrying value of ₹ 391 crore (31 March 2023: ₹ 399 crore), ₹ 138 crore (31 March 2023: ₹ 153 crore) and ₹ 7,327 crore (31 March 2023: ₹ 8,228 crore) respectively have been given on operating lease (refer note 3(c)(B)(i)).
- Consequent to the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 ("the Rules"), during the previous year, HZL had transferred its CSR assets, having carrying value of ₹ 117 Crore, after obtaining regulatory approvals, to a company registered under Section 8 of the Companies Act, 2013. The carrying value of these assets was included as CSR expense in the financial statements owing to such transfer.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- l) (i) During the year ended 31 March 2023, the Group had recognised a net impairment reversal of ₹ 616 crore (after considering impairment reversal of ₹ 1,236 crore on account of ONGC partial arbitration award (refer note (ii) for details)) on its assets in the oil and gas producing facilities and impairment charge of ₹ 598 crore on its assets in the oil and gas exploration intangible assets under development mainly due to revision of Reserve and Capex estimates. The recoverable amount of the Company's share in Rajasthan Oil and Gas cash generating unit "RJ CGU" was determined to be ₹ 10,179 crore (US \$ 1,239 million) as at 31 March 2023. The recoverable amount of the RJ CGU was determined based on the fair value less costs of disposal approach, a level-3 valuation technique in the fair value hierarchy, as it more accurately reflects the recoverable amount based on the Company's view of the assumptions that would be used by a market participant. This is based on the cash flows expected to be generated by the projected oil and natural gas production profiles up to 2040, the expected dates of cessation of production sharing contract (PSC)/cessation of production from each producing field based on the current estimates of reserves and risked resources. Reserves assumptions for fair value less costs of disposal tests consider all reserves that a market participant would consider when valuing the asset, which are usually broader in scope than the reserves used in a value-in-use test. Discounted cash flow analysis used to calculate fair value less costs of disposal uses assumption for short-term oil price of US \$ 84 per barrel for the next one year and tapers down to long-term nominal price of US \$ 73 per barrel three years thereafter derived from a consensus of various analyst recommendations. Thereafter, these have been escalated at a rate of 2.4% per annum. The cash flows are discounted using the post-tax nominal discount rate of 10.99% derived from the post-tax weighted average cost of capital after factoring in the risks ascribed to PSC extension including successful implementation of key growth projects. Based on the sensitivities carried out by the Company, change in crude price assumptions by US \$ 1/bbl and changes to discount rate by 1% would lead to a change in recoverable value by ₹ 74 crore (US \$ 9 million) and ₹ 378 crore (US \$ 46 million) respectively.
- (ii) In the Oil and Gas business, the Group operates the Rajasthan Block under a joint venture model with ONGC. As the operator of the block, the Company raises cash calls to ensure the smooth functioning of the petroleum operations.
- During the year ended 31 March 2023, the Group received a favourable partial arbitration award on cash call claims made from ONGC, pursuant to which, reversal of previously recorded impairment of ₹ 1,236 crore (US\$ 155 million) was recognised against capitalised development costs. The Group had a liability towards ONGC of ₹ 1,507 crore (US\$ 199 million) as of 31 March 2022 on account of revenue received in excess of entitlement. Based on the partial arbitration award, the Group had adjusted the claims received in the favour of the Group against the liability towards ONGC and the net payable as of 31 March 2023 amounted to ₹ 279 crore (US\$ 34 million).
- m) Freehold land includes gross block of ₹ 176 crore (31 March 2023: ₹ 175 crores), accumulated depreciation ₹ 160 crore (31 March 2023: ₹ 154 crores), which is available for use during the lifetime of the Production Sharing Contract of the respective Oil and Gas blocks.
- n) The Group holds approximately 52% stake in AvanStrate Inc, Japan ("ASI") which has wholly owned subsidiaries in Korea and Taiwan. Majority of the balance stake in ASI is held by Hoya Corporation, Japan ("Hoya"). There are certain operational matters at ASI and the Group is currently in dialogue with Hoya for a commercial settlement against their Put option and shareholder loan. In the meanwhile, the Group has applied principles of Ind AS 36 – Impairment of Assets for testing impairment for its investment in ASI and has used the fair values of net assets for the purpose of determining that there is no material impact to the net carrying value of property, plant and equipment and intangibles amounting to ₹ 1,146 crore.

b) Trade receivables does not include any receivables from directors and officers of the company. For amount due and terms and conditions of related party receivables, refer note 42.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- c) In a matter pertaining to mega power project benefit between TSPL and Punjab State Power Corporation Limited (PSPCL) relating to assessment of whether there has been a change in law following the execution of the Power Purchase Agreement, the Appellate Tribunal for Electricity has dismissed the appeal in July 2017 filed by TSPL. TSPL later filed an appeal before the Honourable Supreme Court to seek relief, which is yet to be listed.
The outstanding trade receivables in relation to this dispute and other matters is ₹ 1,620 crore as at 31 March 2024 (31 March 2023: ₹ 1,476 crore). The Group, based on external legal opinion and its own assessment of the merits of the case, remains confident that it is highly probable that the Supreme court will uphold TSPL's appeal and has thus continued to treat these balances as recoverable.
- d) Trade receivables includes ₹ 726 crore (net of Provision for expected credit loss ("ECL") recognised on account of time value of money) as at 31 March 2024 (31 March 2023: ₹ 878 crore, net of ECL) withheld by GRIDCO Limited ("GRIDCO") primarily on account of reconciliation and disputes relating to computation of power tariffs and alleged short-supply of power by the Group under the terms of long term power supply agreement.
Out of the above, ₹ 365 crore, net of ECL (31 March 2023: ₹ 374 crore, net of ECL) relates to the amounts withheld by GRIDCO due to tariff adjustments on account of transmission line constraints in respect of which GRIDCO's appeal against order of APTEL is pending before the Hon'ble Supreme Court of India and ₹ 234 crores, net of ECL (31 March 2023: ₹ 234 crore, net of ECL) relates to alleged short supply of power for which the Group's appeal on certain grounds are pending before APTEL.
- e) The total trade receivables as at 01 April 2022 were ₹ 7,947 crore (net of provision for expected credit loss).

c) Bank deposits and site restoration asset earn interest at fixed rate based on respective deposit rates.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- d) Government of India (GoI) vide Office Memorandum ("OM") No. O-19025/10/2005-ONG-DV dated 01 February 2013 allowed for Exploration in the Mining Lease Area after expiry of Exploration period and prescribed the mechanism for recovery of such Exploration Cost incurred. Vide another Memorandum dated 24 October 2019, GoI clarified that all approved Exploration costs incurred on Exploration activities, both successful and unsuccessful, are recoverable in the manner as prescribed in the OM and as per the provisions of PSC. Accordingly, the Group has started recognizing revenue for past exploration costs, through increased share in the joint operations revenue as the Group believes that cost recovery mechanism prescribed under OM for profit petroleum payable to GoI is not applicable to its Joint operation partner. During the year, the Arbitration Tribunal has issued Final Partial Award which allowed for recovery of exploration costs (refer note 36(a)). Accordingly Group has recognized additional ₹ 480 Crore (US\$ 58 million). At year end, an amount of ₹ 2,229 Crore (US\$ 267 million) (31 March 2023: ₹ 1,718 Crore (US\$ 209 million)) is receivable from its joint operation partner on account of this. The Group is actively engaging with Joint operation partner and the same will be recovered through revenue in due course.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

F) Other disclosures

- The Company has one class of equity shares having a par value of ₹ 1 per share. Each shareholder is eligible for one vote per share held and dividend as and when declared by the Company. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend which is paid as and when declared by the Board of Directors. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts, in proportion to their shareholding.
- In terms of Scheme of Arrangement as approved by the Hon'ble High Court of Judicature at Mumbai, vide its order dated 19 April 2002, the erstwhile Sterlite Industries (India) Limited (merged with the Company during 2013-14) during 2002-03 reduced its paid up share capital by ₹ 10 crore. There are 1,99,366 equity shares (31 March 2023: 2,00,038 equity shares) of ₹ 1 each pending clearance from NSDL. The Company has filed an application in Hon'ble High Court of Mumbai to cancel these shares, the final decision on which is pending. Hon'ble High Court of Judicature at Mumbai, vide its interim order dated 06 September 2002 restrained any transaction with respect to subject shares.

16 Other equity (Refer consolidated statement of changes in equity)

- General reserve:** Under the erstwhile Companies Act, 1956, a general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable reserves for that year. Consequent to introduction of Companies Act, 2013 ("Act"), the requirement to mandatory transfer a specified percentage of the net profit to general reserve has been withdrawn.
 - The Board of Directors of the Company, on 29 October 2021, approved the Scheme of Arrangement between the Company and its shareholders under Section 230 and other applicable provisions of the Companies Act, 2013 ("Act") ("Scheme"). The Scheme provides for capital reorganisation of the Company, inter alia, providing for transfer of amounts standing to the credit of the General Reserves to the Retained Earnings of the Company with effect from the Appointed Date.

Post the requisite approvals obtained from Stock Exchanges and pursuant to the National Company Law Tribunal, Mumbai Bench ("NCLT") Order dated 26 August 2022 ("NCLT Order"), the proposed scheme was approved by the shareholders with requisite majority on 11 October 2022.

The Company is in the process of complying with the further requirements specified in the NCLT Order.

- The Board of Directors of HZL, on 21 January 2022, approved the Scheme of Arrangement between HZL and its shareholders under Section 230 and other applicable provisions of the Companies Act, 2013 ("Act") ("Scheme"). The Scheme provides for capital reorganisation of HZL, inter alia, providing for transfer of amounts standing to the credit of the General Reserves to the Retained Earnings of the HZL with effect from the Appointed Date.

Post the requisite approvals obtained from Stock Exchanges and pursuant to the National Company Law Tribunal, Mumbai Bench ("NCLT") Order dated 06 February 2023 ("NCLT Order"), the proposed scheme was approved by the shareholders with requisite majority on 29 March 2023.

HZL is in the process of complying with the further requirements specified in the NCLT Order.

- Preference share redemption reserve:** The Companies Act, 2013 provides that companies that issue preference shares may redeem those shares from profits of the Company which otherwise would be available for dividends, or from proceeds of a new issue of shares made for the purpose of redemption of the preference shares. If there is a premium payable on redemption, the premium must be provided for, either by reducing the additional paid up capital (securities premium account) or net income, before the shares are redeemed. If profits are used to redeem preference shares, the value of the nominal amount of shares redeemed should be transferred from profits (retained earnings) to the preference share redemption reserve. This amount should then be utilised for the purpose of redemption of redeemable preference shares. This reserve can be used to issue fully paid-up bonus shares to the shareholders of the Company.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- (c) **Capital reserve:** The balance in capital reserve has mainly arisen pursuant to extinguishment of non-controlling interests of erstwhile Cairn India Limited, acquisition of ASI and FACOR. Further, changes in capital reserve are due to recognition/ derecognition of put option liability and non controlling interests pertaining to ASI.
- (d) **Securities premium:** The amount received in excess of nominal value of the equity shares is recognised in securities premium. This reserve is utilised in accordance with the specific provisions of the Act.
- (e) **Foreign currency translation reserve:** Items in the consolidated statement of profit and loss of those businesses for which the Indian Rupees is not the functional currency are translated into Indian Rupees at the average rates of exchange during the year/ exchange rates as on the date of transaction. The related consolidated balance sheet is translated into Indian rupees at the rates as at the reporting date. Exchange differences arising on translation are recognised in consolidated statements of other comprehensive income. On disposal of such entities the deferred cumulative exchange differences recognised in equity relating to that particular foreign operation are recognised in the consolidated statement of profit and loss.
- (f) **Equity settled share based payment reserve:** Share-based payments reserve represents amount of fair value, as on the date of grant, of unvested options and vested options not exercised till date, that have been recognised as expense in the statement of profit and loss till date.
- (g) Legal reserve is created at Fujairah Gold FZC in accordance with free zone regulations.
- (h) Treasury share represents 78,66,397 (31 March 2023: 40,05,075) equity shares (face value of ₹ 1 each) of the Company purchased by Vedanta Limited ESOP Trust pursuant to the Company's stock option scheme as detailed in note 32.
- (i) **Hedging reserve:** Hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into for cash flow hedges, which is recognised in OCI and later reclassified to statement of profit and loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

17 Non-controlling interests (NCI)

The Non-controlling interests that are material to the Group relate to Hindustan Zinc Limited (HZL) and Bharat Aluminium Company Limited (BALCO).

As at 31 March 2024, NCIs hold an economic interest by virtue of their shareholding of 35.08%, 49.00%, 26.00%, 48.37%, 4.51% and 0.00% in Hindustan Zinc Limited (HZL), Bharat Aluminium Company Limited (BALCO), Black Mountain Mining (BMM), Avanstrate Inc. (ASI), ESL Steel Limited (ESL) and Ferro Alloys Corporation Limited (FACOR) respectively.

As at 31 March 2023, NCIs hold an economic interest by virtue of their shareholding of 35.08%, 49.00%, 26.00%, 48.37%, 4.51% and 0.00% in Hindustan Zinc Limited (HZL), Bharat Aluminium Company Limited (BALCO), Black Mountain Mining (BMM), Avanstrate Inc. (ASI), ESL Steel Limited (ESL) and Ferro Alloys Corporation Limited (FACOR) respectively.

18 Capital management

The Group's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth. The Group's overall strategy remains unchanged from previous year.

The Group sets the amount of capital required on the basis of annual business and long-term operating plans which include capital and other strategic investments.

The funding requirements are met through a mixture of equity, internal fund generation and borrowings. The Group's policy is to use current and non-current borrowings to meet anticipated funding requirements.

The Group monitors capital on the basis of the net gearing ratio which is Net debt/ Total Capital (equity + net debt). The Group is not subject to any externally imposed capital requirements.

Net debt are non-current and current debt as reduced by cash and cash equivalents, bank and other current and non-current investments. Equity comprises all components including other comprehensive income.

The following table summarises the capital of the Group:

Particulars	As at	
	31 March 2024	31 March 2023
Cash and cash equivalents (Refer note 13)	2,812	6,926
Other bank balances ^a (including interest accrued) (Refer note 14)	1,030	732
Non-current Bank deposits ^a (Refer note 10)	531	475
Long term investments (Refer note 7A)	169	153
Short term investments (Refer note 7B)	10,882	12,636
Total cash (a)	15,424	20,922
Non-current borrowings (Note 19A)	50,633	43,476
Current borrowings (Note 19B)	21,125	22,706
Total borrowings (b)	71,758	66,182
Net debt (c=(b-a))	56,334	45,260
Total equity (d)	42,069	49,427
Total capital (e = equity + net debt)	98,403	94,687
Gearing ratio (times) (c/e)	0.57	0.48

a) The constituents of 'total cash' for the purpose of capital management disclosure include only those amounts of restricted funds that are corresponding to liabilities (e.g., margin money deposits). Restricted funds amounting to ₹ 765 crore (31 March 2023: ₹ 1,809 crore) have been excluded from 'total cash' in the capital management disclosures.

- a) The non-controlling shareholders of ASI have an option to sell their shareholding to the Group. The option is exercisable at any time within the period of three years following the fifth anniversary of the date of shareholders' agreement (22 December 2017) at a price higher of ₹ 52 (US\$ 0.757) per share and the fair market value of the share. Therefore, the liability is carried at higher of the two. Subsequent changes to the put option liability are treated as equity transaction and hence accounted for in equity.
b) Includes revenue received in excess of entitlement interest of ₹ 484 crore (31 March 2023: ₹ 487 crore) of which ₹ 295 crore (31 March 2023: ₹ 279 crore) is payable to ONGC and reimbursement of expenses, interest accrued on other than borrowings, liabilities related to claim, liability for stock options etc.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

23 Movement in lease liabilities is as follows :

Particulars	(₹ in crore)	
	As at 31 March 2024	As at 31 March 2023
At 01 April 2022		474
Additions during the year		143
Interest on lease liabilities		14
Payments made ^a		(182)
FCTR and other adjustments		(3)
As at 31 March 2023		446
Additions during the year		945
Interest on lease liabilities		50
Payments made ^a		(382)
FCTR and other adjustments		(46)
As at 31 March 2024		1,013

- a) Includes payment of interest on lease liabilities of ₹ 50 crore (31 March 2023: ₹ 14 crore)

24 Financial instruments

A. Financial assets and liabilities:

The accounting classification of each category of financial instruments, their carrying amounts and their fair values are set out below:

As at 31 March 2024

Financial Assets	(₹ in crore)					
	Fair value through profit or loss	Fair value through other comprehensive income	Derivatives designated as hedging instruments	Amortised cost	Total carrying value	Total fair value

* Investments exclude equity investment in associates and joint ventures which are accounted as per the equity method of accounting.

**Includes lease liability of ₹ 1,013 crore (31 March 2023: ₹ 446 crore)

*** Represents net put option liability with non-controlling interests accounted for at fair value.

B. Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The below table summarises the categories of financial assets and liabilities as at 31 March 2024 and 31 March 2023 measured at fair value:

As at 31 March 2024

(₹ in crore)			
Financial Assets	Level 1	Level 2	Level 3
At fair value through profit or loss			
Investments	2,659	3,796	662

*Refer note 42 (J)

The fair value of the financial assets and liabilities are at the amount that would be received to sell an asset and paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values:

- Investments traded in active markets are determined by reference to quoted prices in an active market in case of listed securities and by quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual fund house. For other listed securities traded in markets which are not active, the quoted price is used wherever the pricing mechanism is same as for other marketable securities traded in active markets. Other investments, inputs for which are not based on observable market data (unobservable inputs), are valued on the basis of net assets value method.
- Other current investments are valued on the basis of market trades, poll and primary issuances for securities issued by the same or similar issuer and for similar maturities or based on the applicable spread movement for the security derived based on the aforementioned factor(s).
- Trade receivables, cash and cash equivalents, other bank balances, other financial assets, current borrowings, trade payables, operational buyers' credit and other current financial liabilities: Fair values approximate their carrying amounts largely due to the short-term maturities of these instruments.
- Non-current fixed-rate and variable-rate borrowings: Fair value has been determined using discounted cash flow model based on parameters such as interest rates, specific country risk factors, and the risk characteristics of the financed project.
- Derivative financial assets/liabilities: The Group executes derivative financial instruments with various counterparties. Interest rate swaps, foreign exchange forward contracts and commodity forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include the forward pricing and swap models, using present value calculations. The models incorporate various inputs including foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity. Commodity contracts are valued using the forward LME rates of commodities actively traded on the listed metal exchange, i.e., London Metal Exchange, United Kingdom (U.K.).

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- Other non-current financial assets and liabilities: Fair value is calculated using a discounted cash flow model with market assumptions, unless the carrying value is considered to approximate to fair value.

For all other financial instruments, the carrying amount is either the fair value, or approximates the fair value.

The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and the value of other financial instruments recognised at fair value.

The estimated fair value amounts as at 31 March 2024 and 31 March 2023 have been measured as at respective date. As such, the fair values of these financial instruments subsequent to reporting date may be different than the amounts reported at each period-end.

There were no significant transfers between Level 1, Level 2 and Level 3 during the year.

C. Risk management framework

The Group's businesses are subject to several risks and uncertainties including financial risks.

The Group's documented risk management policies act as an effective tool in mitigating the various financial risks to which the businesses are exposed in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty credit risk and capital management. Risks are identified at both the corporate and individual subsidiary level with active involvement of senior management. Each operating subsidiary in the Group has in place risk management processes which are in line with the Group's policy. Each significant risk has a designated 'owner' within the Group at an appropriate senior level. The potential financial impact of the risk and its likelihood of a negative outcome are regularly updated.

The risk management process is coordinated by the Management Assurance function and is regularly reviewed by the Group's Audit and Risk Management Committee. The Audit and Risk Management Committee is aided by the other Committees of the Board including the Risk Management Committee, which meets regularly to review risks as well as the progress against the planned actions. Key business decisions are discussed at the periodic meetings of the Executive Committee. The overall internal control environment and risk management programme including financial risk management is reviewed by the Audit Committee on behalf of the Board.

The risk management framework aims to:

- improve financial risk awareness and risk transparency
- identify, control and monitor key risks
- identify risk accumulations
- provide management with reliable information on the Group's risk situation
- improve financial returns

Treasury management

Treasury management focuses on liability management, capital protection, liquidity maintenance and yield maximisation. The treasury policies are approved by the Committee of the Board. Daily treasury operations of the subsidiary companies are managed by their respective finance teams within the framework of the overall Group treasury policies. Long-term fund raising including strategic treasury initiatives are managed jointly by the business treasury team and the central team at corporate treasury while short-term funding for routine working capital requirements is delegated to subsidiary companies. A monthly reporting system exists to inform senior management of the Group's investments and debt position, exposure to currency, commodity and interest rate risk and their mitigants including the derivative position. The Group has a strong system of internal control which enables effective monitoring of adherence to Group's policies. The internal control measures are effectively supplemented by regular internal audits.

The Group uses derivative instruments to manage the exposure in foreign currency exchange rates, interest rates and commodity prices. The Group does not acquire or issue derivative financial instruments for trading or speculative purposes. The Group does not enter into complex derivative transactions to manage the treasury and commodity risks. Both treasury and commodities derivative transactions are normally in the form of forward contracts, interest rate and currency swaps and these are in line with the Group's policies.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Commodity price risk

The Group is exposed to the movement of base metal commodity prices on the London Metal Exchange. Any decline in the prices of the base metals that the Group produces and sells will have an immediate and direct impact on the profitability of the businesses. As a general policy, the Group aims to sell the products at prevailing market prices. The commodity price risk in imported input commodity such as Alumina, anodes, etc., for our aluminium and Copper business respectively, is hedged on back-to-back basis ensuring no price risk for the business. Hedging is used primarily as a risk management tool and, in some cases, to secure future cash flows in cases of high volatility by entering into forward contracts or similar instruments. The hedging activities are subject to strict limits set out by the Board and to a strictly defined internal control and monitoring mechanism. Decisions relating to hedging of commodities are taken at the Executive Committee level, basis clearly laid down guidelines.

Whilst the Group aims to achieve average LME prices for a month or a year, average realised prices may not necessarily reflect the LME price movements because of a variety of reasons such as uneven sales during the year and timing of shipments.

The Group is also exposed to the movement of international crude oil price and the discount in the price of Rajasthan crude oil to Brent price.

Financial instruments with commodity price risk are entered into in relation to following activities:

- economic hedging of prices realised on commodity contracts
- cash flow hedging of revenues, forecasted highly probable transactions

Aluminium

The requirement of the primary raw material, alumina, is partly met from own sources and the rest is purchased primarily on negotiated price terms. Sales prices are linked to the LME prices. At present, the Group, on selective basis hedges the aluminium content in outsourced alumina to protect its margins. The Group also executes hedging arrangements for its aluminium sales to realise average month of sale LME prices.

Copper

The Group's custom refining copper operations at Silvassa is benefitted by a natural hedge except to the extent of a possible mismatch in quotational periods between the purchase of anodes / blisters and the sale of finished copper. The Group's policy on custom smelting is to generate margins from Refining Charges or "RCs", improving operational efficiencies, minimising conversion cost, generating a premium over LME on sale of finished copper, sale of by-products and from achieving import parity on domestic sales. Hence, mismatches in quotational periods are managed to ensure that the gains or losses are minimised. The Group hedges this variability of LME prices through forward contracts and tries to make the LME price a pass-through cost between purchases of anodes / blisters and sales of finished products, both of which are linked to the LME price.

RCs are a major source of income for the Indian copper refining operations. Fluctuations in RCs are influenced by factors including demand and supply conditions prevailing in the market for smelters output. The Group's copper business has a strategy of securing a majority of its anodes / blisters feed requirement under long-term contracts with smelters / traders.

Zinc, lead and silver

The sales prices are linked to the LME prices. The Group also executes hedging arrangements for its Zinc, Lead and Silver sales to realise average month of sale LME prices. In exceptional circumstances, we may enter into strategic hedging with prior approval of the Committee of Directors.

Zinc International

Raw material for zinc and lead is mined in Namibia and South Africa with sales prices linked to the LME prices.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Iron ore

The Group sells its Iron Ore production from Goa on the prevailing market prices and from Karnataka through e-auction route as mandated by State Government of Karnataka in India.

Oil and gas

The prices of various crude oils are based upon the price of the key physical benchmark crude oil such as Dated Brent, West Texas Intermediate, and Dubai/Oman etc. The crude oil prices move based upon market factors like supply and demand. The regional producers price their crude basis these benchmark crude with a premium or discount over the benchmark based upon quality differential and competitiveness of various grades. The Group also hedges variability of crude price through forward contracts on selective basis.

Natural gas markets are evolving differently in important geographical markets. There is no single global market for natural gas. This could be owing to difficulties in large-scale transportation over long distances as compared to crude oil. Globally, there are three main regional hubs for pricing of natural gas, which are USA (Henry Hub Prices), UK (NBP Price) and Japan (imported gas price, mostly linked to crude oil).

Provisionally priced financial instruments

On 31 March 2024, the value of net financial liabilities linked to commodities (excluding derivatives) accounted for on provisional prices was ₹ 359 crore (31 March 2023: ₹ 603 crore). These instruments are subject to price movements at the time of final settlement and the final price of these instruments will be determined in the financial year beginning 01 April 2024.

Set out below is the impact of 10% increase in LME prices on pre-tax profit for the year and pre-tax equity as a result of changes in value of the Group's commodity financial instruments:

	(₹ in crore)		
For the year ended 31 March 2024	Total Exposure	Effect on pre-tax profit of a 10% increase in the LME	Effect on equity of a 10% increase in the LME
Copper	(590)	(59)	-

	(₹ in crore)		
For the year ended 31 March 2023	Total Exposure	Effect on pre-tax profit of a 10% increase in the LME	Effect on equity of a 10% increase in the LME
Copper	(875)	(87)	-

The above sensitivities are based on volumes, costs, exchange rates and other variables and provide the estimated impact of a change in LME prices on profit and equity assuming that all other variables remain constant. A 10% decrease in LME prices would have an equal and opposite effect on the Group's financial statements.

The impact on pre-tax profit/(loss) mentioned above includes the impact of a 10% increase in closing copper LME for provisionally priced copper concentrate purchased at Copper division custom smelting operations in India of ₹ 101 crore loss (31 March 2023: ₹ 134 crore loss), which is pass through in nature and as such will not have any impact on the profitability.

(a) Financial risk

The Group's Board approved financial risk policies include monitoring, measuring and mitigating the liquidity, currency, interest rate and counterparty risk. The Group does not engage in speculative treasury activity but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

Liquidity risk

The Company requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects. The Company generates sufficient cash flows from the current operations which together with

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

the available cash and cash equivalents and short-term investments provide liquidity both in the short-term as well as in the long-term. The Company has been rated by CRISIL Limited (CRISIL) and India Ratings and Research Private Limited (India Rating) for its capital market issuance in the form of CPs and NCDs and for its banking facilities in line with Basel II norms.

During FY 2024, CRISIL Ratings has downgraded its rating on the long-term bank facilities and debt instruments of the Company from 'CRISIL AA' to 'CRISIL AA-' while the rating on short-term facilities and commercial paper has been reaffirmed at 'CRISIL A1+'. The ratings have also been placed on Watch with Developing Implications.

During FY2024, India Ratings has downgraded the Company's rating on the long-term instruments from 'IND AA' to 'IND A+' and on short-term facilities and commercial paper from 'IND A1+' to 'IND A1'. The ratings have also been placed on Watch with Developing Implications.

The ratings downgrade is driven by higher than expected leverage and increase in borrowing costs. However, they expect reduced refinancing risk for VRL to support Vedanta's financial flexibility, with improved access and cost of borrowing from the banks and capital markets. The Rating Watch is due to the demerger announcement of the company as clarity on allocation of assets and liabilities and its probable impact on liquidity of the company is awaited by the rating agencies.

Anticipated future cash flows, together with undrawn fund based committed facilities of ₹ 6,723 Crore, and cash, bank and other non-current and current investments of ₹ 15,424 Crore as at 31 March 2024, are expected to be sufficient to meet the liquidity requirement of the Group in the near future.

The Group remains committed to maintaining a healthy liquidity, a low gearing ratio, deleveraging and strengthening its balance sheet. The maturity profile of the Group's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the Group.

As at 31 March 2024

(₹ in crore)

Payments due by year	<1 year	1-3 years	3-5 years	>5 years	Total
Borrowings*	33,732	32,267	15,602	22,995	104,597

	76,386	33,160	15,695	23,038	1,48,280

As at 31 March 2023

(₹ in crore)

Payments due by year	<1 year	1-3 years	3-5 years	>5 years	Total
Borrowings*	26,047	24,013	18,282	14,161	82,503
Derivative financial liabilities	193	20	-	-	213
Lease liabilities	302	109	5	30	446
Trade Payables, Operational Buyers' Credit and Other financial liabilities**	49,153	300	1,241	-	50,694
	75,695	24,442	19,528	14,191	1,33,856

* Includes non-current borrowings, current borrowings, committed interest payments on borrowings and interest accrued on borrowings.

** Includes both non-current and current financial liabilities and committed interest payment, as applicable. Excludes interest accrued on borrowings.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The Group had access to following funding facilities:

As at 31 March 2024

(₹ in crore)

Funding facility	Level 1	Level 2	Level 3
Fund/non-fund based	97,629	82,932	14,697

As at 31 March 2023

(₹ in crore)

Funding facility	Level 1	Level 2	Level 3
Fund/non-fund based	95,678	80,760	14,918

(b) Foreign exchange risk

Fluctuations in foreign currency exchange rates may have an impact on the consolidated statement of profit and loss, the consolidated statement of change in equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the respective consolidated entities.

Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from the fluctuations primarily in the US dollar, Australian dollar, Namibian dollar, AED, ZAR, GBP, JPY, INR and Euro against the functional currencies of Vedanta Limited and its subsidiaries.

Exposures on foreign currency loans are managed through the Group wide hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Group strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged.

The Group's presentation currency is the Indian Rupee (INR). The majority of the assets are located in India and the Indian Rupee is the functional currency for the Indian operating subsidiaries except for Oil and Gas business operations which have a US dollar functional currency. Natural hedges available in the business are identified at each entity level and hedges are placed only for the net exposure. Short-term net exposures are hedged progressively based on their maturity. A more conservative approach has been adopted for project expenditures to avoid budget overruns, where cost of the project is calculated taking into account the hedge cost. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency exchange rates is appropriately managed.

The following analysis is based on the gross exposure as at the reporting date which could affect the consolidated statement of profit and loss. The exposure is mitigated by some of the derivative contracts entered into by the Group as disclosed under the section on "Derivative financial instruments".

The carrying amount of the Group's financial assets and liabilities in different currencies are as follows:

(₹ in crore)

Particulars	As at 31 March 2024		As at 31 March 2023	
	Financial Asset	Financial liabilities	Financial Asset	Financial liabilities
INR	23,390	79,501	33,082	84,810
USD	16,618	32,238	10,515	30,012
Others	1,168	4,268	988	3,230
Total	41,176	1,16,007	44,585	1,18,052

The Group's exposure to foreign currency arises where a Group entity holds monetary assets and liabilities denominated in a currency different to the functional currency of the respective business, with US dollar being the major non-functional currency.

The foreign exchange rate sensitivity is calculated by the aggregation of the net foreign exchange rate exposure with a simultaneous parallel foreign exchange rates shift in the foreign currencies by 10% against the functional currency of the respective entities.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Set out below is the impact of a 10% strengthening in the functional currencies of the respective businesses on pre-tax profit and pre-tax equity arising as a result of the revaluation of the Group's foreign currency monetary financial assets/liabilities:

For the year ended 31 March 2024

(₹ in crore)

	Effect of 10% strengthening of functional currency on pre-tax profit	Effect of 10% strengthening of functional currency on equity
USD	1,190	-
INR	(19)	-

For the year ended 31 March 2023

(₹ in crore)

	Effect of 10% strengthening of functional currency on pre-tax profit	Effect of 10% strengthening of functional currency on equity
USD	1,408	-
INR	(631)	-

A 10% weakening of functional currencies of the respective businesses would have an equal and opposite effect on the Group's financial statements.

In respect of loans granted to group companies, there have been no non-compliances of the relevant provisions of the Foreign Exchange Management Act, 1992 and the Prevention of Money Laundering Act, 2002.

(c) Interest rate risk

At 31 March 2024, the Group's net debt of ₹ 56,334 crore (31 March 2023: ₹ 45,260 crore) comprises debt of ₹ 71,758 crore (31 March 2023: ₹ 66,182 crore) offset by cash, bank and current investments of ₹ 15,424 crore (31 March 2023: ₹ 20,922 crore).

The Group is exposed to interest rate risk on short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Group's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Group are principally denominated in Indian Rupees and US dollars with mix of fixed and floating rates of interest. The USD floating rate debt is linked to US dollar LIBOR and INR Floating rate debt to Bank's base rate. The Group has a policy of selectively using interest rate swaps, option contracts and other derivative instruments to manage its exposure to interest rate movements. These exposures are reviewed by appropriate levels of management on a monthly basis. The Group invests cash and liquid investments in short-term deposits and debt mutual funds, some of which generate a tax-free return, to achieve the Group's goal of maintaining liquidity, carrying manageable risk and achieving satisfactory returns.

Floating rate financial assets are largely mutual fund investments which have debt securities as underlying assets. The returns from these financial assets are linked to market interest rate movements; however the counterparty invests in the agreed securities with known maturity tenure and return and hence has manageable risk.

The exposure of the Group's financial assets as at 31 March 2024 to interest rate risk is as follows:

(₹ in crore)

	Total	Floating rate financial assets	Fixed rate financial assets	Non-interest bearing financial assets
Financial Assets	41,176	2,695	16,051	22,430

The exposure of the Group's financial liabilities as at 31 March 2024 to interest rate risk is as follows:

(₹ in crore)

	Total	Floating rate financial liabilities	Fixed rate financial liabilities	Non-interest bearing financial liabilities
Financial Liabilities	1,16,007	50,182	36,985	28,840

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The exposure of the Group's financial assets as at 31 March 2023 to interest rate risk is as follows:

(₹ in crore)

	Total	Floating rate financial assets	Fixed rate financial assets	Non-interest bearing financial assets
Financial Assets	44,585	4,673	16,175	23,737

The exposure of the Group's financial liabilities as at 31 March 2023 to interest rate risk is as follows:

(₹ in crore)

	Total	Floating rate financial liabilities	Fixed rate financial liabilities	Non-interest bearing financial liabilities
Financial Liabilities	1,18,052	48,140	31,894	38,018

Considering the net debt position as at 31 March 2024 and the investment in Bank deposits, corporate bonds and debt mutual funds, any increase in interest rates would result in a net loss and any decrease in interest rates would result in a net gain. The sensitivity analysis below has been determined based on the exposure to interest rates for financial instruments at the balance sheet date.

The table below illustrates the impact of a 0.5% to 2.0% movement in interest rates on floating rate financial assets/liabilities (net) on profit/(loss) and equity assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of that date. The year end balances are not necessarily representative of the average debt outstanding during the year. This analysis also assumes that all other variables, in particular foreign currency rates, remain constant.

(₹ in crore)

Increase in interest rates	Effect on pre-tax profit/(loss) during the year ended 31 March 2024	Effect on pre-tax profit/(loss) during the year ended 31 March 2023
0.50%	(237)	(217)
1.00%	(475)	(435)
2.00%	(950)	(869)

An equivalent reduction in interest rates would have an equal and opposite effect on the Group's financial statements.

(d) Counterparty and concentration of credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Group is exposed to credit risk from trade receivables, contract assets, investments, loans, other financial assets, and derivative financial instruments.

Credit risk on receivables is limited as almost all credit sales are against letters of credit and guarantees of banks of national standing.

Moreover, given the diverse nature of the Group's businesses, trade receivables are spread over a number of customers with no significant concentration of credit risk. The history of trade receivables shows a negligible provision for bad and doubtful debts. Therefore, the Group does not expect any material risk on account of non-performance by any of the Group's counterparties.

The Group has clearly defined policies to mitigate counterparty risks. For short-term investments, counterparty limits are in place to limit the amount of credit exposure to any one counterparty. This, therefore, results in diversification of credit risk for our mutual fund and bond investments. For derivative and financial instruments, the Group attempts to limit the credit risk by only dealing with reputable banks and financial institutions.

The carrying value of the financial assets represents the maximum credit exposure. The Group's maximum exposure to credit risk is ₹ 41,176 crore (31 March 2023: ₹ 44,585 crore).

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The maximum credit exposure on financial guarantees given by the Group for various financial facilities is described in Note 40 on "Contingent liability and capital commitments".

None of the Group's cash equivalents, including time deposits with banks, are past due or impaired. Regarding trade receivables, loans and other financial assets (both current and non-current), there were no indications as at the year end, that defaults in payment obligations will occur except as described in Notes 8, 9 and 10 on allowance for impairment of trade receivables and other financial assets.

Of the year end trade receivables, loans and other financial assets (excluding Bank deposits and site restoration fund) balance the following, though overdue, are expected to be realised in the normal course of business and hence, are not considered impaired as at 31 March 2024 and 31 March 2023:

Particulars	As at	
	31 March 2024	31 March 2023
Neither impaired nor past due	12,381	13,793
Past due but not impaired		
- Less than 1 month	1,242	1,116
- Between 1-3 months	464	235
- Between 3-12 months	3,337	327
- Greater than 12 months	5,151	4,581
Total	22,575	20,052

Receivables are deemed to be past due or impaired with reference to the Group's normal terms and conditions of business. These terms and conditions are determined on a case to case basis with reference to the customer's credit quality and prevailing market conditions. Receivables that are classified as 'past due' in the above tables are those that have not been settled within the terms and conditions that have been agreed with that customer. The Group based on past experiences does not expect any material loss on its receivables.

The credit quality of the Group's customers is monitored on an ongoing basis. Where receivables have been impaired, the Group actively seeks to recover the amounts in question and enforce compliance with credit terms.

Movement in allowances for Financial Assets (Trade receivables and Financial assets - others)

The change in the allowance for financial assets (current and non-current) is as follows:

Funding facility	As at		
	Trade receivables	Financial assets - Others	Financial assets - Loans
As at 01 April 2022	1,080	1,048	78
Allowance made during the year	356	0	0
Reversals/ write-off during the year	(40)	(225)	-
Exchange differences	0	49	9
As at 31 March 2023	1,396	872	87
Allowance made during the year	280	217	0
Reversals/ write-off during the year	(581)	(1)	-
Exchange differences	0	8	1
As at 31 March 2024	1,095	1,096	88

D Derivative financial instruments

The Group uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates, interest rates and commodity prices. The Group does not acquire or issue derivative financial instruments for trading or speculative purposes. The Group does not enter into complex derivative transactions to manage the treasury and commodity risks. Both treasury and commodities derivative transactions are normally in the form of forward contracts and these are subject to the Group guidelines and policies.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The fair values of all derivatives are separately recorded in the consolidated balance sheet within current and non-current assets and liabilities. Derivatives that are designated as hedges are classified as current or non-current depending on the maturity of the derivative.

The use of derivatives can give rise to credit and market risk. The Group tries to control credit risk as far as possible by only entering into contracts with reputable banks and financial institutions. The use of derivative instruments is subject to limits, authorities and regular monitoring by appropriate levels of management. The limits, authorities and monitoring systems are periodically reviewed by management and the Board. The market risk on derivatives is mitigated by changes in the valuation of the underlying assets, liabilities or transactions, as derivatives are used only for risk management purposes.

Cash flow hedges

The Group enters into forward exchange and commodity price contracts for hedging highly probable forecast transaction and account for them as cash flow hedges and states them at fair value. Subsequent changes in fair value are recognised in equity through OCI until the hedged transaction occurs, at which time, the respective gain or losses are reclassified to profit or loss. These hedges have been effective for the year ended 31 March 2024 and 31 March 2023.

The Group uses foreign exchange contracts from time to time to optimise currency risk exposure on its foreign currency transactions. The Group hedged part of its foreign currency exposure on capital commitments during the year ended 31 March 2024 and 31 March 2023. Fair value changes on such forward contracts are recognised in other comprehensive income.

The majority of cash flow hedges taken out by the Group during the year comprise non-derivative hedging instruments for hedging the foreign exchange rate of highly probable forecast transactions and commodity price contracts for hedging the commodity price risk of highly probable forecast transactions.

The cash flows related to above are expected to occur during the year ending 31 March 2024 and consequently may impact profit or loss for that year depending upon the change in the commodity prices and foreign exchange rates movements. For cash flow hedges regarded as basis adjustments to initial carrying value of the property, plant and equipment, the depreciation on the basis adjustments made is expected to affect profit or loss over the expected useful life of the property, plant and equipment.

Fair value hedges

The fair value hedges relate to forward covers taken to hedge currency exposure and commodity price risks.

The Group's sales are on a quotational period basis, generally one month to three months after the date of delivery at a customer's facility. The Group enters into forward contracts for the respective quotational period to hedge its commodity price risk based on average LME prices. Gains and losses on these hedge transactions are substantially offset by the amount of gains or losses on the underlying sales. Net gains and losses are recognised in the consolidated statement of profit and loss.

The Group uses foreign exchange contracts from time to time to optimise currency risk exposure on its foreign currency transactions. Fair value changes on such forward contracts are recognised in the consolidated statement of profit and loss.

Non-designated economic hedges

The Group enters into derivative contracts which are not designated as hedges for accounting purposes, but provide an economic hedge of a particular transaction risk or a risk component of a transaction. Hedging instruments include copper, aluminium future contracts on the LME and certain other derivative instruments. Fair value changes on such derivative instruments are recognised in the consolidated statement of profit and loss.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The fair value of the Group's derivative positions recorded under derivative financial assets and derivative financial liabilities are as follows:

(₹ in crore)

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

c) Restoration, rehabilitation and environmental costs

The provisions for restoration, rehabilitation and environmental liabilities represent the management's best estimate of the costs which will be incurred in the future to meet the Group's obligations under existing Indian, Australian, Namibian, South African and Irish law and the terms of the Group's exploration and other licences and contractual arrangements.

Within India, the principal restoration and rehabilitation provisions are recorded within Oil & Gas business where a legal obligation exists relating to the oil and gas fields, where costs are expected to be incurred in restoring the site of production facilities at the end of the producing life of an oil field. The Group recognises the full cost of site restoration as a liability when the obligation to rectify environmental damage arises.

These amounts are calculated by considering discount rates within the range of 1% to 15% and are payable upon mine closure. These costs are expected to be spread out over a period of one to forty-seven years. The lower end of the discount rate is seen at ASI, Oil and Gas business, and Zinc International operations in Ireland, while the higher end is observed at ESL Steels and Zinc International operations in African countries.

d) Other provisions

Other provisions include provision for disputed cases and claims.

26 Other liabilities

(₹ in crore)

Particulars	As at 31 March 2024			As at 31 March 2023		
	Non-current	Current	Total	Non-current	Current	Total
Amount payable to owned post-employment benefit trust	-	25	25	-	32	32
Other statutory liabilities ^a	-	2,846	2,846	-	3,805	3,805
Deferred government grants ^b	4,208	288	4,496	4,309	282	4,591
Advance from customer ^c	950	8,076	9,026	-	8,931	8,931
Advance from related party	-	3	3	-	3	3
Other liabilities	-	239	239	-	185	185
Total	5,158	11,477	16,635	4,309	13,238	17,547

a) Statutory liabilities mainly includes payables for Provident fund, ESIC, withholding taxes, goods and services tax, VAT, service tax, etc.

b) Represents government assistance in the form of the duty benefit availed under Export Promotion Capital Goods (EPCG) Scheme and SEZ scheme on purchase of property, plant and equipment accounted for as government grant and being amortised over the useful life of such assets.

c) Advance from customers are contract liabilities to be settled through delivery of goods. The amount of such balances as on 01 April 2022 was ₹ 4,531 crore. During the current year, the Group has recognised revenue of ₹ 8,954 crore (31 March 2023: ₹ 4,380 crore) out of opening balances. All other changes are either due to receipt of fresh advances or exchange differences.

27 Revenue from operations

(₹ in crore)

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
	Sale of products (Refer note 36(a))	1,40,049
Sale of services	321	326
Revenue from contingent rents	1,423	1,543
Total	1,41,793	1,45,404

a) Revenue from sale of products and from sale of services for the year ended 31 March 2024 includes revenue from contracts with customers of ₹ 1,42,513 crore (31 March 2023: ₹ 1,45,984 crore) and a net loss on mark-to-market of ₹ 2,143 crore (31 March 2023: ₹ 2,123 crore) on account of gains/ losses relating to sales that were provisionally priced as at 31 March 2023 with the final price settled in the current year, gains/ losses relating to sales fully priced during the year, and marked to market gains/ losses relating to sales that were provisionally priced as at 31 March 2024.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- b) Majority of the Group's sales are against advance or are against letters of credit/ cash against documents/ guarantees of banks of national standing. Where sales are made on credit, the amount of consideration does not contain any significant financing component as payment terms are within the normal credit period.

As per the terms of the contract with its customers, either all performance obligations are to be completed within one year from the date of such contracts or the Group has a right to receive consideration from its customers for all completed performance obligations. Accordingly, the Group has availed the practical expedient available under paragraph 121 of Ind AS 115 and dispensed with the additional disclosures with respect to performance obligations that remained unsatisfied (or partially unsatisfied) at the balance sheet date. Further, since the terms of the contracts directly identify the transaction price for each of the completed performance obligations, in all material respects, there are no elements of transaction price which have not been included in the revenue recognised in the financial statements.

Further, there is no material difference between the contract price and the revenue from contract with customers.

The Company offers equity based and cash based option plans to its employees, officers and directors through the Company's stock option plan introduced in 2016 and Cairn India's stock option plan now administered by the Company pursuant to its merger with the Company.

The Vedanta Limited Employee Stock Option Scheme (ESOS) 2016

The Company introduced an Employee Stock Option Scheme 2016 ("ESOS"), which was approved by the Vedanta Limited shareholders to provide equity settled incentive to all employees of the Company including subsidiary companies. The ESOS scheme includes tenure based, business performance based (EBITDA) and market performance based stock options. The maximum value of options that can be awarded to members of the wider management group is calculated by reference to the grade average cost-to-company ("CTC") and individual grade of the employee. The ESOS schemes are administered through VESOS trust and have underlying Vedanta Limited equity shares.

Options granted during the year ended 31 March 2024 and year ended 31 March 2023 includes business performance based, sustained individual performance based, management discretion and fatality multiplier based stock options. Business performances will be measured using Volume, Cost, Net Sales Realisation, EBITDA, Free Cash Flows, ESG & Carbon footprint or a combination of these for the respective business/ SBU entities.

The exercise price of the options is ₹ 1 per share and the performance period is three years, with no re-testing being allowed.

The fair value of all options has been determined at the date of grant of the option allowing for the effect of any market-based performance conditions. This fair value, adjusted by the Group's estimate of the number of options that will eventually vest as a result of non-market conditions, is expensed over the vesting period.

Business Performance-Based and Sustained Individual Performance-Based Options:

The fair values of stock options following these types of vesting conditions have been estimating using the Black-Scholes-Merton Option Pricing model. The value arrived at under this model has been then multiplied by the expected % vesting based on business performance conditions (only for business performance-based options) and the expected multiplier on account of sustained individual performance (for both type of options). The inputs used in the Black-Scholes-Merton Option Pricing model include the share price considered as of the valuation date, exercise price as per the scheme/ plan of the options, expected dividend yield (estimated based on actual/ expected dividend trend of the company), expected tenure (estimated as the remaining vesting period of the options), the risk-free rate (considered as the zero coupon yield as of the valuation date for a term commensurate with the expected tenure of the options) and expected volatility (estimated based on the historical volatility of the return in company's share prices for a term commensurate with the expected tenure of the options). The exercise period of 6 months post vesting period has not been considered as the options are expected to be exercised immediately post the completion of the vesting period.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The assumptions used in the calculations of the charge in respect of the ESOS options granted during the years ended 31 March 2024 and 31 March 2023 are set out below:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
	ESOS 2023	ESOS 2022
Number of Options	Cash settled - 35,07,647 equity settled - 18,138,912	Cash settled - 1,035,172 equity settled - 14,437,268
Exercise Price	₹ 1	₹ 1
Share Price at the date of grant	₹ 232.75	₹ 286.90
Contractual Life	3 years	3 years
Expected Volatility	41.16%	50.95%
Expected option life	3 years	3 years
Expected dividends	14.94%	7.11%
Risk free interest rate	7.18%	7.07%
Expected annual forfeitures	10% p.a	10% p.a
Fair value per option granted (Non-market performance based)	₹ 121.98	₹ 182.46

Weighted average share price at the date of exercise of stock options was ₹ 210.15 (31 March 2023: ₹ 303.80)

The weighted average remaining contractual life for the share options outstanding was 1.87 years (31 March 2023: 1.76 years).

The Group recognised total expenses of ₹ 92 crore (31 March 2023: ₹ 85 crore) related to equity settled share-based payment transactions for the year ended 31 March 2024. The total expense recognised on account of cash settled share based plan during the year ended 31 March 2024 is ₹ 10 crore (31 March 2023: ₹ 1 crore) and the carrying value of cash settled share based compensation liability as at 31 March 2024 is ₹ 15 crore (31 March 2023: ₹ 11 crore).

Employee stock option plans of erstwhile Cairn India Limited:

The Company has provided CIESOP share based payment scheme to its employees.

CIESOP plan

There are no specific vesting conditions under CIESOP plan other than completion of the minimum service period of 3 years from the date of grant. Phantom options are exercisable proportionate to the period of service rendered by the employee subject to completion of one year. The exercise period is 7 years from the vesting date which was completed in the year 2022-23. There was no new grant during the year.

Details of employees stock option plans is presented below

CIESOP Plan	Year ended 31 March 2024		Year ended 31 March 2023	
	Number of options	Weighted average exercise price in ₹	Number of options	Weighted average exercise price in ₹
Outstanding at the beginning of the year	-	-	10,37,641	286.85
Granted during the year	-	-	Nil	NA
Expired during the year	-	-	Nil	NA
Exercised during the year	-	-	2,66,914	286.85
Forfeited / cancelled during the year	-	-	7,70,727	286.85
Outstanding at the end of the year	-	-	-	-
Exercisable at the end of the year	-	-	-	-

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Weighted average share price at the date of exercise of stock options and exercise price for stock options during the year ended 31 March 2023 was ₹ 411.80 and ₹ 286.85 respectively.

In respect of one of the group's subsidiary, the Group has awarded certain cash settled share based options indexed to equity valuation of the subsidiary. The total (reversal)/expense recognised on account of cash settled share based plan during the year ended 31 March 2024 is ₹ (9) crore (31 March 2023: ₹ (5) crore) and the carrying value of cash settled share based compensation liability as at 31 March 2024 is ₹ 33 crore (31 March 2023: ₹ 44 crore).

Out of the total expense of ₹ 93 crore (31 March 2023: ₹ 80 crore) pertaining to equity settled and cash settled options for the year ended 31 March 2024 the Group has capitalised ₹ 3 crore (31 March 2023: ₹ 3 crore).

33 Employee Benefit Plans

The Group participates in defined contribution and benefit plans, the assets of which are held (where funded) in separately administered funds.

For defined contribution plans, the amount charged to the consolidated statement of profit and loss is the total amount of contributions payable in the year.

For defined benefit plans, the cost of providing benefits under the plans is determined by actuarial valuation separately each year for each plan using the projected unit credit method by independent qualified actuaries as at the year end. Remeasurement gains and losses arising in the year are recognised in full in other comprehensive income for the year.

i) Defined contribution plans

The Group contributed a total of ₹ 152 crore and ₹ 146 crore for the year ended 31 March 2024 and 31 March 2023 respectively to the following defined contribution plans.

Particulars	₹ in crore	
	Year ended 31 March 2024	Year ended 31 March 2023
Employer's contribution to recognised provident fund and family pension fund	118	118
Employer's contribution to superannuation	25	21
Employer's contribution to National Pension Scheme	9	7
	152	146

Indian pension plans

Central recognised provident fund

In accordance with the 'The Employee's Provident Funds and Miscellaneous Provisions Act, 1952', employees are entitled to receive benefits under the Provident Fund. Both the employee and the employer make monthly contributions to the plan at a predetermined rate (12% for 2024 and 2023) of an employee's basic salary, and includes contribution made to Family Pension fund as explained below. All employees have an option to make additional voluntary contributions. These contributions are made to the fund administered and managed by the Government of India (GoI) or to independently managed and approved funds. The Group has no further obligations under the fund managed by the GoI beyond its monthly contributions which are charged to the consolidated statement of profit and loss in the year they are incurred.

Family pension fund

The Pension Fund was established in 1995 and is managed by the Government of India. The employee makes no contribution to this fund but the employer makes a contribution of 8.33% of salary each month subject to a specified ceiling per employee (included in the 12% rate specified above). This is provided for every permanent employee on the payroll.

At the age of superannuation, contributions ceases and the individual receives a monthly payment based on the level of contributions through the years, and on their salary scale at the time they retire, subject to a maximum ceiling of salary level. The Government funds these payments, thus the Group has no additional liability beyond the contributions that it makes, regardless of whether the central fund is in surplus or deficit.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Superannuation

Superannuation, another pension scheme, is applicable only to executives above certain grade. However, in case of the oil & gas business (applicable from the second year of employment) and Iron Ore Segment, the benefit is applicable to all executives. Vedanta Limited and each relevant Indian subsidiary holds a policy with Life Insurance Corporation of India ("LIC"), to which each of these entities contributes a fixed amount relating to superannuation and the pension annuity is met by LIC as required, taking into consideration the contributions made. The Group has no further obligations under the scheme beyond its monthly contributions which are charged to the consolidated statement of profit and loss in the year they are incurred.

National Pension Scheme

National Pension Scheme is a retirement savings account for social security and welfare applicable for executives covered under the superannuation benefit of Vedanta Limited and each relevant Indian subsidiary, on a choice basis. It was introduced to enable employees to select the treatment of superannuation component of their fixed salaries and avail the benefits offered by National Pension Scheme launched by Government of India. Vedanta Limited and each relevant entity holds a corporate account with one of the pension fund managers authorised by the Government of India to which each of the entity contributes a fixed amount relating to superannuation and the pension annuity will be met by the fund manager as per rules of National Pension Scheme. The Group has no further obligations under the scheme beyond its monthly contributions which are charged to the consolidated statement of profit and loss in the year they are incurred.

Australian pension scheme

The Group also participates in defined contribution superannuation schemes in Australia. The contribution of a proportion of an employee's salary in a superannuation fund is a compulsory legal requirement in Australia. The employer contributes, into the employee's fund of choice, 10.00% (2023: 10.00%) of an employee's gross remuneration where the employee is covered by an industrial agreement and 13.00% (2023: 13.00%) of the basic remuneration for all other employees. All employees have an option to make additional voluntary contributions. The Group has no further obligations under the scheme beyond its monthly contributions which are charged to the consolidated statement of profit and loss in the year they are incurred.

Skorpion Zinc Provident Fund, Namibia

The Skorpion Zinc Provident Fund is a defined contribution fund and is compulsory to all full time employees under the age of 60. The Group contribution to the fund is a fixed percentage of 9% per month of pensionable salary, whilst the employee contributes 7% with the option of making additional contributions, over and above the normal contribution, up to a maximum of 12%.

Normal retirement age is 60 years and benefit payable is the member's fund credit which is equal to all employer and employee contributions plus interest. The same applies when an employee resigns from Skorpion Zinc. The Fund provides disability cover which is equal to the member's fund credit and a death cover of two times annual salary in the event of death before retirement.

The Group has no additional liability beyond the contributions that it makes. Accordingly, this scheme has been accounted for on a defined contribution basis and contributions are charged directly to the consolidated statement of profit and loss in the year they are incurred.

Black Mountain (Pty) Limited, South Africa Pension and Provident Funds

Black Mountain Mining (Pty) Ltd has two retirement funds, both administered by Alexander Forbes, a registered financial service provider. The purpose of the funds is to provide retirement and death benefits to all eligible employees.

The Group contributes at a fixed percentage of 15% for pension fund and 12.5% for provident fund.

Membership of both funds is compulsory for all permanent employees under the age of 60.

The Group has no additional liability beyond the contributions that it makes. Accordingly, this scheme has been accounted for on a defined contribution basis and contributions are charged directly to the consolidated statement of profit and loss in the year they are incurred.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

ii. Defined benefit plans

(a) Contribution to provident fund trust (the "trusts") of Iron ore division, Bharat Aluminium Company Limited (BALCO), Hindustan Zinc Limited (HZL), Sesa Resources Limited (SRL) and Sesa Mining Corporation Limited (SMCL)

The provident funds of Iron ore division, BALCO, HZL, SRL and SMCL are exempted under section 17 of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. Conditions for grant of exemption stipulates that the employer shall make good deficiency, if any, between the return guaranteed by the statute and actual earning of the Fund. Based on actuarial valuation in accordance with Ind AS 19 and the Guidance note issued by the Institute of Actuaries of India for interest rate guarantee of exempted provident fund liability of employees, there is no interest shortfall that is required to be met by Iron ore division, BALCO, HZL, SRL, and SMCL as at 31 March 2024 and 31 March 2023. Having regard to the assets of the fund and the return on the investments, the Group does not expect any deficiency in the foreseeable future.

The Group contributed a total of ₹ 62 crore for the year ended 31 March 2024 and ₹ 78 crore for the year ended 31 March 2023 in relation to the independently managed and approved funds. The present value of obligation and the fair value of plan assets of the trust are summarised below.

(₹ in crore)		
Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Fair value of plan assets of trusts	2,696	2,626
Present value of defined benefit obligation	(2,652)	(2,618)
Net liability arising from defined benefit obligation	NIL	NIL

(₹ in crore)		
Percentage allocation of plan assets of the trust	Year ended 31 March 2024	Year ended 31 March 2023
Assets by category		
Government Securities	21.09%	45.15%
Debentures / bonds	69.67%	38.32%
Equity	8.70%	16.53%
Money Market Instruments	0.00%	0.00%
Fixed deposits	0.54%	0.00%

(b) Post-Retirement Medical Benefits:

The Group has a scheme of medical benefits for employees at BMM and BALCO subsequent to their retirement on completion of tenure including retirement on medical grounds and voluntary retirement on contributory basis. The scheme includes an employee's spouse as well. Based on an actuarial valuation conducted as at year-end, a provision is recognised in full for the benefit obligation. The obligation relating to post-retirement medical benefits as at 31 March 2024 was ₹ 92 crore (31 March 2023: ₹ 101 crore). The obligation under this plan is unfunded. The Group considers these amounts as not material and accordingly has not provided further disclosures as required by Ind AS 19 'Employee benefits'. The current service cost for the year ending 31 March 2024 of ₹ 2 crore (31 March 2023: ₹ 1 crore) has been recognised in consolidated statement of profit and loss. The remeasurement losses and net interest on the obligation of post-retirement medical benefits of ₹ (13) crore (31 March 2023: ₹ 1 crore) and ₹ 9 crore (31 March 2023: ₹ 9 crore) for the year ended 31 March 2024 have been recognised in other comprehensive income and finance cost respectively.

(c) Other Post-employment Benefits:

India - Gratuity plan

In accordance with the Payment of Gratuity Act of 1972, Vedanta Limited and its Indian subsidiaries contribute to a defined benefit plan (the "Gratuity Plan") covering certain categories of employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement, disability or termination of employment being an amount based on the respective employee's last drawn salary and the number of years of employment with the Group.

Based on actuarial valuations conducted as at year end using the projected unit credit method, a provision is recognised in full for the benefit obligation over and above the funds held in the Gratuity Plan. For entities where the plan is unfunded, full provision is recognised in the consolidated balance sheet.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The iron ore and oil & gas division of Vedanta Limited, SRL, SMCL, HZL and FACOR have constituted a trust recognised by Income Tax Authorities for gratuity to employees and contributions to the trust are funded with the Life Insurance Corporation of India (LIC), ICICI Prudential Life Insurance Company Limited (ICICI) and HDFC Life Insurance Company Limited (HDFC).

Principal actuarial assumptions

Principal actuarial assumptions used to determine the present value of the Other post-employment benefit plan obligation are as follows:

(₹ in crore)		
Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Discount rate	7.10%	7.39%
Expected rate of increase in compensation level of covered employees	2%-15%	2%-15%
Mortality table	IALM (2012-14)	IALM (2012-14)

Amount recognised in the consolidated balance sheet consists of:

(₹ in crore)		
Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Fair value of plan assets	459	443
Present value of defined benefit obligations	(650)	(623)
Net liability arising from defined benefit obligation	(191)	(180)

Amounts recognised in the consolidated statement of profit and loss in respect of Other post-employment benefit plan are as follows:

(₹ in crore)		
Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Current service cost	49	43
Net interest cost	14	12
Components of defined benefit costs recognised in consolidated statement of profit and loss	63	55

Amounts recognised in other comprehensive income in respect of Other post-employment benefit plan are as follows:

(₹ in crore)		
Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Re-measurement of the net defined benefit obligation:-		
Actuarial losses arising from changes in financial assumptions	9	1
Actuarial losses arising from experience adjustments	6	9
Actuarial losses arising from changes in demographic assumptions	4	(3)
Actuarial losses on plan assets (excluding amounts included in net interest cost)	2	3
Components of defined benefit costs recognised in Other comprehensive income	21	10

The movement of the present value of the Other post-employment benefit plan obligation is as follows:

(₹ in crore)		
Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Opening balance	623	599
Current service cost	49	43
Benefits paid	(86)	(71)
Interest cost	45	42
Actuarial losses arising from changes in assumptions	19	10
Closing balance	650	623

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

The movement in the fair value of Other post-employment benefit plan assets is as follows:

Particulars	₹ in crore	
	Year ended 31 March 2024	Year ended 31 March 2023
Opening balance	440	441
Contributions received	67	28
Benefits paid	(77)	(54)
Re-measurement loss arising from return on plan assets	(2)	(3)
Interest income	31	31
Closing balance	459	443

The above plan assets have been invested in the qualified insurance policies.

The actual return on plan assets was ₹ 29 crore (31 March 2023: ₹ 28 crore).

The weighted average duration of the defined benefit obligation is 12.45 years (31 March 2023: 11.58 years).

The Group expects to contribute ₹ 34 crore to the funded defined benefit plans during the year ending 31 March 2025.

Sensitivity analysis for Defined Benefit Plan

Below is the sensitivity analysis determined for significant actuarial assumptions for the determination of defined benefit obligation and based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant.

Particulars	Increase/(Decrease) in defined benefit obligation	
	Year ended 31 March 2024	Year ended 31 March 2023
Discount rate		
Increase by 0.50%	(28)	(24)
Decrease by 0.50%	30	26
Expected rate of increase in compensation level of covered employees		
Increase by 0.50%	26	23
Decrease by 0.50%	(25)	(22)

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognised in the consolidated balance sheet.

Maturity analysis of defined benefit obligation

Particulars	₹ in crore	
	Year ended 31 March 2024	Year ended 31 March 2023
Less than 1 year	63	73
1-2 years	58	68
2-5 years	145	153
More than 5 years	384	329
	650	623

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Risk analysis

Group is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefit plans and management estimation of the impact of these risks are as follows:

Investment risk

Most of the Indian defined benefit plans are funded with the LIC, ICICI and HDFC. The Group does not have any liberty to manage the fund provided to LIC, ICICI and HDFC.

The present value of the defined benefit plan obligation is calculated using a discount rate determined by reference to Government of India bonds for the Group's Indian operations. If the return on plan asset is below this rate, it will create a plan deficit.

Interest risk

A decrease in the interest rate on plan assets will increase the net plan obligation.

Longevity risk / Life expectancy

The present value of the defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan obligation.

Salary growth risk

The present value of the defined benefit plan obligation is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan obligation.

Code on Social Security, 2020

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

34 Finance cost

Particulars	₹ in crore	
	Year ended 31 March 2024	Year ended 31 March 2023
Interest expense on financial liabilities at amortised cost ^b	9,235	6,212
Other finance costs	1,033	380
Net interest on defined benefit arrangement	23	21
Unwinding of discount on provisions	135	96

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- a) The Government of India ("GoI"), acting through the Directorate General of Hydrocarbons ("DGH"), had raised demand up to 14 May 2020 for Government's additional share of Profit Oil, based on its computation of disallowance of cost incurred over retrospective re-allocation of certain common costs between Development Areas (DAs) of Rajasthan Block and certain other matters aggregating to ₹ 9,545 crore (US\$ 1,162 million) and applicable interest thereon representing share of Vedanta Limited and its subsidiary.

The Group had disputed the aforesaid demand and invoked arbitration as per the provisions of the Production Sharing Contract. The Group had received the Final Partial Award dated 22 August 2023 from the Arbitration Tribunal ('the Tribunal') as amended by order dated 15 November, 2023 and 08 December 2023 ("the Award"), dismissing the Government's contention of additional Profit Petroleum in relation to allocation of common development costs across Development Areas and certain other matters in accordance with terms of the Production Sharing Contract for Rajasthan Block, while disallowing some matters. Further, the Tribunal had decided that the Group was allowed to claim cost recovery of exploration cost for the purpose of computation of Profit Oil.

Pursuant to the Award, the Group has recognised a benefit of ₹ 4,761 crore (US\$ 578 million) in revenue from operations and reversed previously recognised impairment on PPE of ₹ 1,179 crore (US\$ 143 million) during the year ended 31 March 2024.

GoI has sought an additional award or interpretation/ clarification on certain matters decided by the Tribunal under the Indian Arbitration and Conciliation Act, 1996 ("the Act") ("GoI Application"). The Tribunal vide its order dated 15 November 2023 and 08 December 2023 has dismissed GoI's interpretation and additional award applications in favour of the Group. The Group has adjusted the liability during the current year of ₹ 1,940 crore (US\$ 233 million) against the aforesaid benefits recognised as per the Award.

GoI has filed interim relief application on 03 February 2024 stating that the Group has unilaterally enforced the award although the quantification of the same is pending.

The Group is of the view that it is bound to implement the award. Further, the application by GoI does not meet the strict criteria for grant of interim injunction. The matter was heard on 26 March 2024 and order of the Tribunal is awaited.

GoI also has filed an appeal on 07 March 2024 against the Award in Delhi High Court and the matter was heard on 14 March 2024. No stay was granted and petition was not admitted. Next date of hearing is 01 May 2024. The Group is of the view that there is no merit in the challenge filed by GoI, as the Court cannot re-appreciate the evidence in Section 34 appeal as the interpretation by the Tribunal is plausible.

- b) Represents certain items of CWIP, which have been written off during the year ended 31 March 2024 as they are no longer expected to be used.
- c) During the year ended 31 March 2023, WCL had signed a Memorandum of Understanding with the Government of Liberia to re-start its mining operations and commenced commercial production at its Bomi Mines from July 2022.

Consequently, the net recoverable value of assets and liabilities of WCL had been assessed at ₹ 891 crore based on the value-in-use approach, using the Discounted Cash Flow Method, a level 3 valuation technique in the fair value hierarchy as it more accurately reflects the recoverable amount. The impairment assessment was based on a range of estimates and assumptions, including long-term selling price as per the consensus report, volumes based on the mine planning and concentrate plant setup and a post-tax nominal discount rate of 14.45%. Any subsequent changes to cash flows due to changes in the above-mentioned factors could impact the carrying value of the assets.

Based on the sensitivities carried out by the Company, a decrease in the long-term selling price by 1% would lead to a decrease in the recoverable value by ₹ 50 crore and an increase in the discount rate by 1% would lead to a decrease in the recoverable value by ₹ 74 crore.

Accordingly, the impairment recorded in previous years had been reversed, to an extent of ₹ 644 crore pertaining only to the assets of the Bomi Mine.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- d) The Company recorded reversal of previously recognised impairment on investments in OCRPS of ₹ 860 crore and ₹ 3,187 crore in THL Zinc Holding BV ("THLZBV") and THL Zinc Ventures Limited ("THLZVL"), wholly owned subsidiaries of the Company during the year ended 31 March 2024 and 31 March 2023, respectively in the statement of profit and loss. Further, the above investment in OCRPS of THLZBV and THLZVL was redeemed during the current year, pursuant to which ₹ 1,825 crore being the proportionate share of FCTR in the subsidiaries has been recycled to the consolidated statement of profit and loss.
- e) During the year, the Group has terminated its contract with one of its capital contractor due to its continuing failure in fulfilling contractual obligations impacting plant performance since inception and written back creditors amounting to ₹ 1,252 crore pertaining to the contract, as amount is no longer payable. The management has assessed that the amount written back comprises ₹ 793 crore toward loss of profit due to plant performance in the current and earlier years and therefore recognised the same as exceptional gain in the statement of profit and loss and adjusted the balance amount towards the cost of spares and ancillaries capitalised in PPE in earlier years.
- f) GoI vide its notification dated 30 June 2022 levied Special Additional Excise Duty ("SAED") on production of crude oil, i.e., cess on windfall gain triggered by increase in crude oil prices which was effective from 01 July 2022. The consequential net impact of the said duty had on the results was presented as an exceptional item for the year ended 31 March 2023. SAED is continuing as levy like other duty of excise, that forms part of ordinary business of production of crude oil and hence, consequential impact of the said duty has been presented as an ordinary item during the year ended 31 March 2024.

37 Tax

(a) Tax charge/(credit) recognised in profit or loss (including on exceptional items)

(₹ in crore)

Particulars	Year ended 31 March 2024	Year ended 31 March 2023*

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- (b) A reconciliation of income tax expense applicable to profit before tax at the Indian statutory income tax rate to recognise income tax expense for the year indicated are as follows

(₹ in crore)

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Profit before tax	20,363	20,276
Indian statutory income tax rate	25.17%	34.94%
Tax at statutory income tax rate	5,125	7,085
Non-taxable income	84	(94)
Tax holidays and similar exemptions	0	(534)
Effect of tax rate differences of subsidiaries operating at other tax rates	936	97
Unrecognised tax assets (net) *	445	63
Change in deferred tax balances due to change in tax law	11	(288)
Capital gains/ Other income subject to lower tax rate	(24)	(522)
Credit in respect of earlier years	(7)	(192)
Impact of change in tax regime**	6,128	-
Other permanent differences	128	155
Total	12,826	5,770

* Includes Deferred Tax Assets written-off in ESL Steel Limited. Refer note 3(c)(A)(ii).

**Pursuant to the introduction of Section 115BAA of the Income-tax Act, 1961 ("New Tax Regime"), the Company has an option to pay corporate income tax at a lower rate of 22% plus applicable surcharge and cess as against the currently applicable rate of 30% plus surcharge and cess. Under the New Tax Regime, provisions of Section 115 JB-Minimum Alternate Tax (MAT) are no longer applicable.

In the quarter ended 30 September 2023, the Company has elected to adopt New Tax Regime from FY 2022-23 onwards due to expected corporate actions and other considerations and the first tax return under the New Tax Regime was filed for FY 2022-23 on 29 November 2023. Upon adoption of New Tax Regime for FY 2022-23, the current tax charge is lower by ₹ 1,786 crore (mainly on account of section 80M benefit not available under MAT) and deferred tax charge is higher by ₹ 151 crore. Further, the MAT credit balance of ₹ 7,763 crore, for periods up to 31 March 2023, has been expensed. Consequently, the net impact of the above amounting to ₹ 6,128 crore is accounted for as exceptional tax expense in the current year ended 31 March 2024.

Accordingly, current year tax expense is not comparable with the reported tax expense for the year ended 31 March 2023.

(c) Deferred tax assets/liabilities

The Group has accrued significant amounts of deferred tax. The majority of the deferred tax liability represents accelerated tax relief for the depreciation of property, plant and equipment, depreciation of mining reserves and the fair value uplifts created on acquisitions net of deferred tax assets representing unabsorbed depreciation and carried forward losses.

Significant components of Deferred tax (assets) and liabilities recognised in the consolidated balance sheet are as follows:

For the year ended 31 March 2024

(₹ in crore)

Significant components of Deferred tax (assets) and liabilities	Opening balance as at 01 April 2023*	Charged / (credited) to statement of profit or loss	Charged / (credited) to other comprehensive income#	Charged / (credited) to equity	Exchange difference and other adjustments	Closing balance as at 31 March 2024
Property, Plant and Equipment	12,415	(311)	-	-	9	12,113
Voluntary retirement scheme	(25)	7	-	-	-	(18)
Employee benefits	(356)	(8)	(7)	-	1	(370)
Fair valuation of derivative asset/liability	(75)	26	(15)	-	-	(64)
Fair valuation of other asset/liability	760	266	-	-	(102)	924
MAT credit entitlement	(7,960)	7,957	-	-	3	-
Unabsorbed depreciation and business losses	(4,888)	533	-	-	3	(4,352)
Other temporary differences	(1,023)	269	(14)	-	(2)	(770)
Total	(1,152)	8,739	(36)	-	(88)	7,463

* Out of total tax benefit on items of OCI in Statement of Profit and Loss, deferred tax benefit is shown in above table. Balance tax benefit is of current tax nature on foreign currency translation difference.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

For the year ended 31 March 2023

(₹ in crore)

Significant components of Deferred tax (assets) and liabilities	Opening balance as at 01 April 2022	Charged / (credited) to statement of profit or loss	Charged / (credited) to other comprehensive income	Charged / (credited) to equity	Exchange difference and other adjustments	Closing balance as at 31 March 2023*
Property, Plant and Equipment	11,506	957	-	-	(48)	12,415

Total	(650)	(311)	(99)	7	(99)	(1,152)

*Restated, refer note 4(A)

Deferred tax assets and liabilities have been offset where they arise in the same taxing jurisdiction with a legal right to offset current income tax assets against current income tax liabilities but not otherwise. Accordingly, the net deferred tax (assets)/liability has been disclosed in the Consolidated Balance Sheet as follows:

(₹ in crore)

Particulars	Year ended 31 March 2024	Year ended 31 March 2023*
Deferred tax assets	(2,689)	(7,074)
Deferred tax liabilities	10,152	5,922
Net Deferred tax assets	7,463	(1,152)

*Restated, refer note 4(A)

Deferred tax assets in the Group have been recognised to the extent there are sufficient taxable temporary differences relating to the same taxation authority and the same taxable entity which are expected to reverse. For certain components of the Group, deferred tax assets on carry forward unused tax losses have been recognised to the extent of deferred tax liabilities on taxable temporary differences available. It is expected that any reversals of the deferred tax liability would be offset against the reversal of the deferred tax asset at respective entities.

Unused tax losses / unused tax credit for which no deferred tax asset has been recognised amount to ₹ 9,106 crore and ₹ 7,335 crore as at 31 March 2024 and 31 March 2023 respectively.

As at 31 March 2024

(₹ in crore)

Unused tax losses/ unused tax credit	Within one year	Greater than one year, less than five years	Greater than five years	No expiry date	Total
Unutilised business losses	318	3,472	2,810	-	6,600
Unabsorbed depreciation	-	-	-	2,506	2,506
Unutilised R&D credit	-	-	-	-	-
Total	318	3,472	2,810	2,506	9,106

As at 31 March 2023

(₹ in crore)

Unused tax losses/ unused tax credit	Within one year	Greater than one year, less than five years	Greater than five years	No expiry date	Total
Unutilised business losses	689	2,621	2,040	-	5,350
Unabsorbed depreciation	-	-	-	1,985	1,985
Unutilised R&D credit	-	0	0	-	0
Total	689	2,621	2,040	1,985	7,335

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

No deferred tax assets has been recognised on these unused tax losses/ unused tax credit as there is no evidence that sufficient taxable profit will be available in future against which these can be utilised by the respective entities.

The Group has not recognised any deferred tax liabilities for taxes that would be payable on the Group's share in unremitted earnings of certain of its subsidiaries because the Group controls when the liability will be incurred and it is probable that the liability will not be incurred in the foreseeable future. The amount of unremitted earnings are ₹ 24,222 crore and

₹ 24,130 crore as at 31 March 2024 and 31 March 2023 respectively.

(d) Non- current tax assets

Non- current tax assets of ₹ 3,796 crore (31 March 2023: ₹ 2,077 crore) mainly represents income tax receivable from Indian tax authorities by Vedanta Limited relating to the refund arising due to change in Tax Regime and consequent to the Scheme of Amalgamation & Arrangement made effective in August 2013 pursuant to approval by the jurisdiction High Court and receivables relating to matters in tax disputes in Group companies including tax holiday claim.

- (e) The tax department had issued demands on account of remeasurement of certain tax incentives, under section 80IA and 80IC of the Income-tax Act, 1961. For AY 2009-10 to 2012-13, 2017-18 & 2018-19, Hon'ble Income Tax Appellate Tribunal (ITAT) has allowed these claims. For AY 2013-14 to 2016-17, the cases are pending before Hon'ble ITAT. Against the Tribunal order, the department had filed an appeal in Hon'ble Rajasthan High Court in FY 2017-18 (for AY 2009-10 to AY 2012-13) and in FY 2023-24 (for AY 2017-18 and AY 2018-19) which are yet to be admitted. As per the view of external legal counsel, Department's appeal seeks re-examination of facts rather than raising any substantial question of law and hence it is unlikely that appeal will be admitted by the High Court. Accordingly, there is a high probability that the case will go in favor of the Group. The amount involved in this dispute as of 31 March 2024 is ₹ 12,447 Crore (31 March 2023: ₹ 12,447 Crore) plus applicable interest upto the date of settlement of the dispute.

38 Earnings per equity share (EPS)

(₹ in crore, except otherwise stated)

Particulars		Year ended 31 March 2024	Year ended 31 March 2023

40 Commitments, contingencies and guarantees

A) Commitments

The Group has a number of continuing operational and financial commitments in the normal course of business including:

- Exploratory mining commitments;
- Oil and gas commitments;
- Mining commitments arising under production sharing agreements; and
- Completion of the construction of certain assets.

a) Estimated amount of contracts remaining to be executed on capital accounts and not provided for:

(₹ in crore)

Particulars	As at 31 March 2024	As at 31 March 2023
Oil & Gas sector		
Cairn India	1,079	1,412
Aluminium sector		
Lanjigarh Refinery (Phase II)	1,557	2,439
Jharsuguda 1.25 MTPA smelter	545	1,266
BALCO smelter expansion 0.57 MTPA to 1 MTPA	5,186	6,700
Zinc sector		
Zinc India (mines expansion and smelter)	2,010	1,750
Gamsberg mining and milling project (Phase II)	1,635	1,950
Copper sector		
Tuticorin Smelter 400 KTPA*	-	3,066
Others	6,652	5,793
Total	18,664	24,376

* On 29 February 2024, Hon'ble Supreme Court dismissed the Special Leave Petition filed by the Company, pursuant to which the Company has decided to terminate the contracts which were under suspension. Refer Note 3(c)(A)(iii)

b) Committed work programme (Other than capital commitment):

(₹ in crore)

Particulars	As at 31 March 2024	As at 31 March 2023
Oil & Gas sector		
Cairn India (OALP - New Oil and Gas blocks)	5,073	5,184

c) Other Commitments

- The Power division of the Company has signed a long term power purchase agreement (PPA) with GRIDCO Limited for supply of 25% of power generated from the power station with additional right to purchase power (5%/7%) at variable cost as per the conditions referred to in PPA. The PPA has a tenure of twenty five years, expiring in FY 2037. The Company received favourable order from OERC dated 05 October 2021 for conversion of Independent Power Plant ("IPP") to Captive Power Plant ("CPP") w.e.f from 01 January 2022 subject to certain terms and conditions. However, OERC vide order dated 19 February 2022 directed the Company to supply power to GRIDCO from 19 February 2022 onwards. Thereafter, the Company has resumed supplying power to GRIDCO from 01 April 2022 as per GRIDCO's requisition. The OERC vide its order dated 03 May 2023 has reviewed its previous order dated 05 October 2021 and directed the Company to operate Unit 2 as an IPP. Against the final order passed by the OERC, the Company has preferred an appeal before Appellate Tribunal for Electricity on 03 May 2023.
- TSPL has signed a long term PPA with the Punjab State Power Corporation Limited (PSPCL) for supply of power generated from the power plant. The PPA has tenure of twenty five years, expiring in FY 2042.
- During the year ended 31 March 2023, the Group has executed new Power Delivery Agreements ("PDA") with Serentica group companies (Serentica Renewables India 1 Private Limited, Serentica Renewables India 3 Private

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Limited, Serentica Renewables India 4 Private Limited, Serentica Renewables India 5 Private Limited, Serentica Renewables India 6 Private Limited, Serentica Renewables India 7 Private Limited, Serentica Renewables India 8 Private Limited and Serentica Renewables India 9 Private Limited), which are associates of Volcan, for procuring renewable power over twenty five years from date of commissioning of the combined renewable energy power projects ("the Projects") on a group captive basis. These Serentica group companies were incorporated for building the Projects of approximately 1,826 MW (31 March 2023: 1,626 MW). During the current year, the Group has invested ₹ 480 crore in Optionally Convertible Redeemable Preference shares ("OCRPS") of ₹ 10 each of Serentica group companies. These OCRPS will be converted into equity basis conversion terms of the PDA, resulting in Vedanta Group holding twenty six percent stake in its equity. As at 31 March 2024, total outstanding commitments related to PDA with Serentica Group Companies are ₹ 1,227 crore (31 March 2023: ₹ 1,598 crore).

B) Guarantees

The aggregate amount of indemnities and other guarantees on which the Group does not expect any material losses, was ₹ 9,348 crore (31 March 2023: ₹ 8,470 crore).

- Guarantees and bonds advanced to the customs authorities in India of ₹ 1,717 crore relating to the export and payment of import duties on purchases of raw material and capital goods (31 March 2023: ₹ 1,339 crore).
- Guarantees issued for Group's share of minimum work programme commitments of ₹ 3,071 crore (31 March 2023: ₹ 2,742 crore).
- Guarantees of ₹ 158 crore issued under bid bond (31 March 2023: ₹ 80 crore).
- Bank guarantees of ₹ 115 crore (31 March 2023: ₹ 115 crore) has been provided by the Group on behalf of Vedanta Incorporated to Income tax department, India as a collateral in respect of certain tax disputes.

Other guarantees worth ₹ 4,287 crore (31 March 2023: ₹ 4,194 crore) issued for securing supplies of materials and services, in lieu of advances received from customers, litigation, for provisional valuation of custom duty and also to various agencies, suppliers and government authorities for various purposes. The Group does not anticipate any liability on these guarantees.

C) Export Obligations

The Indian entities of the Group have export obligations of ₹ 2,689 crore (31 March 2023: ₹ 1,381 crore) on account of concessional rates of import duty paid on capital goods under the Export Promotion Capital Goods Scheme and under the Advance Licence Scheme for the import of raw material laid down by the Government of India.

In the event of the Group's inability to meet its obligations, the Group's liability would be ₹ 581 crore (31 March 2023: ₹ 322 crore) reduced in proportion to actual exports, plus applicable interest.

The Group has given bonds of ₹ 1,030 crore (31 March 2023: ₹ 809 crore) to custom authorities against these export obligations.

D) Contingent Liabilities

a) Hindustan Zinc Limited (HZL) : Department of Mines and Geology

The Department of Mines and Geology of the State of Rajasthan issued several show cause notices to HZL in August, September and October 2006 aggregating ₹ 334 crore (31 March 2023: ₹ 334 crore) claiming unlawful occupation and unauthorised mining of associated minerals other than zinc and lead at HZL's Rampura Agucha, Rajpura Dariba and Zawar mines in Rajasthan during the period from July 1968 to March 2006. In response, HZL filed a writ petition against these show cause notices before the High Court of Rajasthan in Jodhpur. In October 2006, the High Court issued an order granting a stay and restrained the Department of Mines and Geology from undertaking any coercive measures to recover the penalty. In January 2007, the High Court issued another order granting the Department of Mines and Geology additional time to file their reply and also ordered the Department of Mines and Geology not to issue any orders cancelling the lease.

The State Government filed for an early hearing application in the High Court. The High Court has passed an order rejecting the application stating that Central Government should file their replies. HZL believes it is unlikely that the claim will lead to a future obligation and thus no provision has been made in these financial statements.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

b) Ravva Joint Operations arbitration proceedings

The Ravva Production Sharing Contract (PSC) obliges the contractor parties (including the Company (Cairn India Limited which subsequently merged with the Company, accordingly now referred to as the Company)) to pay a proportionate share of ONGC's exploration, development, production and contract costs in consideration for ONGC's payment of costs related to the construction and other activities it conducted in Ravva prior to the effective date of the Ravva PSC (the ONGC Carry). The question as to how the ONGC Carry is to be recovered and calculated, along with other issues, was submitted to an International Arbitration Tribunal in August 2002 which rendered a decision on the ONGC Carry in favour of the contractor parties whereas four other issues were decided in favour of Government of India (GoI) in October 2004 (Partial Award).

The GoI then proceeded to challenge the ONGC Carry decision before the Malaysian courts, as Kuala Lumpur was the seat of the arbitration. The Federal Court of Malaysia upheld the Partial Award. As the Partial Award did not quantify the sums, therefore, contractor parties approached the same Arbitration Tribunal to pass a Final Award in the subject matter since it had retained the jurisdiction to do so. The Arbitral Tribunal was reconstituted and the Final Award was passed in October 2016 in Group's favour. GoI's challenge of the Final Award has been dismissed by the Malaysian High Court and the next appellate court in Malaysia i.e. Malaysian Court of Appeal. GoI then filed an appeal at Federal Court of Malaysia. The matter was heard on 28 February 2019 and the Federal Court dismissed GoI's leave to appeal. The Group has also filed for the enforcement of the Partial Award and Final Award before the Hon'ble Delhi High Court. The matter is currently being heard.

While the Group does not believe the GoI will be successful in its challenge, if the Arbitral Awards in above matters are reversed and such reversals are binding, Group would be liable for approximately ₹ 533 crore (US\$ 64 million) plus interest (31 March 2023: ₹ 526 crore (US\$ 64 million) plus interest).

c) Proceedings related to the imposition of entry tax

Vedanta Limited and other Group company, i.e., BALCO challenged the constitutional validity of the local statutes and related notifications in the states of Odisha and Rajasthan pertaining to the levy of entry tax on the entry of goods brought into the respective states from outside.

Post some contradictory orders of High Courts across India adjudicating on similar challenges, the Supreme Court referred the matters to a nine judge bench. Post a detailed hearing, although the bench rejected the compensatory nature of tax as a ground of challenge, it maintained status quo with respect to all other issues which have been left open for adjudication by regular benches hearing the matters.

Following the order of the nine judge bench, the regular bench of the Supreme Court heard the matters and remanded the entry tax matters relating to the issue of discrimination against domestic goods bought from other States to the respective High Courts for final determination but retained the issue of jurisdiction for levy on imported goods, for determination by the regular bench of the Supreme Court. Following the order of the Supreme Court, the Group filed writ petitions in respective High Courts.

On 09 October 2017, the Supreme Court has held that states have the jurisdiction to levy entry tax on imported goods. With this Supreme Court judgement, imported goods will rank pari-passu with domestic goods for the purpose of levy of Entry tax. Vedanta Limited and its subsidiaries have amended their appeals (writ petitions) in Odisha and Chhattisgarh to include imported goods as well.

The issue pertaining to the levy of entry tax on the movement of goods into a Special Economic Zone (SEZ) remains pending before the Odisha High Court. The Group has challenged the levy of entry tax on any movement of goods into SEZ based on the definition of 'local area' under the Odisha Entry Tax Act which is very clear and does not include a SEZ. In addition, the Government of Odisha further through its SEZ Policy 2015 and the operational guidelines for administration of this policy dated 22 August 2016, exempted the entry tax levy on SEZ operations.

The total claims against Vedanta Limited and its subsidiaries (net of provisions made) are ₹ 800 crore (31 March 2023: ₹ 823 crore) including interest and penalty till the date of order. Further interest and penalty if any, would be additional.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

d) BALCO: Challenge against imposition of Energy Development Cess

BALCO challenged the imposition of Energy Development Cess levied on generators and distributors of electrical energy @ 10 paise per unit on the electrical energy sold or supplied before the High Court on the grounds that the Cess is effectively on production and not on consumption or sale since the figures of consumption are not taken into account and the Cess is discriminatory since captive power plants are required to pay @ 10 paise while the State Electricity Board is required to pay @ 5 paise. The High Court of Chhattisgarh by order dated 15 December 2006 declared the provisions imposing ED Cess on CPPs as discriminatory and therefore ultra vires the Constitution. BALCO has sought refund of ED Cess paid till March 2006 amounting to ₹ 35 crore.

The State of Chhattisgarh moved an SLP in the Supreme Court and whilst issuing notice has stayed the refund of the Cess already deposited and the Supreme Court has also directed the State of Chhattisgarh to raise the bills but no coercive action be taken for recovery for the same. Final argument in this matter has started before the Supreme Court. Considering the High court judgement in Group's favor, we do not believe the state will succeed in their claims. However, should the Supreme Court reverse the judgement, the Group will be liable to pay an additional amount of ₹ 1,179 crore (31 March 2023: ₹ 1,091 crore). As at 31 March 2024, an amount of ₹ 1,214 crore relating to principal has been considered as a contingent liability (31 March 2023: ₹ 1,126 crore).

e) BALCO: Electricity Duty

The Group operates a 1,200 MW power plant ("the Plant") which commenced production in July 2015. Based on the Memorandum of Understanding signed between the Group and the Chhattisgarh State Government, the management believes that the Plant is covered under the Chhattisgarh Industrial policy 2004-09 which provides exemption of electricity duty for 15 years. In June 2021, the Chief Electrical Inspectorate, Raipur ("CIE") issued a demand notice for electricity duty and interest thereon of ₹ 888 crore and ₹ 588 crore respectively for the period March 2015 to March 2021.

The Group carries an accrual for electricity duty of ₹ 460 crore (31 March 2023: ₹ 639 crore), net of ₹ 942 crore (31 March 2023: ₹ 570 crore) paid under protest. BALCO has requested the CIE to allow payment of the principal amount over a period of 5 years along with a waiver of interest demand. BALCO has received a reply from CIE that the matter will be discussed with appropriate authorities. As at 31 March 2024, no confirmation has been received on this matter and therefore an amount of ₹ 1,051 crore (31 March 2023: ₹ 916 crore) relating to interest is considered as a contingent liability.

f) ESL : MDPA

Mine Development and Production Agreement (MDPA) entered into by ESL with respect to the Nadidihi Iron Ore Block (74.50 Ha) and the Nadidihi Iron & Manganese Ore Block (117.206 Ha) in Orissa obligates certain minimum despatch requirement for each year from the commencement of mining, as prescribed under Sub Rule-1 of Rule 12(A) of the Minerals (other than Atomic and Hydrocarbon Energy Minerals) Concession Rules, 2016 (MCR 2016).

ESL has received demand notices dated 03 December 2022 aggregating ₹ 1,708 Crore towards penalty for annual shortfall in minimum dispatch required under Sub Rule-1 of Rule 12(A) of MCR 2016, for the first year of the lease for both the mines. Management believes that the aforesaid demands are unreasonable and arbitrary to the law on various grounds including the fact that the State Government has erroneously considered the wrong period to calculate the MDPA requirement as per Sub Rule 1 of Rule 12 (A) of MCR 2016. Further, ESL was unable to carry out mining operation for significant part of the first year owing to reasons beyond its control (Force Majeure) and for the said the period, is entitled to be afforded an additional period in terms of Section 12(1)(ff) of the Mineral (Other than Atomic and Hydrocarbons Energy Minerals) Concession Rules, to meet the said minimum dispatch requirement. Based on aforesaid grounds that are supported by a legal opinion obtained in this regard, inter-alia, the Group has filed the Revision Application under Section 30 of the Mines and Minerals (Development and Regulation) Act, 1957 (MMDR Act) to keep the above demand notice in abeyance during the pendency of the proceedings before the Revisional Authority, Ministry of Mines and the same has been informed to Office of the Deputy Director of mines through intimation letter. The Revisional Authority vide its order dated 14 March 2023 has put stay on the impugned demand notices and directed the State Government not to take any coercive action to realise the demand till further orders.

Also, ESL has received the demand notices dated 11 April 2023 aggregating ₹ 50 crore for the first quarter of the second-year lease period from 20 November 2022 till 19 November 2023 for both the mines, to which ESL has replied stating that these demand notices shall be kept in abeyance till the pendency of the proceedings before the Revisionary Authority,

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

Ministry of Mines as the similar contentions were taken by the Management in the revision application filed against the earlier demand notices for shortfall in the first year of lease period. Management believes that the aforesaid demands are unreasonable and arbitrary to the law on various grounds including the fact that the State Government has erroneously considered the wrong period to calculate the MDPA requirement as per Sub Rule 1 of Rule 12 (A) of MCR 2016.

Basis MDPA and legal opinion received, any obligation in this regard can be termed as a remote. As a matter of prudence, aforesaid demand notices of ₹ 1,758 crore (31 March 2023: ₹ 1,758 crore) have been disclosed as contingent liability in the financial statements.

g) Miscellaneous disputes- Income tax

The Group is involved in various tax disputes amounting to ₹ 1,354 crore (31 March 2023: ₹ 1,455 crore) relating to income tax. It also includes similar matters where initial assessment is pending for subsequent periods and where the Group has made claims and assessments are in progress. These mainly relate to the disallowances of tax holidays and depreciation under the Income-tax Act, 1961 and interest thereon which are pending at various appellate levels. Penalties, if any, may be additional.

Based on detailed evaluations and supported by external legal advice, where necessary, the Group believes that it has strong merits and no material adverse impact is expected.

h) Miscellaneous disputes- Others

The Group is subject to various claims and exposures which arise in the ordinary course of its operations, from indirect tax authorities and others, pertaining to the assessable values of sales and purchases or incomplete documentation supporting the Company's returns or other claims.

The approximate value of claims (excluding the items as set out separately above) against the Group companies total ₹ 4,683 crore (31 March 2023: ₹ 4,907 crore).

Based on evaluations of the matters and legal advice obtained, the Group believes that it has strong merits in its favor. Accordingly, no provision is considered at this stage.

Except as described above, there are no pending litigations which the Group believes could reasonably be expected to have a material adverse effect on the results of operations, cash flows or the financial position of the Group.

41 Other Matters

- a) The Group purchases bauxite under long term linkage arrangement ("LTL") with Orissa Mining Corporation Ltd (hereafter referred as "OMC") at provisional price of ₹ 1,000/MT from October 2020 onwards based on interim order dated 08 October 2020 of the High Court of Odisha, which is subject to final outcome of the writ petition filed by the Group.

The last successful e-auction based price discovery was done by OMC in April 2019 at ₹ 673/MT and supplied bauxite at this rate from September 2019 to September 2020 against an undertaking furnished by the Group to compensate any differential price discovered through future successful national e-auctions. Though OMC conducted the next e-auction on 31 August 2020 with floor price of ₹ 1,707/MT determined on the basis of Rule 45 of Minerals Concession Rules, 2016 (hereafter referred as the 'Rules'), no bidder participated at that floor price and hence the auction was not successful. However, OMC raised demand of ₹ 281 crore on the Group towards differential pricing and interest for bauxite supplied till September 2020 considering the auction base price of ₹ 1,707/MT.

The Group had then filed a writ petition before Hon'ble High Court of Odisha in September 2020, which issued an interim Order dated 08 October 2020 directing that the petitioner shall be permitted to lift the quantity of bauxite mutually agreed on payment of ₹ 1,000/MT and furnishing an undertaking for the differential amount, subject to final outcome of the writ petition.

OMC re-conducted e-auction on 09 March 2021 with floor price of ₹ 2,011/MT, which again was not successful. On 18 March 2021, Cuttack High Court issued an order that the current arrangement of bauxite price @ ₹ 1,000/MT will

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

continue for the FY 2021-22. Further, on 06 April 2022, the Cuttack High Court directed that the current arrangement will continue for the FY 2022-23 also.

An interim application was filed on 11 May 2023 in Odisha High Court seeking directions for OMC to continue the supplies for FY 2023-24 and extend the LTL agreement. Hon'ble High Court vide order dated 15 May 2023, passed an order that unless the fresh agreement is not executed interim arrangement cannot be granted. Accordingly, as per the direction of High Court, LTL was executed with OMC on 16 of May for supply of 2.4 MnT bauxite annually at ₹ 1,000 MT. On 26 September 2023, OMC conducted the 10 National E-auction tender for sale of 300 KT bauxite at floor price of ₹ 2,429/MT after considering the pricing as per Rule 45. The said auction failed since no participation was observed in the bidding.

Supported by legal opinions, management believes that the provisions of Rule 45 of the Rules are not applicable to commercial sale of bauxite ore and hence, it is not probable that the Group will have any financial obligation towards the aforesaid commitments over and above the price of ₹ 673/MT discovered vide last successful e-auction.

However, as an abundant precaution, the Group has recognised purchase of Bauxite from September 2019 onwards at the aforesaid rate of ₹ 1,000/MT.

- b) The Department of Mines and Geology (DMG) of the State of Rajasthan initiated the royalty assessment process from January 2008 to 2019 and issued a show cause notice vide an office order dated 31 January 2020 amounting to ₹ 1,925 crore. Further, an additional demand was issued vide an office order dated 14 December 2020 for ₹ 311 crore. The Group has challenged the show cause notice and computation mechanism of the royalty itself, and the High Court has granted a stay on the notice and directed DMG not to take any coercive action. State Government has also been directed to not take any coercive action to recover such miscomputed dues. Further, Revisionary Authority (RA), has granted a stay on the recovery under the March 2022 notice of ₹ 1,423 crore and the recovery of ₹ 311 crore vide its order dated 15 June 2022 and 07 September 2022 respectively. Based on the opinion of external counsel, the Group believes that it has strong grounds of a successful appeal, and the chances of an outcome which is not in favor of the Group is remote.
- c) The Scheme of Amalgamation and Arrangement amongst Sterlite Energy Limited ('SEL'), Sterlite Industries (India) Limited ('Sterlite'), Vedanta Aluminium Limited ('VAL'), Ekaterina Limited ('Ekaterina'), Madras Aluminium Group Limited ('Malco') and the Group (the "Scheme") had been sanctioned by the High Court of Madras and the High Court of Judicature of Bombay at Goa and was given effect to in the year ended 31 March 2014.

Subsequently, the above orders of the honourable High Court of Bombay and Madras have been challenged by Commissioner of Income Tax, Goa and Ministry of Corporate Affairs through a SLP before the honourable Supreme Court and also by a creditor and a shareholder of the Group. The said petitions are currently pending for hearing.

d) Flue-gas desulfurisation (FGD) implementation:

The Ministry of Environment, Forest and Climate Change ("MoEF&CC") has revised emission norms for coal based power plants in India. Accordingly, both captive and independent coal-based power plants in India are required to comply with these revised norms for reduction of sulphur oxide (SOx) emissions for which the current plant infrastructure is to be modified or new equipment have to be installed. Timelines for compliance to the revised norm for various plants in the Group range from December 2024 to December 2026. Different power plants are at different stages of the implementation process.

TSPL filed a petition before Punjab State Electricity Regulatory Commission (PSERC) for approval of MoEF&CC notification as change in law in terms of Article 13 of PPA on 30 June 2017. PSERC vide its order dated 21 December 2018 has held that MoEF&CC notification is not a change in law as it does not impose any new requirements. TSPL had filed an appeal before Appellate Tribunal for Electricity (APTEL) challenging the said order of PSERC. APTEL has pronounced the order dated 28 August 2020 in favour of TSPL allowing the cost pass through.

PSPCL has filed an appeal against this order in the Supreme Court. The matter was listed on 03 February 2022 wherein respondents including TSPL have been directed to file counter affidavits in the matter. On 09 November 2022, TSPL filed its Counter Affidavit. The matter is listed for hearing.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- e) i) Pursuant to the Government of India's policy of disinvestment, the Group in April 2002 acquired 26% equity interest in Hindustan Zinc Limited (HZL) from the Government of India. Under the terms of the Shareholder's Agreement ('SHA'), the Group had two call options to purchase all the Government of India's shares in HZL at fair market value. The Group exercised the first call option on 29 August 2003 and acquired an additional 18.9% of HZL's issued share capital. The Group also acquired an additional 20% of the equity capital in HZL through an open offer, increasing its shareholding to 64.9%. The second call option provides the Group the right to acquire the Government of India's remaining 29.5% share in HZL. This call option was subject to the right of the Government of India to sell 3.5% of HZL shares to HZL employees. The Group exercised the second call option on 21 July 2009. The Government of India disputed the validity of the call option and refused to act upon the second call option. Consequently, the Group invoked arbitration which is in the early stages. The next date of hearing is to be notified. The Government of India without prejudice to the position on the Put/Call option issue has received approval from the Cabinet for divestment and the Government is looking to divest through the auction route. In January 2016, the Supreme Court had directed status quo pertaining to disinvestment of Government of India's residual shareholding in a public interest petition filed.

On 13 August 2020, the Supreme Court passed an order partially removing the status quo order in place and has allowed the arbitration proceedings to continue via its order passed on 18 November 2021, the Supreme Court of India allowed the GoI's proposal to divest its entire stake in HZL in the open market in accordance with the rules and regulations of SEBI and also directed the Central Bureau of India to register a regular case in relation to the process followed for the disinvestment of HZL in the year 2002 by the GoI. In line with the said order, the Group has withdrawn its arbitration proceedings.

- ii) Pursuant to the GoI's policy of divestment, the Group in March 2001 acquired 51% equity interest in BALCO from the GoI. Under the terms of the SHA, the Group had a call option to purchase the GoI remaining ownership interest in BALCO at any point from 02 March 2004. The Group exercised this option on 19 March 2004. However, the GoI contested the valuation and validity of the option and contended that the clauses of the SHA violate the erstwhile Companies Act, 1956 by restricting the rights of the GoI to transfer its shares and that as a result such provisions of the SHA were null and void. In the arbitration filed by the Group, the arbitral tribunal by a majority award rejected the claims of the Group on the ground that the clauses relating to the call option, the right of first refusal, the "tag along" rights and the restriction on the transfer of shares violate the erstwhile Companies Act, 1956 and are not enforceable.

The Group has challenged the validity of the majority award before the High Court at Delhi and sought for setting aside the arbitration award to the extent that it holds these clauses ineffective and inoperative. The GoI also filed an application before the High Court to partially set aside the arbitral award in respect of certain matters involving valuation. The matter is currently scheduled for hearing at the Delhi High Court. Meanwhile, the GoI without prejudice to its position on the Put/Call option issue has received approval from the Cabinet for divestment and the Government is looking to divest through the auction route.

On 09 January 2012, the Group offered to acquire the GoI's interests in HZL and BALCO for ₹ 15,492 crore and ₹ 1,782 crore respectively. This offer was separate from the contested exercise of the call options, and the Group proposed to withdraw the ongoing litigations in relation to the contested exercise of the options should the offer be accepted. To date, the offer has not been accepted by the GoI and therefore, there is no certainty that the acquisition will proceed.

In view of the lack of resolution on the options, the non-response to the exercise and valuation request from the GoI, the resultant uncertainty surrounding the potential transaction and the valuation of the consideration payable, the Group considers the strike price of the options to be at the fair value, which is effectively nil, and hence the call options have not been recognised in the financial statements.

*Does not include the provision made for gratuity and leave benefits, as they are determined on an actuarial basis for all the employees together.

- I) Bank guarantee given by Vedanta Limited on behalf of Vedanta Inc in favour of Income Tax department, India as collateral in respect of certain tax disputes of Vedanta Inc.
- J) The Group has a Brand license and strategic service fee agreement ("the Agreement") with Vedanta Resources Ltd ("VRL") for the use of brand 'Vedanta' and providing strategic services which envisaged payment to VRL ranging from 0.75%-3% of turnover of the Company and certain subsidiaries. The Group has recorded an expense of ₹ 2,326 crore (net of discount) (31 March 2023: ₹ 1,718 crore) for the year ended 31 March 2024. The Group generally pays such fee in advance, at the beginning of the year based on estimated annual turnover.

Furthermore, during the year ended 31 March 2023, the Company executed a sub-licensing agreement for its existing Agreement with VRL consequent to which it has sub-licensed the brand and strategic services to its subsidiary Hindustan Zinc Limited ("HZL") with effect from 01 October 2022. Based on independent benchmarking analysis, the Group agreed a net sub-licensing fee of 1.70% of HZL's annual consolidated turnover with VRL, resulting in an expense of ₹477 crore (31 March 2023: ₹ 270 crore) for the year ended 31 March 2024.

During the current year ended 31 March 2024, VRL has assigned the Agreement to its wholly owned subsidiary Vedanta Resources Investments Limited ("VRIL"), whereby the Group will fulfil its future obligations under the Agreement via VRIL.

- K) During the current year ended 31 March 2024, the Group has renewed loan provided to Sterlite Iron and Steel Company Limited for a further period of 12 months. The loan balance as at 31 March 2024 is ₹ 5 crore (31 March 2023: ₹ 5 crore). The loan is unsecured in nature and carries an interest rate of 12.80% per annum.

In 2016, a subsidiary of the Company had executed an agreement with Twin Star Holding Limited, the intermediate parent of the Group, to provide an unsecured loan at an interest rate of 2.1% per annum. The loan balance of the loan as at 31 March 2024 is ₹ 83 crore (US \$10 million) (31 March 2023: ₹ 82 crore (US \$10 million)).

These loans including accrued interest thereon have been fully provided for in the books of accounts.

- L) During the year ended 31 March 2021, as part of its cash management activities, the overseas subsidiaries of the Company extended certain loans and guarantee facilities to Vedanta Resources Limited ("VRL") and its subsidiaries (collectively "the VRL group").

During the current year ended 31 March 2024, based on the request from the Borrower, the loan has been extended to 31 December 2024 at the prevailing arms-length interest rate with interest payable half-yearly. As the change in the net present value of the loan is within the 10% threshold prescribed by Ind AS 109 Financial Instruments and the other terms of the loan largely remain unchanged, the modification has been considered to be not substantial in nature. Consequently, the net impact due to the modification and expected credit loss, aggregating to approx. ₹ 38 crore (approx. US\$ 5 million) has been recognised as finance cost in the consolidated statement of profit and loss. Further, the borrower has prepaid the loan principal amounting to ₹ 267 Crore in the current year.

As of 31 March 2024, loans having contractual value of ₹ 3,473 crore (US\$ 417 million) (31 March 2023: 3,689 crore (US\$ 449 million)) were outstanding from the VRL group at an interest rate of 17%.

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- M)** During the year ended 31 March 2023, the Group executed an agency contract with VRL. Pursuant to which, the Group procured calcined alumina amounting to ₹ 1,054 crore (31 March 2023: ₹ 735 crore) on which an agency commission of ₹ 5 crore (31 March 2023: ₹ 4 crore) is paid to VRL.
- N)** Vedanta Resources Limited ("VRL"), as a parent company, has provided financial and performance guarantee to the Government of India for erstwhile Cairn India group's ("Cairn") obligations under the Production Sharing Contract ('PSC') provided for onshore block RJ-ON-90/1, for making available financial resources equivalent to Cairn's share for its obligations under the PSC, personnel and technical services in accordance with industry practices and any other resources in case Cairn is unable to fulfil its obligations under the PSC.

Similarly, VRL has also provided financial and performance guarantee to the Government of India for the Group's obligations under the Revenue Sharing Contract ('RSC') in respect of 51 Blocks awarded under the Open Acreage Licensing Policy ("OALP") by the Government of India, out of which 5 blocks were relinquished during the previous year

As a consideration for the guarantee with respect to the PSC, the Group pays an annual charge of 1.2% of net exploration and development spend, subject to a minimum annual fee of ₹ 41 crore (US\$ 5 million), in ratio of participating interests held equally by the Company and its step-down subsidiary, Cairn Energy Hydrocarbons Ltd ("CEHL"). As regards the RSC, the Group paid a one-time charge of ₹ 183 crore (US\$ 25 million), i.e., 2.5% of the total estimated cost of initial exploration phase of approximately ₹ 7,330 crore (US\$ 1 billion), in the year ended 31 March 2021, and pays an annual charge of 1% of spend, subject to a minimum fee of ₹ 80 crore (US\$ 10 million) and maximum fee of ₹ 160 crore (US\$ 20 million) per annum.

Accordingly, the Group has recorded a guarantee commission expense of ₹ 144 crore (\$ 17 million) (31 March 2023: ₹ 177 Crore (\$ 23 million)) for the year ended 31 March 2024 and ₹ 57 Crore (\$ 7 million) (31 March 2023: ₹ 75 Crore (\$ 9 million)) is outstanding as a pre-payment as at 31 March 2024.

- O)** No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Group (Ultimate Beneficiaries). The Group has not received any fund from any party(s) (Funding Party) with the understanding that the Group shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Group (Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Further, the additional regulatory information required by clause xiv of part Y of Schedule III to the Act, for a subsidiary, is as follows: Sesa Resources Limited ("SRL"), a wholly owned subsidiary of the Group, has borrowed ₹ 1,600 Crore in March 2024 from a third party lender and has lent the funds to Vedanta Limited (ultimate beneficiary), who has fully used these funds for its operations in the ordinary course of business. SRL has complied with the relevant provisions of the Foreign Exchange Management Act, 1999 (42 of 1999) and the Act for the above transaction and the transaction is not violative of the Prevention of Money-Laundering Act, 2002 (15 of 2003).

43 Interest in other entities

a) Subsidiaries

The Group consists of a parent company, Vedanta Limited, incorporated in India and a number of subsidiaries held directly and indirectly by the Group which operate and are incorporated around the world. Following are the details of shareholdings in the subsidiaries.

S. No	Subsidiaries	Principal activities	Country of Incorporation	Immediate holding company	The Company's / Immediate holding company's percentage holding (in %)

1 The Group also has interest in certain trusts which are neither significant nor material to the Group.

(a) Copper Mines of Tasmania (CMT), wholly owned subsidiary of Vedanta Limited through intermediate holding company Monte Cello B.V. (MCBV) was sold on 17 November 2023 (Refer note 4(D)).

(b) The Mumbai NCLT and Chennai NCLT had passed orders dated 06 June 2022 and 22 March 2023 respectively to sanction the scheme of amalgamation of Sterlite Ports Limited ('SPL'), Paradip Multi Cargo Berth Private Limited ('PMCB'), Maritime Ventures Private Limited ('MVPL'), Goa Sea Port Private Limited ('GSPL'), wholly owned subsidiaries/step down subsidiaries of Sesa Resources Limited ('SRL'), with Sesa Mining Corporation Limited ('SMCL'). MCA statutory filing has completed on 18 January 2024 which is the effective date of merger (Appointed date 01 October 2020).

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

- (c) Hindmetal Exploration Services Private Limited incorporated on 26 February 2024 as a 100% subsidiary of Hindustan Zinc Limited, in which no transactions have taken place during the year.
- (d) Meenakshi energy limited has been acquired on 27 December 2023 under the liquidation proceedings of the Insolvency and Bankruptcy Code, 2016 as a 100% subsidiary of Vedanta Limited (Refer note 4(B)).
- (e) Sesa Iron and Steel Limited incorporated on 06 September 2023 as a 100% subsidiary of Vedanta Limited.
- (f) Vedanta Aluminium Metal Limited incorporated on 06 October 2023 as a 100% subsidiary of Vedanta Limited.
- (g) Vedanta Base Metals Limited incorporated on 09 October 2023 as a 100% subsidiary of Vedanta Limited.
- (h) Vedanta Displays Limited & Vedanta Semiconductors Private Limited has been acquired on 27 July 2023 from Twin star Technologies Ltd via share purchase agreement.
- (i) Vedanta Iron and Steel Limited incorporated on 10 October 2023 as a 100% subsidiary of Vedanta Limited.
- (j) Activity of the company ceased in February 2016.
- (k) Principal place of business in India.
- (l) Vedanta Copper International VCI Company Limited incorporated on 14 November 2023 as a 100% subsidiary of Malco Energy Limited, in which no transactions have taken place during the year.
- (m) Cairn Lanka Private Limited is under process of liquidation.

b) Joint operations

The Group participates in several unincorporated joint operations which involve the joint control of assets used in oil and gas exploration and producing activities which are as follows:

Oil & Gas blocks/fields	Area	(% Participating Interest)	
		As at 31 March 2024	As at 31 March 2023
Operating Blocks			
Ravva block-Exploration, Development and Production	Krishna Godavari	22.50	22.50
CB-OS/2 – Exploration	Cambay Offshore	60.00	60.00
CB-OS/2 - Development & production	Cambay Offshore	40.00	40.00
RJ-ON-90/1 – Exploration	Rajasthan Onshore	100.00	100.00
RJ-ON-90/1 – Development & production	Rajasthan Onshore	70.00	70.00
KG-OSN-2009/3 – Exploration	Krishna Godavari Offshore	100.00	100.00
Non-Operating Blocks			
KG-ONN-2003/1	Krishna Godavari Onshore	49.00	49.00

c) Interest in associates and joint ventures

Set out below are the associates and joint ventures of the Group as at 31 March 2024 and 31 March 2023 which, in the opinion of the management, are not material to the Group. The country of incorporation or registration is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

S. No.	Associates and Jointly controlled entities	Country of incorporation	% Ownership interest	
			As at 31 March 2024	As at 31 March 2023
1	Gaurav Overseas Private Limited	India	50.00	50.00
2	Madanpur South Coal Company Limited	India	17.62	17.62
3	Goa Maritime Private Limited	India	50.00	50.00
4	Rosh Pinah Health Care (Proprietary) Limited	Namibia	69.00	69.00
5	Gergarub Exploration and Mining (Pty) Limited	Namibia	51.00	51.00
6	RoshSkor Township (Pty) Limited	Namibia	50.00	50.00

NOTES

44 Oil & gas reserves and resources

The Group's gross reserve estimates are updated at least annually based on the forecast of production profiles, determined on an asset-by-asset basis, using appropriate petroleum engineering techniques. The estimates of reserves and resources have been derived in accordance with the Society for Petroleum Engineers "Petroleum Resources Management System (2018)". The changes to the reserves are generally on account of future development projects, application of technologies such as enhanced oil recovery techniques and true up of the estimates. The management's internal estimates of hydrocarbon reserves and resources at the year end, are as follows:

Particulars	Country	Gross proved and probable hydrocarbons initially in place		Gross proved and probable reserves and resources		Net working interest proved and probable reserves and resources	
		(mmboe)		(mmboe)		(mmboe)	
		As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023
Rajasthan Block	India	5,210	4,806	1,107	933	775	653
Ravva PKGM-1	India	704	704	14	18	3	4
CB-OS/2 Fields	India	298	298	31	22	12	9
KG-ONN-2003/1	India	260	260	31	32	15	16
KG-OSN-2009/3	India	-	32	-	4	-	4
DSF	India	218	30	112	86	112	86
OALP	India	361	531	81	60	81	60
Total		7,051	6,661	1,376	1,155	998	832

The Group's net working interest proved and probable reserves is as follows:

Particulars	Proved and probable reserves		Proved and probable reserves (developed)	
	Oil	Gas	Oil	Gas
	(mmstb)	(bscf)	(mmstb)	(bscf)
Reserves as of 01 April 2022*	210	189	135	121
Revisions/ Additions during the year	(15)	(3)	14	18
Production during the year	(28)	(34)	(28)	(34)
Reserves as of 31 March 2023**	167	152	121	105
Revisions/ Additions during the year	(3)	(2)	5	28
Production during the year	(24)	(34)	(24)	(34)
Reserves as of 31 March 2024***	140	116	102	99

* Includes probable oil reserves of 78.48 mmstb (of which 18.15 mmstb is developed) and probable gas reserves of 75.98 bscf (of which 26.30 bscf is developed)

** Includes probable oil reserves of 55.68 mmstb (of which 18.99 mmstb is developed) and probable gas reserves of 46.91 bscf (of which 16.91 bscf is developed)

*** Includes probable oil reserves of 45.89 mmstb (of which 25.92 mmstb is developed) and probable gas reserves of 29.15 bscf (of which 27.34 bscf is developed)

mmboe = million barrels of oil equivalent

mmstb = million stock tank barrels

bscf = billion standard cubic feet

1 million metric tonnes = 7.4 mmstb

1 standard cubic meter = 35.315 standard cubic feet

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

45 Subsequent events

Subsequent to the year end, the Regional Controller of Mines, Bengaluru issued an order ("the Order") for temporary suspension of mining operations for iron ore mines at Chitradurga, Karnataka, citing non-compliances with the approved mining plan. The Company believes that there is no material impact expected from this Order on an annualised basis, since the Company has sufficient mining and evacuation capacity. The Company is confident of demonstrating compliance with the approved mining plan and obtaining revocation of the said Order, as envisaged in the Order.

There are no other material adjusting or non-adjusting subsequent events, except as already disclosed.

46 The Holding Company, subsidiaries, associates and joint ventures which are companies incorporated in India and whose financial statements have been audited under the Act have complied with the requirements of audit trail except for the following:

In 12 subsidiaries, Nil associates and Nil joint ventures, audit trail feature is not enabled in the SAP application for direct changes to data in certain database tables which is restricted to certain IDs with system administrator user access in order to optimise system performance. However, these system administrator rights have been disabled subsequent to the year end. Further, no instance of audit trail feature being tampered with was noted in respect of software.

(g)Consolidation adjustments/eliminations include intercompany eliminations, consolidation adjustments and GAAP differences.

1. The Mumbai NCLT and Chennai NCLT has passed orders dated 06 June 2022 and 22 March 2023 respectively sanctioning the scheme of amalgamation of Sterilite Ports Limited (SPL), Paradip Multi Cargo Berth Private Limited (PMCB), Maritime Ventures Private Limited (MVPL), Goa Sea Port Private Limited (GSP), wholly owned subsidiaries/step downsubsidiaries of Sesa Resources Limited (SRL), with Sesa Mining Corporation Limited (SMCL). Statutory filing with MCA is in progress.

2. During the current year, Hon'ble National Company Law Tribunal, Cuttack Bench vide its Order dated 15 November 2022 approved the Scheme of Amalgamation of Facor Power Limited ("FPL") into Ferro Alloys Corporation Limited ("FACOR"). FPL was a subsidiary of FACOR which in turn is a subsidiary of the Company. Post the amalgamation becoming effective on 21 November 2022, the Company directly holds 99.99% in FACOR. There is no material impact on the consolidated financial statements of the Group due to this amalgamation.

Exchange Rates as at 31 March 2023: 1 AUD = ₹ 55.0383, 1 USD = ₹ 82.1643, 1 AED = ₹ 22.3668, 1 NAD = ₹ 4.6176, 1 ZAR = ₹ 4.6176, 1 JPY = ₹ 0.617788

Average Exchange Rates for the year ended 31 March 2023: 1 AUD = ₹ 54.9328, 1 USD = ₹ 80.2724, 1 AED = ₹ 21.8517, 1 NAD = ₹ 4.5020, 1 ZAR = ₹ 4.7239, 1 JPY = ₹ 0.593777

NOTES

forming part of the consolidated financial statements as at and for the year ended 31 March 2024

INDEPENDENT AUDITOR'S REPORT

To the Members of Vedanta Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of Vedanta Limited ("the Company"), which comprise the Balance sheet as at 31 March 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in

accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 3(d)(i) of the standalone Ind AS financial statements, with respect to accounting for an acquisition approved by the National Company Law Tribunal, Hyderabad Bench, overriding the applicable Ind-AS requirements. Further as stated in the aforesaid note, the comparative financial information for the year ended 31 March 2023 has also been restated to give effect to the terms of merger.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended 31 March 2024. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
(a) Accounting and disclosure of related party transactions (as described in note 39 of the Standalone Ind AS financial statements)	
The Company has undertaken transactions with related party, Vedanta Resources Limited ('VRL'), its intermediate holding company and its affiliates including among others, payment of brand and strategic management fee, agency commission and guarantee commission.	Our procedures included the following: <ul style="list-style-type: none"> Obtained and read the Company's policies, processes and procedures in respect of identification of such related parties in accordance with relevant laws and standards, obtaining approval, recording and disclosure of related party transactions and identified key controls. For selected controls we have performed tests of controls. Tested such related party transactions and balances with the underlying contracts, confirmation letters and other supporting documents provided by the Company. Examined the approvals of the board and/or audit committee of these transactions. Obtained and assessed the benchmarking report issued by the experts engaged by the management. Assessed the competence and objectivity of the external experts. Held discussions and obtained representations from the management in relation to such transactions. Read the disclosures made in this regard in the financial statements and assessed whether relevant and material information have been disclosed.
Accounting and disclosure of such related party transactions has been identified as a key audit matter due to a) Significance of such related party transactions; b) Risk of such transactions being executed without proper authorizations; and c) Risk of material information relating to aforesaid transactions not getting disclosed in the financial statements.	

Key audit matters	How our audit addressed the key audit matter
Recoverability of carrying value of property plant and equipment, capital work in progress and exploration intangible assets under development and Non-current Investments (as described in note 3(a)(E), 3(a)(F)(ii), 3(c)(A)(i), 3(c)(A)(ii), 3(c)(A)(iii), 3(c)(A)(iv), 5, 6A and 34 of the Standalone Ind AS financial statements)	
As at 31 March 2024, the Company had significant amounts of property, plant and equipment, capital work in progress and exploration intangible assets under development which were carried at historical cost less depreciation.	Our audit procedures included the following: <ul style="list-style-type: none"> Obtained and read the Company's policies, processes and procedures in respect of identification of impairment indicators, recording and disclosure of impairment charge / (reversal) and identified key controls. For selected controls we have performed tests of controls. Assessed through an analysis of internal and external factors impacting the Company, whether there were any indicators of impairment in line with Ind AS 36 and Ind AS 109. In relation to the CGU at (a) Tuticorin within the copper segment; (b) Rajasthan block within the oil & gas segment; (c) Western Cluster Limited (WCL) in Liberia within the Iron Ore segment for evaluating recoverability for the Investments made in WCL through the wholly owned subsidiary Bloom Fountain Limited d) Zinc International Mines in Gamsberg, Skorpion and Swatberg to evaluate Company's liability w.r.t. loan (secured by financial guarantee by Company) taken by Company's wholly owned subsidiary THL Zinc Ventures Limited (THLZVL) on basis of recoverable value of such mines.
We focused our efforts on the Cash Generating Unit ("CGU") at (a) Tuticorin within the copper segment; (b) Rajasthan block within the oil & gas segment; (c) Investments made in Western Cluster Limited (WCL) in Liberia within the Iron Ore segment through the wholly owned subsidiary Bloom Fountain Limited and d) Zinc International Mines of Gamsberg, Skorpion and Swatberg to evaluate Company's liability w.r.t. loan (secured by financial guarantee by Company) taken by Company's wholly owned subsidiary THL Zinc Ventures Limited (THLZVL) on basis of recoverable value of such mines.	
Recoverability of property plant and equipment, capital work in progress and exploration intangible assets under development, non-current investment and Recognition of Expected Credit Loss on financial guarantee has been identified as a key audit matter due to:	
<ul style="list-style-type: none"> The significance of the carrying value of assets being assessed. The fact that the assessment of the recoverable amount of the Company's CGU involves significant judgements about the future cash flow forecasts, scrap value / Depreciated Replacement Cost, price, production forecasts and the discount rate that is applied. The withdrawal of Company's licenses to operate the copper plant and unfavorable order of the Honorable Supreme Court of India, leading to an exceptional charge of ₹ 746 crore. Receipt of final partial arbitration award on DGH demand arbitration which allowed exploration cost recovery and had an impact on IM tranche. Accordingly, impairment of ₹ 550 crore was reversed on PPE, and ₹ 1,082 crore on investment in wholly owned subsidiary, Cairn India Holding Limited ("CIHL"), on account of increase in valuation of CIHL pursuant to award. However, the government has filed an appeal with the High Court against the arbitration award. The fact that in the previous year, Company's subsidiary WCL obtained the mining license and has started the mining activity at Bomi mine in Liberia, leading to reversal of impairment in the previous year. However, the operations in the current year were not in line with the projected performance. The fact that financial guarantee given by Company amounting to ₹ 8,168 crore (USD 980 mn) for loan taken by THLZVL has to be recognized as liability in books if THLZV's assets (i.e. Zinc International Mines) do not exhibit recoverable value equal to or higher than loan amount. 	
The key judgements and estimates are centered on the assessment of Scrap / Depreciated Replacement Cost for the Copper plant, cash flow forecasts, impact of litigation w.r.t. partial arbitration award, discount rate assumptions, price, production forecasts and related disclosures as given in note 5 (Property, plant and equipment), 6A (Non-current investments) and 34 (Exceptional items) of the accompanying financial statements.	
	<ul style="list-style-type: none"> Assessed the implications of withdrawal of Company's license to operate the copper plant at Tuticorin. Assessed management's position after unfavorable order of the Hon'ble Supreme Court against re-opening of plant and its consequential impairment on PPE, CWIP and other assets. Evaluated the valuation methodology adopted by the management i.e. determination of fair value loss less cost of disposal through various scenarios in light of the facts and circumstances of the matter. Assessed management's forecasting accuracy by comparing prior year forecasts to actual results and assessed the potential impact of any variances. Corroborated the sales price assumptions used in the models against analyst consensus / geography of sales and assessed the reasonableness of costs. Compared the production forecasts used in the impairment tests with management's approved reserves and resources estimates, Evaluated the grounds of appeal filed with High Court for partial arbitration award received by Company. Tested the weighted average cost of capital used to discount the impairment models. Tested the mathematical accuracy of the models. Compared assumptions used by management in respect of price forecast and ore grade against the consensus report and reserve and resource report. Assessed the production and profitability trend in the Zinc International segment and compared the same with the projected cash flows for reasonableness. Assessed reserves and resources estimation methods and policies and read reports provided by management's external reserves experts for the oil and gas assets of the Company; Assessed the competence, capability and objectivity of experts engaged by management; through understanding their relevant professional qualifications and experience. Engaged valuation experts to assist in performance of the above procedures. Assessed the disclosures made by the Company in this regard and evaluated the considerations leading to disclosure of above impairment charge / (reversal) as exceptional items.

Key audit matters	How our audit addressed the key audit matter
<p>Recoverability of disputed trade receivables in Power segment (as described in note 3(c)(B)(ii) and 7 of the Standalone Ind AS financial statements)</p> <p>As of 31 March 2024 the value of disputed receivables in the power segment aggregated to ₹ 673 crore.</p> <p>Due to short supply or non-supply of power due to transmission line constraints, order received from Orissa State Electricity Regulatory Commission (OERC) and disagreements over the quantification relating to aforementioned disputes or timing of the recovery of receivables, the recovery of said receivables are subject to increased risk. Some of these balances are also subject to litigation. The risk is specifically related to receivables from GRIDCO. These receivables include long outstanding balances as well and are also subject to counter party credit risk and hence considered as a key audit matter.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Examined the underlying power purchase agreements. • Examined the relevant state regulatory commission, appellate tribunal and court rulings. • Obtained and assessed the model prepared by the management for computation of Expected credit loss on the disputed receivables, including testing of key assumptions. • Tested arithmetical accuracy of the models prepared by the management. • Obtained independent external lawyer confirmation from Legal Counsel of the Company who is contesting the cases. • Examined external legal opinions in respect of the merits of the case and assessed management's position through discussions with the management's in-house legal team to determine the basis of their conclusion. • Assessed the competence and objectivity of the Company's experts. • Assessed the disclosures made by the Company in this regard.
<p>Claims and exposures relating to taxation and litigation (as described in note 3(c)(B)(i), 38D and 44 of the Standalone Ind AS financial statements)</p> <p>The Company is subject to a large number of tax and legal disputes, including developments in DGH Arbitration matter, vendor arbitrations, income tax disallowances and various indirect tax disputes which have been disclosed / provided for in the financial statements based on the facts and circumstances of each case.</p> <p>Taxation and litigation exposures have been identified as a key audit matter due to the complexities involved in these matters, timescales involved for resolution and the potential financial impact of these on the financial statements. Further, significant management judgement is involved in assessing the exposure of each case and thus a higher risk involved on adequacy of provision or disclosure of such cases.</p>	<p>Our audit procedures included the following:-</p> <ul style="list-style-type: none"> • Obtained an understanding of the process of identification of claims, litigations and its classification as probable, possible or remote and identified key controls in the process. For selected controls we have performed tests of controls. • Obtained the summary of Company's legal and tax cases and assessed management's position through discussions with the Legal Counsel, Head of Tax and operational management, on both the probability of success in significant cases and the magnitude of any potential loss. • Obtained independent external lawyer confirmations from Legal Counsel of the Company who is contesting the cases. • Examined external legal opinions (where considered necessary) and other evidence to corroborate management's assessment of the risk profile in respect of legal claims. • Assessed the competence and objectivity of the Company's experts. • Engaged tax specialists to technically appraise the tax positions taken by management with respect to income tax and indirect tax matters. • Assessed whether management assessment of similar cases is consistent across the divisions and subsidiaries or that differences in positions are adequately justified. • Assessed whether management assessment of similar cases is consistent with the positions taken in earlier periods or that difference in positions are adequately justified. • Assessed the relevant disclosures made within the financial statements to address accuracy of the amounts and whether they reflect the facts and circumstances of the respective tax and legal exposures and the requirements of relevant accounting standards.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate,

to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

2. Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended 31 March 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements and other financial information, in respect of unincorporated joint operation, whose financial statements include total assets of ₹ 200 crore as at 31 March 2024, total revenues of ₹ 111 crore, net profit after tax of ₹ 28 crore and total comprehensive income of ₹ 28 crore for the year ended 31 March 2024, and net cash inflows of ₹ Nil for the year ended 31 March 2024. These financial statements and other financial information of the said unincorporated joint operation have not been audited by other auditors, whose unaudited financial statements, other unaudited financial information have been furnished to us by the management. Our opinion on the standalone Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these unincorporated joint operation and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid unincorporated joint operation, is based solely on the

unaudited information furnished to us by the management. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph (vi) below on reporting under Rule 11(g);
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on 31 March 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls with reference to these standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) In our opinion, the managerial remuneration for the year ended 31 March 2024 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;

- (h) The observation relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph (b) above on reporting under Section 143(3)(b) and paragraph i(vi) below on reporting under Rule 11(g).
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 38D and 44 to the standalone Ind AS financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - iv. a) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 39H to the standalone Ind AS financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 39H to the standalone Ind AS financial

statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with section 123 of the Act.
- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for direct changes to data in certain database tables when using system administrator access rights, as described in note 41(d) to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of accounting software.

ANNEXURE-1

referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date

Re: Vedanta Limited

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangibles assets.
- (b) Property, Plant and Equipment have been physically verified by the management in accordance with a planned programme of verifying them once in three years which is reasonable having regard to the size of the Company and the nature of its assets, except for Property, Plant and Equipment located at Tuticorin Plant amounting to ₹ 432 crore due to suspension of operations since April 2018 (refer Note 3(c)(A)(ii)). No material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company except for the title deeds of immovable properties as per table below

Particulars	Gross carrying value in ₹ crore	Held in the name of	Whether promoter, director or their relative or employee	Period held since	Reason for not being held in name of company
Land	53	Erstwhile Company Sterlite Industries (India) Limited that merged with the Company	No	1965-2012	The title deeds are in the names of erstwhile Companies that merged with the Company under Section 391 to 394 of the Companies Act, 1956 pursuant to Schemes of Amalgamation and Arrangement as approved by the Honourable High Courts.
ROU Land	50	Erstwhile Company Sterlite Industries (India) Limited that merged with the Company	No	1993-2009	
Land	20	Erstwhile Company Vedanta Aluminium Limited that merged with the Company	No	2008-2012	
Land & Building	1,798	Oil and Natural Gas Corporation Limited & Cairn India Limited (now a division of the company)	No	10 April 2009	The title deeds of Oil & Gas exploration blocks are jointly owned by the JV partners and are in the name of ONGC the licensee of these exploration blocks

The original title deeds amounting to ₹ 68 crore pertaining to immovable properties have been pledged with lenders, which have been confirmed by the lenders/trustees.

- (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended 31 March 2024.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory has been physically verified by the management during the year except for inventories aggregating ₹ 217 crore lying at Tuticorin plant which is under suspension (refer note 3(c)(A)(ii)) and inventories lying with third parties amounting to ₹ 1,144 crore. In our opinion, the frequency of verification by the management is reasonable and the coverage and procedure for such verification is appropriate. Inventories lying with third parties have been confirmed by them as at 31 March 2024 and no discrepancies were noticed in respect of such confirmations. Discrepancies of 10% or more in aggregate for each class of inventory were not noticed in respect of such verification.

- (b) As disclosed in note 17B to the financial statements, the Company has been sanctioned working capital limits in excess of ₹ five crore in aggregate from banks and financial institutions during the year on the basis of security of current assets of the Company. Based on the records examined by us in the normal course of audit of the financial statements, the quarterly returns/statements filed by the Company with such banks and financial institutions are in agreement with the audited books of accounts of the Company.

- (iii) (a) During the year, the Company has provided loans, given security and stood guarantee to companies as follows:

Particulars (₹ In crore)	Guarantees	Loans	Security
Aggregate amount granted/ provided during the year			
- Subsidiaries	12,440	1,890	3,864
- Employees' Trust	-	200	-
Balance outstanding as at balance sheet date (including opening balances)			
- Subsidiaries	17,747	1,742	3,864
- Ultimate parent company	115	-	-
- Employees' Trust	-	154	-

The Company has not provided any advances in the nature of loans during the year.

- (b) During the year the investments made, guarantees provided, and the terms and conditions of the grant of all loans and guarantees provided to companies or any other party are not prejudicial to the Company's interest. The Company has not given any security and has not granted any advances in nature of loans during the year.
- (c) The Company has granted loans during the year to its wholly owned subsidiaries where the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular. The Company has not granted any advances in nature of loans during the year.
- (d) There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.
- (e) During the year, the Company had renewed loans to its wholly owned subsidiaries to settle the loans which had fallen due during the year.

The aggregate amount of such dues renewed by fresh loans and the percentage of the aggregate to the total loans or advances in the nature of loans granted during the year are as follows:

Name of the parties	Aggregate amount of loans or advances in the nature of loans granted during the year (in INR crore)*	Aggregate overdue amount settled by renewal or extension or by fresh loans granted to same parties (INR crore)	Percentage of the aggregate to the total loans or advances in the nature of loans granted during the year
Malco Energy Limited (MEL)	784	448	57%
Sesa Mining Corporation Limited (SMCL)	118	8	7%
ESL Steel Limited (ESL)	675	305	45%
Ferro Alloy Corporation Limited (FACOR)	187	22	12%

* loan renewed/ extended is considered as new loan granted during the year for the purpose of reporting under this clause

- (f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.

- (iv) There are no loans, investments, guarantees, and security in respect of which provisions of sections 185 of the Companies Act, 2013 are applicable and hence not commented upon. Loans, investments, guarantees and security in respect of which provisions of Section 186 of the Companies Act, 2013 are applicable have been complied with by the Company.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits during the year. However, in regard to the unclaimed deposits, the Company has complied with the provisions of Sections 73 to 76 of the Act and the rules made thereunder, to the extent applicable. We are informed by the management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal in this regard.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of goods and generation of electricity, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, duty of custom, value added tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, undisputed dues in respect of goods and services tax, provident fund, employees' state insurance, income-tax, duty of custom, value added tax, cess and other statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable, except for undisputed dues relating to income tax amounting to ₹ 254 crore has remained unpaid for a period of more than 6 months as on the reporting date, as Company intends to re-evaluate their position basis tax advise at the time of filing of return of income.
- (b) The dues of goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess, and other statutory dues have not been deposited on account of any dispute as listed in Appendix-1 at the end of this report.
- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income-tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) Term loans were applied for the purpose for which the loans were obtained.
- (d) On an overall examination of the financial statements of the Company, the Company has used funds raised on short-term basis in the form of working capital and short term borrowings from banks aggregating to ₹ 7,432 crore for long-term purposes primarily representing acquisition of property plant and equipment.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- (f) The Company has raised loans during the year on the pledge of securities held in its subsidiaries, as per details below. Further, the Company has not defaulted in repayment of such loans raised.

Nature of loan taken	Name of lender	Amount of loan in ₹ crore	Name of the subsidiary	Details of security pledged	Remarks
Rupee Term Loans	Bank	2,600	Hindustan Zinc Limited	4.35% Shares have been pledged	Refer note 17(c)
Non-Convertible debentures	Financial Institution	5,900	Sesa Iron and Steel Limited	100% shares pledged	Refer note 17(c)

- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) No fraud by the Company or no material fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor and secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of audit procedures.
- (xii) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a), (b) & (c) of the Order is not applicable to the Company.
- (xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a), (b), (c) & (d) of the Order is not applicable to the Company.
- (xvii) The Company has not incurred cash losses in the current financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in note 42 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act. This matter has been disclosed in note 41 (a) to the financial statements.
- (b) There are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of the Act. This matter has been disclosed in note 41 (a) to the financial statements.

ANNEXURE-2

to the Independent Auditor's Report of even date on the Ind AS Standalone Financial Statements of Vedanta Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the standalone financial statements of Vedanta Limited ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Committee of Sponsoring Organisations of the Treadway Commission (2013 Framework) ("COSO 2013 Criteria"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and

their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls With Reference to these Financial Statements

A company's internal financial control with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projections of any evaluation of the internal financial controls with reference to these standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to these standalone financial statements and such internal financial controls with reference to these standalone financial

statements were operating effectively as at 31 March 2024 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in COSO 2013 criteria.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

1 Company Overview

Vedanta Limited ("the Company") (CIN: L13209MH1965PLC291394) is a diversified natural resource company engaged in exploring, extracting and processing minerals and oil and gas. The Company engages in the exploration, production and sale of oil and gas, aluminium, copper, iron ore and power. The Company was incorporated on 08 September 1975 under the laws of the Republic of India. The registered office of the Company is situated at 1st Floor, 'C' wing, Unit 103, Corporate Avenue, Atul Projects, Chakala, Andheri (East), Mumbai-400093, Maharashtra. The Company's shares are listed on National Stock Exchange ("NSE") and Bombay Stock Exchange ("BSE") in India. In June 2007, the Company completed its initial public offering of American Depositary Shares, or ADS, each representing four equity shares, and listed its ADSs on the New York Stock Exchange ("NYSE").

The ADSs of the Company have been delisted from NYSE effective close of trading on NYSE on 08 November 2021. The Company has been deregistered from SEC under the Exchange Act effective 01 March 2023.

The Company is majority owned by Twin Star Holdings Limited ("Twin Star"), Finsider International Company Limited ("Finsider"), Vedanta Holdings Mauritius II Limited ("VHM2L"), Vedanta Holdings Mauritius Limited ("VHML"), Welter Trading Limited ("Welter") and Vedanta Netherlands Investments BV ("VNIBV") which are in turn wholly-owned subsidiaries of Vedanta Resources Limited ("VRL"), a company incorporated in the United Kingdom. VRL, through its subsidiaries, held 61.95% (31 March 2023: 68.11%) of the Company's equity as at 31 March 2024.

Details of Company's various businesses are as follows:

- The Company's oil and gas business consists of business of exploration and development and production of oil and gas.
- The Company's iron ore business consists of iron ore exploration, mining and processing of iron ore, pig iron and metallurgical coke. The Company has iron ore mining operations in the States of Goa and Karnataka. Pursuant to Honourable Supreme Court of India order, mining operations in the state of Goa were suspended. During the previous year, the Government of Goa has initiated auction of mines in which the Company has participated. The Company has been declared as the principal bidder for the Bicholim mine and has received the Letter of Intent (LoI) from the Government of Goa. During the

current year, the Company has received environment clearance from Ministry of Environment, Forest and Climate Change ("MoEFCC") and Consent to Operate ("CTO") from Goa State Pollution Board followed by commencement of operations in March 2024.

- The Company's copper business is principally one of custom smelting and includes captive power plants at Tuticorin in Southern India. The Company's copper business in Tamil Nadu, India has received an order from the Tamil Nadu Pollution Control Board ("TNPCB") on 09 April 2018, rejecting the Company's application for renewal of consent to operate under the Air and Water Acts for the 400,000 tpa copper smelter plant in Tuticorin for want of further clarification and consequently the operations were suspended. The Company has filed an appeal with TNPCB Appellate authority against the said order. During the pendency of the appeal, TNPCB through its order dated 23 May 2018 ordered for disconnection of electricity supply and closure of copper smelter plant. Post such order, the state government on 28 May 2018 ordered the permanent closure of the plant. The Company has filed a writ petition before the Madras High Court challenging the various orders passed against the Company in FY 2018 and FY 2013. On 18 August 2020, the Madras High Court delivered the judgement wherein it dismissed all the Writ Petitions filed by the Company. Thereafter, the Company has approached the Supreme Court and challenged the said High Court order by way of a Special Leave Petition ("SLP"). During the year ended 31 March 2024, the Hon'ble Supreme Court, after hearing the Parties to the proceedings has dismissed the SLP filed by the Company vide judgment dated 29 February 2024. (Refer note 3(c)(A)(ii)).

Further, the Company's copper business includes refinery and rod plant Silvassa consisting of a 133,000 MT of blister/ secondary material processing plant, a 216,000 tpa copper refinery plant and a copper rod mill with an installed capacity of 258,000 tpa. The plant continues to operate as usual, catering to the domestic market.

- The Company's aluminium business include a refinery and captive power plant at Lanjigarh, a smelter and captive power plants at Jharsuguda and coal mines at Jamkhani, all situated in the State of Odisha in Eastern India.
- The Company's power operations include a thermal coal-based commercial power facility of 600 MW at Jharsuguda in the State of Odisha in Eastern India and a 1,200 MW (two units of 600 MW each) thermal coal-based power plant in the State of Chhattisgarh in Eastern India.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Besides the above, the Company has business interest in zinc, lead, silver, iron ore, steel, ferro alloys, semiconductor, display and other products and services through its subsidiaries in India and overseas.

These are the Company's separate financial statements.

2 Basis of preparation and basis of measurement of financial statements

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, presentation requirement of Division II of schedule III and other relevant provisions of the Companies Act, 2013 ("the Act") (as amended from time to time), guidelines issued by the Securities and Exchange Board of India ("SEBI") and Guidance Note on Accounting for Oil and Gas Producing Activities issued by the Institute of Chartered Accountants of India.

These financial statements have been prepared in accordance with the accounting policies, set out below and were consistently applied to all periods presented unless otherwise stated.

The Company has identified 12 months as its operating cycle for the classification of assets and liabilities into current and non-current.

These financial statements are approved for issue by the Board of Directors on 25 April 2024. The revision to these financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

All financial information presented in Indian Rupee has been rounded off to the nearest crore except when indicated otherwise. Amounts less than ₹ 0.50 crore have been presented as "0".

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets and liabilities which are measured at fair value as explained in the accounting policies below.

The Company has availed long term debt (Refer Note 17A and 17B). In the unlikely event, VRL (together with its subsidiaries) ceases to hold more than 50.1% stake in the Company, ₹ 40,423 crore of the Company's outstanding long-term debt would become repayable on demand. Management basis assessment of free cash flows, its ability to refinance existing debt and other strategic initiatives, considers the same as remote.

3 a) Material accounting policies

(A) Revenue recognition

- **Sale of goods/rendering of services (including revenue from contracts with customers)**

The Company's revenue from contracts with customers is mainly from the sale of oil and gas, aluminium, copper, iron ore and power. Revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer as per terms of contract, which usually is on delivery of the goods to the shipping agent at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognised net of discounts, volume rebates, outgoing sales taxes/ goods and service tax and other indirect taxes. Revenues from sale of by-products are included in revenue.

Certain of the Company's sales contracts provide for provisional pricing based on the price on the London Metal Exchange (LME) and crude index, as specified in the contract. Revenue in respect of such contracts is recognised when control passes to the customer and is measured at the amount the entity expects to be entitled – being the estimate of the price expected to be received at the end of the measurement period. Post transfer of control of goods, provisional pricing features are accounted in accordance with Ind AS 109 'Financial Instruments' rather than Ind AS 115 Revenue from contracts with customers and therefore the Ind AS 115 rules on variable consideration do not apply. These 'provisional pricing' adjustments, i.e., the consideration adjusted post transfer of control are included in total revenue from operations on the face of the statement of profit and loss and disclosed by way of note to the financial statements. Final settlement of the price is based on the applicable price for a specified future period. The Company's provisionally priced sales are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in revenue.

Revenue from oil, gas and condensate sales represent the Company's share in the revenue from sale of such products, by the joint operations, and is recognised as and when control in these products gets transferred to the customers. In computing its share of revenue, the Company excludes government's share of profit oil which gets accounted for when the obligation in respect of the same arises.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Revenue from sale of power is recognised when delivered and measured based on rates as per bilateral contractual agreements with buyers and at a rate arrived at based on the principles laid down under the relevant Tariff Regulations as notified by the regulatory bodies, as applicable.

If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is received. The advance payments received plus a specified rate of return/ discount, at the prevailing market rates, is settled by supplying respective goods over a period of up to twenty four months under an agreed delivery schedule as per the terms of the respective agreements. As these are contracts that the Company expects, and has the ability, to fulfil through delivery of a non-financial item, these are presented as advance from customers and are recognised as revenue as and when control of respective commodities is transferred to customers under the agreements. The fixed rate of return/ discount is treated as finance cost. The portion of the advance where either the Company does not have a unilateral right to defer settlement beyond 12 months or expects settlement within 12 months from the balance sheet date is classified as a current liability.

- **Interest income**

Interest income from debt instruments is recognised using the effective interest rate method.

- **Dividends**

Dividend income is recognised in the statement of profit and loss only when the right to receive payment is established, provided it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(B) Property, plant and equipment

i) Mining properties and leases

When a decision is taken that a mining property is viable for commercial production (i.e., when the Company determines that the mining property will provide sufficient and sustainable return relative to the risks and the Company decided to proceed with the mine development), all further pre-production primary development expenditure other than that on land, buildings, plant, equipment and capital work in progress is capitalised as property, plant and equipment under the heading "Mining

properties and leases" together with any amount transferred from "Exploration and evaluation" assets. The costs of mining properties and leases, include the costs of acquiring and developing mining properties.

The stripping costs incurred during the production phase of a surface mine is deferred to the extent the current period stripping cost exceeds the average period stripping cost over the life of mine and recognised as an asset if such cost provides a benefit in terms of improved access to ore in future periods and certain criteria are met. When the benefit from the stripping costs are realised in the current period, the stripping costs are accounted for as the cost of inventory. If the costs of inventory produced and the stripping activity asset are not separately identifiable, a relevant production measure is used to allocate the production stripping costs between the inventory produced and the stripping activity asset. The Company uses the expected volume of waste compared with the actual volume of waste extracted for a given value of ore/mineral production for the purpose of determining the cost of the stripping activity asset.

Deferred stripping costs are included in mining properties within property, plant and equipment and disclosed as a part of mining properties. After initial recognition, the stripping activity asset is depreciated on a unit of production method over the expected useful life of the identified component of the ore body.

In circumstances where a mining property is abandoned, the cumulative capitalised costs relating to the property are written off in the period in which it occurs i.e. when the Company determines that the mining property will not provide sufficient and sustainable returns relative to the risks and the Company decides not to proceed with the mine development.

Commercial reserves are proved and probable reserves as defined by the 'JORC' Code, 'MORC' code or 'SAMREC' Code. Changes in the commercial reserves affecting unit of production calculations are dealt with prospectively over the revised remaining reserves.

ii) Oil and gas assets- (developing/producing assets)

For oil and gas assets, a "successful efforts" based accounting policy is followed. Costs incurred prior to obtaining the legal rights to explore an area are

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

expensed immediately to the statement of profit and loss.

All costs incurred after the technical feasibility and commercial viability of producing hydrocarbons has been demonstrated are capitalised within property, plant and equipment - development/ producing assets on a field-by-field basis. Subsequent expenditure is capitalised only where it either enhances the economic benefits of the development/producing asset or replaces part of the existing development/producing asset. Any remaining costs associated with the part replaced are expensed.

Net proceeds from any disposal of development/ producing assets are credited against the previously capitalised cost. A gain or loss on disposal of a development/producing asset is recognised in the statement of profit and loss to the extent that the net proceeds exceed or are less than the appropriate portion of the net capitalised costs of the asset.

iii) Other property, plant and equipment

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Subsequently, property plant and equipment is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset or disposal. Gains and

losses on disposal of an item of property, plant and equipment is included in the statement of profit and loss when the asset is derecognised. Major inspection and overhaul expenditure is capitalised, if the recognition criteria are met.

iv) Assets under construction

Assets under construction are capitalised in the assets under construction account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset and any obligatory decommissioning costs are capitalised until the period of commissioning has been completed and the asset is ready for its intended use.

Capital work in progress is carried at cost less accumulated impairment losses, if any.

v) Depreciation, depletion and amortisation expense

Mining properties and other assets in the course of development or construction and freehold land are not depreciated or amortised.

- **Mining properties**

The capitalised mining properties are amortised on a unit-of-production basis over the total estimated remaining commercial proved and probable reserves of each property or group of properties and are subject to impairment review. Costs used in the unit of production calculation comprise the net book value of capitalised costs plus the estimated future capital expenditure required to access the commercial reserves. Changes in the estimates of commercial reserves or future capital expenditure are dealt with prospectively.

- **Oil and gas producing facilities**

All expenditures carried within each field are amortised from the commencement of production on a unit of production basis, which is the ratio of oil and gas production in the period to the estimated quantities of depletable reserves at the end of the period plus the production in the period, generally on a field-by-field basis or group of fields which are reliant on common infrastructure. Depletable reserves are proved reserves for acquisition costs and proved and developed reserves for successful exploratory wells, development wells, processing facilities,

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

distribution assets, estimated future abandonment cost and all other related costs. These assets are depleted within each cost centre. Reserves for this purpose are considered on working interest basis which are reassessed atleast annually. Impact of changes to reserves are accounted for prospectively.

• Other assets

Depreciation on other property, plant and equipment is calculated using the straight-line method (SLM) to allocate their cost, net of their residual values, over their estimated useful lives (determined by the management) as given below. Management's assessment takes into account, inter alia, the nature of the assets, the estimated usage of the assets, the operating conditions of the assets, past history of replacement and maintenance support.

Estimated useful lives of assets are as follows:

Asset	Useful Life (in years)
Buildings (Residential, factory etc.)	3-60
Plant and equipment	15-40
Railway siding	15
Office equipment	3-6
Furniture and fixture	8-10
Vehicles	8-10

Major inspection and overhaul costs are depreciated over the estimated life of the economic benefit to be derived from such costs. The carrying amount of the remaining previous overhaul cost is charged to the statement of profit and loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

The Company reviews the residual value and useful life of an asset at least at each financial year-end. The Company considers climate-related matters, including physical and transition risks in its assessment of expected useful lives and estimated residual values. If expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

(C) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequently, intangible

assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Mining rights include the cost incurred for mines such as stamp duty, registration fees and other such costs together with cost incurred on development of mining rights and other related cost of mines transferred from "Exploration intangible assets under development".

Intangible assets are amortised over their estimated useful life on a straight line basis. Software is amortised over the estimated useful life ranging from 2-5 years. Amounts paid for securing mining rights are amortised over the period of the mining lease ranging from 16-25 years.

Gains or losses arising from derecognition of an intangible asset are recognised in the statement of profit and loss when the asset is derecognised.

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

(D) Exploration and evaluation intangible assets

Exploration and evaluation expenditure incurred prior to obtaining the mining right or the legal right to explore are expensed as incurred.

Exploration and evaluation expenditure incurred after obtaining the mining right or the legal right to explore are capitalised as exploration and evaluation assets (intangible assets) and stated at cost less impairment, if any. Exploration and evaluation intangible assets are transferred to the appropriate category of property, plant and equipment when the technical feasibility and commercial viability has been determined. Exploration intangible assets under development are assessed for impairment and impairment loss, if any, is recognised prior to reclassification.

Exploration expenditure includes all direct and allocated indirect expenditure associated with finding specific mineral resources which includes depreciation and applicable operating costs of related support equipment and facilities and other costs of exploration activities:

- Acquisition costs - costs associated with acquisition of licenses and rights to explore, including related professional fees.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

- General exploration costs - costs of surveys and studies, rights of access to properties to conduct those studies (e.g., costs incurred for environment clearance, defence clearance, etc.), and salaries and other expenses of geologists, geophysical crews and other personnel conducting those studies.
- Costs of exploration drilling and equipping exploration and appraisal wells.

Exploration expenditure incurred in the process of determining oil and gas exploration targets is capitalised within "Exploration and evaluation assets" (intangible assets) and subsequently allocated to drilling activities. Exploration drilling costs are initially capitalised on a well-by-well basis until the success or otherwise of the well has been established. The success or failure of each exploration effort is judged on a well-by-well basis. Drilling costs are written off on completion of a well unless the results indicate that hydrocarbon reserves exist and there is a reasonable prospect that these reserves are commercial.

Following appraisal of successful exploration wells, if commercial reserves are established and technical feasibility for extraction demonstrated, then the related capitalised exploration costs are transferred into a single field cost centre within property, plant and equipment - development/producing assets (oil and gas properties) after testing for impairment. Where results of exploration drilling indicate the presence of hydrocarbons which are ultimately not considered commercially viable, all related costs are written off to the statement of profit and loss.

Expenditure incurred on the acquisition of a license interest is initially capitalised on a license-by-license basis. Costs are held, undepleted, within exploration and evaluation assets until such time as the exploration phase on the license area is complete or commercial reserves have been discovered.

Net proceeds from any disposal of an exploration asset are initially credited against the previously capitalised costs. Any surplus/ deficit is recognised in the statement of profit and loss.

(E) Impairment of non-financial assets

Impairment charges and reversals are assessed at the level of cash-generating units.

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. The Company conducts an internal review of asset values annually, which is used as a source of information to

assess for any indications of impairment or reversal of previously recognised impairment losses. Internal and external factors, such as worse economic performance than expected, changes in expected future prices, costs and other market factors are also monitored to assess for indications of impairment or reversal of previously recognised impairment losses.

If any such indication exists then an impairment review is undertaken and the recoverable amount is calculated, as the higher of fair value less costs of disposal and the asset's value in use.

Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the company and not applicable to entities in general. Fair value for mineral and oil and gas assets is generally determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset, including any expansion prospects, and its eventual disposal, using assumptions that an independent market participant may take into account. These cash flows are discounted at an appropriate post tax discount rate to arrive at the net present value.

Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal. The cash flows are discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. Value in use is determined by applying assumptions specific to the Company's continued use and cannot take into account future development. These assumptions are different to those used in calculating fair value and consequently the value in use calculation is likely to give a different result to a fair value calculation. The Company assesses whether climate risks, including physical risks and transition risks could have a significant impact. If so, these risks are included in the cash-flow forecasts in assessing value in use amounts.

The carrying amount of the CGU is determined on a basis consistent with the way the recoverable amount of the CGU is determined.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

Exploration and evaluation assets:

In assessing whether there is any indication that an exploration and evaluation asset may be impaired, the Company considers, as a minimum, the following indicators:

- The period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Company has decided to discontinue such activities in the specific area;
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale; and
- reserve information prepared annually by external experts.

When a potential impairment is identified, an assessment is performed for each area of interest in conjunction with the group of operating assets (representing a cash-generating unit) to which the exploration and evaluation assets is attributed. Exploration areas in which reserves have been discovered but require major capital expenditure before production can begin, are continually evaluated to ensure that commercial quantities of reserves exist or to ensure that additional exploration work is underway or planned. To the extent that capitalised expenditure is no longer expected to be recovered, it is charged to the statement of profit and loss.

(F) Financial instruments

(i) Financial assets – recognition and subsequent measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss,

transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Trade receivables that do not contain a significant financing component are measured at transaction price as per Ind AS 115.

For purposes of subsequent measurement, financial assets are classified in three categories:

• Financial assets at amortised cost

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method.

• Financial assets at fair value through other comprehensive income (FVOCI)

Debt instruments included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss are recognised in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in other comprehensive income is reclassified from the equity to statement of profit and loss. Interest earned whilst holding fair value through other comprehensive income debt instrument is reported as interest income using the EIR method.

For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

may transfer the cumulative gain or loss within equity.

• Financial assets at fair value through profit or loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument at FVTPL.

Any equity instrument in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL.

Further, the provisionally priced trade receivables are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in revenue.

(ii) Impairment of financial assets

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables, contract assets and lease receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

At each reporting date, for recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since

initial recognition, then the Company reverts to recognising impairment loss allowance based on 12-month ECL.

ECL impairment loss allowance (or reversal) recognised during the year is recognised as income/ expense in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets. The Company does not reduce impairment allowance from the gross carrying amount.
- Debt instruments measured at FVOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

(iii) Financial liabilities – Recognition and Subsequent measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, or as loans, borrowings and payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings, financial guarantee contracts and derivative financial instruments.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss (FTVPL)**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognised in OCI. These gains/losses are not subsequently transferred to statement of profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability at fair value through profit or loss.

Further, the provisionally priced trade payables are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in costs.

- **Financial liabilities at amortised cost (Loans, Borrowings and Trade and Other payables)**

After initial recognition, interest-bearing loans, borrowings and trade and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

- **(iv) Financial liabilities - Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. When a new financial liability is recognised in place of an existing one, the difference in the respective carrying amounts is recognised in the statement of profit and loss.

- **(v) Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

The Company recognises a liability to pay dividend to equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution with respect to interim dividend is authorised when it is approved by the board of directors of the Company and final dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

- **(G) Derivative financial instruments and hedge accounting**

- **Initial recognition and subsequent measurement**

In order to hedge its exposure to foreign exchange, interest rate, and commodity price risks, the Company enters into forward, option, swap contracts and other derivative financial instruments. The Company does not hold derivative financial instruments for speculative purposes.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the statement of profit and loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to the statement of profit and loss

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

- **i) Fair value hedges**

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in the statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in the statement of profit and loss. Hedge accounting is discontinued when the Company revokes the hedge relationship, the hedging instrument or hedged item expires or is sold, terminated, or exercised or no longer meets the criteria for hedge accounting.

- **ii) Cash flow hedges**

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss.

Amounts recognised in OCI are transferred to the statement of profit and loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised in OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

- **(H) Leases**

The Company assesses at contract inception, all arrangements to determine whether they are, or contain, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company as a lessee applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities towards future lease payments and right-of-use assets representing the right to use the underlying assets.

- **(i) Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date when the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The right-of-use assets are also subject to impairment.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as described in 'B' above.

- **(ii) Lease liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (and, in some instances, in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is generally not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are disclosed on the face of Balance sheet.

(iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(I) Inventories

Inventories and work-in-progress are valued at the lower of cost and net realisable value. Cost is determined on the following basis:

- Purchased copper concentrate is recorded at cost on a first-in, first-out ("FIFO") basis; all other materials including stores and spares are valued on a weighted average basis except in Oil and Gas business where stores and spares are valued on FIFO basis;
- Finished products are valued at raw material cost plus costs of conversion, comprising labour costs and an attributable proportion of manufacturing overheads based on normal levels of activity and are moved out of inventory on a weighted average basis (except in copper business where FIFO basis is followed); and
- By-products and scrap are valued at net realisable value.

Net realisable value is determined based on estimated selling price, less further costs expected to be incurred for completion and disposal.

Inventories of 'Fuel Stock' mainly consist of coal which is used for generating power. On consumption, the cost is charged off to 'Power and Fuel' charges in the statement of profit and loss.

(J) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that

- the Company will comply with the conditions attached to them, and
- the grant/subsidy will be received.

Where the grant relates to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset and presented within other income.

(K) Taxation

Tax expense represents the sum of current tax and deferred tax.

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the reporting date and includes any adjustment to tax payable in respect of previous years.

Subject to the exceptions below, deferred tax is provided, using the balance sheet method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes and on carry forward of unused tax credits and unused tax losses;

- Deferred income tax is not recognised on initial recognition of an asset or liability in a transaction that:
 - is not a business combination;
 - at the time of the transaction, affects neither the accounting profit nor taxable profit (tax loss); and
 - at the time of the transaction, does not give rise to equal taxable and deductible temporary differences; and
- Deferred tax assets are recognised only to the extent that it is more likely than not that they will be recovered.

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Further, management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

(L) Retirement benefit schemes

The Company operates or participates in a number of defined benefits and defined contribution schemes, the assets of which (where funded) are held in separately administered funds. For defined benefit schemes, the cost of providing benefits under the plans is determined by actuarial valuation each year separately for each plan using the projected unit credit method by third party qualified actuaries.

Remeasurement including, effects of asset ceiling and return on plan assets (excluding amounts included in interest on the net defined benefit liability) and actuarial gains and losses arising in the year are recognised in full in other comprehensive income and are not recycled to the statement of profit and loss.

Net interest is calculated by applying a discount rate to the net defined benefit liability or asset at the beginning of the period. Defined benefit costs are split into current service cost, past service cost, net interest expense or income and remeasurement and gains and losses on curtailments and settlements. Current service cost and past service cost are recognised within employee benefit expense. Net interest expense or income is recognised within finance costs.

For defined contribution schemes, the amount charged to the statement of profit and loss in respect of pension costs and other post retirement benefits is the contributions payable in the year, recognised as and when the employee renders related services.

(M) Share-based payments

Certain employees (including executive directors) of the Company receive part of their remuneration in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares ('equity-settled transactions').

The cost of equity-settled transactions with employees is measured at fair value of share awards at the date at which they are granted. The fair value of share awards is determined with the assistance of an external valuer and the fair value at the grant date is expensed on a proportionate basis over the vesting period based on the Company's estimate of shares that will eventually vest. The estimate of the number of awards likely to vest is reviewed at each balance sheet date up to the vesting date at which point the estimate is adjusted to reflect the current expectations.

The resultant increase in equity is recorded in share based payment reserve.

In case of cash-settled transactions, a liability is recognised for the fair value of cash-settled transactions. The fair value is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The fair value is determined with the assistance of an external valuer.

(N) Provisions, contingent liabilities and contingent assets

Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognised when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the Balance Sheet.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefit is probable.

The Company has significant capital commitments in relation to various capital projects which are not recognised in the balance sheet.

(O) Restoration, rehabilitation and environmental costs

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing production of a mine or oil fields. Such costs, discounted to net present value, are provided for and a corresponding amount is capitalised at the start of each project, as soon as the obligation to incur such costs arises. These costs are charged to the statement of profit and loss over the life of the operation through the depreciation of the asset and the unwinding of the discount on the provision. The cost estimates are reviewed periodically and are adjusted to reflect known developments which may have an impact on the cost estimates or life of operations. The impact of climate-related matters, such as changes in environmental regulations and other relevant legislation, is considered by the Company in estimating the restoration, rehabilitation and environmental costs. The cost of the related asset is adjusted for changes in the provision due to factors such as updated cost estimates, changes to lives of operations, new disturbance and revisions to discount rates. The adjusted cost of the asset is depreciated prospectively over the lives of the assets to which they relate. The unwinding of the discount is shown as finance cost in the statement of profit and loss.

Costs for the restoration of subsequent site damage, which is caused on an ongoing basis during production, are provided for at their net present value and charged to the statement of profit and loss as extraction progresses. Where the costs of site restoration are not anticipated to be material, they are expensed as incurred.

(P) Accounting for foreign currency transactions

The functional currency of the Company is determined as the currency of the primary economic environment in which it operates. For all principal businesses of the Company, the functional currency is Indian rupee (₹)

with an exception of oil and gas business operations which has a US dollar functional currency as that is the currency of the primary economic environment in which it operates. The financial statements are presented in Indian rupee (₹).

In the financial statements of the Company, transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in other currencies are translated into the functional currency at exchange rates prevailing on the reporting date. Non-monetary assets and liabilities denominated in other currencies and measured at historical cost or fair value are translated at the exchange rates prevailing on the dates on which such values were determined.

All exchange differences are included in the statement of profit and loss except those where the monetary item designated as an effective hedging instrument of the currency risk of designated forecasted sales or purchases, which are recognised in the other comprehensive income.

The Statement of Profit and Loss of oil and gas business is translated into Indian Rupees (₹) at the average rates of exchange during the year / exchange rates as on the date of the transaction. The Balance Sheet is translated at the exchange rate as at the reporting date. Exchange difference arising on translation is recognised in other comprehensive income and would be recycled to the statement of profit and loss as and when these operations are disposed off.

The Company had applied paragraph 46A of AS 11 under Previous GAAP. Ind AS 101 gives an option, which has been exercised by the Company, whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. Hence, foreign exchange gain/loss on long-term foreign currency monetary items recognised upto 31 March 2016 has been deferred/capitalised. Such exchange differences arising on translation/settlement of long-term foreign currency monetary items and pertaining to the acquisition of a depreciable asset are amortised over the remaining useful lives of the assets.

Exchange differences arising on translation/ settlement of long-term foreign currency monetary items, acquired post 01 April 2016, pertaining to the acquisition of a

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

depreciable asset are charged to the statement of profit and loss.

(Q) Buyers' Credit/ Suppliers' Credit and vendor financing

The Company enters into arrangements whereby banks and financial institutions make direct payments to suppliers for raw materials and project materials. The banks and financial institutions are subsequently repaid by the Company at a later date providing working capital timing benefits. These are normally settled between twelve months (for raw materials) to thirty-six months (for project materials). Where these arrangements are with a maturity of up to twelve months, the economic substance of the transaction is determined to be operating in nature and these are recognised as operational buyers' credit/ suppliers' credit and disclosed on the face of the balance sheet. Where these arrangements are with a maturity beyond twelve months and up to thirty six months, the economic substance of the transaction is determined to be financing in nature, and these are presented within borrowings in the balance sheet. Interest expense on these are recognised in the finance cost. Payments made by banks and financial institutions to the operating vendors are treated as a non cash item and settlement of due to operational buyer's credit/ suppliers' credit by the Company is treated as an operating cash outflow reflecting the substance of the payment.

(R) Borrowing costs

Borrowing cost includes interest expense as per effective interest rate ("EIR") and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly relating to the acquisition, construction or production of a qualifying capital project under construction are capitalised and added to the project cost during construction until such time that the assets are substantially ready for their intended use, i.e., when they are capable of commercial production.

Where funds are borrowed specifically to finance a qualifying capital project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a qualifying capital project, the income generated from such short-term investments is deducted from the total capitalised borrowing cost. If any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing then becomes part of general borrowing.

Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the Company during the year.

All other borrowing costs are recognised in the statement of profit and loss in the year in which they are incurred.

Capitalisation of interest on borrowings related to construction or development projects is ceased when substantially all the activities that are necessary to make the assets ready for their intended use are complete or when delays occur outside of the normal course of business.

(S) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits which have a maturity of three months or less from the date of acquisition, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

(T) Equity investment in subsidiaries, associates and joint ventures

Investments representing equity interest in subsidiaries, associates and joint ventures are carried at cost less impairment, if any.

Joint Arrangements

A Joint arrangement is an arrangement of which two or more parties have joint control. Joint control is considered when there is contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Investments in joint arrangements are classified as either joint operations or joint venture. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Joint Operations

The Company has joint operations within its Oil and gas segment and participates in several unincorporated joint operations which involve the joint control of assets used in oil and gas exploration and producing activities. The Company accounts for its share of assets and income and expenditure of joint operations in which it holds an interest. Liabilities in unincorporated joint ventures, where the Company is the operator, is accounted for at gross values (including share of other partners) with a corresponding receivable from the venture partners. These have been included in the financial statements under the appropriate headings.

(U) Common Control transactions

The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts recorded in the parent entity's consolidated financial statements with the exception of certain income tax and deferred tax assets. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies. The components of equity of the acquired companies are added to the same components within the Company's equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve. The Company's shares issued in consideration for the acquired companies are recognised from the moment the acquired companies are included in these financial statements and the financial statements of the commonly controlled entities are combined, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented. However, the prior year comparative information is only adjusted for periods during which entities were under common control.

(V) Exceptional items

Exceptional items are those items that management considers, by virtue of their size or incidence (including but not limited to impairment charges and acquisition and restructuring related costs), should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. No tax impact other than tax impact on exceptional items including change in

tax regime are considered exceptional. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

The determination as to which items should be disclosed separately requires a degree of judgement. The details of exceptional items are set out in note 34.

3(b) Application of new and amended standards

(A) The Company has adopted, with effect from 01 April 2023, the following new and revised standards and interpretations. Their adoption has not had any significant impact on the amounts reported in the financial statements.

1. Ind AS 1 Presentation of financial statements: The amendment requires disclosure of material accounting policies rather than significant accounting policies;
2. Ind AS 12 Income Taxes: The amendment clarifies application of initial recognition exemption to transactions such as leases and decommissioning obligations;
3. Ind AS 8 Accounting Policies, Change in Accounting Estimates and Errors: The amendment replaces definition of 'change in accounting estimates' with the definition of 'accounting estimates'

(B) Standards notified but not yet effective

No new standards have been notified during the year ended 31 March 2024.

3(c) Significant accounting estimates and judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. These judgments and estimates are based on management's best knowledge of the relevant facts and circumstances, having regard to previous experience, but actual results may differ materially from the amounts included in the financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

recognised in the period in which the estimate is revised and future periods affected.

The information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as given below:

(A) Significant Estimates

(i) Carrying value of exploration and evaluation assets

Exploration assets are assessed by comparing the carrying value to higher of fair value less cost of disposal or value in use if impairment indicators, as contained in Ind AS 106, exists. Change to the valuation of exploration assets is an area of judgement. Further details on the Company's accounting policies on this are set out in accounting policy above. The amounts for exploration and evaluation assets represent active exploration projects. These amounts will be written off to the statement of profit and loss as exploration costs unless commercial reserves are established or the determination process is not completed and there are no indications of impairment. The outcome of ongoing exploration, and therefore whether the carrying value of exploration and evaluation assets will ultimately be recovered, is inherently uncertain.

Details of carrying values are disclosed in note 5.

(ii) Copper operations in Tamil Nadu, India

Tamil Nadu Pollution Control Board ("TNPCB") had issued a closure order of the Tuticorin Copper smelter, against which the Company had filed an appeal with the National Green Tribunal ("NGT"). NGT had, on 08 August 2013, ruled that the Copper smelter could continue its operations subject to implementation of recommendations of the Expert Committee appointed by the NGT. The TNPCB has filed an appeal against the order of the NGT before the Supreme Court of India.

In the meanwhile, the application for renewal of Consent to Operate ("CTO") for existing copper smelter was rejected by TNPCB in April 2018. The Company has filed an appeal before the TNPCB Appellate Authority challenging the Rejection Order. During the pendency of the appeal, the TNPCB vide its order dated 23 May 2018 ordered closure of existing copper smelter plant with immediate effect. Further, the Government of Tamil Nadu

issued orders on the same date with a direction to seal the existing copper smelter plant permanently. The Company believes these actions were not taken in accordance with the procedure prescribed under applicable laws. Subsequently, the Directorate of Industrial Safety and Health passed orders dated 30 May 2018, directing the immediate suspension and revocation of the Factory License and the Registration Certificate for the existing smelter plant.

The Company appealed this before the NGT. NGT vide its order on 15 December 2018 has set aside the impugned orders and directed the TNPCB to pass fresh orders for renewal of consent and authorisation to handle hazardous substances, subject to appropriate conditions for protection of environment in accordance with law.

The State of Tamil Nadu and TNPCB approached Supreme Court in Civil Appeals on 02 January 2019 challenging the judgement of NGT dated 15 December 2018 and the previously passed judgement of NGT dated 08 August 2013. The Supreme Court vide its judgement dated 18 February 2019 set aside the judgements of NGT dated 15 December 2018 and 08 August 2013 solely on the basis of maintainability and directed the Company to file an appeal in High court.

The Company has filed a writ petition before the Madras High Court challenging the various orders passed against the Company in FY 2018 and FY 2013. On 18 August 2020, the Madras High Court delivered the judgement wherein it dismissed all the Writ Petitions filed by the Company. Thereafter, the Company has approached the Supreme Court and challenged the said High Court order by way of a Special Leave Petition ("SLP").

Though the Company has raised substantial grounds of challenge before the Supreme Court and considering the grounds raised and the fact that the NGT has ruled in favour of the Company, the Hon'ble Supreme Court, after hearing the Parties to the proceedings has dismissed the SLP filed by the Company vide judgment dated 29 February 2024. On 01 April 2024, the Company preferred a review petition before the Hon'ble Supreme Court

Expansion Project:

Separately, the Company has filed a fresh application for renewal of the Environmental Clearance for the proposed Copper Smelter Plant 2

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

("Expansion Project") dated 12 March 2018 before the Expert Appraisal Committee of the Ministry of Environment, Forests and Climate Change ("the MoEFCC") wherein a sub-committee was directed to visit the Expansion Project site prior to prescribing the Terms of Reference.

In the meantime, the Madurai Bench of Madras High Court in a Public Interest Litigation held vide its order dated 23 May 2018 that the application for renewal of the Environmental Clearance for the Expansion Project shall be processed after a mandatory public hearing and in the interim, ordered the Company to cease construction and all other activities on site for the proposed Expansion Project with immediate effect. The MoEFCC has delisted the Expansion Project since the matter is sub-judice. Separately, SIPCOT vide its letter dated 29 May 2018, cancelled 342.22 acres of the land allotted for the proposed Expansion Project. Further, the TNPCB issued orders on 07 June 2018 directing the withdrawal of the Consent to Establish ("CTE") which was valid till 31 March 2023.

The Company has approached Madras High Court by way of writ petition challenging the cancellation of lease deeds by SIPCOT pursuant to which an interim stay has been granted. The Company has also appealed this action before the TNPCB Appellate Authority. The matter has been adjourned until the conclusion of the existing Plant review petition filed before the Supreme Court.

As per the Company's assessment, it is in compliance with the applicable regulations. Considering prolonged time of plant closure and uncertainties around opening of plant due to rejection of SLP by Hon'ble Supreme Court, the Company has carried out an impairment assessment, on Tuticorin plant assets having carrying value of ₹ 1,681 crore (including PPE, CWIP and inventory) using Depreciated Replacement Cost / Scrap Value method for PPE and CWIP, and Net recoverable method for inventory. Accordingly, impairment on assets of ₹ 746 crore (including PPE of ₹ 553 crore, CWIP of ₹ 130 crore and loss on inventory of ₹ 63 crore) has been recorded during the year ended 31 March 2024.

Property, plant and equipment of ₹ 432 crore (31 March 2023: ₹ 1,033 crore) and inventories of ₹ 217 crore (31 March 2023: ₹ 269 crore), pertaining to existing and expansion plant, could not be physically verified, anytime during the year, as the access to the plant is presently restricted. However,

any difference between book and physical quantities is unlikely to be material.

(iii) Oil and Gas reserves

Significant technical and commercial judgements are required to determine the Company's estimated oil and natural gas reserves. Reserves considered for computing depletion are proved reserves for acquisition costs and proved and developed reserves for successful exploratory wells, development wells, processing facilities, distribution assets, estimated future abandonment cost and all other related costs. Reserves for this purpose are considered on working interest basis which are reassessed at least annually. Details of such reserves are given in note 43. Changes in reserves as a result of change in management assumptions could impact the depreciation rates and the carrying value of assets (refer note 5).

(iv) Carrying value of developing/producing oil and gas assets

Management performs impairment tests on the Company's developing/producing oil and gas assets where indicators of impairment are identified in accordance with Ind AS 36.

The impairment assessments are based on a range of estimates and assumptions, including:

Estimates/assumptions	Basis
Future production	proved and probable reserves, production facilities, resource estimates and expansion projects
Commodity prices	management's best estimate benchmarked with external sources of information, to ensure they are within the range of available analyst forecast
Discount to price	management's best estimate based on historical prevailing discount and updated sales contracts
Period	for Rajasthan block, cash flows are considered based on economic life of the field
Discount rates	cost of capital risk-adjusted for the risk specific to the asset/ CGU

Any subsequent changes to cash flows due to changes in the above mentioned factors could impact the carrying value of the assets.

Details of carrying values and impairment charge/ (reversal) and the assumptions used are disclosed in note 5 and 34 respectively.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

(v) Climate Change

The Company aims to achieve net carbon neutrality by 2050, has committed reduction in emission by 25% by 2030 from 2021 baseline, net water positivity by 2030 as part of its climate risk assessment and has outlined its climate risk assessment and opportunities in the ESG strategy. Climate change may have various impacts on the Company in the medium to long term. These impacts include the risks and opportunities related to the demand of products and services, impact due to transition to a low-carbon economy, disruption to the supply chain, risk of physical harm to the assets due to extreme weather conditions, regulatory changes etc. The accounting related measurement and disclosure items that are most impacted by our commitments, and climate change risk more generally, relate to those areas of the financial statements that are prepared under the historical cost convention and are subject to estimation uncertainties in the medium to long term.

The potential effects of climate change may be on assets and liabilities that are measured based on an estimate of future cash flows. The main ways in which potential climate change impacts have been considered in the preparation of the financial statements, pertain to (a) inclusion of capex in cash flow projections, (b) recoverable amounts of existing assets and (c) review of estimates of useful lives of property, plant and equipment.

The Company's strategy consists of mitigation and adaptation measures. The Company is committed to reduce its carbon footprint by limiting its exposure to coal-based projects and reducing its GHG emissions through high impact initiatives such as investment in Renewable Energy, fuel switch, electrification of vehicles and mining fleet and energy efficiency opportunities. During the current year, work has progressed towards the construction of renewable power delivery agreements in accordance with the Board approved plan (Refer Note 38(A)(ii)). Renewable sources have limitations in supplying round the clock power, so existing power plants would support transition and fleet replacement is part of normal lifecycle renewal. The Company has also taken certain measures towards water management such as commissioning of sewage treatment plants, rainwater harvesting, and reducing fresh water consumption. Collectively these measures have led

to an increase of our water positivity to 0.7 (FY23: 0.63). These initiatives are aligned with the group's ESG strategy and no material changes were identified to the financial statements as a result

As the Company's assessment of the potential impacts of climate change and the transition to a low-carbon economy continues to mature, any future changes in Company's climate change strategy, changes in environmental laws and regulations and global decarbonisation measures may impact the Company's significant judgments and key estimates and result in changes to financial statements and carrying values of certain assets and liabilities in future reporting periods. However, as of the balance sheet date, the Company believes that there is no material impact on carrying values of its assets or liabilities.

(B) Significant Judgement

(i) Contingencies:

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. A provision is recognised when the Company has a present obligation as a result of past events and it is probable that the Company will be required to settle that obligation.

Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain, the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

When considering the classification of legal or tax cases as probable, possible or remote, there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific applicable law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to make informed decision.

Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability. These are set out in Note 38.

For other significant litigations where the possibility of an outflow of resources embodying economic benefits is remote, refer note 44.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

(ii) Revenue recognition and receivable recovery in relation to the power division:

In certain cases, the Company's power customers are disputing various contractual provisions of Power Purchase Agreements ("PPA"). Significant judgement is required in both assessing the tariff to be charged under the PPA in accordance with Ind AS 115 and to assess the recoverability of withheld revenue currently accounted for as receivables.

In assessing this critical judgment, management considered favourable external legal opinions that the Company has obtained in relation to the claims. In addition, the fact that the contracts are with government owned companies implies that the credit risk is low [refer note 7 (c)].

3(d) Acquisitions, Restructuring and Disposal of Subsidiary

(i) Athena Chhattisgarh Power Limited

On 21 July 2022, the Company acquired Athena Chhattisgarh Power Limited ("ACPL"), an unrelated party, under the liquidation proceedings of the Insolvency and Bankruptcy Code, 2016, for a consideration of ₹ 565 crore, subject to approval by the National Company Law Tribunal ("NCLT"). ACPL is building a 1,200 MW coal-based power plant located in Jhanjgir Champa district, Chhattisgarh.

The Company filed a resolution application with the NCLT in July 2022 and further amended the application in November 2022 praying for merger of ACPL with the Company. The Company also sought various reliefs from certain legal and regulatory provisions as part of these applications. Pending receipt of NCLT approval, the Company had recorded the above transaction as an advance in its financial statements for the year ended 31 March 2023.

The NCLT approved the Company's resolution application with an appointed date of 21 July 2022 ("appointed date"), in its July 2023 order ("NCLT Order"). In accordance with applicable Ind AS, the Company has restated its financial statements as at and for the year ended 31 March 2023 to record this merger.

The Scheme of merger as approved by the NCLT inter alia prescribes the following accounting treatment in the standalone financial statements of the Company: the difference between the fair value at the appointed date and the carrying value of the assets recorded pursuant to the amalgamation at their book value arrived at without considering any impairment/ write-off, would be written off by debit to the Statement of Profit

and Loss of the Company and credited to the carrying value of the assets. This would be a permanent write-off of the carrying value of the assets and not a provision for diminution in the value of the assets. The charge on account of write-off of the assets, as mentioned above, as recorded by the Company will be transferred from its Retained Earnings to its Capital Reserve and accordingly, the Capital Reserve will stand diminished by the said amount.

Pursuant to the NCLT Order, the Company has merged ACPL by carrying forward the book values of ACPL's assets of ₹ 8,698 crore (as appearing in ACPL's financial statements as at 31 March 2022, which were audited by ACPL's auditors) at the appointed date without considering any impairment, applying Appendix C of Ind AS 103 - Business Combinations, instead of recognising the assets at purchase consideration in accordance with Ind AS 16. The difference between the values of assets acquired and the consideration paid was credited to Other Equity (Capital Reserve). The Company has written off the consequent loss of ₹ 8,133 crore in the Statement of Profit and Loss for the year ended 31 March 2023, representing the difference between the book value of assets and consideration paid. The assets written off of ₹ 8,133 crore, excluding tax consequences thereof, has been transferred from 'Retained Earnings' to 'Capital Reserve', in accordance with the Scheme. The above is in accordance with the NCLT Order, overriding the applicable Ind AS requirements.

Consequent to the implementation of the merger, a deferred tax credit of ₹ 2,036 crore was recognised in the Statement of Profit and Loss with a corresponding increase in carrying value of deferred tax assets in the comparative balance sheet as at 31 March 2023 due to difference between carrying value of assets as per books (book base) and tax base of the asset (original cost of acquisition by Athena), and the carrying values of deferred tax assets (MAT credit) was lower by ₹ 1,421 crore with a corresponding reduction in income tax liabilities by ₹ 979 crore and an increase in income tax assets by ₹ 442 crore as at 31 March 2023, on account of the lower MAT charge. These restated balances of 31 March 2023 have been carried to FY 2023-24.

As a result of the above, the profit before tax was lower by ₹ 8,133 crore and profit after tax was lower by ₹ 6,097 crore for the year ended 31 March 2023. Consequently, the earnings per share (EPS) was lower by ₹ 16.39 per share for the year ended 31 March 2023.

(ii) Meenakshi Energy Limited

Meenakshi Energy Limited ("Meenakshi") is a 1,000 MW coal-based power plant located at Nellore, Andhra

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Pradesh. NCLT vide its order dated 10 August 2023 has granted its approval for the Resolution Plan as submitted by the Company for acquisition of Meenakshi under Corporate Insolvency Resolution Process in accordance with the provisions of Insolvency and Bankruptcy Code (IBC), 2016 for a total consideration of ₹ 1,440 crore.

Pursuant to the approval of Resolution Plan, the Company has made a payment of upfront consideration of ₹ 312 crore and infused ₹ 1 crore through equity for the implementation of approved Resolution Plan. On 16 October 2023, zero coupon, secured, unlisted non-convertible debentures ("NCDs") of aggregate face value of ₹ 1,128 crore have been issued by Meenakshi to its financial creditors, redeemable in 5 equal annual instalments starting from 16 October 2025. Consequent to satisfaction of all conditions precedent of the Resolution Plan, the Company has acquired control of Meenakshi on 27 December 2023. The above acquisition meets the criterion of asset acquisition under Ind AS 103 - Business Combinations.

(iii) Scheme of Arrangement for demerger

The Board of Directors, in its meeting held on 29 September 2023, has approved a Scheme of Arrangement ("the Scheme") for demerger of various businesses of the Company. The Scheme entails demerger of the Company's Aluminium (represented by the Aluminium segment), Merchant Power (represented by the Power segment), Oil and Gas (represented by the Oil and Gas segment), Base Metals (represented by the Copper and Zinc International segment) and Iron Ore (represented by Iron Ore segment and Steel business)

Undertakings into 6 separate companies with a mirrored shareholding and consequent listings at BSE Limited and National Stock Exchange of India Limited ("the Stock Exchanges").

The Company has filed the Scheme with the Stock Exchanges. Upon receipt of necessary approvals from the Stock Exchanges, the Scheme will be filed with the NCLT. Pending regulatory and other approvals, no adjustments have been recorded in the financial statements of the Company for the year ended 31 March 2024.

(iv) Disposal of subsidiary

During the year ended 31 March 2024, Monte Cello BV ("MCBV"), a wholly owned subsidiary of the Company, sold 100% of its equity ownership in its wholly owned subsidiary, Copper Mines of Tasmania ("CMT") which was previously engaged in copper mining operations in Australia. The Group has received upfront cash consideration of ₹ 84 crore (US\$ 10 million) and de-recognised net liabilities of ₹ 94 crore (US\$ 11 million) pertaining to CMT, as reported in the consolidated financial statements for the year ended 31 March 2024. Further, as part of the transaction, the acquirer shall pay the Group additional consideration in future upto US\$ 310 million by way of fee/ royalties, on achieving certain pre-agreed milestones. Accordingly, based on these expected future cash flows, the Company has reversed previously recorded impairment of ₹ 204 crore on its investments in MCBV as an exceptional item, in these financial statements.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

4 Segment Information

A) Description of segment and principal activities

The Company is a diversified natural resource company engaged in exploring, extracting and processing minerals and oil and gas. The Company produces oil and gas, aluminium, copper, iron ore and power. The Company has five reportable segments: oil and gas, aluminium, copper, iron ore and power. The management of the Company is organised by its main products: oil and gas, aluminium, copper, iron ore and power. Each of the reportable segments derives its revenues from these main products and hence these have been identified as reportable segments by the Company's Chief Operating Decision Maker ("CODM").

Segment Revenue, Results, Assets and Liabilities include the respective amounts identifiable to each of the segments and amount allocated on a reasonable basis. Unallocated expenditure consist of common expenditure incurred for all the segments and expenses incurred at corporate level. The assets and liabilities that cannot be allocated between the segments are shown as unallocated assets and unallocated liabilities respectively.

The accounting policies of the reportable segments are the same as the Company's accounting policies described in Note 3. Earnings before Interest, Tax and Depreciation & Amortisation (EBITDA) are evaluated regularly by the CODM, in deciding how to allocate resources and in assessing performance. The operating segments reported are the segments of the Company for which separate financial information is available. The Company's financing (including finance costs and finance income) and income taxes are reviewed on an overall basis and are not allocated to operating segments.

Pricing between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

The following table presents revenue and profit information and certain assets and liabilities information regarding the Company's business segments as at and for the year ended 31 March 2024 and 31 March 2023 respectively.

For the year ended 31 March 2024

Particulars	Business Segments						Total

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

- EBITDA is a non-GAAP measure.
- Oher income includes amortisation of duty benefits relating to assets recognised as government grant.
- Includes cost of exploration wells written off.
- Total capital expenditure includes capital expenditure of ₹ 22 crore not allocable to any segment.
- Total net impairment reversal relating to assets includes impairment reversal on investments of ₹ 5,507 crore, which is not allocable to any segment (Refer Note 34).

B) Geographical segment analysis

The following table provides an analysis of the Company's sales by region in which the customer is located, irrespective of the origin of the goods.

Geographical Segments	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Revenue by geographical segment		
India	36,494	33,714
Europe	5,251	11,631
Mexico	1,560	3,817
The United states of America	1,971	3,426
China	3,335	2,535
Others	21,052	12,070
Total	69,663	67,193

The following is an analysis of the carrying amount of non-current assets, excluding deferred tax assets and financial assets, analysed by the geographical area in which the assets are located:

Carrying Amount of Segment Assets	(₹ in crore)	
	As at 31 March 2024	Year ended 31 March 2023*
India	62,138	57,870
Total	62,138	57,870

* Restated, refer note 3(d)(i)

C) Information about major customers

No single customer has accounted for more than 10% of the Company's revenue for the year ended 31 March 2024 and 31 March 2023.

D) Disaggregation of revenue

Below table summarises the disaggregated revenue from contract with customers:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023*
Oil	7,894	6,718
Gas	1,612	1,546
Aluminium products	34,706	39,189
Copper Cathode	14,589	11,950
Iron Ore	5,128	2,212
Metallurgical coke	176	447
Pig Iron	3,274	3,198
Power	730	827
Others	1,858	1,691
Revenue from contracts with customers*	69,967	67,778
Loss from provisionally priced contracts under Ind AS 109	(304)	(585)
Total Revenue	69,663	67,193

*includes revenues from sale of services aggregating to ₹ 98 crore (31 March 2023: ₹ 88 crore) which is recorded over a period of time and the balance revenue is recognised at a point in time.

Notes

- Plant and equipment include refineries, smelters, power plants, railway sidings, ships, river fleet and related facilities.
- During the year ended 31 March 2024, interest capitalised was ₹ 560 crore (31 March 2023: ₹ 331 crore).
- Certain property, plant and equipment are pledged as security against borrowings, the details related to which have been described in Note 17 on "Borrowings".
- In accordance with the exemption given under Ind AS 101, which has been exercised by the Company, a first time adopter can continue its previous GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the previous GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period, i.e., 01 April 2016.

Accordingly, foreign currency exchange differences arising on translation/settlement of long-term foreign currency monetary items acquired before 01 April 2016 pertaining to the acquisition of a depreciable asset amounting to ₹ 1 crore loss (31 March 2023: ₹ 11 crore loss) is adjusted to the cost of respective item of property, plant and equipment.

NOTES

(₹ in crore)

Particulars	For the year ended 31 March 2024	For the year ended 31 March 2023
Depreciation/Depletion/Amortisation expense on:		
Property, Plant and Equipment (Including ROU assets)	3,762	3,684
Intangible assets	48	19
As per Property, Plant and Equipment and Intangible assets schedule	3,810	3,703
Less: Cost allocated to joint ventures and other adjustments	(21)	(42)
As per Statement of Profit and Loss	3,789	3,661

- During the year ended 31 March 2023, the Company had recognised a net impairment reversal of ₹ 323 crore (after considering impairment reversal of ₹ 618 crore on account of ONGC partial arbitration award (Refer note (ii) for details)) on its assets in the oil and gas producing facilities and impairment charge of ₹ 305 crore on its assets in the oil and gas exploration intangible assets under development mainly due to revision of Reserve and Capex estimates. The recoverable amount of the Company's share in Rajasthan Oil and Gas cash generating unit "RJ CGU" was determined to be ₹ 5,324 crore (US\$ 648 million) as at 31 March 2023. The recoverable amount of the RJ CGU was determined based on the fair value less costs of disposal approach, a level-3 valuation technique in the fair value hierarchy, as it more accurately reflects the recoverable amount based on the Company's view of the assumptions that would be used by a market participant. This was based on the cash flows expected to be generated by the projected oil and natural gas production profiles up to 2040, the expected dates of cessation of production sharing contract ("PSC")/ cessation of production from each producing field based on the current estimates of reserves and risked resources. Reserves assumptions for fair value less costs of disposal tests consider all reserves that a market participant would consider when valuing the asset, which are usually broader in scope than the reserves used in a value-in-use test. Discounted cash flow analysis used to calculate fair value less costs of disposal uses assumption for short-term oil price of US\$ 84 per barrel for the next one year and tapers down to long-term nominal price of US\$ 73 per barrel three years thereafter derived from a consensus of various analyst recommendations. Thereafter, these had been escalated at a rate of 2.4% per annum. The cash flows were discounted using the post-tax nominal discount rate of 10.99% derived from the post-tax weighted average cost of capital after factoring in the risks ascribed to PSC extension including successful implementation of key growth projects. Based on the sensitivities carried out by the Company, change in crude price assumptions by US\$ 1/bbl and changes to discount rate by 1% would lead to a change in recoverable value by ₹ 41 crore (US\$ 5 million) and ₹ 205 crore (US\$ 25 million) respectively.
 - In the Oil and Gas business, the Company operates the Rajasthan Block under a joint venture model with ONGC. As the operator of the block, the Company raises cash calls to ensure the smooth functioning of the petroleum operations.

During the year ended 31 March 2023, the Company received a favourable partial arbitration award on cash call claims made from ONGC, pursuant to which, reversal of previously recorded impairment of ₹ 618 crore (US\$ 78 million) had been recognised against capitalised development costs. The Company had a liability towards ONGC of ₹ 750 crore (US\$ 99 million) as of 31 March 2022 on account of revenue received in excess of entitlement. Based on the partial arbitration award, the Company had adjusted the claims received in the favour of the Company against the liability towards ONGC and the net payable as of 31 March 2023 amounted to ₹ 135 crore (US\$ 16 million).
- Pursuant to the merger of ACPL, the Company has recorded the gross book value of ACPL assets amounting to ₹ 47 crore, ₹ 39 crore, ₹ 75 crore and ₹ 8,537 crore as an addition to freehold land, buildings, ROU land and CWIP, respectively for the year ended 31 March 2023 (Refer note 3(d)(i) for details).
- Freehold land includes gross block of ₹ 353 crore (31 March 2023: ₹ 350 crore) and accumulated depreciation of ₹ 319 crore (31 March 2023: ₹ 308 crore), which is available for use during the lifetime of the Production Sharing Contract of the respective Oil and Gas blocks.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Following is the key information of significant investee entities:

Particulars	Principal place of business	Ownership Interest (in %)	
		As at 31 March 2024	As at 31 March 2023
Subsidiary companies			
Hindustan Zinc Limited	India	64.92	64.92
Bharat Aluminium Company Limited	India	51.00	51.00
Cairn India Holdings Limited ("CIHL")	Jersey*	100.00	100.00
ESL Steel Limited	India	95.49	95.49
Talwandi Sabo Power Limited	India	100.00	100.00

*CIHL through its wholly owned subsidiary, Cairn Energy Hydrocarbons Limited, incorporated in Scotland is involved in oil and gas exploration, development and production business in India.

- Carrying value of investment in equity shares of Hindustan Zinc Limited ("HZL") is at deemed cost and for all other subsidiaries, it is at the cost of acquisition.
- Pursuant to the Government of India's policy of disinvestment, the Company in April 2002 acquired 26% equity interest in HZL from the Government of India. Under the terms of the Shareholder's Agreement ('SHA'), the Company had two call options to purchase all of the Government of India's shares in HZL at fair market value. The Company also acquired an additional 20% of the equity capital in HZL through an open offer. The Company exercised the first call option on 29 August 2003 and acquired an additional 18.9% of HZL's issued share capital, increasing its shareholding to 64.9%. The second call option provides the Company the right to acquire the Government of India's remaining 29.5% share in HZL. This call option is subject to the right of the Government of India to sell 3.5% of HZL shares to HZL employees. The Company exercised the second call option on 21 July 2009. The Government of India disputed the validity of the call option and has refused to act upon the second call option. Consequently, the Company invoked arbitration. The Government of India without prejudice to the position on the Put / Call option issue has received approval from the Cabinet for divestment and the Government is looking to divest through the auction route. Meanwhile, the Supreme Court has, in January 2016, directed status quo pertaining to disinvestment of Government of India's residual shareholding while hearing the public interest petition filed.

On 13 August 2020, the Supreme Court passed an order partially removing the status quo order in place and has allowed the arbitration proceedings to continue via its order passed on 18 November 2021, the Supreme Court of India allowed the Gol's proposal to divest its entire stake in HZL in the open market in accordance with the rules and regulations of SEBI and also directed the Central Bureau of India to register a regular case in relation to the process followed for the disinvestment of HZL in the year 2002 by the Gol. In line with the said order, the Company has withdrawn its arbitration proceedings.

Pursuant to the Government of India's policy of divestment, the Company in March 2001 acquired 51% equity interest in BALCO from the Government of India. Under the terms of the SHA, the Company has a call option to purchase the Government of India's remaining ownership interest in BALCO at any point from 02 March 2004. The Company exercised this option on 19 March 2004. However, the Government of India has contested the valuation and validity of the option and contended that the clauses of the SHA violate the (Indian) Companies Act, 1956 by restricting the rights of the Government of India to transfer its shares and that as a result such provisions of the SHA were null and void. In the arbitration filed by the Company, the arbitral tribunal by a majority award rejected the claims of the Company on the grounds that the clauses relating to the call option, the right of first refusal, the "tag-along" rights and the restriction on the transfer of shares violate the erstwhile Companies Act, 1956 and are not enforceable. The Company has challenged the validity of the majority award in the Hon'ble High Court of Delhi and sought for setting aside the arbitration award to the extent that it holds these clauses ineffective and inoperative. The Government of India also filed an application before the High Court of Delhi to partially set aside the arbitral award in respect of certain matters involving valuation. The matter is currently scheduled for hearing by the Delhi High Court. Meanwhile, the Government of India without prejudice to its position on the Put / Call option issue has received approval from the Cabinet for divestment and the Government is looking to divest through the auction route.

On 09 January 2012, the Company offered to acquire the Government of India's interests in HZL and BALCO for ₹ 15,492 crore and ₹ 1,782 crore respectively. This offer was separate from the contested exercise of the call options, and Company proposed to withdraw the ongoing litigations in relation to the contested exercise of the options should the offer be accepted. To date, the offer has not been accepted by the Government of India and therefore, there is no certainty that the acquisition will proceed.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

In view of the lack of resolution on the options, the non-response to the exercise and valuation request from the Government of India, the resultant uncertainty surrounding the potential transaction and the valuation of the consideration payable, the Company considers the strike price of the options to be at the fair value, which is effectively nil, and hence the call options have not been recognised in the financial statements.

- c. Reduction pursuant to merger of Cairn India Limited with Vedanta Limited accounted for in the year ended 31 March 2017.
- d. The Company through its wholly owned subsidiary, CIHL holds approximately 52% stake in AvanStrate Inc, Japan ("ASI") which has wholly owned subsidiaries in Korea and Taiwan. Majority of the balance stake in ASI is held by Hoya Corporation, Japan ("Hoya"). There are certain operational matters at ASI and the Company is currently in dialog with Hoya for a commercial settlement against their Put option and shareholder loan. In the meanwhile, the Company has applied principles of Ind AS 36 – Impairment of Assets for testing impairment for its investment in ASI and has used the fair values of net assets for the purpose of determining that there is no material impact to the net carrying value of investment in ASI amounting to ₹ 342 crore.
- e. The Company has not recognised any deferred tax asset on impairment of investments, including amount reduced pursuant to merger (refer note c above) as the realisation of the same is not reasonably certain.
- f. During the year ended 31 March 2024, the Company has provided maximum financial guarantee of ₹ 8,168 crore (US\$ 980 million) against the external borrowing of ₹ 7,433 crore (US\$ 900 million) taken by its wholly owned subsidiary, THL Zinc Ventures Limited ("THLZVL"). The borrowing is primarily secured by the recoverable value of the Zinc International business ("VZI") which is held under THLZVL. As at the year ended 31 March 2024, the recoverable amount of VZI has been determined based on the fair value less cost of disposal approach, using the discounted cash flow method, a level 3 valuation technique in the fair value hierarchy. This is based on the cash generated by the extraction and sale of proved and probable reserves/ natural estimated resources which are yet to be exploited during the estimated predetermined life of mine ("LOM") after deducting costs of closure and rehabilitation on expiry of LOM. The cash flows are discounted using the post tax weighted average cost of capital ("WACC") is 13.6%. The resultant recoverable amount is higher than the guarantee outstanding and hence no expected credit loss has been considered necessary. Based on the sensitivities carried out by the Company, change in WACC assumptions by 1% would lead to a change in recoverable value by ₹ 675 crore (US\$ 81 million).

- (a) Bank deposits includes fixed deposits with maturity more than 12 months of ₹ 193 crore (31 March 2023: ₹ 107 crore) under lien with bank, ₹ 4 crore (31 March 2023: ₹ Nil crore) under lien with others, ₹ 207 crore (31 March 2023: ₹ 208 crore) held as reserve created against principal payment on loans from banks, ₹ 201 crore (31 March 2023: ₹ 146 crore) held as interest reserve created against interest payment on loans from banks, ₹ 68 crore (31 March 2023: ₹ 58 crore) held as margin money created against bank guarantee and ₹ 2 crore (31 March 2023: ₹ 2 crore) held as fixed deposit for closure cost.
- (b) Bank deposits and site restoration asset earns interest at fixed rate based on respective deposit rate.
- (c) Government of India (GoI) vide Office Memorandum ("OM") No. O-19025/10/2005-ONG-DV dated 01 February 2013 allowed for Exploration in the Mining Lease Area after expiry of Exploration period and prescribed the mechanism for recovery of such Exploration Cost incurred. Vide another Memorandum dated 24 October 2019, GoI clarified that all approved Exploration costs incurred on Exploration activities, both successful and unsuccessful, are recoverable in the manner as prescribed in the OM and as per the provisions of PSC. Accordingly, the Company has started recognising revenue, for past exploration costs, through increased share in the joint operations revenue as the Company believes that cost recovery mechanism prescribed under OM for profit petroleum payable to GoI is not applicable to its Joint operation partner. During the year, the Arbitration Tribunal has issued Final Partial Award which allowed for recovery of exploration costs (Refer Note 34(a)). Accordingly, the Company has recognised additional ₹ 240 crore (US\$ 29 million). At year end, an amount of ₹ 1,114 crore (US\$ 134 million) (31 March 2023: ₹ 859 crore (US\$ 105 million)) is receivable from its joint operation partner on account of this. The Company is actively engaging with Joint operation partner and the same will be recovered through revenue in due course.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

F. Other disclosures

- (i) The Company has one class of equity shares having a par value of ₹ 1 per share. Each shareholder is eligible for one vote per share held and dividend as and when declared by the Company. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend which is paid as and when declared by the Board of Directors. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts, in proportion to their shareholding.
- (ii) In terms of Scheme of Arrangement as approved by the Hon'ble High Court of Judicature at Mumbai, vide its order dated 19 April 2002, the erstwhile Sterlite Industries (India) Limited (merged with the Company during FY 2013-14) during FY 2002-2003 reduced its paid up share capital by ₹ 10 crore. There are 1,99,366 equity shares (31 March 2023: 2,00,038 equity shares) of ₹ 1 each pending clearance from NSDL. The Company has filed an application in Hon'ble High Court of Mumbai to cancel these shares, the final decision on which is pending. Hon'ble High Court of Judicature at Mumbai, vide its interim order dated 06 September 2002 restrained any transaction with respect to subject shares.

15 Other equity (Refer statement of changes in equity)

- a) **General reserve:** Under the erstwhile Companies Act, 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable reserves for that year. Consequent to introduction of Companies Act, 2013 ("Act"), the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn.

The Board of Directors of the Company, on 29 October 2021, approved the Scheme of Arrangement between the Company and its shareholders under Section 230 and other applicable provisions of the Act ("Scheme"). The Scheme provides for capital reorganisation of the Company, inter alia, providing for transfer of amounts standing to the credit of the General Reserves to the Retained Earnings of the Company with effect from the Appointed Date.

Post the requisite approvals obtained from Stock Exchanges and pursuant to the National Company Law Tribunal ("NCLT"), Mumbai Bench Order dated 26 August 2022 ("NCLT Order"), the proposed scheme was approved by the shareholders with requisite majority on 11 October 2022.

The Company is in the process of complying with the further requirements specified in the NCLT Order.

- b) **Securities premium:** The amount received in excess of face value of the equity shares is recognised in securities premium. This reserve is utilised in accordance with the specific provisions of the Act.
- c) **Preference share redemption reserve:** The Act provides that companies that issue preference shares may redeem those shares from profits of the Company which otherwise would be available for dividends, or from proceeds of a new issue of shares made for the purpose of redemption of the preference shares. If there is a premium payable on redemption, the premium must be provided for, either by reducing the additional paid in capital (securities premium account) or net income, before the shares are redeemed. If profits are used to redeem preference shares, the value of the nominal amount of shares redeemed should be transferred from profits (retained earnings) to the preference share redemption reserve. This amount should then be utilised for the purpose of redemption of redeemable preference shares. This reserve can be used to issue fully paid-up bonus shares to the shareholders of the Company.
- d) **Capital reserve:** The balance in capital reserve has mainly arisen consequent to merger of Cairn India Limited with the Company.
- e) **Foreign currency translation reserve:** The Statement of Profit and Loss of oil and gas business is translated into Indian Rupees (₹) at the average rates of exchange during the year/ exchange rates as on the date of the transaction and the Balance Sheet is translated at the exchange rate as at the reporting date. Exchange difference arising on translation is recognised in other comprehensive income and would be recycled to the statement of profit and loss as and when these operations are disposed off.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

- f) **Share Based Payment Reserve:** Share-based payments reserve represents amount of fair value, as on the date of grant, of unvested options and vested options not exercised till date, that have been recognised as expense in the statement of profit and loss till date.
- g) **Hedging reserve:** Hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into for cash flow hedges, which is recognised in OCI and later reclassified to statement of profit and loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

16 Capital management

The Company's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth. The Company's overall strategy remains unchanged from previous year.

The Company sets the amount of capital required on the basis of annual business and long-term operating plans which include capital and other strategic investments.

The funding requirements are met through a mixture of equity, internal fund generation and borrowings. The Company's policy is to use current and non-current borrowings to meet anticipated funding requirements.

The Company monitors capital on the basis of the gearing ratio which is net debt divided by total capital (equity plus net debt). The Company is not subject to any externally imposed capital requirements.

Net debt are non-current and current debts as reduced by cash and cash equivalents, other bank balances and short term investments. Equity comprises all components including other comprehensive income.

The following table summarises the capital of the Company:

Particulars	₹ in crore, except otherwise stated	
	As at 31 March 2024	As at 31 March 2023*
Cash and cash equivalents (Refer note 12)	1,488	5,147
Other bank balances ^a (Refer note 13)	240	116
Non-current bank deposits ^a (Refer note 9)	400	315

* Excludes investments (in equity shares, preference shares and debentures) in subsidiaries, associates and joint ventures which are carried at cost and hence are not required to be disclosed as per Ind AS 107 "Financial Instruments Disclosures".

**Includes lease liabilities of ₹ 343 crore (31 March 2023: ₹ 97 crore).

*** Restated, refer note 3(d)(i)

B. Fair value hierarchy

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The below table summarises the categories of financial assets and liabilities as at 31 March 2024 and 31 March 2023 measured at fair value:

As at 31 March 2024

(₹ in crore)

Financial Assets	Level 1	Level 2	Level 3
At fair value through profit or loss			
- Investments	256	-	192
- Derivative financial assets*	-	41	-
- Trade receivables	-	110	-
At fair value through other comprehensive income			
- Investments	53	-	11
Derivatives designated as hedging instruments			
- Derivative financial assets*	-	93	-
Total	309	244	203

(₹ in crore)

Financial liabilities	Level 1	Level 2	Level 3
At fair value through profit or loss			
- Derivative financial liabilities*	-	21	-

Reconciliation of Level 3 fair value measurement

(₹ in crore)

At 01 April 2022	41
Investments made during the year	69
At 01 April 2023	110
Investments made during the year	101
Investments redeemed during the year	(8)
At 31 March 2024	203

* Refer "D" below.

The below table summarises the fair value of borrowings which are carried at amortised cost as at 31 March 2024 and 31 March 2023:

As at 31 March 2024

(₹ in crore)

Financial Liabilities	Level 1	Level 2	Level 3
Borrowings	-	42,487	-
Total	-	42,487	-

As at 31 March 2023

(₹ in crore)

Financial Liabilities	Level 1	Level 2	Level 3
Borrowings	-	41,974	-
Total	-	41,974	-

The fair value of the financial assets and liabilities are at the amount that would be received to sell an asset and paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values:

Investments traded in active markets are determined by reference to quoted prices in an active market in case of listed securities and by quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual fund house. For other listed securities traded in markets which are not active, the quoted price is used wherever the pricing mechanism is same as for other marketable securities traded in active markets. Other investments, inputs for which are not based on observable market data (unobservable inputs), are valued on the basis of net assets value method.

Other current investments are valued on the basis of market trades, poll and primary issuances for securities issued by the same or similar issuer and for similar maturities or based on the applicable spread movement for the security derived based on the aforementioned factor(s).

Trade receivables, cash and cash equivalents, other bank balances, loans, other financial assets, current borrowings, trade payables and other current financial liabilities: Fair values approximate their carrying amounts largely due to the short-term maturities of these instruments.

Non-current fixed-rate and variable-rate borrowings: Fair value has been determined using discounted cash flow model based on parameters such as interest rates, specific country risk factors, and the risk characteristics of the financed project.

Other non-current financial assets and liabilities: Fair value is calculated using a discounted cash flow model with market assumptions, unless the carrying value is considered to approximate to fair value.

Derivative financial assets/ liabilities: The Company executes derivative financial instruments with various counterparties. Interest rate swaps, foreign exchange forward contracts and commodity forward contracts are valued using valuation

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include the forward pricing and swap models, using present value calculations. The models incorporate various inputs including foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity. Commodity contracts are valued using the forward LME rates of commodities actively traded on the listed metal exchange, i.e., London Metal Exchange, United Kingdom (U.K.).

For all other financial instruments, the carrying amount is either the fair value, or approximates the fair value.

The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and the value of other financial instruments recognised at fair value.

The estimated fair value amounts as at 31 March 2024 and 31 March 2023 have been measured as at that date. As such, the fair values of these financial instruments subsequent to reporting date may be different than the amounts reported at each year-end.

There are no transfers between Level 1, Level 2 and Level 3 during the year.

C Risk management framework

The Company's businesses are subject to several risks and uncertainties including financial risks.

The Company's documented risk management policies act as an effective tool in mitigating the various financial risks to which the businesses are exposed in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty credit risk and capital management. Risks are identified at both the corporate and individual subsidiary level with active involvement of senior management. Each operating subsidiary in the Company has in place risk management processes which are in line with the Company's policy. Each significant risk has a designated 'owner' within the Company at an appropriate senior level. The potential financial impact of the risk and its likelihood of a negative outcome are regularly updated.

The risk management process is coordinated by the Management Assurance function and is regularly reviewed by the Company's Audit and Risk Management Committee ("ARC"). The ARC is aided by the other Committees of the Board including the Risk Management Committee, which meets regularly to review risks as well as the progress against the planned actions. Key business decisions are discussed at the periodic meetings of the Executive Committee. The overall internal control environment and risk management programme including financial risk management is reviewed by the Audit Committee on behalf of the Board.

The risk management framework aims to:

- improve financial risk awareness and risk transparency
- identify, control and monitor key risks
- identify risk accumulations
- provide management with reliable information on the Company's risk situation
- improve financial returns

Treasury management

Treasury management focuses on liability management, capital protection, liquidity maintenance and yield maximisation. The treasury policies are approved by the Committee of the Board. Daily treasury operations of the business units are managed by their respective finance teams within the framework of the overall Group treasury policies. Long-term fund raising including strategic treasury initiatives are managed jointly by the business treasury team and the central team at corporate treasury while short-term funding for routine working capital requirements is delegated to business units. A monthly reporting system exists to inform senior management of the Company's investments and debt position, exposure to currency, commodity and interest rate risk and their mitigants including the derivative position. The Company has a strong system of internal control which enables effective monitoring of adherence to Company's policies. The internal control measures are effectively supplemented by regular internal audits.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The Company uses derivative instruments to manage the exposure in foreign currency exchange rates, interest rates and commodity prices. The Company does not acquire or issue derivative financial instruments for trading or speculative purposes. The Company does not enter into complex derivative transactions to manage the treasury and commodity risks. Both treasury and commodities derivative transactions are normally in the form of forward contracts, interest rate and currency swaps and these are in line with the Company's policies.

Commodity price risk

The Company is exposed to the movement of base metal commodity prices on the London Metal Exchange. Any decline in the prices of the base metals that the Company produces and sells will have an immediate and direct impact on the profitability of the businesses. As a general policy, the Company aims to sell the products at prevailing market prices. The commodity price risk in imported input commodity such as of alumina, anodes, etc., for our aluminium and copper business respectively, is hedged on back-to-back basis ensuring no price risk for the business. Hedging is used primarily as a risk management tool and, in some cases, to secure future cash flows in cases of high volatility by entering into forward contracts or similar instruments. The hedging activities are subject to strict limits set out by the Board and to a strictly defined internal control and monitoring mechanism. Decisions relating to hedging of commodities are taken at the Executive Committee level, basis clearly laid down guidelines.

Whilst the Company aims to achieve average LME prices for a month or a year, average realised prices may not necessarily reflect the LME price movements because of a variety of reasons such as uneven sales during the year and timing of shipments.

The Company is also exposed to the movement of international crude oil price and the discount in the price of Rajasthan crude oil to Brent price.

Financial instruments with commodity price risk are entered into in relation to following activities:

- economic hedging of prices realised on commodity contracts
- cash flow hedging of revenues, forecasted highly probable transactions

Aluminium

The requirement of the primary raw material, alumina, is partly met from own sources and the rest is purchased primarily on negotiated price terms. Sales prices are linked to the LME prices. At present, the Company, on selective basis hedges the aluminium content in outsourced alumina to protect its margins. The Company also executes hedging arrangements for its aluminium sales to realise average month of sale LME prices.

Copper

The Company's custom refining copper operations at Silvassa is benefitted by a natural hedge except to the extent of a possible mismatch in quotational periods between the purchase of anodes / blisters and the sale of finished copper. The Company's policy on custom smelting is to generate margins from Refining Charges or "RC", improving operational efficiencies, minimising conversion cost, generating a premium over LME on sale of finished copper, sale of by-products and from achieving import parity on domestic sales. Hence, mismatches in quotational periods are managed to ensure that the gains or losses are minimised. The Company hedges this variability of LME prices through forward contracts and tries to make the LME price a pass-through cost between purchases of anodes/ blisters and sales of finished products, both of which are linked to the LME price.

RCs are a major source of income for the Indian copper refining operations. Fluctuations in RCs are influenced by factors including demand and supply conditions prevailing in the market for smelters output. The Company's copper business has a strategy of securing a majority of its anodes/ blisters feed requirement under long-term contracts with smelters/ traders.

Iron ore

The Company sells its Iron Ore production from Goa on the prevailing market prices and from Karnataka through e-auction route as mandated by State Government of Karnataka in India.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Oil and Gas

The prices of various crude oils are based upon the price of the key physical benchmark crude oil such as Dated Brent, West Texas Intermediate, and Dubai/ Oman etc. The crude oil prices move based upon market factors like supply and demand. The regional producers price their crude basis these benchmark crude with a premium or discount over the benchmark based upon quality differential and competitiveness of various grades. The Company also hedges variability of crude price through forward contracts on selective basis.

Natural gas markets are evolving differently in important geographical markets. There is no single global market for natural gas. This could be owing to difficulties in large-scale transportation over long distances as compared to crude oil. Globally, there are three main regional hubs for pricing of natural gas, which are USA (Henry Hub Prices), UK (NBP Price) and Japan (imported gas price, mostly linked to crude oil).

Provisionally priced financial instruments

On 31 March 2024, the value of net financial liabilities linked to commodities (excluding derivatives) accounted for on provisional prices was ₹ 434 crore (31 March 2023: liabilities of ₹ 728 crore). These instruments are subject to price movements at the time of final settlement and the final price of these instruments will be determined in the financial year beginning 01 April 2024.

Set out below is the impact of 10% increase in LME prices on pre-tax profit/ (loss) for the year and pre-tax total equity as a result of changes in value of the Company's commodity financial instruments:

For the year ended 31 March 2024

(₹ in crore)			
	Total Exposure	Effect on profit/ (loss) of a 10% increase in the LME	Effect on total equity of a 10% increase in the LME
Copper	(504)	(50)	-

For the year ended 31 March 2023

(₹ in crore)			
	Total Exposure	Effect on profit/ (loss) of a 10% increase in the LME	Effect on total equity of a 10% increase in the LME
Copper	(967)	(97)	-

The above sensitivities are based on volumes, costs, exchange rates and other variables and provide the estimated impact of a change in LME prices on profit and equity assuming that all other variables remain constant. A 10% decrease in LME prices would have an equal and opposite effect on the Company's financial statements.

The impact on pre-tax profit/ (loss) mentioned above includes the impact of a 10% increase in closing copper LME for provisionally priced copper concentrate purchased at Copper division custom smelting operations in India of ₹ 89 crore loss (31 March 2023: ₹ 129 crore loss), which is pass through in nature and as such will not have any impact on the profitability.

Financial risk

The Company's Board approved financial risk policies include monitoring, measuring and mitigating the liquidity, currency, interest rate and counterparty risk. The Company does not engage in speculative treasury activity but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

(a) Liquidity

The Company requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents and short-term investments provide liquidity both in the short-term as well as in the long-term. The Company has been rated by CRISIL Limited (CRISIL) and India Ratings and Research Private Limited (India Rating) for its capital market issuance in the form of CPs and NCDs and for its banking facilities in line with Basel II norms.

During FY 2024, CRISIL Ratings has downgraded its rating on the long-term bank facilities and debt instruments of the Company from 'CRISIL AA' to 'CRISIL AA-' while the rating on short-term facilities and commercial paper has been reaffirmed at 'CRISIL A1+'. The ratings have also been placed on Watch with Developing Implications.

During FY 2024, India Ratings has downgraded the Company's rating on the long-term instruments from 'IND AA' to 'IND A+' and on short-term facilities and commercial paper from 'IND A1+' to 'IND A1'. The ratings have also been placed on Watch with Developing Implications.

The ratings downgrade is driven by higher than expected leverage and increase in borrowing costs. However, they expect reduced refinancing risk for Vedanta Resources Limited to support the Company's financial flexibility, with improved access and cost of borrowing from the banks and capital markets. The Rating Watch is due to the demerger announcement of the company as clarity on allocation of assets and liabilities and its probable impact on liquidity of the company is awaited by the rating agencies.

Anticipated future cash flows, together with undrawn fund based committed facilities of ₹ 480 crore, and cash, bank and short term investments of ₹ 2,384 crore as at 31 March 2024, are expected to be sufficient to meet the liquidity requirement of the Company in the near future.

The Company remains committed to maintaining a healthy liquidity, a low gearing ratio, deleveraging and strengthening its balance sheet. The maturity profile of the Company's financial liabilities based on the remaining period from the date of balance sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the Company.

As at 31 March 2024

(₹ in crore)					
Payments due by year	<1 year	1-3 years	3-5 years	>5 years	Total
Borrowings *	24,118	14,129	11,334	18,465	68,046
Derivative financial liabilities	73	-	-	-	73
Lease liabilities	131	128	52	32	343
Trade Payables and other financial liabilities **	28,115	-	-	-	28,115
Total	52,437	14,257	11,386	18,497	96,577

As at 31 March 2023

(₹ in crore)					
Payments due by year	<1 year	1-3 years	3-5 years	>5 years	Total
Borrowings *	12,955	17,650	13,063	10,690	54,358
Derivative financial liabilities	151	20	-	-	171
Lease liabilities	46	19	3	29	97
Trade Payables and other financial liabilities **	34,266	-	-	-	34,266
Total	47,418	17,689	13,066	10,719	88,892

*Includes non-current borrowings, current borrowings, committed interest payments on borrowings and interest accrued on borrowings.

**Includes both non-current and current financial liabilities and committed interest payment, as applicable. Excludes interest accrued on borrowings.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The Company had access to following funding facilities :

As at 31 March 2024

(₹ in crore)			
Funding facilities	Total Facility	Drawn	Undrawn
Fund/non-fund based	52,021	47,544	4,477

As at 31 March 2023

(₹ in crore)			
Funding facilities	Total Facility	Drawn	Undrawn
Fund/non-fund based	58,039	52,754	5,285

(b) Foreign exchange risk

Fluctuations in foreign currency exchange rates may have an impact on the statement of profit and loss, the statement of changes in equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company.

Exposures on foreign currency loans are managed through the Company wide hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Company strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged.

The Company's presentation currency is the Indian Rupee (INR). The assets are located in India and the Indian Rupee is the functional currency except for Oil and Gas business operations which have a dual functional currency. Natural hedges available in the business are identified at each entity level and hedges are placed only for the net exposure. Short-term net exposures are hedged progressively based on their maturity. A more conservative approach has been adopted for project expenditures to avoid budget overruns, where cost of the project is calculated taking into account the hedge cost. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency exchange rates is appropriately managed.

The following analysis is based on the gross exposure as at the reporting date which could affect the statement of profit and loss. The exposure is mitigated by some of the derivative contracts entered into by the Company as disclosed under the section on "Derivative financial instruments".

The carrying amount of the Company's financial assets and liabilities in different currencies are as follows:

Currency	(₹ in crore)			
	As at 31 March 2024		As at 31 March 2023	
	Financial Assets	Financial liabilities	Financial Assets*	Financial liabilities
INR	10,614	50,559	15,739	53,560
USD	7,518	19,736	4,033	22,876
Others	286	666	285	419
Total	18,418	70,961	20,057	76,855

* Restated, refer note 3(d)(i)

The Company's exposure to foreign currency arises where an entity holds monetary assets and liabilities denominated in a currency different to the functional currency of the respective business, with US dollar being the major non-functional currency.

The foreign exchange rate sensitivity is calculated by the aggregation of the net foreign exchange rate exposure with a simultaneous parallel foreign exchange rates shift in the foreign currencies by 10% against the functional currency of the respective businesses.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Set out below is the impact of a 10% strengthening in the functional currencies of the respective businesses on pre-tax profit/ (loss) and pre-tax equity arising as a result of the revaluation of the Company's foreign currency monetary financial assets/ liabilities:

For the year ended 31 March 2024

(₹ in crore)		
	Effect of 10% strengthening of functional currency on pre-tax profit/ (loss)	Effect of 10% strengthening of foreign currency on equity
USD	1,022	-
INR	(224)	-

For the year ended 31 March 2023

(₹ in crore)		
	Effect of 10% strengthening of functional currency on pre-tax profit/ (loss)	Effect of 10% strengthening of foreign currency on equity
USD	1,438	-
INR	(456)	-

A 10% weakening of functional currencies of the respective businesses would have an equal and opposite effect on the Company's financial statements.

(c) Interest rate risk

At 31 March 2024, the Company's net debt of ₹ 39,848 crore (31 March 2023: ₹ 34,659 crore) comprises debt of ₹ 42,232 crore (31 March 2023: ₹ 42,023 crore) offset by cash, bank and short term investments of ₹ 2,384 crore (31 March 2023: ₹ 7,364 crore).

The Company is exposed to interest rate risk on short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Company's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Company are principally denominated in Indian Rupees and US dollars with mix of fixed and floating rates of interest. The USD floating rate debt is linked to US dollar LIBOR and INR Floating rate debt to Bank's base rate. The Company has a policy of selectively using interest rate swaps, option contracts and other derivative instruments to manage its exposure to interest rate movements. These exposures are reviewed by appropriate levels of management on a monthly basis. The Company invests cash and liquid investments in short-term deposits and debt mutual funds, some of which generate a tax-free return, to achieve the Company's goal of maintaining liquidity, carrying manageable risk and achieving satisfactory returns.

Floating rate financial assets are largely mutual fund investments which have debt securities as underlying assets. The returns from these financial assets are linked to market interest rate movements; however the counterparty invests in the agreed securities with known maturity tenure and return and hence has manageable risk.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The exposure of the Company's financial assets as at 31 March 2024 to interest rate risk is as follows:

(₹ in crore)

As at 31 March 2024	Total	Floating rate Financial assets	Fixed rate financial assets	Non-interest bearing financial assets
Financial Assets	18,418	256	4,229	13,933

The exposure of the Company's financial liabilities as at 31 March 2023 to interest rate risk is as follows:

(₹ in crore)

As at 31 March 2024	Total	Floating rate Financial liabilities	Fixed rate financial liabilities	Non-interest bearing financial liabilities
Financial Liabilities	70,961	31,359	23,139	16,463

The exposure of the Company's financial assets as at 31 March 2023 to interest rate risk is as follows:

(₹ in crore)

As at 31 March 2023	Total	Floating rate Financial assets	Fixed rate financial assets	Non-interest bearing financial assets
Financial Assets*	20,057	1,786	2,317	15,954

The exposure of the Company's financial liabilities as at 31 March 2023 to interest rate risk is as follows:

(₹ in crore)

As at 31 March 2023	Total	Floating rate Financial liabilities	Fixed rate financial liabilities	Non-interest bearing financial liabilities
Financial Liabilities	76,855	30,982	21,568	24,305

* Restated, refer note 3(d)(i)

Considering the net debt position as at 31 March 2024 and the investment in bank deposits, corporate bonds and debt mutual funds, any increase in interest rates would result in a net loss and any decrease in interest rates would result in a net gain. The sensitivity analysis below has been determined based on the exposure to interest rates for financial instruments at the balance sheet date.

The table below illustrates the impact of a 0.5% to 2.0% movement in interest rates on floating rate financial assets/ liabilities (net) on profit/ (loss) and equity assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of that date. The year-end balances are not necessarily representative of the average debt outstanding during the year. This analysis also assumes that all other variables, in particular foreign currency rates, remain constant.

(₹ in crore)

Increase in interest rates	Effect on pre-tax profit/(loss) during the year ended 31 March 2024	Effect on pre-tax profit/(loss) during the year ended 31 March 2023
0.50%	(156)	(146)
1.00%	(312)	(292)
2.00%	(624)	(584)

An equivalent reduction in interest rates would have an equal and opposite effect on the Company's financial statements.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

(d) Counterparty and concentration of credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company is exposed to credit risk from trade receivables, contract assets, investments, loans, other financial assets, and derivative financial instruments.

Credit risk on receivables is limited as almost all credit sales are against letters of credit and guarantees of banks of national standing.

Moreover, given the diverse nature of the Company's businesses trade receivables are spread over a number of customers with no significant concentration of credit risk. The history of trade receivables shows a negligible provision for bad and doubtful debts. Therefore, the Company does not expect any material risk on account of non-performance by any of the Company's counterparties.

The Company has clearly defined policies to mitigate counterparty risks. For current investments, counterparty limits are in place to limit the amount of credit exposure to any one counterparty. This, therefore, results in diversification of credit risk for our mutual fund and bond investments. For derivative and financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions.

The carrying value of the financial assets represents the maximum credit exposure. The Company's maximum exposure to credit risk is ₹ 18,417 crore and ₹ 20,057 crore as at 31 March 2024 and 31 March 2023 respectively.

The maximum credit exposure on financial guarantees given by the Company for various financial facilities is described in Note 38 on "Commitments, contingencies, and guarantees".

None of the Company's cash equivalents, including time deposits with banks, are past due or impaired. Regarding trade receivables, loans and other financial assets (both current and non-current), there were no indications as at the year end, that defaults in payment obligations will occur except as described in Notes 7, 8 and 9 on allowance for impairment of trade receivables, loans and other financial assets.

Of the year end trade receivables, loans and other financial assets (excluding bank deposits, site restoration fund and derivatives) balance the following, though overdue, are expected to be realised in the normal course of business and hence, are not considered impaired as at 31 March 2024 and 31 March 2023:

(₹ in crore)

Particulars	As at 31 March 2024	As at 31 March 2023
Neither impaired nor past due *	8,827	8,282
Past due but not impaired		
- Less than 1 month	860	627
- Between 1-3 months	228	135
- Between 3-12 months	1,617	80
- Greater than 12 months	2,600	2,182
Total	14,133	11,306

* Restated, refer note 3(d)(i)

Receivables are deemed to be past due or impaired with reference to the Company's normal terms and conditions of business. These terms and conditions are determined on a case to case basis with reference to the customer's credit quality and prevailing market conditions. Receivables that are classified as 'past due' in the above tables are those that have not been settled within the terms and conditions that have been agreed with that customer. The Company based on past experiences does not expect any material loss on its receivables.

The credit quality of the Company's customers is monitored on an ongoing basis. Where receivables have been impaired, the Company actively seeks to recover the amounts in question and enforce compliance with credit terms.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Movement in allowances for Financial Assets (Trade receivables, loans and financial assets - others)

The changes in the allowance for financial assets (current and non-current) is as follows:

Particulars	(₹ in crore)		
	Trade receivables	Financial assets - others	Financial assets - loans
As at 01 April 2022	1,001	747	5
Allowance made during the year	355	-	-
Reversals/ write-off during the year	-	(95)	-
Exchange differences	-	30	-

D. Derivative financial instruments

The Company uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates, interest rates and commodity prices. The Company does not acquire or issue derivative financial instruments for trading or speculative purposes. The Company does not enter into complex derivative transactions to manage the treasury and commodity risks. Both treasury and commodities derivative transactions are normally in the form of forward contracts and these are subject to the Company guidelines and policies.

The fair values of all derivatives are separately recorded in the balance sheet within current and non-current assets and liabilities. Derivatives that are designated as hedges are classified as current or non-current depending on the maturity of the derivative.

The use of derivatives can give rise to credit and market risk. The Company tries to control credit risk as far as possible by only entering into contracts with reputable banks and financial institutions. The use of derivative instruments is subject to limits, authorities and regular monitoring by appropriate levels of management. The limits, authorities and monitoring systems are periodically reviewed by management and the Board. The market risk on derivatives is mitigated by changes in the valuation of the underlying assets, liabilities or transactions, as derivatives are used only for risk management purposes.

(i) Cash flow hedges

The Company enters into forward exchange and commodity price contracts for hedging highly probable forecast transaction and account for them as cash flow hedges and states them at fair value. Subsequent changes in fair value are recognised in equity through OCI until the hedged transaction occurs, at which time, the respective gain or losses are reclassified to profit or loss. These hedges have been effective for the year ended 31 March 2024.

The Company uses foreign exchange contracts from time to time to optimise currency risk exposure on its foreign currency transactions. The Company hedged part of its foreign currency exposure on capital commitments during the year ended 2023. Fair value changes on such forward contracts are recognised in other comprehensive income.

The majority of cash flow hedges taken out by the Company during the year comprise non-derivative hedging instruments for hedging the foreign exchange rate of highly probable forecast transactions and commodity price contracts for hedging the commodity price risk of highly probable forecast transactions.

The cash flows related to above are expected to occur during the year ended 31 March 2025 and consequently may impact profit or loss for that year depending upon the change in the commodity prices and foreign exchange rates movements. For cash flow hedges regarded as basis adjustments to initial carrying value of the property, plant and equipment, the depreciation on the basis adjustments made is expected to affect profit or loss over the expected useful life of the property, plant and equipment.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

(ii) Fair value hedge

The fair value hedges relate to forward covers taken to hedge currency exposure and commodity price risks.

The Company's sales are on a quotational period basis, generally one month to three months after the date of delivery at a customer's facility. The Company enters into forward contracts for the respective quotational period to hedge its commodity price risk based on average LME prices. Gains and losses on these hedge transactions are substantially offset by the amount of gains or losses on the underlying sales. Net gains and losses are recognised in the statement of profit and loss.

The Company uses foreign exchange contracts from time to time to optimise currency risk exposure on its foreign currency transactions. Fair value changes on such forward contracts are recognised in the statement of profit and loss.

(iii) Non-designated economic hedge

The Company enters into derivative contracts which are not designated as hedges for accounting purposes, but provide an economic hedge of a particular transaction risk or a risk component of a transaction. Hedging instruments include copper, aluminium future contracts on the LME and certain other derivative instruments. Fair value changes on such derivative instruments are recognised in the statement of profit and loss.

The fair value of the Company's derivative positions recorded under derivative financial assets and derivative financial liabilities are as follows:

Derivative Financial Instruments	(₹ in crore)		As at 31 March 2023	
	As at 31 March 2024	As at 31 March 2023	Assets	Liabilities
Current

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

- a) Provision for employee benefits includes gratuity, compensated absences, deferred cash bonus, etc.
- b) The movement in provisions for restoration, rehabilitation and environmental costs is as follows [Refer note 3(a)(O)]:

(₹ in crore)

Particulars	Restoration, rehabilitation and environmental costs (Refer c)
At 01 April 2022	1,270
Additions	41
Amounts used	(1)
Unwinding of discount (Refer note 32)	30
Revision in estimates	(131)
Exchange differences	107
At 01 April 2023	1,316
Additions	5
Amounts used	(11)
Unwinding of discount (Refer note 32)	51
Revision in estimates	(136)
Exchange differences	19
At 31 March 2024	1,244

c) Restoration, rehabilitation and environmental costs

The provisions for restoration, rehabilitation and environmental liabilities represent the management's best estimate of the costs which will be incurred in the future to meet the Company's obligations under existing Indian law and the terms of the Company's exploration and other licences and contractual arrangements.

The principal restoration and rehabilitation provisions are recorded within oil and gas business where a legal obligation exists relating to the oil and gas fields, where costs are expected to be incurred in restoring the site of production facilities at the end of the producing life of an oil field. The Company recognises the full cost of site restoration as a liability when the obligation to rectify environmental damage arises.

These amounts are calculated by considering discount rates within the range of 2% to 3%, and become payable at the end of the producing life of an oil field and are expected to be incurred over a period of twenty one years.

An obligation to incur restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing production from a producing field.

25 Employee Benefit Plans

The Company participates in defined contribution and benefit plans, the assets of which are held (where funded) in separately administered funds.

For defined contribution plans, the amount charged to the statement of profit and loss is the total amount of contributions payable in the year.

For defined benefit plans, the cost of providing benefits under the plans is determined by actuarial valuation separately each year for each plan using the projected unit credit method by independent qualified actuaries as at the year end. Remeasurement gains and losses arising in the year are recognised in full in other comprehensive income for the year.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

i) Defined contribution plans

The Company contributed a total of ₹ 75 crore for the year ended 31 March 2024 and ₹ 66 crore for the year ended 31 March 2023 to the following defined contribution plans.

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Employer's contribution to recognised provident fund and family pension fund	52	49
Employer's contribution to superannuation	17	13
Employer's contribution to National Pension Scheme (NPS)	6	4
Total	75	66

Central recognised provident fund

In accordance with the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, employees are entitled to receive benefits under the Provident Fund. Both the employee and the employer make monthly contributions to the plan at a predetermined rate (12% for the year ended 31 March 2024 and 12% for the year ended 31 March 2023) of an employee's basic salary, and includes contribution made to Family Pension fund as explained below. All employees have an option to make additional voluntary contributions. These contributions are made to the fund administered and managed by the Government of India (GOI) or to independently managed and approved funds. The Company has no further obligations under the fund managed by the GOI beyond its monthly contributions which are charged to the statement of profit and loss in the year they are incurred.

Family pension fund

The Pension Fund was established in 1995 and is managed by the Government of India. The employee makes no contribution to this fund but the employer makes a contribution of 8.33% of salary each month subject to a specified ceiling per employee (included in the 12% rate specified above). This is provided for every permanent employee on the payroll.

At the age of superannuation, contributions ceases and the individual receives a monthly payment based on the level of contributions through the years, and on their salary scale at the time they retire, subject to a maximum ceiling of salary level. The Government funds these payments, thus the Company has no additional liability beyond the contributions that it makes, regardless of whether the central fund is in surplus or deficit.

Superannuation

Superannuation, another pension scheme applicable in India, is applicable only to senior executives. The Company holds a policy with Life Insurance Corporation of India ("LIC"), to which it contributes a fixed amount relating to superannuation and the pension annuity is met by LIC as required, taking into consideration the contributions made. The Company has no further obligations under the scheme beyond its monthly contributions which are charged to the statement of profit and loss in the year they are incurred.

National Pension Scheme

National Pension Scheme is a retirement savings account for social security and welfare applicable for executives covered under the superannuation benefit of Vedanta Limited, on a choice basis. It was introduced to enable employees to select the treatment of superannuation component of their fixed salaries and avail the benefits offered by National Pension Scheme launched by Government of India. Vedanta Limited holds a corporate account with one of the pension fund managers authorised by the Government of India to which the Company contributes a fixed amount relating to superannuation and the pension annuity will be met by the fund manager as per rules of National Pension Scheme. The Company has no further obligations under the scheme beyond its monthly contributions which are charged to the statement of profit and loss in the year they are incurred.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

ii) Defined benefit plans

(a) Contribution to provident fund trust (the "trust")

The provident fund of the Iron Ore division is exempted under Section 17 of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. Conditions for grant of exemption stipulates that the employer shall make good deficiency, if any, between the return guaranteed by the statute and actual earning of the Fund. Based on actuarial valuation in accordance with Ind AS 19 and the Guidance note issued by the Institute of Actuaries of India for interest rate guarantee of exempted provident fund liability of employees, there is no interest shortfall in the funds managed by the trust as at 31 March 2024 and 31 March 2023. Having regard to the assets of the Fund and the return on the investments, the Company does not expect any deficiencies in the foreseeable future.

The Company contributed a total of ₹ 13 crore for the year ended 31 March 2024 and ₹ 8 crore for the year ended 31 March 2023. The present value of obligation and the fair value of plan assets of the trust are summarised below.

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Fair value of plan assets	297	283
Present value of defined benefit obligations	(305)	(282)
Net liability arising from defined benefit obligation of trust	(8)	Nil

Percentage allocation of plan assets of trust

Assets by category	Year ended 31 March 2024	Year ended 31 March 2023
Government Securities	46%	53%
Debentures/ bonds	40%	41%
Equity	14%	6%
Fixed deposits	0%	0%

(b) Gratuity plan

In accordance with the Payment of Gratuity Act, 1972, the Company contributes to a defined benefit plan (the "Gratuity Plan") covering certain categories of employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement, disability or termination of employment being an amount based on the respective employee's last drawn salary and the number of years of employment with the Company. The Gratuity plan is a funded plan and the Company makes contribution to recognised funds in India.

Based on actuarial valuations conducted as at year end using the projected unit credit method, a provision is recognised in full for the benefit obligation over and above the funds held in the Gratuity Plan.

The iron ore and oil & gas division of the Company have constituted a trust recognised by Indian Income Tax Authorities for gratuity to employees, contributions to the trust are funded with the Life Insurance Corporation of India (LIC) and ICICI Prudential Life Insurance Company Limited (ICICI).

Principal actuarial assumptions

Principal actuarial assumptions used to determine the present value of the Gratuity plan obligation are as follows:

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
Discount rate	7.10%	7.39%
Expected rate of increase in compensation level of covered employees	2%-10%	2%-10%
In service mortality	IALM (2012-14)	IALM (2012-14)
Post retirement mortality	LIC (1996-98) Ultimate	LIC (1996-98) Ultimate

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Amount recognised in the balance sheet consists of:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Fair value of plan assets	175	159
Present value of defined benefit obligations	(281)	(252)
Net liability arising from defined benefit obligation	(106)	(93)

Amount recognised in the statement of profit and loss in respect of the Gratuity plan are as follows:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Current service cost	28	23
Net interest cost	7	5
Components of defined benefit costs recognised in profit or loss	35	28

Amount recognised in the other comprehensive income in respect of the Gratuity plan are as follows:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Re-measurement of the net defined benefit obligation:		
Actuarial losses arising from demographic adjustments	0	0
Actuarial losses arising from experience adjustments	7	15
Actuarial losses/ (gains) arising from changes in financial assumptions	6	(2)
Losses on plan assets	1	2
Components of defined benefit costs recognised in other comprehensive income	14	15

Movement in present value of the Gratuity plan:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Opening balance	252	228
Current service cost	28	21
Benefits paid	(31)	(29)
Interest cost	19	16
Actuarial losses arising from changes in assumptions	13	16
Closing balance	281	252

Movement in the fair value of Gratuity plan assets is as follows:

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Opening balance	159	151
Contributions received	36	24
Benefits paid	(31)	(25)
Re-measurement loss arising from return on plan assets	(1)	(2)
Interest income	12	11
Closing balance	175	159

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The above plan assets have been invested in the qualified insurance policies.

The actual return on plan assets was ₹ 11 crore for the year ended 31 March 2024 and ₹ 9 crore for the year ended 31 March 2023.

The weighted average duration of the defined benefit obligation is 14.59 years and 14.03 years as at 31 March 2024 and 31 March 2023 respectively.

The Company expects to contribute ₹ 18 crore to the funded defined benefit plans in during the year ended 31 March 2025.

Sensitivity analysis

Below is the sensitivity analysis determined for significant actuarial assumptions for the determination of defined benefit obligations and based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant.

Increase/ (Decrease) in defined benefit obligation	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Discount rate		
Increase by 0.50%	(16)	(13)
Decrease by 0.50%	16	13
Expected rate of increase in compensation level of covered employees		
Increase by 0.50%	16	13
Decrease by 0.50%	(16)	(13)

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

Maturity analysis of defined benefit obligation

Particulars	(₹ in crore)	
	Year ended 31 March 2024	Year ended 31 March 2023
Less than 1 year	15	17
1-2 years	15	17
2-5 years	50	50
More than 5 years	201	168
	281	252

Risk analysis

The Company is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefit plans and management's estimation of the impact of these risks are as follows:

Investment risk

The Gratuity plan is funded with the LIC and ICICI. The Company does not have any liberty to manage the fund provided to LIC and ICICI.

The present value of the defined benefit plan obligation is calculated using a discount rate determined by reference to Government of India bonds. If the return on plan asset is below this rate, it will create a plan deficit.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Interest risk

A decrease in the interest rate on plan assets will increase the net plan obligation.

Longevity risk / Life expectancy

The present value of the defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan obligation.

Salary growth risk

The present value of the defined benefit plan obligation is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan obligation.

Code on Social Security, 2020

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

26 Employee benefits expense ^{a, b}

(₹ in crore)

Particulars	Year ended 31 March 2024	Year ended 31 March 2023

b. Net of capitalisation of ₹ 50 crore (31 March 2023: ₹ 34 crore).

27 Share based payments

The Company offers equity based and cash based option plans to its employees, officers and directors through the Company's stock option plan introduced in 2016 and Cairn India's stock option plan now administered by the Company pursuant to its merger with the Company.

The Vedanta Limited Employee Stock Option Scheme (ESOS) 2016

The Company introduced an Employee Stock Option Scheme 2016 ("ESOS"), which was approved by the Vedanta Limited shareholders to provide equity settled incentive to all employees of the Company including subsidiary companies. The ESOS scheme includes tenure based, business performance based and market performance based stock options. The maximum value of options that can be awarded to members of the wider management group is calculated by reference to the grade average cost-to-company ("CTC") and individual grade of the employee. The ESOS schemes are administered through VESOS trust and have underlying Vedanta Limited equity shares.

Options granted during the year ended 31 March 2024 and year ended 31 March 2023 includes business performance based, sustained individual performance based, management discretion and fatality multiplier based stock options. Business performances will be measured using Volume, Cost, Net Sales Realisation, EBITDA, Free Cash Flows, ESG & Carbon footprint or a combination of these for the respective business/ SBU entities.

The exercise price of the options is ₹ 1 per share and the performance period is three years, with no re-testing being allowed.

*Options for some employees could not be exercised within exercise period due to technical issues.

The fair value of all options has been determined at the date of grant of the option allowing for the effect of any market-based performance conditions. This fair value, adjusted by the Group's estimate of the number of options that will eventually vest as a result of non-market conditions, is expensed over the vesting period.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Business Performance-Based and Sustained Individual Performance-Based Options:

The fair values of stock options following these types of vesting conditions have been estimating using the Black-Scholes-Merton Option Pricing model. The value arrived at under this model has been then multiplied by the expected % vesting based on business performance conditions (only for business performance-based options) and the expected multiplier on account of sustained individual performance (for both type of options). The inputs used in the Black-Scholes-Merton Option Pricing model include the share price considered as of the valuation date, exercise price as per the scheme/ plan of the options, expected dividend yield (estimated based on actual/ expected dividend trend of the company), expected tenure (estimated as the remaining vesting period of the options), the risk-free rate (considered as the zero coupon yield as of the valuation date for a term commensurate with the expected tenure of the options) and expected volatility (estimated based on the historical volatility of the return in company's share prices for a term commensurate with the expected tenure of the options). The exercise period of 6 months post vesting period has not been considered as the options are expected to be exercised immediately post the completion of the vesting period.

The assumptions used in the calculations of the charge in respect of the ESOS options granted during the year ended 31 March 2024 and 31 March 2023 are set out below:

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
	ESOS 2023	ESOS 2022
Number of Options	Cash settled - 11,90,420 Equity settled - 1,81,38,912	Cash settled - 24,888 Equity settled - 1,44,37,268
Exercise Price	₹ 1	₹ 1
Share Price at the date of grant	₹232.75	₹ 286.90
Contractual Life	3 years	3 years
Expected Volatility	41.16%	50.95%
Expected option life	3 years	3 years
Expected dividends	14.94%	7.11%
Risk free interest rate	7.18%	7.07%
Expected annual forfeitures	10% p.a	10% p.a
Fair value per option granted (Non-market performance based)	₹ 121.98	₹ 182.46

Weighted average share price at the date of exercise of stock options was ₹ 210.14 (31 March 2023: ₹ 303.80)

The weighted average remaining contractual life for the share options outstanding was 1.87 years (31 March 2023: 1.76 years).

The Company recognised total expenses of ₹ 92 crore (31 March 2023: ₹ 85 crore) related to equity settled share based payment transactions for the year ended 31 March 2024 out of which ₹ 44 crore (31 March 2023: ₹ 33 crore) was recovered from group companies. The total charge/ (reversal) recognised on account of cash settled share based plan during the year ended 31 March 2024 is ₹ 1 crore (31 March 2023: ₹ (2) crore) and the carrying value of cash settled share based compensation liability as at 31 March 2024 is ₹ 1 crore (31 March 2023: ₹ 2 crore).

Employee stock option plans of erstwhile Cairn India Limited:

The Company has provided CIESOP share based payment scheme to its employees.

CIESOP plan

There are no specific vesting conditions under CIESOP plan other than completion of the minimum service period of 3 years from the date of grant. Phantom options are exercisable proportionate to the period of service rendered by the employee subject to completion of one year. The exercise period is 7 years from the vesting date.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Details of employees stock option plans is presented below:

CIESOP Plan	Year ended 31 March 2024		Year ended 31 March 2023	
	Number of options	Weighted average exercise price in ₹	Number of options	Weighted average exercise price in ₹
Outstanding at the beginning of the year	-	-	10,37,641	286.85
Granted during the year	-	-	Nil	NA
Expired during the year	-	-	Nil	NA
Exercised during the year	-	-	2,66,914	286.85
Forfeited/ cancelled during the year	-	-	7,70,727	286.85
Outstanding at the end of the year	-	-	-	-
Exercisable at the end of the year	-	-	-	-

Weighted average share price at the date of exercise of stock options and exercise price for stock options during the year ended 31 March 2023 was ₹ 411.80 and ₹ 286.85, respectively.

Out of the total expense of ₹ 49 crore (31 March 2023: ₹ 50 crore) pertaining to above options for the year ended 31 March 2024, the Company has capitalised ₹ 2 crore (31 March 2023: ₹ 2 crore) expense for the year ended 31 March 2024.

28 Revenue from operations

Particulars	Year ended 31 March 2024	Year ended 31 March 2023
	(₹ in crore)	
Sale of products (Refer note 34(a))	69,565	67,105
Sale of services	98	88
Total	69,663	67,193

- Revenue from sale of products and from sale of services for the year ended 31 March 2024 includes revenue from contracts with customers of ₹ 69,967 crore (31 March 2023: ₹ 67,778 crore) and a net loss on mark-to-market of ₹ 304 crore (31 March 2023: loss of ₹ 585 crore) on account of gains/ losses relating to sales that were provisionally priced as at the beginning of the year with the final price settled in the current year, gains/ losses relating to sales fully priced during the year, and marked to market gains/ losses relating to sales that were provisionally priced as at the end of the year.
- Majority of the Company's sales are against advance or are against letters of credit/ cash against documents/ guarantees of banks of national standing. Where sales are made on credit, the amount of consideration does not contain any significant financing component as payment terms are within three months.

As per the terms of the contract with its customers, either all performance obligations are to be completed within one year from the date of such contracts or the Company has a right to receive consideration from its customers for all completed performance obligations. Accordingly, the Company has availed the practical expedient available under paragraph 121 of Ind AS 115 and dispensed with the additional disclosures with respect to performance obligations that remained unsatisfied (or partially unsatisfied) at the balance sheet date. Further, since the terms of the contracts directly identify the transaction price for each of the completed performance obligations there are no elements of transaction price which have not been included in the revenue recognised in the financial statements. Further, there is no material difference between the contract price and the revenue from contract with customers.

Total	5,073	83	5,156	(3,780)	2,139	(1,641)

* Restated, refer note 3(d)(i)

- a. (i) The Government of India ("GoI"), acting through the Directorate General of Hydrocarbons ("DGH"), had raised a demand up to 14 May 2020 for Government's additional share of Profit Oil based on its computation of disallowance of cost incurred over retrospective re-allocation of certain common costs between Development Areas (DAs) of Rajasthan Block and certain other matters aggregating to ₹ 9,545 crore (US\$ 1,162 million) and applicable interest thereon representing share of Vedanta Limited and its subsidiary.

The Company had disputed the aforesaid demand and invoked arbitration as per the provisions of the Production Sharing Contract. The Company has received the Final Partial Award dated 22 August 2023 from the Arbitration Tribunal ("the Tribunal") as amended by order dated 15 November 2023 and 08 December 2023 ("the Award"), dismissing the Government's contention of additional Profit Petroleum in relation to allocation of common development costs across Development Areas and certain other matters in accordance with terms of the Production Sharing Contract for Rajasthan Block, while disallowing some matters. Further, the Tribunal has decided that the Company was allowed to claim cost recovery of exploration cost for the purpose of computation of Profit Oil.

Pursuant to the Award, the Company has recognised a benefit of ₹ 2,381 crore (US\$ 289 million) in revenue from operations and reversed previously recognised impairment on PPE of ₹ 550 crore (US\$ 67 million) during the year ended 31 March 2024 (refer note (ii) for details of recoverable value). Further, the Company has reversed previously recognised impairment on investments in wholly owned subsidiary, Cairn India Holding Limited ("CIHL") of ₹ 1,082 crore (US\$ 131 million) on account of increase in valuation of CIHL pursuant to the Award.

GoI has sought an additional award or interpretation/ clarification on certain matters decided by the Tribunal under the Indian Arbitration and Conciliation Act, 1996 ("the Act") ("GoI Application"). The Tribunal vide its orders dated 15 November 2023 and 08 December 2023 has dismissed GoI's interpretation and additional award applications in favour of the Company. The Company has adjusted the liability during the current year of ₹ 970 crore (US\$ 116 million) against the aforesaid benefits recognised as per the Award.

GoI has filed interim relief application on 03 February 2024 stating that the Company has unilaterally enforced the award although the quantification of the same is pending.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The Company is of the view that it is bound to implement the award. Further, the application by GoI does not meet the strict criteria for grant of interim injunction. The matter was heard on 26 March 2024 and order of the Tribunal is awaited.

GoI also has filed an appeal on 07 March 2024 against the Award in Delhi High Court and the matter was heard on 14 March 2024. No stay was granted and petition was not admitted. Next date of hearing is 01 May 2024. The Company is of the view that there is no merit in the challenge filed by GoI, as the Court cannot re-appreciate the evidence in Section 34 appeal as the interpretation by the Tribunal is plausible.

- (ii) As at 30 September 2023, the Company has recognised a net impairment reversal of ₹ 550 crore (US\$ 67 million) on its assets in the oil and gas producing facilities pursuant to Final partial arbitration award (Refer note (i) above). The recoverable amount of the Company's share in Rajasthan Oil and Gas cash generating unit ("RJ CGU") is determined to be ₹ 5,897 crore (US\$ 709 million) as at 30 September 2023. The recoverable amount of the RJ CGU is determined based on the fair value less costs of disposal approach, a level-3 valuation technique in the fair value hierarchy, as it more accurately reflects the recoverable amount based on the Company's view of the assumptions that would be used by a market participant. This is based on the cash flows expected to be generated by the projected oil and natural gas production profiles up to 2040, the expected dates of cessation of production sharing contract (PSC)/ cessation of production from each producing field based on the current estimates of reserves and risked resources. Reserves assumptions for fair value less costs of disposal tests consider all reserves that a market participant would consider when valuing the asset, which are usually broader in scope than the reserves used in a value-in-use test. Discounted cash flow analysis used to calculate fair value less costs of disposal uses assumption for short-term oil price of US\$ 79 per barrel for the next one year and tapers down to long-term nominal price of US\$ 74 per barrel three years thereafter derived from a consensus of various analyst recommendations. Thereafter, these have been escalated at a rate of 2.4% per annum. The cash flows are discounted using the post-tax nominal discount rate of 11.32% derived from the post-tax weighted average cost of capital after factoring in the risks ascribed to PSC extension including successful implementation of key growth projects. Based on the sensitivities carried out by the Company, change in crude price assumptions by US \$ 1/bbl and changes to discount rate by 1% would lead to a change in recoverable value by ₹ 50 crore (US\$ 6 million) and ₹ 199 crore (US\$ 24 million) respectively.
- b. During the year ended 31 March 2023, the Board of Cairn India Holdings Limited ("CIHL"), a wholly owned subsidiary of the Company, approved the scheme of buyback upto US\$ 500 million @ approximately US\$ 3.3 per share. Pursuant to the same, CIHL has bought back 5,18,51,837 shares for ₹ 1,389 crore (US\$ 168 million) (31 March 2023: 10,24,69,151 shares for ₹ 2,665 crore (US\$ 332 million)). Consequently, the Company has recorded a net loss of ₹ 33 crore (31 March 2023: gain of ₹ 910 crore), on account of:
- Realised loss of ₹ 326 crore (31 March 2023: ₹ 630 crore) on account of buy back of investment set off by reversal of previously recorded impairment of ₹ 293 crore (31 March 2023: ₹ 813 crore) on investment bought back.
 - An earlier impairment charge of ₹ 727 crore had been reversed during the year year ended 31 March 2023 on remaining investment in CIHL.
- c. Represents certain items of CWIP, which have been written off during the year ended 31 March 2024 as they are no longer expected to be used.
- d. During the year ended 31 March 2023, the Company had recognised an impairment reversal of ₹ 3,187 crore on the investments in OCRPS ("Optionally Convertible Redeemable Preference Shares") of THL Zinc Ventures Limited ("THLZVL"), a wholly owned subsidiary of the Company.

Recoverable amount of the OCRPS had been determined based on the valuation of Zinc International business ("VZI") held under THLZVL. The recoverable amount of VZI had been determined based on the fair value less cost of disposal approach, using the discounted cash flow method ("DCF method"), a level 3 valuation technique in the fair value hierarchy. This was based on the cash generated by the extraction and sale of proved and probable reserves/ natural estimated resources which are yet to be exploited during the estimated predetermined life of mine ("LOM") after deducting costs of closure and rehabilitation after expiry of LOM. The cash flows were discounted using the post tax weighted average cost of capital ranging 8.40% to 10.44%. Based on the sensitivities carried out by the Company using the risk adjustment factor of 5%, the recoverable amount was higher than the carrying value, resulting in impairment reversal.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

During the current year ended 31 March 2024, these OCRPS have been redeemed and the Company has recorded a foreign exchange gain of ₹ 2,597 crore on this redemption.

Further, the Company held investments in OCRPS of ₹ 2,495 crore in THL Zinc Holding BV ("THLZBV"), a wholly owned subsidiary of the Company which was fully impaired in the books of the Company. During the year ended 31 March 2024, THLZBV redeemed investments amounting to ₹ 860 crore. Accordingly, the Company has recorded an impairment reversal of ₹ 860 crore and foreign exchange gain of ₹ 690 crore on the redemption of these OCRPS in THLZBV.

e. Refer note 3(d)(iv)

f. During the year ended 31 March 2023, the Company had recognised an impairment reversal of ₹ 780 crore on its investments in Bloom Fountain Limited ("BFL"), a wholly owned subsidiary of the Company, mainly due to restart of commercial mining operations at Western Cluster Limited, Liberia ("WCL"), a wholly owned subsidiary of BFL.

During the previous year, WCL had signed a Memorandum of Understanding with the Government of Liberia to restart its mining operations and commenced commercial production at its Bomi Mines from July 2022.

g. The GoI vide its notification dated 30 June 2022 levied Special Additional Excise Duty ("SAED") on production of crude oil, i.e., cess on windfall gain triggered by increase in crude oil prices which was effective from 01 July 2022. The consequential net impact of the said duty had on the results was presented as an exceptional item for the year ended 31 March 2023. SAED is continuing as levy like other duty of excise, that forms part of ordinary business of production of crude oil and hence, consequential impact of the said duty has been presented as an ordinary item in these financial statements for the year ended 31 March 2024.

35 Tax expense

Capital gains/other items subject to lower tax rate	-	301
Impact of change in Tax Regime**	6,128	-
Other permanent differences	134	21
Total	7,112	(2,382)

*Restated, refer note 3(d)(i)

**Pursuant to the introduction of Section 115BAA of the Income-tax Act, 1961 ("New Tax Regime"), the Company has an option to pay corporate income tax at a lower rate of 22% plus applicable surcharge and cess as against the currently applicable rate of 30% plus surcharge and cess. Under the New Tax Regime, provisions of Section 115 JB-Minimum Alternate Tax (MAT) are no longer applicable.

During the year ended 31 March 2024, the Company has elected to adopt New Tax Regime from FY 2022-23 onwards due to expected corporate actions and other considerations and the first tax return under the New Tax Regime has been filed for FY 2022-23 on 29 November 2023. Upon adoption of New Tax Regime for FY 2022-23, the current tax charge is lower by ₹ 1,786 crore (mainly on account of section 80M benefit not available under MAT) and deferred tax charge is higher by ₹ 151 crore. Further, the MAT credit balance of ₹ 7,763 crore, for periods up to 31 March 2023, has been expensed. Consequently, the net impact of the above amounting to ₹ 6,128 crore is accounted for as exceptional tax expense in the year ended 31 March 2024.

Accordingly, current year tax expense is not comparable with the reported tax expense for the year ended 31 March 2023.

(c) **Deferred tax assets/ liabilities**

The Company has accrued significant amounts of deferred tax. The majority of the deferred tax liability represents accelerated tax relief for the depreciation of property, plant and equipment. Significant components of deferred tax (assets) and liabilities recognised in the balance sheet are as follows :

For the year ended 31 March 2024

(₹ in crore)

Significant components of Deferred tax (assets) and liabilities	Opening balance as at 01 April 2023*	Charged/ (credited) to statement of profit and loss	Charged/ (credited) to other comprehensive income#	Exchange difference and other adjustments	Charged/ (credited) to equity	Closing balance as at 31 March 2024
Property, Plant and Equipment	2,692	(346)	-	59	-	2,405
Voluntary retirement scheme	1	-	-	-	-	1
Employee benefits	5	(5)	(7)	-	-	(7)
Fair valuation of derivative asset/liability	(75)	21	(8)	-	-	(62)
Fair valuation of other asset/ liability	(36)	10	-	-	-	(26)
MAT credit entitlement	(7,763)	7,763	-	-	-	-
Other temporary differences	(734)	313	(3)	2	-	(422)
Total	(5,910)	7,756	(18)	61	-	1,889

Out of total tax benefit on items of OCI in Statement of Profit and Loss, deferred tax benefit is shown in above table. Balance tax benefit is of current tax nature on foreign currency translation difference.

38 Commitments, contingencies and guarantees

A) Commitments

The Company has a number of continuing operational and financial commitments in the normal course of business including:

- Exploratory mining commitments;
- Oil & gas commitments;
- Mining commitments arising under production sharing agreements; and
- Completion of the construction of certain assets.

Estimated amount of contracts remaining to be executed on capital accounts and not provided for:

Particulars	As at 31 March 2024	As at 31 March 2023
Oil and Gas sector		
Cairn	549	750
Aluminium sector		
Lanjigarh Refinery (Phase II)	1,557	2,439
Jharsuguda 1.25 MTPA smelter	545	1,266
Copper sector		
Tuticorin Smelter 400 KTPA*	-	3,066
Others	954	721
Total	3,605	8,242

*On 29 February 2024, Hon'ble Supreme Court dismissed the Special Leave Petition filed by the Company, pursuant to which the Company has decided to terminate the contracts which were under suspension. Refer Note 3(c)(A)(ii)

Committed work programme (Other than capital commitment)

Particulars	As at 31 March 2024	As at 31 March 2023
Oil and Gas sector		
Cairn (OALP - New Oil and Gas blocks)	5,073	5,184

Other Commitments

- (i) The Power division of the Company has signed a long term power purchase agreement (PPA) with GRIDCO Limited for supply of 25% of power generated from the power station with additional right to purchase power (5%/7%) at variable cost as per the conditions referred to in PPA. The PPA has a tenure of twenty five years, expiring in FY 2037. The Company received favourable order from OERC dated 05 October 2021 for conversion of Independent Power Plant ("IPP") to Captive Power Plant ("CPP") w.e.f from 01 January 2022 subject to certain terms and conditions. However, OERC vide order dated 19 February 2022 directed the Company to supply power to GRIDCO from 19 February 2022 onwards. Thereafter, the Company has resumed supplying power to GRIDCO from 01 April 2022 as per GRIDCO's requisition. The OERC vide its order dated 03 May 2023 has reviewed its previous order dated 05 October 2021 and directed the Company to operate Unit 2 as an IPP. Against the final order passed by the OERC, the Company has preferred an appeal before Appellate Tribunal for Electricity on 03 May 2023.

- (ii) During the year ended 31 March 2023, the Company had executed new Power Delivery Agreements ("PDA") with Serentica group companies (Serentica Renewables India 3 Private Limited, Serentica Renewables India 6 Private Limited and Serentica Renewables India 9 Private Limited), which are associates of Vedanta Inc, for procuring renewable power over twenty five years from date of commissioning of the combined renewable energy power projects ("the Projects") on a group captive basis. These Serentica group companies were incorporated for building

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

the Projects of approximately 871 MW (31 March 2023: 691 MW). During the current year, the Company has invested ₹ 101 crore (31 March 2023: ₹ 69 crore) in Optionally Convertible Redeemable Preference shares ("OCRPS") of ₹ 10 each, of Serentica group companies. These OCRPS will be converted into equity basis conversion terms of the PDA, resulting in the Company holding twenty six percent stake in its equity. As at 31 March 2024, total outstanding commitments related to PDA with Serentica group companies are ₹ 504 crore (31 March 2023: ₹ 605 crore).

B) Guarantees

The aggregate amount of indemnities and other guarantees on which the Company does not expect any material losses is ₹ 25,690 crore (31 March 2023: ₹ 16,899 crore). The Company has given guarantees in the normal course of business as stated below:

- Guarantees and bonds advanced to the customs authorities in India of ₹ 1,681 crore relating to the export and payment of import duties on purchases of raw material and capital goods (31 March 2023: ₹ 1,304 crore).
- Guarantees issued for the Company's share of minimum work programme commitments of ₹ 3,071 crore (31 March 2023: ₹ 2,742 crore).
- Guarantees of ₹ 59 crore (31 March 2023: ₹ 65 crore) issued under bid bond.
- Bank guarantees of ₹ 115 crore (31 March 2023: ₹ 115 crore) has been provided by the Company on behalf of Vedanta Inc to Income tax department, India as a collateral in respect of certain tax disputes.
- The Company has given corporate guarantees, bank guarantees and also assigned its bank limits to other group companies primarily in respect of certain short-term and long-term borrowings amounting to ₹ 17,772 crore (31 March 2023: ₹ 9,603 crore) (Refer Note 39).
- Other guarantees worth ₹ 2,992 crore (31 March 2023: ₹ 3,070 crore) issued for securing supplies of materials and services, in lieu of advances received from customers, litigation, for provisional valuation of custom duty and also to various agencies, suppliers and government authorities for various purposes. The Company does not anticipate any liability on these guarantees.

C) Export Obligations

The Company has export obligations of ₹ 1,800 crore (31 March 2023: ₹ 1,262 crore) on account of concessional rates of import duty paid on capital goods under the Export Promotion Capital Goods Scheme and under the Advance Licence Scheme for the import of raw material laid down by the Government of India.

In the event of the Company's inability to meet its obligations, the Company's liability would be ₹ 438 crore (31 March 2023: ₹ 307 crore) reduced in proportion to actual exports, plus applicable interest.

The Company has given bonds of ₹ 523 crore (31 March 2023: ₹ 367 crore) to custom authorities against these export obligations.

D) Contingent Liabilities

The Company discloses the following legal and tax cases as contingent liabilities:

a) Ravva Joint Operations arbitration proceedings

The Ravva Production Sharing Contract (PSC) obliges the contractor parties (including the Company (Cairn India Limited which subsequently merged with the Company, accordingly now referred to as the Company)) to pay a proportionate share of ONGC's exploration, development, production and contract costs in consideration for ONGC's payment of costs related to the construction and other activities it conducted in Ravva prior to the effective date of the Ravva PSC (the ONGC Carry). The question as to how the ONGC Carry is to be recovered and calculated, along with other issues, was submitted to an International Arbitration Tribunal in August 2002 which rendered a decision on the ONGC Carry in favour of the contractor parties whereas four other issues were decided in favour of Government of India (Gol) in October 2004 (Partial Award).

The Gol then proceeded to challenge the ONGC Carry decision before the Malaysian courts, as Kuala Lumpur was the seat of the arbitration. The Federal Court of Malaysia upheld the Partial Award. As the Partial Award did not quantify the sums, therefore, contractor parties approached the same Arbitration Tribunal to pass a Final Award in the subject matter since it had retained the jurisdiction to do so. The Arbitral Tribunal was reconstituted and the Final Award

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

was passed in October 2016 in the Company's favour. Gol's challenge of the Final Award has been dismissed by the Malaysian High Court and the next appellate court in Malaysia i.e. Malaysian Court of Appeal. Gol then filed an appeal at Federal Court of Malaysia. The matter was heard on 28 February 2019 and the Federal Court dismissed Gol's leave to appeal. The Company has also filed for the enforcement of the Partial Award and Final Award before the Hon'ble Delhi High Court. The matter is currently being heard.

While the Company does not believe the Gol will be successful in its challenge, if the Arbitral Awards in above matters are reversed and such reversals are binding, the Company would be liable for approximately ₹ 533 crore (US\$ 64 million) plus interest (31 March 2023: ₹ 526 crore (US\$ 64 million) plus interest).

b) Proceedings related to the imposition of entry tax

The Company challenged the constitutional validity of the local statutes and related notifications in the states of Odisha and Rajasthan pertaining to the levy of entry tax on the entry of goods brought into the respective states from outside. Post some contradictory orders of High Courts across India adjudicating on similar challenges, the Supreme Court referred the matters to a nine judge bench. Post a detailed hearing, although the bench rejected the compensatory nature of tax as a ground of challenge, it maintained status quo with respect to all other issues which have been left open for adjudication by regular benches hearing the matters.

Following the order of the nine judge bench, the regular bench of the Supreme Court heard the matters and remanded the entry tax matters relating to the issue of discrimination against domestic goods bought from other States to the respective High Courts for final determination but retained the issue of jurisdiction for levy on imported goods, for determination by the regular bench of the Supreme Court. Following the order of the Supreme Court, the Company filed writ petitions in respective High Courts.

On 09 October 2017, the Supreme Court has held that states have the jurisdiction to levy entry tax on imported goods. With this Supreme Court judgement, imported goods will rank pari-passu with domestic goods for the purpose of levy of Entry tax. The Company has amended its appeal (writ petitions) in Odisha to include imported goods as well.

The issue pertaining to the levy of entry tax on the movement of goods into a Special Economic Zone (SEZ) remains pending before the Odisha High Court. The Company has challenged the levy of entry tax on any movement of goods into SEZ based on the definition of 'local area' under the Odisha Entry Tax Act which is very clear and does not include a SEZ. In addition, the Government of Odisha further through its SEZ Policy 2015 and the operational guidelines for administration of this policy dated 22 August 2016, exempted the entry tax levy on SEZ operations.

The total claims against the Company (net of provisions made) are ₹ 767 crore (31 March 2023: ₹ 774 crore) including interest and penalty till the date of order. Further, interest and penalty if any, would be additional.

c) Miscellaneous disputes- Income tax

The Company is involved in various tax disputes amounting to ₹ 543 crore (31 March 2023: ₹ 543 crore) relating to income tax for the periods for which initial assessments have been completed. These mainly relate to the disallowance of tax holiday for 100% Export Oriented Undertaking under section 10B of the Income Tax Act, 1961, disallowance of tax holiday benefit on production of gas under section 80IB of the Income Tax Act, 1961, on account of depreciation disallowances under the Income Tax Act and interest thereon which are pending at various appellate levels.

The Company believes that these disallowances are not tenable and accordingly no provision is considered necessary.

d) Miscellaneous disputes- Others

The Company is subject to various claims and exposures which arise in the ordinary course of conducting and financing its business from the excise, indirect tax authorities and others. These claims and exposures mostly relate to the assessable values of sales and purchases or to incomplete documentation supporting the Company's returns or other claims.

The approximate value of claims (excluding the items as set out separately above) against the Company totals to ₹ 2,673 crore (31 March 2023: ₹ 2,733 crore).

Based on evaluations of the matters and legal advice obtained, the Company believes that it has strong merits in its favor. Accordingly, no provision is considered at this stage.

Except as described above, there are no pending litigations which the Company believes could reasonably be expected to have a material adverse effect on the results of operations, cash flows or the financial position of the Company.

forming part of the financial statements as at and for the year ended 31 March 2024

- K)** The Company reduced its loan receivable from Vedanta Limited ESOS Trust by ₹ 99 crore (31 March 2023: ₹ 125 crore) on exercise of stock options by employees. Further, the Company has given an additional loan of ₹ 200 crore to Vedanta Limited ESOS Trust for purchase of shares.
- L)** Bank guarantee given by the Company on behalf of Vedanta Inc (formerly known as Volcan Investments Limited) in favour of Income Tax department, India as collateral in respect of certain tax disputes of Vedanta Inc.
- M)** The Company has a Brand license and strategic service fee agreement ("the Agreement") with Vedanta Resources Limited ("VRL") for the use of brand 'Vedanta' and providing strategic services which envisaged payment to VRL at 3% of turnover of the Company. The Company has recorded an expense of ₹ 1,879 crore (net of discount) (31 March 2023: ₹ 1,344 crore) for the year ended 31 March 2024. The Company generally pays such fee in advance, based on its estimated annual turnover.
- During the year ended 31 March 2023, the Company executed a sub-licensing agreement for its existing Brand License and Strategic Services Fee agreement with VRL consequent to which it had sub-licensed the brand license and strategic services to its subsidiary HZL with effect from 01 October 2022. Based on independent benchmarking analysis, an annual fee of 2% of HZL's annual consolidated turnover was agreed, of which 1.70% would be passed on as a sub-licensing fee to VRL. Consequently, the Company has recognised an income of ₹ 561 crore (31 March 2023: ₹ 318 crore) and an expense of ₹ 477 crore (31 March 2023: ₹ 270 crore) for the year ended 31 March 2024.
- During the year, VRL has assigned the Agreement to its wholly owned subsidiary, Vedanta Resources Investments Limited ("VRIL"), whereby the Company will fulfil its future obligations under the Agreement via VRIL.
- N)** During the year ended 31 March 2021, the Directorate General of Foreign Trade ("DGFT") had issued scrips worth ₹ 216 crore to the Company under the Target Plus Scheme ("TPS") that must be utilised by February 2023. Out of these, scrips amounting to ₹ 48 crore and ₹ 3 crore had been allocated to HZL and BALCO, respectively and corresponding liabilities to HZL and BALCO has been recorded in the books of the Company. As at 31 March 2024, scrips of ₹ 28 crore and ₹ 3 crore are yet to be utilised with respect to HZL and BALCO, respectively. As the TPS license had expired, the Company had created a provision against these scrips and written back its payable to HZL and BALCO in the year ended 31 March 2023.
- O)** During the year ended 31 March 2024, the Company has renewed loan provided to Sterlite Iron and Steel Company Limited for a further period of 12 months. The loan balance as at 31 March 2024 is ₹ 5 crore (31 March 2023: ₹ 5 crore). The loan is unsecured in nature and carries an interest rate of 12.80% per annum. The loan including accrued interest thereon have been fully provided for in the books of the Company.
- P)** During the year ended 31 March 2023, the Company executed an agency contract with VRL. Pursuant to which, the Company procured calcined alumina amounting to ₹ 1,054 crore (31 March 2023: ₹ 735 crore) on which an agency commission of ₹ 5 crore (31 March 2023: ₹ 4 crore) is paid to VRL.
- Q)** Vedanta Resources Limited ("VRL"), as a parent company, has provided financial and performance guarantee to the Government of India for erstwhile Cairn India group's ("Cairn") obligations under the Production Sharing Contract ("PSC") provided for onshore block RJ-ON-90/1, for making available financial resources equivalent to Cairn's share for its obligations under the PSC, personnel and technical services in accordance with industry practices and any other resources in case Cairn is unable to fulfil its obligations under the PSC.

Similarly, VRL has also provided financial and performance guarantee to the Government of India for the Company's obligations under the Revenue Sharing Contract ("RSC") in respect of 51 Blocks awarded under the Open Acreage Licensing Policy ("OALP") by the Government of India, out of which 5 blocks were relinquished during the previous year.

As a consideration for the guarantee with respect to the PSC, the Company pays an annual charge of 1.2% of net exploration and development spend, subject to a minimum annual fee of ₹ 41 crore (US\$ 5 million), in ratio of participating interests held equally by the Company and its step-down subsidiary, Cairn Energy Hydrocarbons Ltd ("CEHL"). As regards the RSC, the Company paid a one-time charge of ₹ 183 crore (US\$ 25 million), i.e., 2.5% of the total estimated cost of initial exploration phase of approx. ₹ 7,330 crore (US\$ 1 billion), in the year ended 31 March 2021, and pays an annual charge of 1% of spend, subject to a minimum fee of ₹ 80 crore (US\$ 10 million) and maximum fee of ₹ 160 crore (US\$ 20 million) per annum.

Accordingly, the Company has recorded a guarantee commission expense of ₹ 123 crore (\$ 15 million) (31 March 2023: ₹ 157 crore (\$ 20 million)) for the year ended 31 March 2024 and ₹ 58 crore (\$ 7 million) (31 March 2023: ₹ 75 crore (\$ 9 million)) is outstanding as a pre-payment as at 31 March 2024.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

40 Subsequent events

Subsequent to the year end, the Regional Controller of Mines, Bengaluru issued an order ("the Order") for temporary suspension of mining operations for iron ore mines at Chitradurga, Karnataka, citing non-compliances with the approved mining plan. The Company believes that there is no material impact from this Order, since the Company has sufficient mining and evacuation capacity. The Company is confident of demonstrating compliance with the approved mining plan and obtaining revocation of the said Order, as envisaged in the Order.

There are no other material adjusting or non-adjusting subsequent events, except as already disclosed.

- 41 (a) The Company has incurred gross amount of ₹ 246 crore (31 March 2023: ₹ 227 crore) towards Corporate Social Responsibility (CSR) as per Section 135 of the Companies Act, 2013:

Particulars	(₹ in crore)			
	Year ended 31 March 2024		Year ended 31 March 2023

- None of the loanee have made, per se, investment in the shares of the Company.
- The Mumbai NCLT and Chennai NCLT had passed orders dated 06 June 2022 and 22 March 2023, respectively sanctioning the scheme of amalgamation of Sterlite Ports Limited ("SPL"), Paradip Multi Cargo Berth Private Limited ("PMCB"), Maritime Ventures Private Limited ("MVPL"), Goa Sea Port Private Limited ("GSPL"), wholly owned subsidiaries/ step down subsidiaries of Sesa Resources Limited ("SRL"), with SMCL. MCA statutory filing has been completed on 18 January 2024 (Appointed date 01 October 2020).

Investments made by SRL in SMCL - 22,28,500 equity shares of ₹ 100 each and Goa Maritime Private Limited - 5,000 equity shares of ₹ 10 each.

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Investment made by SMCL in Desai Cement Company Private Limited - 18,52,646 equity shares of ₹ 10 each.

Investment made by MEL in Fujairah Gold FZC - 33,590,300 equity shares of AED 100 each.

Investments made by THLZVL in THL Zinc Ltd - 1,000 ordinary shares of \$ 1 each, 90,000 ordinary shares of \$ 100 each and 70,00,000 OCRPS of \$ 1 each.

3 During the year ended 31 March 2024, the Company has created charge over the below assets in respect of borrowings availed by its wholly owned subsidiaries:

- 13,94,35,527 equity shares of HZL, 89,001 equity shares of THLZVL and 37,38,000 equity shares of THL Zinc Holding BV having an aggregate carrying amount of ₹ 2,257 crore against the loan facility of US\$ 900 million availed by THLZVL.
- 12,50,000 equity shares of SRL having a net aggregate carrying amount of ₹ 7 crore and movable fixed assets of the Company and certain intangible assets to the extent of 1x of the outstanding NCDs amounting to ₹ 1,600 crore issued by SRL.

4 Details of investments made and guarantees provided are given in Note 6 and Note 38B, respectively.

5 The underlying loans have been given for business purpose.

(d) The Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that audit trail feature is not enabled in the SAP application for direct changes to data in certain database tables, which is restricted to certain IDs with system administrator user access in order to optimise system performance. However, these system administrator rights have been disabled subsequent to the year end. Further, no instance of audit trail feature being tampered with was noted in respect of software.

42 Financial ratios are as follows:

Ratio	As at 31 March 2024	As at 31 March 2023*	% Variance
1 Current Ratio (in times)	0.67	0.70	(4%)
2 Debt-Equity Ratio (in times)	0.64	0.60	7%
3 Debt Service Coverage Ratio (in times) ^a	1.29	2.76	(53%)
4 Return on Equity Ratio (%) ^b	11%	31%	(64%)
5 Inventory turnover Ratio (in times)	7.55	6.92	9%
6 Trade Receivables turnover Ratio (in times)	27.87	22.90	22%
7 Trade payables turnover Ratio (in times)	10.48	10.33	1%
8 Net capital turnover Ratio (in times)	**	**	**
9 Net profit Ratio (%) ^c	11%	34%	(68%)
10 Return on Capital employed (%) ^d	9%	6%	53%
11 Return on investment (%) ^e	1.27%	3.71%	(66%)

*Restated, refer note 3(d)(i)

**Net working capital is negative

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

Formulae for computation of ratios is as follows:

Ratio	Formula
1 Current Ratio (in times)	Current Assets/ Current Liabilities (excluding current maturities of long-term borrowing)
2 Debt-Equity Ratio (in times)	Gross Debt/ Total Equity
3 Debt Service Coverage Ratio (in times)	Income available for debt service/ (interest expense and principal payments of long term loans), where income available for debt service = Profit before exceptional items and tax + Depreciation, depletion and amortisation expense + Interest expense
4 Return on Equity Ratio (%)	Net Profit after tax before exceptional items (net of tax)/ Average Equity
5 Inventory turnover Ratio (in times)	(Revenue from operations+ Other operating income) less EBITDA/ Average Inventory
6 Trade Receivables turnover Ratio (in times)	(Revenue from operations+ Other operating income)/ Average Trade Receivables
7 Trade payables turnover Ratio (in times)	Total Purchases/ Average Trade Payables
8 Net capital turnover Ratio (in times)	(Revenue from operations+ Other operating income)/ Working capital (WC), where WC = Current Assets - Current Liabilities (excluding current maturities of long-term borrowing)
9 Net profit Ratio (%)	Net Profit after tax before exceptional items (net of tax)/ (Revenue from operations + Other operating income)
10 Return on Capital employed (in times)	Earnings before interest and tax/ Average Capital Employed, where capital employed = Net Debt + Total Equity
11 Return on investment (%)	Income from investments carried at FVTPL/ Average current investments

Notes:

- The Debt Service Coverage Ratio has decreased due to decrease in net profits during the current year.
- The Return on Equity Ratio has decreased due to decrease in net profits during the current year.
- The Net Profit Ratio has decreased due to decrease in net profits during the current year.
- The Return on Capital employed has increased due to increase in operating profits during the current year.
- The Return on investment has decreased as there has been decrease in current investments during the year.

43 Oil & gas reserves and resources

The Company's gross reserve estimates are updated atleast annually based on the forecast of production profiles, determined on an asset-by-asset basis, using appropriate petroleum engineering techniques. The estimates of reserves and resources have been derived in accordance with the Society for Petroleum Engineers "Petroleum Resources Management System (2018)". The changes to the reserves are generally on account of future development projects, application of technologies such as enhanced oil recovery techniques and true up of the estimates. The management's internal estimates of hydrocarbon reserves and resources at the year end, are as follows:

Particulars	Country	Gross proved and probable hydrocarbons initially in place		Gross proved and probable reserves and resources		Net working interest proved and probable reserves and resources	
		(mmboe)		(mmboe)		(mmboe)	
		As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023
Rajasthan Fields	India	5,210	4,806	1,107	933	388	327
Ravva Fields	India	704	704	14	18	3	4
KG-ONN fields	India	260	292	31	36	15	20
CBOS/2 Fields	India	298	298	31	22	12	9
Other fields	India	579	561	193	146	193	146
Total		7,051	6,661	1,376	1,155	611	506

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

The Company's net working interest proved and probable reserves is as follows:

Particulars	Proved and probable reserves		Proved and probable reserves (developed)	
	Oil (mmstb)	Gas (bscf)	Oil (mmstb)	Gas (bscf)
Reserves as of 31 March 2022*	108	106	69	64
(Revisions)/ additions during the year	(5)	7	9	16
Production during the year	(15)	(19)	(15)	(19)
Reserves as of 31 March 2023**	88	94	63	61
(Revisions)/ additions during the year	(2)	(0)	4	22
Production during the year	(13)	(19)	(13)	(19)
Reserves as of 31 March 2024***	73	75	54	64

* Includes probable oil reserves of 40.86 mmstb (of which 9.82 mmstb is developed) and probable gas reserves of 45.90 bscf (of which 14.15 bscf is developed)

** Includes probable oil reserves of 29.91 mmstb (of which 10.59 mmstb is developed) and probable gas reserves of 33.40 bscf (of which 11.01 bscf is developed)

*** Includes probable oil reserves of 23.97 mmstb (of which 10.84 mmstb is developed) and probable gas reserves of 21.49 bscf (of which 20.10 bscf is developed)

mmboe = million barrels of oil equivalent

mmstb = million stock tank barrels

bscf = billion standard cubic feet

1 million metric tonnes = 7.4 mmstb

1 standard cubic meter = 35.315 standard cubic feet

44 Other matters

- a) The Company purchases bauxite under long term linkage ("LTL") arrangement with Orissa Mining Corporation Ltd (hereafter referred as "OMC") at provisional price of ₹ 1,000/MT from October 2020 onwards based on interim order dated 08 October 2020 of the Hon'ble High Court of Odisha, which is subject to final outcome of the writ petition filed by the Company.

The last successful e-auction based price discovery was done by OMC in April 2019 at ₹ 673/MT and supplied bauxite at this rate from September 2019 to September 2020 against an undertaking furnished by the Company to compensate any differential price discovered through future successful national e-auctions. Though OMC conducted the next e-auction on 31 August 2020 with floor price of ₹ 1,707/MT determined on the basis of Rule 45 of Minerals Concession Rules, 2016 (hereafter referred as the 'Rules'), no bidder participated at that floor price and hence the auction was not successful. However, OMC raised demand of ₹ 281 crore on the Company towards differential pricing and interest for bauxite supplied till September 2020 considering the auction base price of ₹ 1,707/MT.

The Company had then filed a writ petition before Hon'ble High Court ("HC") of Odisha in September 2020, which issued an interim Order dated 08 October 2020 directing that the petitioner shall be permitted to lift the quantity of bauxite mutually agreed on payment of ₹ 1,000/MT and furnishing an undertaking for the differential amount, subject to final outcome of the writ petition.

OMC re-conducted e-auction on 09 March 2021 with floor price of ₹ 2,011/MT, which again was not successful. On 18 March 2021, Cuttack HC issued an order that the current arrangement of bauxite price @ ₹ 1000/MT will continue for the FY 2021-22. Further, on 06 April 2022, the Hon'ble Cuttack HC directed that the current arrangement will continue for the FY 2022-23 also.

An interim application was filed on 11 May 2023 in Odisha High Court seeking directions for OMC to continue the supplies for FY 2023-24 and extend the LTL agreement. Honourable Odisha High Court vide order dated 15 May 2023, passed an order that unless the fresh agreement is not executed interim arrangement cannot be granted. Accordingly, as per the direction of honourable court, LTL was executed with OMC on 16 May 2023 for supply of 2.4 MT bauxite annually at a price of ₹ 1000/MT. On 26 September 2023, OMC conducted the 10th National e-auction tender for sale of 300 KT bauxite

NOTES

forming part of the financial statements as at and for the year ended 31 March 2024

at floor price of ₹ 2,429/MT after considering the pricing as per Rule 45 of the Rules. The said auction was not successful since no participation was observed in the bidding.

Supported by legal opinions, management believes that the provisions of Rule 45 of the Rules are not applicable to commercial sale of bauxite ore and hence, it is not probable that the Company will have any financial obligation towards the aforesaid commitments over and above the price of ₹ 673/MT discovered vide last successful e-auction.

However, as an abundant precaution, the Company has recognised purchase of Bauxite from September 2019 onwards at the aforesaid rate of ₹ 1,000/MT.

- (b) The Ministry of Environment, Forest and Climate Change ("MOEF&CC") has revised emission norms for coal-based power plants in India. Accordingly, both captive and independent coal-based power plants in India are required to comply with these revised norms for reduction of sulphur oxide (SO_x) emissions for which the current plant infrastructure is to be modified or new equipments have to be installed. The Company is required to comply with the norms by 31 December 2026 via MoEF&CC's notification dated 05 September 2022.

45 Other Statutory Information

- a) The Company does not have any material transactions with companies struck off as per the Companies Act, 2013.
- b) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.
- c) The Company has not been declared wilful defaulter by any bank or financial institution or other lender.
- d) The Company does not have any charges or satisfaction which is yet to be registered with ROC beyond the statutory period.
- e) The Company has not traded or invested in Crypto currency or Virtual currency during the financial year.
- f) The Company does not have any transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).
